# 1 INTRODUCTION

Under the Tobacco Products Directive (2014/40/EU)

([http://ec.europa.eu/health/tobacco/docs/dir\\_201440\\_en.pdf](http://ec.europa.eu/health/tobacco/docs/dir_201440_en.pdf)) manufacturers and importers of **tobacco products, e-cigarettes and refill containers** have to submit key information to the authorities in the Member States in which they plan to market any new or modified products, no later than six months before marketing.

This includes information on:

- ingredients
- emissions
- toxicological data

The IT tool for providing this information is the **EU Common Entry Gate (EU-CEG)**.

## Other products

In some EU countries, EU-CEG can be also used to provide information on other products, such as:

- herbal smoking products
- nicotine-free e-cigarettes

## 1.1 Information requirements

The information manufacturers and importers need to provide is set out in two implementing decisions:

- tobacco products - implementing decision ([https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=OJ:JOL\\_2015\\_312\\_R\\_0003](https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=OJ:JOL_2015_312_R_0003))
- e-cigarettes and refill containers - implementing decision (<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX:32015D2183>)

## 1.2 About EU-CEG

**EU-CEG** it is an IT tool designed to ensure uniform reporting of information on tobacco products and notification of information on electronic cigarettes and refill containers.

Its aim is to reduce administrative burden for companies and regulators, and make it easier to compare data. The tool was developed by the European Commission, working closely with Member States and industry stakeholders. It became operational in May 2016.

## 2 EVERYTHING YOU NEED TO KNOW TO GET STARTED WITH EU-CEG

EU-CEG is only accessible for companies with a **Submitter ID**. Therefore, before any submission can take place, a submitter must obtain the ID.

### 2.1 How to know if you need a **submitter ID**

### 2.2 How to register for a **submitter ID**

If you don't have an EU Login account yet, first create one, as explained [in Chapter 3.1](#).

Following steps:

- [Download the registration form](#)
- Fill in the form
- Submit the form (*follow the instructions on the form*).

**NOTE:** Fill in the form in with as much detail as possible (including the optional fields) and attach any official documents (e.g. company registration/incorporation certificate, utility bill, tax return).

Once we receive your completed form, we will start the process of assigning your submitter ID.

Consider that this is only one part of the process. After receiving the **Submitter ID** you will receive also the **Party Identifier** (as explained [in 3.3.2 Party Identifier](#)). Both steps can take several days, especially during busy periods, so please be patient.

Before we issue your submitter ID, we may need to ask you for some extra information. We also reserve the right to revoke a submitter ID if necessary.

## 2.3 Technical options for submitting data

Once you have your submitter ID, you have two options for submitting product information to EU Member States via the EU-CEG:

- **STANDALONE SOLUTION** - *for companies with a small IT infrastructure*
- **SYSTEM TO SYSTEM SOLUTION** - *for companies with a large IT infrastructure and many products*

You have to select one of the two options in the field "**Intended submission tool**".

### 2.3.1 Standalone registration process

The “standalone” registration process means that for the registration you will use a computer programme for the reporting. Specifically, an **XML generator** that allows you to create your notification in the form of one or more XML files, which must be uploaded to EU-CEG later.

**NOTE:** The Commission provides a free XML generator called “XML Creator Tool”, but the use of this client is optional. You can use any other software application and upload your files into the system, subject to their conformity with the XSD file and the *Data dictionary business rules* published in the **CIRCABC** online library.

To submit your data using this option, you have to follow two steps:

1. **run** the XML creator on your local computer.
2. **upload** the created XML file(s) to EU-CEG, via eTrustEx, an open-source platform for the secure exchange of data.

**NOTE:** The uploading process requires an [EU Login \(ECAS\) account](#) for authentication purposes.

You can find more information about the standalone registration process in [chapter 3](#) and, about eTrustEx, in [chapter 5](#).

### 2.3.2 System-to-system solution

“**System-to-system**” means that you setup your own infrastructure in order to provide data for the reporting directly to the EU-CEG system.

This option uses the AS4 protocol for document exchange. The Commission offers a reference implementation of the AS4 access point called “**Domibus**” (<https://ec.europa.eu/cefdigital/wiki/display/CEFDIGITAL/Domibus>), which is part of **eDelivery** in the CEF programme. Domibus is an open-source software, but stakeholders are free to choose any other AS4 compliant access point if they wish so.

For more information about the “system-to-system” option, contact the EU-CEG IT Support at [SANTE-EUCEG-ITSUPPORT@ec.europa.eu](mailto:SANTE-EUCEG-ITSUPPORT@ec.europa.eu)

## 2.4 Privacy statement

To find out how we use and protect your **personal data**, please read our privacy statement ([https://ec.europa.eu/health/sites/health/files/euceg/docs/privacy\\_statement\\_en.pdf](https://ec.europa.eu/health/sites/health/files/euceg/docs/privacy_statement_en.pdf)).

### 3 STANDALONE REGISTRATION PROCESS – STEP BY STEP

This section will guide you through the standalone registration process.

#### 3.1 Step 1: EU LOGIN (ECAS) account

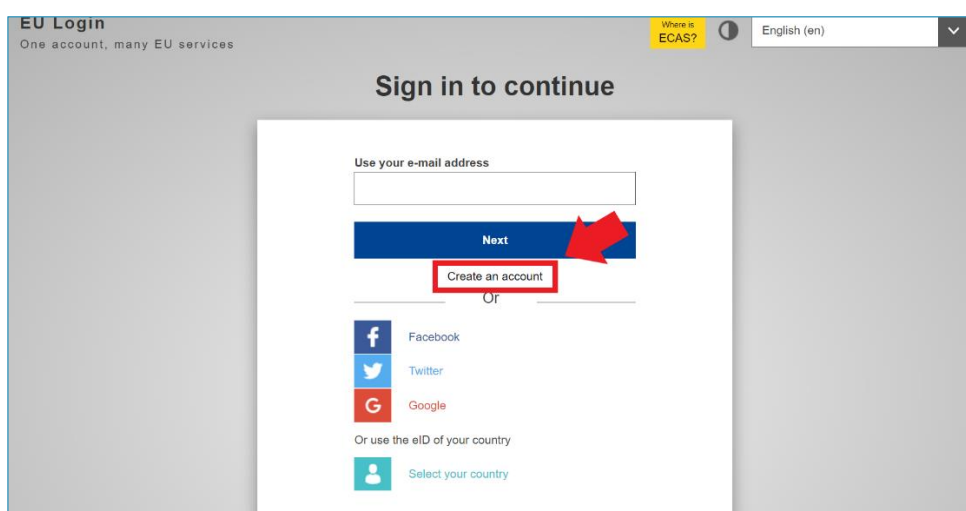

**NOTE:** If you already have an EU Login (formerly ECAS) account, you can jump directly to [Step 2: PDF Registration Form](#).

