

LEAGUE OF ARAB STATES

The programme of regionally coordinated Household International Migration Surveys in the Mediterranean Countries

MED-HIMS PROGRAMME

November 2013

MANUAL 1

MODEL QUESTIONNAIRES

The MED-HIMS Phase 1 project is an initiative supported by the MEDSTAT III programme funded by the European Commission

This document has been developed within the framework of the Euro-Mediterranean statistical cooperation project Medstat III, funded by the European Union. The contents of this publication are the sole responsibility of Medstat III and can in no way be taken to reflect the views of the European Union.

MED-HIMS

Mediterranean Household International Migration Survey

Manual 1

Model Questionnaires

November 2013

Foreword

The ‘Mediterranean Household International Migration Survey’ (MED-HIMS) is a regional, coordinated programme of household surveys developed for the countries of the Southern and Eastern Mediterranean region. The programme is designed to overcome the lack of data on international migration for the region by collecting reliable and representative multi-topic, multi-level, retrospective and comparative data on the characteristics and behaviour of migrants and on the determinants and consequences of international migration and mobility. The programme has its origin in the European Commission’s MEDSTAT Programme, and since its initial inception in 2009, it has gone through a wide preparatory and consultation process with support from the European Commission, the World Bank, the UNHCR and the UNFPA and later on the other partner organisations.

The main objectives of the MED-HIMS Programme are:

- (i) to study the recent trends, causes, determinants, dynamics and consequences of international migration and mobility, and the inter-linkages between migration and development; and
- (ii) to explore scenarios for a closer cooperation in the area of migration and development between the sending countries in the Southern Mediterranean region and receiving countries, particularly the European Union.

The objectives and design of the MED-HIMS are guided by the vision of the 2004 Marrakech Action Plan for Statistics (MAPS), the 2009 Dakar Declaration on the Development of Statistics (DDDS), the 2011 EC Communication on the Global Approach to Migration and Mobility (GAMM), and the various strategies and recommendations of the United Nations Global Forum on Migration and Development (GFMD).

The MED-HIMS methodology is designed to deal with the various dimensions of international migration and mobility by carrying out specialized national household surveys in the sending countries that aim to capture current and recent developments in the Southern Mediterranean region.

In order to maximise the quality, utility and comparability of the data collected through the MED-HIMS surveys, a set of Model Questionnaires has been developed by the international organisations together with the countries of the region. These questionnaires are designed to collect representative data on out-migration, return

migration, forced migration, intention to migrate, circular migration, migration of highly-skilled persons, irregular migration, type and use of remittances, behaviours, attitudes, perceptions and cultural values of people with regard to international migration and mobility, and the inter-linkages between migration and development, as well as relevant information on the individuals, households and local communities involved.

In addition to the Model Questionnaires, a series of manuals, guidelines and computer systems, covering the different phases of the survey from the initial organisation to tabulations, data analysis and reporting results, has been conceived and already partially developed to provide countries with guidance on the design and implementation at the national level of the MED-HIMS survey or equivalent operations, whether under internationally coordinated programmes or national stand-alone programmes, within or outside the Southern and Eastern Mediterranean region.

The set of manuals and guidelines is composed by the following:

- Manual 1: MED-HIMS Model Questionnaires
- Manual 2: Survey Design and Organization
- Manual 3: Instructions to Supervisors
- Manual 4: Instructions to Interviewers
- Manual 5: Guidelines for Sample Design
- Manual 6: Data Dictionary and Recode Specifications
- Manual 7: Guidelines for Country Report

This document is the first of the series of manuals and guidelines of the MED-HIMS Programme and presents the Model Questionnaires, which constitute the key tool for comparable data collection.

As a model tool, these questionnaires represent the basis for country-specific adaptations, or eventually integration and adaptation of some of its components in other household surveys or population censuses.

Acknowledgements

These Model Questionnaires have been developed by Samir Farid (MED-HIMS Chief Technical Adviser and main author), Tarek Abou Chabake (UNHCR), Richard Bilsborrow (University of North Carolina), Giambattista Cantisani (MEDSTAT III) and Ingrid Ivins (the World Bank). The work was undertaken with the support of a panel of experts (the “Manual Panel”) and a group of coordination, which in addition to the above, included Christophe Ingels and Lucia Santucciono (EuropeAid), Rosemary Montgomery and Francesco Natalini Raponi (Eurostat), José L. Cervera (MEDSTAT III), Abdallah Zoubi (UNFPA) and Youssef Courbage (INED, France).

