There is also an option to donate the amount to an Austrian nature conservation project.

How would you like us to thank you for taking part?

- ☐ 20 euro donation to the nature conservation project [2]

Which nature conservation project will be supported?

The nature conservation project "Alpenmoore" ensures the maintenance, renaturation and preservation of valuable Alpine peatlands in Salzburg and Tyrol. Bogs are not only an important ecological niche for animals and plants, but also play an important role in climate protection as CO2 reservoirs.

Part of the nature conservation project are the so called Deckenmoore at Gerzkopf in Salzburg and Hüttelmoos in Tyrol. The donations will be used to implement, among other things, a visitor guidance concept as well as measures to improve the water balance of the bog areas and the removal of trees and shrubs.

Thank you for taking part in this survey. With this you help to make the living conditions in Austria's households visible.

- There is a questionnaire for the whole household. This questionnaire is filled out by one member of the household. Ideally by the person who knows best about the household.
- In addition, there is another questionnaire for each household member. Every household member over the age of 16 must fill out this questionnaire.

When all questionnaires have been completed, your household will receive a 20-euro shopping voucher or Statistics Austria will donate 20 euros to an Austrian nature conservation project. You can decide later in the questionnaire for the voucher or for the donation.