**This also applies if you have created an ECAS account before the ECAS system changed to EU login, since your ECAS credentials remains the same for EU Login**

To create your EU Login account:

→ open the EU Login page (<https://webgate.ec.europa.eu/cas/>) and click on “Create an account”:

**NOTE:** Logging in through the social media platform will not let you enter the application. To access EU-CEG you have to create an EU Login, following the instructions described here.

→ fill in the form and click on “Create an account”:

### Create an account

[Help for external users](#)

Dear ~~TestEC-ECTEST~~,

You have been registered in EU Login.

Your email address is ~~test@ec.europa.eu~~

To create your password, follow the link below:

[this link](#)

You have a maximum of 24 hr, starting from the time that this message was sent, to create your password, but you are encouraged to do so immediately if possible. After this time, you can make another request by following the same link: you will then need to re-enter your username and confirm your request.

If the above link does not work, you can copy the following address (make sure the complete address is copied!) and paste it into your browser's address bar:  
<https://webgate.ec.europa.eu/cas/init/initialisePasswordLogin.cgi?wayf.domain=external&wayf.remember=checked&wayf.submit=Select&uid=necteste&resetCode=jrGIRAdffYxVOWEWOYzVZnevCxZFq5sAvKytymhxUR>

Instead of replying to this message, if you have a problem, please follow the help or contact information on the site where you were trying to register.

Note that it may take up to 5 minutes after reception of this mail before the above-mentioned site will recognize your registration.

Sent to you by EU Login

The link will lead you to the password setup page:

**New password**

Please choose your new password.

necteste  
(External)

**New password**

**Confirm new password**

**Submit**

Passwords cannot include your username and must contain at least 10 characters chosen from at least three of the following four character groups (white space permitted):

- Upper Case: A to Z
- Lower Case: a to z
- Numeric: 0 to 9
- Special Characters: !"#%&'()\*+,-./:;<=>?@[\\]^\_`{|}~

Examples: mlWdMbA|n/ qBQdKQPETX XXMZroloB<

[\[Generate other sample passwords\]](#)

- ➔ choose and confirm your password
- ➔ click on **"Submit"**
- ➔ click on **"Proceed"** to log in with your account

Once done, a message will confirm your access to EU login:

**Successful login**

You are now logged in to EU Login.

To stop the automatic single sign-on, click [Logout](#) or close all browser windows.

**TIP:** Fill in the form in as much details as possible (including the optional fields) and attach any official documents (e.g. company registration/incorporation certificate, utility bill, tax return).

→ Add such documents on the last page of the form by clicking on "**Add attachments**":

**Attachments**

**IMPORTANT :**

Upload files : if you have any documents (e.g. extracts from relevant registries) which can facilitate verification, please upload them on this page. **Submission of such documents is strongly recommended in order to facilitate verification.**

**Technical remarks :**

1) Some mailboxes cannot send out e-mails when files in excess of 10MB files are attached.  
 2) Files to be attached should have one of the formats listed here : [jpg, jpeg, tiff, tif, xls, xlsx, doc, docx, ppt, pptx, bmp, png, pdf, txt.](#)  
 3) Only letters from A-Z and numbers from 1-10 are permitted in the names of the files to be attached.

**Add attachments**

List of all attachments

Attachment name	File will be saved as (only a-z and 0-9 and _):	File size
Total size of attachments :		0

→ When you have completed the PDF registration form, save it on your computer.

Before you submit the form, you must click on "**Verify form**" make sure that all the mandatory fields have been filled:

**COMPANY REGISTRATION FORM**

Company registered name (mandatory):

Company alternative/abridged name (if exists):

Company address (street, postal code, city) (mandatory):

Company country (mandatory):

Company WWW address:

Company e-mail address (mandatory):

Re-enter company  (mandatory):

*E-mail address: please note that the above email address will be used to inform your company about the assignment of a Submitter ID and any other communications concerning your request.*

Company fax number:

Company phone number (incl. international prefix) (mandatory):

Company VAT number (mandatory for EU VAT-registered companies):

Company tax registration number:

Area of activity (mandatory):

- Tobacco products
- Electronic cigarettes/refill containers/related products
- Herbal products

Submitter is an SME (small/medium-sized enterprise) (mandatory):

Intended submission tool (mandatory):

- System-to-system
- Standalone client

ECAS login (mandatory if standalone client):

Membership in industry association (if exists):

Association's email address (if exists):

Submission instruction:

Once the registration form is verified and identification files attached, please click the button besides to send the form by email. If your email client does not open automatically, please open it manually, create a new email, attach this pdf document to the email and send the email to [SANTE-SUBID-EUCEG@ec.europa.eu](mailto:SANTE-SUBID-EUCEG@ec.europa.eu) with the subject line: Request for submitter ID - [company registered name].

**Submit request**

Page 2 of 3

**Verify form**

If the verification reports error(s), you will need to follow the instruction given to correct your form.

