About the contents

This document shows the questions that are asked in 2023 in the Living Conditions Surveys. The content concerns interview year 1 and consists partly of questions included in the EU-survey Statistics on Income and Living Conditions (SILC), and partly of national questions. Interviewing instructions are provided for certain questions, with the purpose of clarifying the questions. The questions in this document are for telephone interviews only. From 2022 onwards, it is also possible to answer the questions via a web survey.

About variable names

Each question in this document has a variable name, such as START1, which is the variable name of the first question. The variables in SILC are listed and described in Microdata documentation (MetaPlus), which is found on SCB's website, [Microdata documentation – www.scb.se](http://www.scb.se/microdata). The variable names used in the questionnaire, and listed in this document, are not always exactly the same as those used in the final observation register. MetaPlus contains variable names used in the final observation register.

Text explanations

SP = sample person.

IVE = interviewer.

Direct interview = interview with the sample person (SP), with or without an interpreter.

DIREKT=1 means direct interview.

Indirect interview = interview with somebody who knows the SP well, in situations where the SP, for instance due to illness, cannot answer in person. DIREKT=0 means indirect interview.

Direct respondent = response to the initial question of the web questionnaire indicates that questions are answered by SP.

DIREKT=1 means direct respondent.

Indirect respondent = response to the initial question of the web questionnaire indicates that questions are answered by someone other than SP.

DIREKT=0 means indirect respondent.

Display conditions indicate which respondents see the question (and thus is eligible to answer the question).

Explanation of text colouring

Grey text = text that is adapted to the situation, for example “you” if a direct interview and “he” or “she” if an indirect interview.

Other explanations

Response options written in upper-case letters (capitalised) are not read out. Response options written in lower-case letters (not capitalised) form part of the wording of the question and are read out to the respondent.

Question text in parentheses is text that the interviewer does not need to read out. The occasional wording in parentheses that appears in the questionnaire is there to create, as far as possible, a standardised way of phrasing the question in situations where the interviewer considers that more information needs to be read out.

Introduction

START1 TO THE INTERVIEWER: SELECT WHO IS ANSWERING THE QUESTIONS

- 1 THE SAMPLE PERSON (in person or through an interpreter)
- 2 ANOTHER PERSON BELONGING TO THE SAMPLE PERSON'S HOUSEHOLD
- 3 ANOTHER PERSON NOT BELONGING TO THE SAMPLE PERSON'S HOUSEHOLD

Instruction for the interviewer: 'Household' here refers to what the respondent considers to be a household. When identifying the household – after having been told what we mean by household in this survey – the respondent can consider that he/she does not belong to the sample person's housekeeping unit because they do not have joint finances. This does not affect the answer to this question.
