- Kick-off event in European Parliament
- 50 promotional activities and events in 10 different EU-Member States

- Attract young people
- Improve image
- Inform public and political level

Europäischer Metallgewerkschaftsbund
European Metalworkers' Federation
Fédération Européenne des Métallurgistes

The objective of the event was
to reinforce and spread the
message of LeaderSHIP
2015,

to improve the
attractiveness of shipyards
as a workplace for young
graduates and highly-skilled
people and

to portray the right image of
the sector.

The screenshot shows a Microsoft Internet Explorer window displaying the CESAsa website. The main header reads "CESAsa COMMUNITY OF EUROPEAN SHIPYARDS ASSOCIATIONS". Below it, there's a banner with two images of ships and the text "CESAsa COMMUNITY OF EUROPEAN SHIPYARDS ASSOCIATIONS". The left sidebar has links for "Home", "News", "LeadersHIP 2015", "Shipyards week", "Topics", "Organisation", "Member Associations", "Shipyards in Europe", "Publications/Pictures", "Job Opportunities", "Contact", "Links", and "DCN, France". The right sidebar lists various European shipyards under "Job Opportunities", including "2M Nai Shipyard, Croatia", "Aker Breivik, Norway", "Bilbao Voss, Netherlands", "Breko, Netherlands", "B.V. Schepswerf, Maassluis, NL", "Chantiers de l'Atlantique, France", "Damen Bergum", "Damen Shipyards Group, Netherlands", "DCN, France", "Dutch Shipyards Vacancy Database", "Erlebacher Schiffswerft, Germany", "IHC Holland, Netherlands", "Lürssen, Germany", "Meyer Werft, Germany", "Nordseewerke GmbH, Germany", "Odense Steel Shipyard, Denmark", "Oranjetoren Shiprepair, Netherlands", and "Peele-Werft, Germany". At the bottom, there's a "CESA Members only" section with "Username:" and "Password:" fields, a "Submit" button, and a "Disclaimer" link. The footer includes the EMF logo and the text "Website service by".

Europäischer Metallgewerkschaftsbund
European Metalworkers' Federation
Fédération Européenne des Métallurgistes

By addressing the challenges arising from the impending shortage of qualified people and an ageing workforce the social partners wanted to contribute to ensuring productivity, innovation, competitiveness and employment for the sector in the future.

► Parallels to the steel industry are obvious!!!

SOCIAL PARTNERS' MANIFESTO

The Social Dialogue process

Within the Social Dialogue Committee on shipbuilding, the Social Committee CESAZ represents the stakeholders: the shipowners, the employers, the workers and their unions. The development of the European social dialogue on shipbuilding and repair followed the successful cooperation of the European social dialogue on shipbuilding and repair, established in the framework of the European Social Committee on shipbuilding and repair, in September 2003, at the European level.

Sponsored by the European Commission DG Employment and Social Affairs, the Committee on shipbuilding and repair, in the framework of the European Social Committee on shipbuilding and repair, has been instrumentalised in pursuit of the provisions of Articles 138 and 139

Committee has concentrated its work in its first two years on shipbuilding and social dialogue, the development of training in Europe and the production of survey-based standards development and training; developing research that supports investment in

encouraging innovation while maintaining high levels of employment and growth of the industry. Looking ahead, the Committee will be continuing its work, and taking actions in line with

the Social Dialogue in the industry. Shipyards are of great importance to Europe in a number of ways. This European Social message, it provides a safe and environmentally-friendly means of transport. It contributes to the security of Europe and its global security. It develops and applies advanced technology that are beneficial to other industry sectors.

The shipbuilding industry contributes to the achievement of Europe's Growth and Employment objectives by virtue of the high skill level from the workforce. The European Union of advanced technologies and services, employing some 350,000 people, covers some 9,000 businesses and individuals

and by the Social Committee on shipbuilding and repair, in the sector are skilled craftspeople, highly skilled workers, and apprentices. The European Union of advanced technologies and services, employing some 350,000 people, covers some 9,000 businesses and individuals