→ Verify that your internet connection is active and then click on "**Submit request**":

**COMPANY REGISTRATION FORM**

Company registered name (mandatory):

Company alternative/abridged name (if exists):

Company address (street; postal code; city) (mandatory):

Company country (mandatory):

Company WWW address:

Company e-mail address (mandatory):

Re-enter company e-mail address (mandatory):

*E-mail address: please note that the above email address will be used to inform your company about the assignment of a Submitter ID and any other communications concerning your request.*

Company fax number:

Company phone number (incl. international prefix) (mandatory):

Company VAT number (mandatory for EU VAT-registered companies):

Company tax registration number:

Area of activity (mandatory):

Submitter is an SME (small/medium-sized enterprise) (mandatory):

Intended submission tool (mandatory):

ECAS login (mandatory if standalone client):

Membership in industry association (if exists):

Association's email address (if exists):

Submission instruction:  
Once the registration form is verified and identification files attached, please click the button besides to send the form by email. If your email client does not open automatically, please open it manually, create a new email, attach this pdf document to the email and send the email to [SANTE-SUBID-EUCEG@ec.europa.eu](mailto:SANTE-SUBID-EUCEG@ec.europa.eu) with the subject line: Request for submitter ID - [company registered name].

**Submit request**

Page 2 of 3

Verify form

This action will make your email client to open a new email to [SANTE-SUBID-EUCEG@ec.europa.eu](mailto:SANTE-SUBID-EUCEG@ec.europa.eu) with a subject filled and your registration form attached. At this point, you can simply send the email without adding anything else.

**NOTE:** If your email client does not open automatically, you will have to create a new email, attach your PDF registration form and send the email to [SANTE-SUBID-EUCEG@ec.europa.eu](mailto:SANTE-SUBID-EUCEG@ec.europa.eu) with the subject line: **Request for submitter ID - [company registered]**.

**TIP:** If you have documents such as extracts from trade register, it can facilitate the validation, please attach them to the PDF registration form. The transmission of such documents is strongly recommended.

Some mailboxes cannot send emails when attachments exceed **10 MB**.  
The files to be attached must be in the following format:  
**jpg, jpeg, tiff, tif, doc, xls, xlsx, ppt, pptx, docx, png, bmp, pdf, txt.**  
Only letters from **A to Z** and numbers from **1 to 10** are allowed in the names of the files to be attached.

## 3.3 Step 3: Submitter ID and Party Identifier

### 3.3.1 Submitter ID

After sending your registration form to [SANTE-SUBID-EUCEG@ec.europa.eu](mailto:SANTE-SUBID-EUCEG@ec.europa.eu), the process of validation for the assignment of your submitter ID starts.

The Commission reserves the right to revert to applicants should additional information be required, to withhold Submitter IDs pending further verification and to withdraw previously assigned Submitter IDs, should it deem necessary.

The Commission will endeavour to complete the assignment process within as short a timeframe as possible.

 **Please consider, however, that the assignment of a Submitter ID does not take place instantaneously upon receipt of the form and that during peak requesting periods, additional processing time up to several days may be required.**

At the end of the process, you will receive an email confirming your Submitter ID or explaining why it was not assigned or withdrawn.

**NOTE:** The Submitter ID is used for submitting products information on EU-CEG as it is linked to your company and **not to access eTrustEx**. As explained in the email, to access eTrustEx you will need to receive a *Party Identifier* (please see the next Chapter here below).

### 3.3.2 Party Identifier

After a couple days that you have received your Submitter ID, you will receive your Party Identifier.

 **Please consider that the party identifier attribution process can take several days, especially during busy periods.**

In the meanwhile, you can already start creating your XML files by following the instructions that you can find in [Chapter 4.2](#)

Once your party identifier has been issued, you will receive a confirmation email with further information, such as the link to eTrustEx, where you will have to upload your XML submission files.

## 4 THE XML CREATOR TOOL

As mentioned before, the EU-CEG system requires you to submit the data of your products via XML files.

We strongly recommend that you use the XML Creator tool put at your disposal by the European Commission, as no support is provided on custom-made solutions.

### 4.1 Run the XML Creator tool

Go to the CIRCABC public site (<https://circabc.europa.eu/ui/group/a4c7629c-0054-41d6-96e7-19c7c9da0a80/library/b3141f3c-f8be-413f-b2a8-6c9f44b82cae>) to download the latest version of XML Creator. From the Library<sup>1</sup>, hover your mouse over “**tpd-xml-creator-tool-x.x.x.zip**” where x.x.x, from now on, means the latest version/number of the XML Creator, and click “**Download**” which will appear below the file name:

STOCK, MANAGE AND SHARE YOUR DOCUMENTS

**NOTE:** To run this JavaFX application, it is required to have a Java SE Runtime Environment 8 (JRE 1.8) installed on your computer. If you want to use Oracle distributions, you can download the JRE on the following link: <https://www.oracle.com/java/technologies/javase/javase8-archive-downloads.html>

If you want to use an Open JDK 1.8 distribution, please choose a full distribution that includes the proper JavaFX libraries, like <https://bell-sw.com/pages/downloads/#jdk-8-lts>

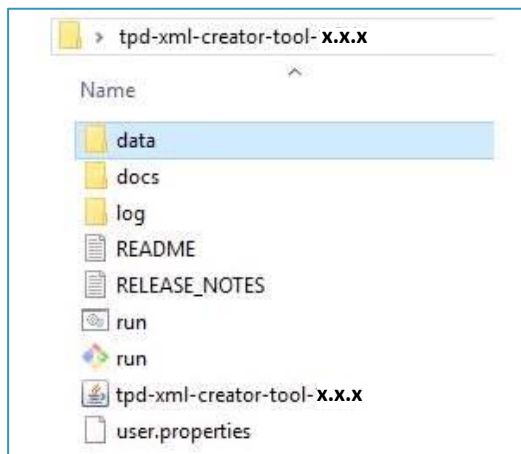

**(The latest Oracle functional revision that includes Java FX is jre 8u441, choose one available from those included up to and including this revision)**