The development of the Model Questionnaires has benefited from the useful input and comments of a large number of national and international experts through different regional and national meetings and events, and other consultation.

The primary contributors have been the experts of the National Statistical Offices of Mediterranean countries, and in particular those who participated on behalf of these institutions in the five regional workshops specifically organised for MED-HIMS between February 2009 and March 2012:

Omar Benbella, Nachida Milat and Hassiba Akniouene (ONS - Office National de la Statistique, Algeria), Madiha Saleh, Abdallah Abdel El Razek and Ahmed Morsy (CAPMAS - Central Agency for Public Mobilization and Statistics, Egypt), Kamal Saleh, Mohammad Al Assaf, Mohammad Al Jundi and Mohammad Ayasrah (DoS - Department of Statistics Jordan), Najwa Yaacoub and Lara Badre (CAS - Central Administration for Statistics, Lebanon), Abderrahim Ben Cheikh, Bouchra Bouziani, Sabry El Hassania and Mohamed Mghari (HCP - Haut Commissariat au Plan, Morocco), Mohammed Duraidi, Hana Albukhari and Hatem Qrareya (PCBS - Palestinian Central Bureau of Statistics, Palestine), Fadel Al Chikh, Ali Rustom and Talal Boufah (CBS - Central Bureau of Statistics, Syria), and Habib Fourati, Nadia Touhiri and Hayet Jouini (INS - Institut National de la Statistique, Tunisia).

A number of useful inputs and comments were received from other experts who attended the regional workshops or intervened in other ways, in particular Khassoum Diallo (UNICEF, formerly at UNHCR), Brahim El Mouaatamid (on behalf of EUI/CARIM), Mostafa Kharoufi (UNFPA), Ismail Lubbad (ESCWA), Diana Moulla (IOM), Michel Poulain (Université catholique de Louvain, Belgium) and Wiaam Youssef (League of Arab States).

The desktop publishing of these Model Questionnaires as well as the other documents currently published was done by Florian Lebourdais and Beata Suszterova of the MEDSTAT III Team.

The development of the MED-HIMS data collection tools published under MEDSTAT III was made possible through the coordinated financial and management efforts of the European Commission, the World Bank, UNFPA and UNHCR. All contributions are gratefully acknowledged.

Scope and Outline of the Model Questionnaires

1. Introduction

The ‘Mediterranean Household International Migration Survey’ (MED-HIMS) is a regional programme of coordinated international migration surveys requested by the National Statistical Offices (NSOs) of most of the countries of the Middle East and North Africa (MENA) region. The MED-HIMS programme includes the implementation of specialized national household surveys in the sending countries that aims to capture current and recent developments in international migration and mobility in the MENA region.

The main objectives of the MED-HIMS are:

- (i) to study the recent trends, causes, determinants, dynamics and consequences of international migration and mobility, and the inter-linkages between migration and development; and
- (ii) to explore scenarios for a closer cooperation in the area of migration and development between the MENA region and receiving countries, particularly the European Union.

The MED-HIMS aims to improve the setting of priorities and the planning, implementation and evaluation of international migration and mobility programmes and to establish internationally validated guidelines for the design and implementation of specialized household surveys on international migration and to develop standard concepts and procedures for the study of the determinants and consequences of international migration and mobility using survey data. It is expected that the data collected in the MED-HIMS will help improve the availability of information on international migration and mobility at both the national and regional levels and facilitate the assessment of the determinants and consequences of international migration and mobility.

2. The MED-HIMS Basic Documentation

For all participating countries, the MED-HIMS will make the following manuals available:

Manual 1: MED-HIMS Model Questionnaires

Manual 2: Design and Organization of MED-HIMS

- Manual 3: Instructions to Supervisors
- Manual 4: Instructions to Interviewers
- Manual 5: Sample Design
- Manual 6: Data Dictionary and Recode Specifications
- Manual 7: Guidelines for Country Report:
 - Part 1: Statistical Tabulations
 - Part 2: Data Analysis Guidelines

3. Scope of the Model Questionnaires

MED-HIMS will utilise the following seven questionnaires:

