[1] This table shows the import data available in the customs surveillance system managed by DG TAXUD. The surveillance system records and centralizes all EU trade data (import and exports) directly from the national customs authorities on a daily basis. According to Art.55(2) of Commission Implementing Regulation (EU) 2015/2447, the customs authorities shall provide the Commission at least once a week with data on customs declarations for the goods that have been made subject to surveillance at release for free circulation or at export.

[2] Imports into Spain or Portugal of Maize, Sorghum and substitutes as appropriate accounted against the EC import obligation.

[3] "+" means that the EC imports obligations were fulfilled, while the sign "-" indicates the quantity still necessary to fulfil EC obligations.