<sup>1</sup> The actual file structure may differ from the example below

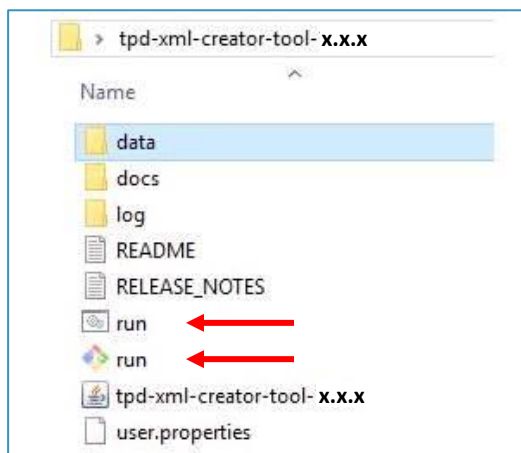

➔ Follow the procedure to extract (unzip) application zip package and save it to your chosen location:

The unzipped folder will look like this:

➔ Double click on the “run.bat” (Windows) or “run.sh” (MacOs) according to your Operating System:

The EU-CEG XML Creator will open up in another window:

EU-CEG XML Creator

version 1.6.0

European Commission

Welcome Submitters Tobacco Product Submissions E-Cigarette Submissions Attachments Ingredients repository

EU-CEG XML Creator

**Welcome**

The EU-CEG XML Creator is a standalone client provided by the European Commission, allowing submitters to generate XML files that can be uploaded to the ETRUSTEX system. This client is made available to submitters at the courtesy of the European Commission; however, submitters may also decide to generate XML files by any other means.

There is no direct link between the client and the Member State(s) repositories. Therefore, any change you make to a product in the client requires that you:

- save (so your changes are kept locally)
- validate (so the file is guaranteed to have all the required information and in the correct format)
- export (so you have an XML file to upload)
- upload the file to ETRUSTEX.

This client is made available to submitters at the courtesy of the European Commission; however, submitters may also decide to generate XML files by any other means.

**For more information on the EU-CEG XML creator and other relevant documents, please see the CIRCABC interest group:**

EUCEG Industry Stakeholders: <https://circabc.europa.eu/ui/group/a4c7629c-0054-41d6-96e7-19c7c9da0a80>

NOTE: Information on version 1.6.0 (release notes) can be found in the 'docs' folder of this XML creator or in CIRCABC.

**For more information on the submission process, please see:**

<https://ec.europa.eu/health/euceg/>

**Contact**

Making **any** changes to the folder structure and/or its content can have major consequences including loss of data. Therefore, **do not move or rename any folders or file and do not make manual changes to the content of the XML files.**

## 4.2 Practical use of the XML Creator Tool

### 4.2.1 Create your submitter ID XML file

The first step is to create your submitter ID XML file. The initial information should, in principle, correspond with the information in your Submitter ID application. The submitter ID XML file may be updated to reflect possible modifications over time.

➔ In the top navigation menu of the EU-CEG XML Creator, click on “**Submitters**”, then on “**Add a new submitter**”:

EU-CEG XML Creator

version 1.6.0

European Commission

Welcome **Submitters** Tobacco Product Submissions E-Cigarette Submissions Attachments Ingredients repository

LIST OF SUBMITTERS (2 of 2) Load more Add a new submitter

Submitter ID	Name	VAT	Country	Phone	Email	Status	Modifie...	Actions
1	00000	Example submitter				CREATED	2022/09/07	Edit Export

→ In case the contact details of your company change, you can update your information by clicking on **“Edit”** in the **“List of Submitters”** page:

version 1.6.0

EU-CEG XML Creator

Welcome Submitters Tobacco Product Submissions E-Cigarette Submissions Attachments Ingredients repository

LIST OF SUBMITTERS (1 of 1) Load more Add a new submitter

Submitter ID	Name	VAT	Country	Phone	Email	Status	Modifie...	Actions
1	Test1		Belgium (BE)	0032466324272	maddalena.ilandim...	CREATED	2020/11/26	Edit Export

The “**Submitter Details**” page will open again.

➔ Update the information and click on “**Save**”:

A dialogue box will warn you that if your changes concern the submitter ID or the submitter hierarchies, the referenced products linked to them will need to be updated manually.

➔ Click “**OK**” and go back to the “**List of Submitters**”:

➔ Back to the main page, click on “**Export**” to regenerate the file:

Submitter ID	Name	VAT	Country	Phone	Email	Status	Modifie...	Actions
00000	Example submitter					CREATED	2022/09/07	Edit Export

**NOTE:** The XML Creator is a **local tool** that is designed to help you create the XML submission files (submitter, product, attachments).

**There is no direct link between the tool and the Member State(s) repositories.**

Therefore, **any change you make to a file in the tool requires that you:**

1. **Save** (so your changes are kept locally),
2. **(in case of a Product) Validate** (so the file is guaranteed to have all the required information and in the correct format),
3. **Export** (so you have an XML file to upload)
4. **Upload** the file to *eTrustEx* (see [Chapter 5](#)).

Now, you can insert your products in the system.

- ➔ Start selecting either the tab “**Tobacco Product Submissions**” or “**E- Cigarette Submissions**”, according to your type of business:

EU-CEG XML Creator version 1.6.0

European Commission

Welcome Submitters **Tobacco Product Submissions** E-Cigarette Submissions Attachments Ingredients repository

LIST OF TOBACCO PRODUCTS Filter list of Tobacco Product Submissions Add a new tobacco product Export submission list

Product id	Product Type	Previous Product id	Product National Market	Submission Type	Submission Comment	Status	Modified D...	Actions
99905-20-96325	Herbal product f...		AT,LV	3 - Add presentation		VALIDATED	2022/08/17	Edit Copy X
99905-20-12345	Cigarette		AT,LV	1 - New product		CREATED	2022/06/28	Edit Export X

Once the proper tab is selected, you will be able to start the creation of your product files by clicking on "Add a new tobacco product" or "Add a new e-cigarette" and, subsequently, filling in the different fields with your products information.