- MQ-1. Household Questionnaire
- MQ-2. Individual Questionnaire for Out Migrant
- MQ-3. Individual Questionnaire for Return Migrant
- MQ-4. Individual Questionnaire for Non Migrant
- MQ-5. Individual Questionnaire for Forced Migrant
- MQ-6. Household Socio-economic Characteristics Questionnaire
- MQ-7. Community Characteristics Questionnaire

These Model Questionnaires (MQs) are designed as a series of self contained modules, each dealing with a particular migration-related topic. The MQs provide the core set of questions needed to obtain population-based estimates of the determinants and consequences of international migration and mobility in the MENA region. These questionnaires, at various stages of drafting, have been submitted for comment to experts in migration surveys including survey statisticians at NSOs of participating countries. The MQs are designed to be manageable, economical, and to intrude as little as possible on the activities and privacy of families who are interviewed.

In designing the model questionnaires, the key challenge was to provide a holistic framework for searching the large decision space of possible migration and mobility options. The MQs are thus designed to deal with various dimensions of international migration and mobility and to collect data that are multi-topic, multi-level, retrospective and comparative:

- *Multi-topic data.* The MQs are designed to collect data with regard to out-migration, return migration, and intentions to migrate, as well as ‘emerging issues’ of international migration for which data are required such as circular migration, migration of highly skilled persons, forced migration, irregular migration, and remittances. Various aspects of the respondents’ lives are covered by the questionnaires in order to provide the variables needed for the analysis. For example, questions on work experience, family formation and international migration are required to explore both the determinants and the socio-economic changes associated with international migration and mobility.
- *Multi-level data* are also needed as migration decision-making is affected by institutional and structural factors operating at the regional, national and the local community levels. Contextual data are also necessary to study interactions between migration experience and socio-economic changes. Thus, in addition to gathering data at the individual and household levels, the MQs are designed to gather information on characteristics and socio-economic status of the household and on characteristics of local communities.
- *Retrospective data.* Most of the MED-HIMS research questions call for dynamic analyses that require dated data. It is firstly necessary to explore the patterns of circulation (the comings and goings of the migrants, the routes they use). To explain migration causes, we also need information not at the time of the survey but just before each migration. And to explore the impact of migration on family changes, we need to know the time of migration and to get dated information on marriage or fertility after migration.
- *Comparative framework.* The lack of comparable data is a major handicap to the study of migration from the MENA region. A major objective of the MEM-HIMS survey programme is to attain comparability and harmonization across countries through the use of standardized questionnaires in order to disentangle national specificities and general processes.

Another feature of the MQ is that they have an explicit policy orientation, so that strategic topics and research questions included focus on variables that might potentially be influenceable by policy instruments. The MED-HIMS new research lines are thus strategic in two senses: they pertain to issues crucial for policy-making in both sending and receiving countries, and they offer a theory-based

design in which both the participating countries and future new participants will implement new research within a shared framework.

4. Concepts and Definitions

The MED-HIMS are specialized single-round cross-sectional surveys with retrospective questioning. A number of key concepts and definitions are adopted for the purpose of this study. The concept of the household and the definition of migration are particularly important in this respect. In addition, the concept of the 'multi-level eligibility' has been developed, essentially to allow the gathering of data on different migrant groups during different time periods.

Household: In MED-HIMS the usual concept of *household* is extended to include not only those persons who live together and have communal arrangements concerning subsistence and other necessities of life, but also those who are presently residing abroad but whose principal commitments and obligations are to that household and who are expected to return to that household in the future or whose family will join them in the future. Therefore, both the household and the shadow household are captured within the definition, a necessary extension for migration studies. It should be pointed out that a household which has moved abroad as a whole is no longer accessible to be interviewed in the MED-HIMS surveys which cover only sending countries.

Migration is defined as a move from one country in order to go and reside abroad in another country for a continuous period of 'at least 3 months', a period in contrast to the UN recommendations on statistics on international migration which draws the line at residing abroad for at least one year as main reference⁽¹⁾. In MED-HIMS, the line has been drawn at 'more than 3 months' to allow for the inclusion of seasonal migration across international borders. Therefore, the migration history module in the survey questionnaires asks for those countries in which someone has lived for 'more than 3 months', however with the possibility to comply with the UN recommendations or the 'more than 6 months' threshold as more frequently adopted in the participating countries.

