The Committee adopted the guidelines and agreed to organise a promotion event early 2020. The Committee also requested support of the Commission, including addressing this issue of an international nature at the IMO.

#### **4. The SSDC work programme 2020-2023: discussion**

In a constructive discussion the social partners reached an agreement on the focus areas for the 2020-2023 work programme: health and safety (fumigation, accidents, safety on board); skills and training; impact of technological changes on the sector; impact of EU competition and foreign investment policy on the sector. The social partners further discussed deliverables and working methods in relation to these focus areas. The Committee agreed that the work programme will be finalised by the secretariats and presented for approval at the next SSDC meeting.

With regard to safety on board, the social partners expressed disappointment that no further progress has been made due to unavailability of ECSA representatives for an in-depth discussion on possible joint efforts to improve safety on board. They requested the Commission to facilitate their dialogue with ECSA.