## 👉 4.2.2 Example - Add a new tobacco product

1. Click on “Add a new tobacco product”:

EU-CEG XML Creator version 1.6.0

European Commission

Welcome Submitters **Tobacco Product Submissions** E-Cigarette Submissions Attachments Ingredients repository

LIST OF TOBACCO PRODUCTS Filter list of Tobacco Product Submissions **Add a new tobacco product** Export submission list

Product id	Product Type	Previous Product id	Product National Market	Submission Type	Submission Comment	Status	Modified D...	Actions

99905-20-12345	Cigarette		AT,LV	1 - New product		CREATED	2022/06/28	Edit Export X

The form that opens up includes several sections:

The screenshot displays the 'EU-CEG XML Creator' interface. At the top left is the European Commission logo. The main header is 'EU-CEG XML Creator' with 'version 1.6.0' on the right. A navigation bar includes 'Welcome', 'Submitters', 'Tobacco Product Submissions' (highlighted), 'E Cigarette Submissions', 'Attachments', and 'Ingredients repository'. Below this is a breadcrumb trail: '< Back to tobacco products list' and 'Edit tobacco product details'. To the right are 'Save', 'Validate', and 'Cancel' buttons. A red box highlights the 'Submission info' tab in the form's navigation area. The form fields include:

- Submission type \* (dropdown menu)
- Previous product ID (dropdown menu)
- Product type \* (dropdown menu)
- General comment (text area)

Each dropdown menu has a 'Confidential' label and a checkbox to its right.

- Fill in all the fields in each section with your products information. You can move from one section to another by clicking on the relevant tabs.

 **NOTE:** All the fields marked with the asterisk (\*) are mandatory

 **TIPS:**

- Once each section is completed click **“SAVE”** (the only mandatory information before you are able to save a product is the **PRODUCT ID**):

- The **PRODUCT ID** is a number composed by 12 figures which must follow the agreed structure:

- If you have good reasons to keep your information confidential, check the **“Confidential”** box next to the corresponding field:

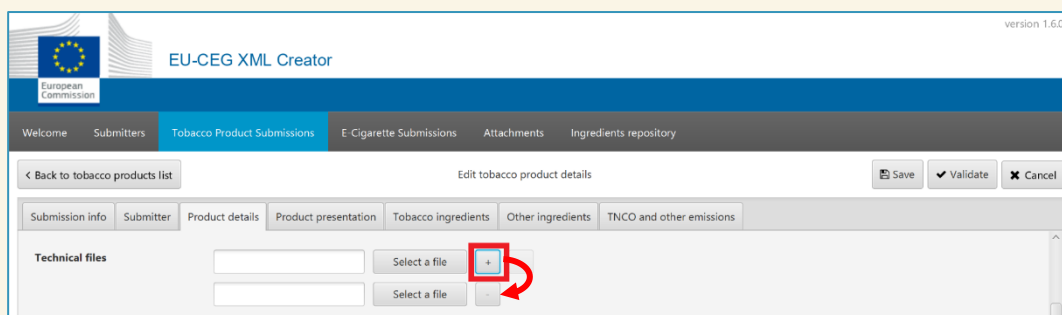

- You will notice a **“Select a file”** button, next to some fields:

The data expected in these fields is an attachment loaded in the XML Creator tool (see [Chapter 4.3](#))

- ✓ If you wish to add more files, click on the “+” button. In case you want to remove it, just click on the “-” button:

- ✓ “Product Presentation”

N°	Brand name	Launch date	National Market	Product number type	Product number value	Package type	Units per pack...
1	XWV	2020/06/16	Latvia (LV)	Submitter	9876	Round tin	67
2		2021/07/20	Spain (ES)	Submitter	0987	Flow wrap	
3	ABC	2021/12/08	Italy (IT)	Submitter	6543	Folding pouch	
4							

One product can have multiple presentations. If this is the case, when you re-upload the product you have to make sure to keep always all the presentations, even if no changes were made to a specific presentation.

This is particularly important because if a product with more than one presentation is uploaded again, without some of its presentations, this will be interpreted by the system as an (incorrect) product withdrawal and will move the product to the inactive list, for the countries where it was removed.

- ✓ In the two sections related to the ingredients, to add more ingredients to your list, click on “Add new ingredients”. Similarly, if you wish to remove specific ingredients, after selecting them from the list, click on “Delete ingredient”:

art type	Leaf type	Leaf cure method	Quantity (mg)

- ✓ Once you have provided your data, click on “Save” and then on “Validate”:

- ✓ To add **Other ingredients** in tobacco products or **e-cigarette ingredients**, you also have the option to import an ingredient directly from your **ingredient repository**:

The screenshot shows the 'EU-CEG XML Creator' interface. The 'Other ingredients' tab is selected, and a table lists ingredients. The 'Add new ingredient from repository' button is highlighted with a red box.

N°	Name	Category	Function	CAS number	FEMA number	Additive number	FL number	EC number	From repository
1	Paper	paper (burnt)	Preservative		1234				N
2	Glycerol	adhesive (burnt)	Carrier	511155-67-4	2940			200-193-3	Y - 2022/06/25

Please see [Chapter 4.4](#) for more on the Ingredients Repository.

### 4.2.3 How to handle validation errors

The validation of your file is a necessary step before you can export your XML file as it verifies that you have provided every mandatory information, in the right format. However, what happens if this is not the case?