Reference period: MED-HIMS recommends the use of a reference period of ten years preceding the survey. In the MQs presented in this document, a reference

¹ In fact, the UN recommendations defines the short-term migrants as those who lived or intend to live abroad for a period between 3 and 12 months and long-term migrants as the ones who lived or intend to live abroad for a period of at least 12 months.

period starting from 1 January 2000 is adopted for the purpose of illustration. A distinction is made between ‘recent’ and ‘non-recent’ international migrants. *Recent migrants* are those who have migrated from the country of origin at least once within the ‘reference period’ preceding the survey. Consequently, a *non-recent migrant* is someone who has migrated from his/her country of origin at least once, but not within the ‘reference period’.

Multi-level eligibility:

The concept of multi-level eligibility has been introduced to allow the administration of different sets of questions to different groups of migrants. For example, in the current migrant questionnaire, a set of questions is administered to both recent and non-recent migrants (e.g. questions on the background and remittances of migrants) while a second set of questions is administered to only recent migrants. In the latter case, there are modules gathering data with regard to the ‘first migration’ that occurred within the reference period and other modules gathering data with regard to the ‘current country of residence.’

5. Outline of the Model Questionnaires

MQ-1. Household Questionnaire

Eligibility: To be administered to every household in the main sample.

This questionnaire serves four purposes: (i) to identify the members of the household; (ii) within households, to identify nuclear units, i.e. couples and their own children; (iii) to collect basic demographic information on each of the household members; and (iv) to identify persons eligible for each of the three migrant survey interviews (current, return and forced) and persons eligible for the non-migrant survey interview.

The Household Questionnaires includes the following six sections:

- Section 1: Household Composition and Demographic Characteristics
- Section 2: Identifying Current Migrants
- Section 3: Identifying Return Migrants and Non Migrants
- Section 4: Identifying Forced Migrants (Non-Citizens)
- Section 5: Education and Economic Activity
- Section 6: Health status

MQ-2. Individual Questionnaire for Out-Migrant

Eligibility: For every person who used to live in the sample household and who is currently abroad and aged 15 years or more. This questionnaire will gather data directly from the migrants themselves if they happen to be in the country of origin during the fieldwork period or indirectly from (proxy) respondents who will be asked to provide information about persons who have moved from their household, to whom they are usually related.

The individual questionnaire for Out-Migrant includes the following eight sections:

- Section 1: Short Migration History and Citizenship
- Section 2: Out Migrant's Background
- Section 3: Marital Status and Reproduction
- Section 4: Pre-Migration Situation and Motives for Moving Abroad
- Section 5: Migration Networks and Assistance
- Section 6: Work History
- Section 7: Migration Intentions & Perceptions About Migration Experience and Transnational Ties
- Section 8: Out Migrant Remittances

MQ-3. Individual Questionnaire for Return Migrant

Eligibility: For every member of the household who last returned from abroad to the country of origin since (for example, 1/1/2000) and who was 15 years of age or more on last return.

This questionnaire includes the following nine sections:

- Section 1: Migration History
- Section 2: Return Migrant's Background
- Section 3: Pre-Migration Situation and Motives for Moving Abroad
- Section 4: Migration Networks and Assistance
- Section 5: Work History
- Section 6: Marital Status and Reproduction
- Section 7: Motives for Return Migration & Perceptions About Migration Experience
- Section 8: Return Migrant Remittances
- Section 9: Health Status

MQ-4. Individual Questionnaire for Non Migrant

Eligibility: For every member of the household who is currently aged 15-59 years and

- (i) who never moved to another country;
- (ii) or has last returned from abroad to the country of origin before (1/1/2000);
- (iii) or has last returned from abroad to the country of origin since (1/1/2000) but was under 15 years of age on last return.

Other criteria for selecting eligible candidates for the non-migrant interview would be considered during the sample design stage.

This questionnaire includes the following six sections:

- Section 1: Non Migrant's Background
- Section 2: Work History
- Section 3: Short-term Migration (Less than 3 Months)
- Section 4: Intentions to Migrate
- Section 5: Marital Status and Reproduction
- Section 6: Health Status

MQ-5. Individual Questionnaire for Forced Migrant:

Eligibility: For every non-citizen residing in the survey country who is identified as potential 'Forced Migrant' and is currently 15 years of age or more.

This questionnaire includes the following four sections:

- Section 1: Migration Process
- Section 2: Situation in Host Country
- Section 3: Prospects and Intentions
- Section 4: Health Status

MQ-6. Household Socio-economic Characteristics Questionnaire

Eligibility: For every household in the main sample.

