

List of Candidates Suitable for Appointment as Arbitrators and TSD Experts

In December 2020, the European Commission called for applications in connection with the renewal of the pool of arbitrators and the separate pool of trade and sustainable development (TSD) experts for dispute settlement panels under trade agreements to which the EU is a party. A selection panel of experienced international judges and academics examined the candidates to confirm their suitability for appointment.

The list below contains the names of candidates that were found suitable for appointment for the position of **Arbitrator and TSD Expert**.

The Commission therefore decided to include these names in its respective list of individuals that are suitable for appointment. The Commission will draw on this list to make proposals for the appointment of arbitrators and TSD experts in a specific case or for pre-agreed lists (rosters) under the relevant bilateral agreements with third countries. However, inclusion in the list of suitable individuals does not guarantee the appointment for any specific case or roster in the future.

Candidates marked with a (*) applied to serve in disputes under the EU-UK Trade and Cooperation Agreement (TCA) only. Successful candidates could request not to have their names published.