If something is wrong in your form, after clicking on “**Validate**”, a pop up window will appear showing you the list of all the errors encountered:

The screenshot shows a validation error pop-up window. The 'Validate' button is highlighted with a red box. The error messages are as follows:

- \*The value of the Length element cannot be empty because the value of the ProductType is 1, 2 or 3.
- \*The value of the Diameter element cannot be empty because the value of the ProductType is 1, 2 or 3.
- \*The value of the TobaccoWeight element cannot be empty because the value of the ProductType is 1, 2, 3, 4, 5, 6, 7, 8, 9, 11 or 12.
- \*The value of the 'productNumberType' element of the "Presentation" element where the value of the "NationalMarket" element is 'LV', the value of the "BrandName" element is 'XWV' and the value of the "ProductNumber" element is '9876' cannot be empty because is mandatory.
- \*The 'PackageUnits' element of the 'Presentation' element where the value of the 'NationalMarket' element is 'LV', the value of the 'BrandName' element is 'XWV' and the value of the 'ProductNumber' element is '9876' cannot be empty because the value of the 'ProductType' is '1', '2' or '3'.
- \*The value of the 'packageType' element of the "Presentation" element where the value of the "NationalMarket" element is 'LV', the value of the "BrandName" element is 'XWV' and the value of the "ProductNumber" element is '9876' cannot be empty because is mandatory.
- \*The value of the FemaNumber element cannot be empty because the value of the CasNumber, AdditiveNumber, FINumber, EcNumber and OtherNumber elements is empty.
- \*The value of the AdditiveNumber element cannot be empty because the value of the CasNumber, FemaNumber, FINumber, EcNumber and OtherNumber elements is empty.
- \*The value of the FINumber element cannot be empty because the value of the CasNumber, AdditiveNumber, FemaNumber, EcNumber and OtherNumber elements is empty.
- \*The value of the EcNumber element cannot be empty because the value of the CasNumber, AdditiveNumber, FemaNumber, FINumber, OtherNumber elements is empty.
- \*The value of the OtherNumber element cannot be empty because the value of the CasNumber, AdditiveNumber, FemaNumber, FINumber and EcNumber elements is empty.
- \*The value of the 'recipeQuantity' cannot be empty because is mandatory.

The fields that contain errors or missing data will be highlighted by a red frame:

**NOTE:** The red frames will only show if you are on the tab where the errors are. If an error shows up and you do not see any red frames, it means that the error is on a different tab. Browse through the tabs and click **“Validate”** on each of them to highlight missing data/errors.

## 4.2.4 Validate and Export

After you have fixed all the errors and all the red fields have disappeared, save and validate your product again. If everything is correct, a pop up message will confirm validation:

- After your product submission is validated, go back to the “**Tobacco Product Submission**” page.
- Here, select the appropriate row from the list and click on “**Export**”:

EU-CEG XML Creator version 1.6.0

European Commission

Welcome Submitters **Tobacco Product Submissions** E-Cigarette Submissions Attachments Ingredients repository

LIST OF TOBACCO PRODUCTS Filter list of Tobacco Product Submissions Add a new tobacco product Export submission list

Product id	Product Type	Previous Product id	Product National Market	Submission Type	Submission Comment	Status	Modified D...	Actions
99905-20-96325	Herbal product f...		AT, LV	3 - Add presentation		VALIDATED	2022/08/17	Edit Copy
99905-20-12345	Cigarette		AT, LV	1 - New product		CREATED	2022/06/28	Edit <b>Export</b>

**NOTE:** The procedure is the same for e-cigarette products.

As long as these instructions are followed, the XML Creator will create and save your XML files in a folder named “**Export**”, located inside the root folder of the creator tool:

tpd-xml-creator-tool-1.4.0

Name

- data
- docs
- export
- log
- README.txt
- RELEASE\_NOTES.txt
- run.bat
- run.sh
- tpd-xml-creator-tool-
- user.properties

The root folder— shown here with its default name (tpx-xml-creator-tool-1.4.0) – can be renamed to suit your needs. Nevertheless, making any changes to the folder structure and / or its content can have major consequences including loss of data. Therefore, **do not move or rename any folders or file and do not make manual changes to the content of the XML files.**

Here you can see the root folder structure. The two most important folders are the "data" folder – containing the data used to display information in the XML Creator Tool – and the "export" folder – which will appear after you export your first XML file, containing the different XML files that have to be uploaded through the eTrustEx platform.

tpd-xml-creator-tool- 1.4.0> export >

Name

- attachments
- submitters
- tobacco-product-submissions

## 4.2.5 Withdraw a product

To withdraw a product (“make it inactive”), you need to make a submission to indicate the withdrawal of your product for that specific market (“presentation”).

You will find here the steps that you need to follow to withdraw a product from **one market**.

Nevertheless, it is also possible to make **multiple withdrawals at once** by repeating the steps for each market, before uploading the product to eTrustEx.

→ Edit the product where you want to notify a withdrawal and choose “Submission type 4” – Remove presentation:

The relevant submission type disclaimer will pop-up:

→ Click on “**Confirm**” to proceed;

→ Go to the “**Product Presentation**” and select the specific presentation that you wish to withdraw:

Submission info							
Submission info		Submitter	Product details	Product presentation	Tobacco ingredients	Other ingredients	TNCO and other emissions
N°	Brand name	Launch date	National Market	Product number type	Product number value	Package type	Units per pack...
1	XWV	2020/06/16	Latvia (LV)	Submitter	9876	Round tin	67

Check the box "**Withdrawal indication - Intention to withdraw this presentation**" and insert the withdrawal date (it is also possible to indicate a withdrawal date in the past):

The screenshot shows the 'Edit tobacco product details' form. The 'Withdrawal indication' section is highlighted with a red box. It contains a checked checkbox for 'Intention to withdraw this presentation', a 'Confidential' label, and a 'Withdrawal date' field with a date picker set to 'yyyy/MM/dd'. Other fields include 'National market \*' (Latvia (LV)), 'Brand name \*' (XWV), 'Launch date \*' (2020/06/16), and 'Product number \*' (9876).

→ Save and validate the product.

→ To complete the withdrawal you need to export and upload your submission through eTrustEx

**NOTE:** If the product is being presented in more than one market, the other markets should be kept in the submission. Simply deleting a market and uploading the submission file will move the product to the inactive list for those markets.