This questionnaire includes the following four main sections:

- Section 1: Housing Characteristics
- Section 2: Ownership of Objects and Household Assets
- Section 3: Transfers to Non-household Members Residing Abroad
- Section 4: Remittances Received from Non-household Members Residing Abroad

MQ-7. Community Characteristics Questionnaire

Eligibility: To be administered in rural areas.

The migration intentions and behaviour of people may be affected by their personal characteristics, and by the social milieu in which they live, or by some interaction between the individual and the group characteristics. It is therefore recommended to include in the MED-HIMS questionnaires a module to collect ecological or community-level data in rural areas. The term 'ecological' is used here to designate supra-individual data about the social environment, delimited on an areal basis. An ecological or a community-level variable is, thus, defined as any characteristic common to all the persons living in the community.

The community level questionnaire will gather data on the location of the community, social development indicators, principal economic activities, general migration patterns in the community including common attitudes and intentions.

This questionnaire includes the following twelve sections:

- Section 1. Location of Community
- Section 2. Sketch of Community
- Section 3. Population and Migration
- Section 4. Principal Economic Activities
- Section 5. Land Tenure
- Section 6. Crop Cultivation and Yields
- Section 7. Raising Animals and Other Important Economic Activities
- Section 9. Transportation
- Section 10. Social Development Indicators
- Section 11. Health and Fertility
- Section 12. Assistance Received by the Community and Perceived Needs

6. Adaptation of the Model Questionnaires at the National level

A great deal of effort has been devoted to ensure that the MQs can be used by interviewers to obtain answers from respondents that are both reliable and valid. Thus the questions are drafted in a clear simple language and follow clearly and logically from one to the other, while the layout is designed to make it easy for interviewers to administer the questionnaires. The wording and question sequence are designed to motivate respondents and help them recall information on past events. Using the model questionnaires verbatim is most likely to ensure that the results of the surveys are comparable across participating countries. It is therefore important that the wording of the model questionnaires is not changed.

It is hoped that the MQs will be followed as closely as possible by participating countries, allowing for minor modifications which may be required to meet local circumstances. MED-HIMS will welcome the opportunity to discuss any modifications which a participating country feels desirable. While priority will be given to individual country requirements, it is recommended that the information collected should be as uniform as possible to allow standardization of materials and procedures. The results should allow a comparison between countries which will maximize the understanding of the determinants and consequences of international migration and mobility in the MENA region.

Further, the very concept of “coordinated” international migration survey implies that measures will be advised which can be applied from one country to the next. This means that countries participating in the MED-HIMS will aspire to the ideal of international comparability and will, insofar as feasible, utilize the model questionnaires which, it should be emphasized, have been developed in consultation with experts from the NSOs of their own countries.

	<input type="checkbox"/>	o		Other (Specify): _____		

Questions		Coding Categories		SKIP TO
104	Since around 2006, has a new road been constructed to the community, or has road/access changed significantly, for example, by paving the old road, adding a bridge, or other substantial improvement in access from this community to any of the places above?	Yes	1	
		No	2	201

Briefly describe type of improvement and impact on community access

Section 2. Sketch of community			
<p>Make a sketch of the community/village below, showing boundaries with neighbouring communities; any important natural features, such as river/lake, mountain/hill; paved roads; community center and approximate location of occupied dwellings, agricultural fields; common lands, if any, such as used for grazing animals, school, community center/sports fields, forests/woodlands, etc.; major infrastructure, such as primary or secondary school, public hospital, office/residence of mayor, police/security office, NGO office if any, etc.; and any business, factory, farm or government office which has 5 or more paid employees at some time in the year.</p>			
201	Total area of community	ha or km2	_____
202	Total area in farmland	ha or km2	_____
203	Sketch of community		

