E-Commerce	Supplementary negotiating directives were adopted in May 2019.	<p>Plurilateral WTO negotiations on e-commerce were launched in Davos in January 2019 after a year of exploratory talks. The negotiations cover both goods and services and their aim is to agree on global rules on digital trade. So far 91 WTO Members have formally joined the talks.</p> <p>On 26 July 2024, the co-convenors of the initiative published a ministerial statement on behalf of the Members (with the exception of a few Members who could not endorse the text at this stage) agreeing on a stabilised text of the Agreement. Energy Charter Treaty	<p>The Negotiating Directives for the modernisation of the ECT were adopted by the Council on 15 July 2019.</p>	<p>The Commission tabled an initial text proposal in May 2020, aiming at the reform of investment protection and dispute settlement rules, as well as new provisions on sustainable development and climate change. The proposal was complemented in February 2021 by a proposal on the scope of investment protection in relation to fossil fuels.</p> <p>An agreement in principle on the negotiating outcome was reached on 24 June 2022 at the ad hoc Charter Conference. The Commission made a proposal for two Council decisions to be adopted for taking an EU position at the Charter Conference in November. The Council however did not adopt the proposed Council Decision. Therefore, EU did not take a position at Charter Conference on 22 November 2022. The Commission has in the meantime proposed to the Council that the EU shall withdraw, and the MS follow suit. This is also in line with the EPs position.</p> <p>In March 2024, the Commission has tabled a second proposal for Member States to take a position allowing the adoption of the Charter modernisation. The Council has referred the proposal for the EU to withdraw to the EP for consent, which has given its consent in April. The proposal was finally adopted by The Council.</p>	<p>A second proposal to allow MS to vote in favour of the modernisation has also been adopted by the Council. The EU has notified the depositary of the withdrawal of the EU and EURATOM from the ECT. They will effectively withdraw in June 2025. The Charter Conference has adopted the modernisation in December 2024. The modernised ECT will start applying provisionally as of September 2025.</p>

Investment facilitation for development (IFD)	<p>The Directives for the negotiation of Investment Facilitation multilateral framework were adopted by the Council on 7th of October 2019.</p>	<p>During the WTO Ministerial Conference in Buenos Aires in December 2017, 70 Members called for developing a multilateral framework on investment facilitation. A special focus is on developing countries and LDCs. Negotiations started in September 2020 and were concluded on 6 July 2023. More than two thirds of WTO Members participate in the initiative. On 25 February 2024, the participants finalised and published the text of the agreement, and subsequently tabled a request for legal incorporation into Annex 4 of the WTO Agreement (the relevant annex for plurilateral agreement). The request for legal incorporation of the agreement was discussed among WTO Members</p>	<p>The request for legal incorporation into Annex 4 of the WTO Agreement will be re-submitted for decision to the May 2025 General Council. Once the request is approved by consensus, the agreement will be submitted for "acceptance" under domestic procedures.