## 4.2.6 Copy an existing product

After you have exported your product, back on the "List of Products" you will notice that the "Export" button has been replaced by a "Copy" button:

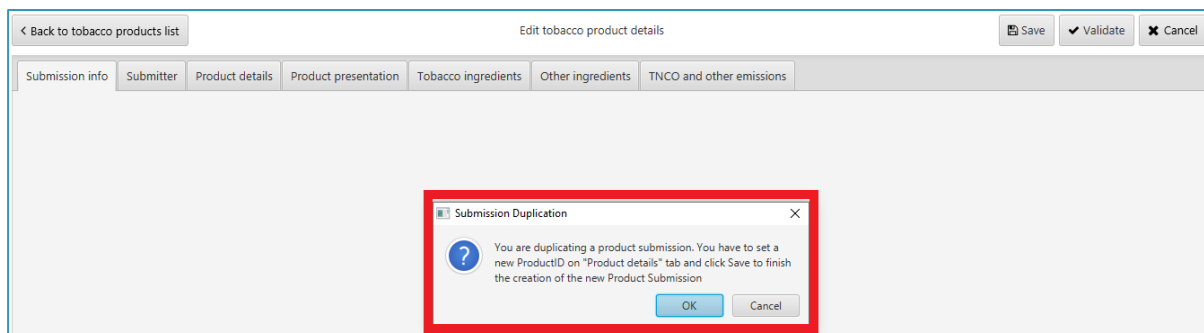

The screenshot shows the 'EU-CEG XML Creator' interface. The 'LIST OF TOBACCO PRODUCTS' table is displayed. The 'Copy' button in the 'Actions' column for the first product is highlighted with a red box.

Product id	Product Type	Previous Product id	Product National Market	Submission Type	Submission Comment	Status	Modified D...	Actions
99905-20-96325	Herbal product f...		AT, LV	3 - Add presentation		VALIDATED	2022/08/17	Edit Copy
99905-20-12345	Cigarette		AT, LV	1 - New product		CREATED	2022/06/28	Edit Export

You can use this option to add to your list products that have similar characteristics (e.g. same composition but different flavouring), without having to fill every single field again. However, please make sure that you **review** all the information before submitting your product.

→ Click on "Copy"

A dialogue box will inform you that you are duplicating a product submission and you have to set a *new product ID* under “**Product details**” and click “**Save**” to finish the creation of the new product submission:

- ➔ Click “**OK**” to proceed. This will bring you to the “Submission info” tab of the copied product.
- ➔ Go to “**Product Details**” and insert a new product ID and save it:

- ➔ Change the information about the new product where needed, browsing through the different sections and filling in the fields as explained in [Chapter 4.2.2](#).

## 4.2.7 Export your product list to Excel

Once you have added all your products, you can export the list of your submitted products to an Excel format.

➔ Go to your list of products (tobacco or e-cigarettes):

EU-CEG XML Creator version 1.6.0

Welcome Submitters **Tobacco Product Submissions** E-Cigarette Submissions Attachments Ingredients repository

LIST OF TOBACCO PRODUCTS Filter list of Tobacco Product Submissions Add a new tobacco product Export submission list

Product id	Product Type	Previous Product id	Product National Market	Submission Type	Submission Comment	Status	Modified D...	Actions
99905-20-96325	Herbal product f...		AT, LV	3 - Add presentation		VALIDATED	2022/08/17	Edit Copy X
99905-20-12345	Cigarette		AT, LV	1 - New product		CREATED	2022/06/28	Edit Export X

➔ Click on “Export submission list”:

LIST OF TOBACCO PRODUCTS Filter list of Tobacco Product Submissions Add a new tobacco product Export submission list

N°	Product id	Product Type	Previous Product id	Product National Market	Submission Type	Submission Comment	Status	Modified D...	Actions
1	99905-20-45678	Cigar		LV	1 - New product		VALIDATED	2020/12/07	Edit Copy X

A confirmation message will inform you that your product submission list has been successfully exported:

Tobacco Product submission list is exported successfully. Close

You will find the file (csv format) in the XML Creator Tool export folder:

tpd-xml-creator-tool-1.4.0 > export

Name	Date modified	Type	Size
attachments	14/12/2020 16:24	File folder	
ecigarette-product-submissions	10/12/2020 15:58	File folder	
submissions-list-CSV	14/12/2020 15:25	File folder	
submitters	14/12/2020 16:25	File folder	
tobacco-product-submissions	14/12/2020 16:26	File folder	

## 4.2.8 Restore a deleted submission

When you delete a submission, the XML file will be moved to **data> recycled> tobacco-product-submissions** or to **data> recycled> ecigarette-product-submissions**.

If you want to restore this submission:

- ➔ close the tool,
- ➔ copy the file back in **data> tobacco-product-submissions** or **data> ecigarette-product-submissions** folder,
- ➔ once the file has been restored, you need to force a rebuild of the local database by deleting the four following files from the data folder:

- ➔ restart the tool.

The restored file will appear back in the list of products.

## 4.3 Add your attachments to the XML Creator Tool

From the “**Attachments**” page, you can create attachments and load them in the XML Creator Tool. “Attachment” refers to any document providing some specific information about your product that you wish to add in your product submission, *e.g. the description of the measurements methods used to assess emissions*.

- ➔ Click on the “**Attachments**” tab in the top navigation menu and then on “**Add a new attachment**”.
- ➔ Select the file that you wish to add from your computer and click on “**Save**”:

N°	File	Reference	Confidential	Modified Date	Status	Actions
1	techFile.pdf	416a819e-f222-47de-bd78-d0e9476a959c	No	2022/08/17	CREATED	Edit Export
2	researchFile.txt	a44f8f20-ba98-4cff-b366-14ec75aed53c	No	2022/08/17	CREATED	Edit Export
3	readme.txt	a6e8916d-5074-48c7-a29e-594fb1ac1e20	No	2022/08/17	VALIDATED	Edit

Your files will be added to the list of attachments and you will be able to use them within your product submission(s).

## 4.4 Manage your ingredients repository

From the tab “**Ingredients repository**” you can create your own database of ingredients (e-cigarettes only) or *Other* ingredients (tobacco products only) and use it to easily add ingredients to a product, thus avoiding repetitive actions when dealing with multiple products and multiple ingredients.