Section 3. Population and Migration					
Questions		Coding categories			SKIP TO
301	How many occupied dwellings are there in this village now (that is, occupied during the majority of the year, during the past year)?	Total dwellings in village		□ □ □ □	
		Dwellings in center/main village		□ □ □ □	
		Dwellings outside center		□ □ □ □	
302	(COMPLETE FROM 2006 CENSUS PRIOR TO BEGINNING 2013 SURVEYL)How many people and occupied dwellings households were there here at the time of the last census in 2006?	Population TOTAL in village		□ □ □ □	
		TOTAL dwellings		□ □ □ □	
		Dwellings in center			
		Dwellings outside center		□ □ □ □	
303	Since around the time of the last census in 2006, have any foreigners moved here to live from other countries in (NAME)?	Yes		1	
		No		2	307
304	About how many persons altogether have come from other countries recently? <i>If unable to provide a number, ask Has this been a lot of just a few?</i>	Number estimated		□ □ □ □	
		Few		1	307
		A lot		2	
305	Where have these foreigners come from mainly?	a	Main country of origin _____	□ □ □ □	
		b	Other important origin country, if any (specify): _____	□ □ □ □	
		c	Various countries, or DK	□ □ □ □	
306	(ANSWER ONLY IF RESPONSE IN 304 IS AT LEAST 10 OR "A LOT".) Do you think this immigration has significant effects on (NAME of this village)? 1 Yes 2 No	Yes, mostly good because.....	Start businesses and provide jobs	1	
			Provide cheap labour	2	
			Bring useful skills, professional, health worker, etc.	3	
			Work in jobs that help families here (e.g., labourers, take care of children, clean house, etc.)	4	
			Other (specify): _____	5	
		Yes, mostly not good because.....	Increase in crime	6	
			Take away jobs from people here, lower wages	7	
			Impose costs on community for health care, crowd schools, etc.	8	
			Create social, cultural, religious conflicts since they are different from people here	9	
			Not enough land here, pressures on land	10	
			Other (specify): _____	11	

Comments on 300-306

Questions		Coding categories		SKIP TO
408	Since 2006, have any businesses/organizations that had 10 or more employees closed down or left the village?	Yes	1	
		No	2	410
		Not applicable (None in village)	3	410
409	Which ones, and when did it (or they) leave, and about how many employees did it have before it left? (<i>Up to three.</i>)	_____ / □□□□□	—	
		_____ / □□□□□	—	
		_____ / □□□□□	—	
			(Use codes of 406.)	

Comments (on why closed/left, impact on community)	

410	What is the nearest industrial area to this village?	Name _____			
411	How far is it?	Distance (kilometers)	□□□.□□□□ (If over 50, skip to 501.)		
412	How long does it take to get there (by most people in the village using the usual form of transport?)	Hours Minutes	□□□.□□□		
413	Do any residents of this village travel there to work?	Yes, a few	1		
		Yes, many	2		
		No	3		
414	What is the average wage for an agricultural worker in this community? <i>Complete for whichever is most common, with food or without food.</i>	\$/day without food	Amount	_____	
			_____	□□□	
		\$/day with food	Amount	_____	
			_____	□□□	

Section 5. Land Tenure				
<i>INTERVIEWER: Now I would like to ask you some things about farming in this village.</i>				
Questions		Coding Categories		SKIP TO
501	What is a typical, or most common, size of farm in (NAME)_____?	Feddan	□□□□□	
502	Has this changed since around 2006?	Yes, Increased	1	
		Yes, Decreased	2	
		No	3	
503	How large is the <i>largest</i> agricultural landholding in this village?	Feddan	□□□□□	
504	What is the source of water for agriculture in this community? (multiple responses possible, but without reading)	River, stream	1	
		Wells	2	
		Rainfall	3	
		Other _____	4	
505	In this village, is there more rainfall nowadays, less rainfall, or is it about the same as around 2006?	More	1	
		Same	2	
		Less	3	
506	Out of every 10 agricultural households in the community, how many had access to irrigation during the past 12 months?	_____ out of 10	□□□	
507	Is this the same, more, or less than in 2006?	More	1	
		Same	2	
		Less	3	
508	Are wells used in this village for agriculture (whether for crops or animals)?	Yes	1	
		No	2	510
509	Have wells been drying up in this village?	Yes, since 2006	1	
		Yes, already some were dried up before 2000	2	
		No	3	
510	For how much could someone buy a feddan of average farmland in this village?	Amount in Egyptian pounds	□□□□□	

