European Community action programme in the field of education (2000-2006)

Opening up Education (2013)

... proposes actions towards more open learning environments to deliver education of higher quality and efficacy and thus contributing to the Europe 2020 goals of boosting EU competitiveness and growth through better skilled workforce and more employment.

ET2020 Joint Report (2014) - I

*Priority Area 3:
Open and innovative education
and training, including by fully
embracing the digital era*

ET2020 Joint Report (2014) - II

- Mainstreaming innovative and active pedagogies ...
- **Fostering participatory education governance by stimulating engagement of learners, educators, parents and the broader local community such as civil society groups, social partners and business**
- Increasing synergies between education, research and innovation activities, ...
- Promoting the use of ICT as a driver for systemic change ...
- Boosting availability and quality of [OER] ...
- **Addressing the development of digital skills and competences at all levels of learning in response to the digital revolution**

Evidence is overwhelming

That open and innovative education can improve educational outcomes - if done well.

See- e.g. reports by JRC & OECD

"We need to get this right in order to provide educators with learning environments that support 21st-century pedagogies and provide children with the 21st-century skills they need to succeed in tomorrow's world."
