

IFDM Recommendation 105 of 19-11-2020

on the FLUX Sales Implementation Document in the EU

(Sales Notes and Take-Over Documents)

The Fisheries Control Experts Group – ERS (Electronic Recording and reporting System) and Data Management Working group,

Taking into account that:

- (1) the document FLUX_P1000-5_Sales_domain_EU_Implementation_v2_6_2 for the exchanges of sales notes and take-over documents has been agreed by MS and posted on MDR¹.
- (2) the following corrections have been proposed:
 - a. Wrong SchemeID changed into ListID for business rules L01-00-0436 to 0441.
 - b. Wrong type value “CFR” instead of “VESSEL” in the business rule L01-00-0441.
 - c. In the “Value” identifier element of the Sales Query Parameter entity, there were missing underscores in codes for the identifying types SALES_ID and TRIP_ID.
- (3) Business rule SALE-L02-00-0404 has been decommissioned due to an inaccurate definition that could have led to a wrong implementation of the rule. The definition has been adapted but for a new BR SALE-L02-00-405.
- (4) the improved implementation for the exchange of sales notes and take-over documents cannot be achieved without an agreement on the changes in the implementation document mentioned in point (1).

Recommends:

1. to accept the proposed changes and to make a new version of the Implementation Document called FLUX_P1000-5_Sales__domain_EU_Implementation_v2_6_3.
2. to publish the new version of the document (v2.6.3) on MDR.
3. to exchange sales notes and take-over documents according to the information given in the document v2.6.3 from **15 January 2021** onwards (Compulsory To Use date - CTU) for all Member states.