Section 6 - Crop Cultivation and Yields							
Questions		1 Most important		2 Second most important		3 Third most important	
601	CROPS What are the 2-3 principal crops grown here?	_____		_____		_____	
602	Have the main crops grown in this village changed since 2006?	Yes 1 No 2	<i>Continue</i> <i>Skip to 605</i>				
603	Which crops are grown by more households more now (up to 3)?	_____		_____		_____	
604	Which crops are grown by fewer households in your village (up to 3)?	_____		_____		_____	
605	What is the average price a farmer here received for this crop in the past 12 months? (<i>Egyptian pounds per unit, specify unit</i>)	_____ [] [] [] [] []		_____ [] [] [] [] []		_____ [] [] [] [] []	
606	Has the price of this crop been rising, falling, or is it about the same as 2 years ago?	Rising 1 About same 2 Falling 3		Rising 1 About same 2 Falling 3		Rising 1 About same 2 Falling 3	
607	Do farmers here use fertilizers or other chemicals for this crop?	Yes, most use	1	Yes, most use	1	Yes, most	1
		Yes, about half use	2	Yes, about half use	2	Yes, about half Use	2
		Yes, a few	3	Yes, a few	3	Yes, a few	3
		No	4	No	4	No	4
608	Do farmers in this village use natural fertilizers?	Yes No	1 2	Yes No	1 2	Yes No	1 3

Section 7. Raising Animals and other important economic activities				
<i>(Note: replace cattle by other animal, such as sheep, camels, horses, etc., as appropriate in Country)</i>				
Questions	Coding Categories			SKIP TO
701	a. How many farm households have a cow, camel or other large animal? <i>INTERVIEWER: If number not known:</i> b. How many out of every 10 on average?	a	_ _ _	
		b	_ _	
702	Is this more, less, or about the same as around 10 years ago?	More	1	
		The same	2	
		Less	3	
703	Of those households that raise cattle (or.....), what is the most <i>common</i> number they have now?	head / household	_ _ _	
704	In the past 12 months, have any households in this village engaged in any of the following activities to earn income (i.e., other than for their own family use)? <i>INTERVIEWER: If number not known, ask: How many out of every 10? If none enter "00."</i>	Fishing	Number — out of 10	_ _ _ _ _
		Mining (of what mainly_____)	Number — out of 10	_ _ _ _ _
		Logging, wood extraction, charcoal preparation	Number — out of 10	_ _ _ _ _
		Tourism	Number — out of 10	_ _ _ _ _
		Other _____	Number — out of 10	_ _ _ _ _

Comments on agriculture in community: _____

**MQ-7. COMMUNITY CHARACTERISTICS
QUESTIONNAIRE**

<p><i>INTERVIEWER: I would like to ask you about facilities and infrastructure here in the community or nearby.</i></p> <p>Do you have the following in this community....</p> <p>Read the entire list; complete one row at a time</p>		a		b	c	e
		Yes	No (skip to column c)	In what year did this first become available here?	Where is the closest one? <i>If gray in this column, skip to next row.</i>	How much time does it take altogether to get to this, for most people in the community? (continue to next row)
				<i>if already available in 2000, write 99</i>	Name of the place	Minutes
801	Electricity (from power lines)	1	2	___		
802	Piped water	1	2	___

MED-HIMS is a joint programme of regionally coordinated migration surveys currently supported by the European Commission (EC), the World Bank, the UNFPA, the UNHCR, the IOM, the ILO and the League of Arab States (LAS). It has its roots in the EC's MEDSTAT programme, and has been developed at the request of and together with the NSOs of seven of the MEDSTAT countries (Algeria, Egypt, Jordan, Lebanon, Morocco, Palestine and Tunisia).

MED-HIMS Coordination Committee (as of October 2013):

- **European Commission: EuropeAid** (Unit F4 - Regional Programme Neighbours South), Eurostat (Unit A6 – Statistical co-operation)
- **The World Bank** (Development Data Group)
- **UNFPA** (Arab States Regional Office)
- **UNHCR** (Division of Programme Support and Management)
- **IOM** (Regional Office for Middle East and North Africa)
- **ILO** (Arab States Regional Office)
- **The League of Arab States** (Migration and Arab Expatriates Department)

MED-HIMS participating national agencies:

- **National Statistical Office (ONS)**, Algeria
- **Central Agency for Public Mobilization and Statistics (CAPMAS)**, Egypt
- **Department of Statistics (DoS)**, Jordan
- **Central Administration of Statistics (CAS)**, Lebanon
- **High Planning Commission, Directorate for Statistics (HCP/DS)**, Morocco
- **Palestinian Central Bureau of Statistics (PCBS)**, Palestine
- **National Statistical Institute (INS)**, Tunisia