Here are the main actions you can perform from the “**Ingredients repository**” tab:

### ➔ View

Click on “**Ingredients repository**” on the top navigation menu to view your complete ingredient repository:

N°	Name	CAS number	FEMA num...	Additive number	FL number	EC num...	Status	Modified Date	Actions
1	Glycerol	5111155-67-5	2940			200-193-3	VALIDATED	2022/08/17	
2	test ingredient			E1234			CREATED	2022/08/17	
3	Nicotine	5411556-22-1	2525		FL11.212	211-892-8	VALIDATED	2022/06/28	

 **IMPORTANT:** Please remember that this list only contains ingredients that you have added in the repository and **not** all ingredients that you have separately added in your products. To see the full list of a tobacco product’s *Other ingredients*, refer to the product’s “**Other ingredients**” tab under “**Tobacco Product Submissions**”, as shown below (similarly, for an e-cigarette submission, refer to the product’s “**Ingredients**”):

N°	Name	Category	Function	CAS number	FEMA number	Additive number	FL number	EC number	From repository
1	Propylene	paper (burnt)	Carrier	568151-22-1					N
2	Glycerol	tobacco (burnt)	Additive Enhancer	5111155-67-5	2940			200-193-3	Y - 2022/08/17

## → Add new ingredient

1. Click on “Add a new ingredient” to create a new entry in your ingredient repository:

EU-CEG XML Creator version 1.6.0

Welcome Submitters Tobacco Product Submissions E-Cigarette Submissions Attachments **Ingredients repository**

LIST OF INGREDIENTS + Add a new ingredient

N°	Name	CAS number	FEMA num...	Additive number	FL number	EC num...	Status	Modified Date	Actions
1	Glycerol	5111155-67-5	2940			200-193-3	VALIDATED	2022/08/17	
2	test ingredient			E1234			CREATED	2022/08/17	
3	Nicotine	5411556-22-1	2525		FL11.212	211-892-8	VALIDATED	2022/06/28	

2. Fill in the relevant fields for the specific ingredient.

3. Complete the process by **validating** and **saving** your newly created ingredient:

EU-CEG XML Creator version 1.6.0

Save

This information will be saved for this ingredient and used whenever chosen for your future product entries.

This ingredient template has already been applied to some of your products. To reflect these changes you will need to update the ingredient information manually in those products. The product IDs affected are:

99905-20-98787 / 99905-20-12345 / 99905-20-96325

Click "Copy product IDs" to copy all the product IDs to your system clipboard (and paste it in any text editor tool to keep them).

Copy product IDs Ok Cancel

You may choose to update it manually in each of the products separately, in which you wish to reflect the modification. To do this update, select the ingredient inside the correct product and click **"Update the ingredient with the last information in the repository"**:

## 5 eTrustEx

After you have created the XML file, you have to submit it to the EU-CEG system using **eTrustEx**.

➔ Go to eTrustEx - <https://euceg.ec.europa.eu/etrustex/>

If you are not logged into your EU Login account, you will need to insert your EU login credentials:

**NOTE:** The access to eTrustEx will only be possible once your party identifier is issued. You will receive a “non-permitted” error in case you try to access to it before the issuance of your party identifier:

You are not a registered user of the e-TrustEx application.  
Please contact the administrator to request access to the application.

If you need help, you can contact the EU-CEG support: [SANTE-EUCEG-ITSUPPORT@ec.europa.eu](mailto:SANTE-EUCEG-ITSUPPORT@ec.europa.eu)

Once connected to EU login, you will be automatically redirected to the eTrustEx website.

**NOTE:** By September 2025, we will be implementing EULogin 2-factor authentication for enhanced security. To ensure uninterrupted access, please review the setup instructions available [here](#) on how to configure your account.

We also remind you to store your credentials in a secure manner, such as using a trusted password manager or a well-protected physical location.

The first page of eTrustEx is your **Inbox**, here is where you will receive your responses on each file upload attempt:

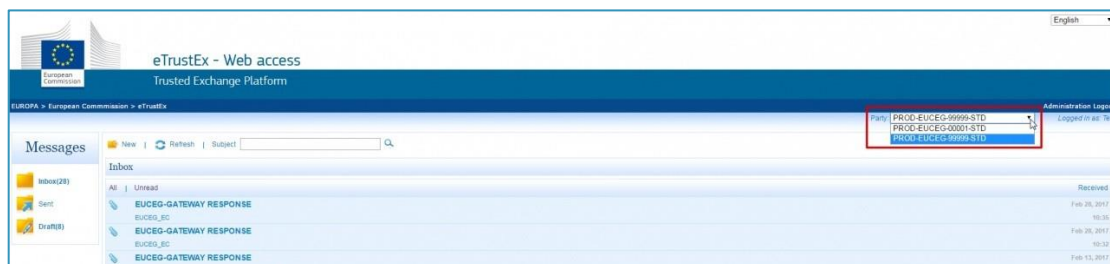

The screenshot shows the eTrustEx - Web access interface. The page title is "eTrustEx - Web access" and "Trusted Exchange Platform". The breadcrumb trail is "EUROPA > European Commission > eTrustEx". The user is logged in as "Patrik.FROD-EUCEG-99999-S10" and is logged in as "S10". The interface displays a list of messages in the inbox, all titled "EUCEG-GATEWAY RESPONSE" from "EUCEG\_EC". The messages are sorted by date and time, ranging from Jan 4, 2017, to Nov 28, 2016.

Message Title	From	Received

You are able to see the Party Identifier and the username you are using on the top right corner of the page:

**NOTE:** If you have several Party Identifier registered to your account (if third party, for example) **please verify on which Party Identifier you are connected before submitting anything.** You will be able to switch from Party Identifier by clicking on the Party Identifier itself and the list will appear:

## 5.1 Submit your product information

To successfully submit a product, the data has to be sent through different XML files, **which have to be uploaded in a specific order, and through separate messages in eTrustEx.**

**Step one:** send the "submitter details" XML file. This will "register" your company details in the system. It has to be sent **only once** unless you need to update company information (address, phone, etc.).

**Step two:** send the attachment XML file(s) if you have added attachment file(s) to your product submission.

**Step three:** send the product XML file (tobacco product or e-cigarette):

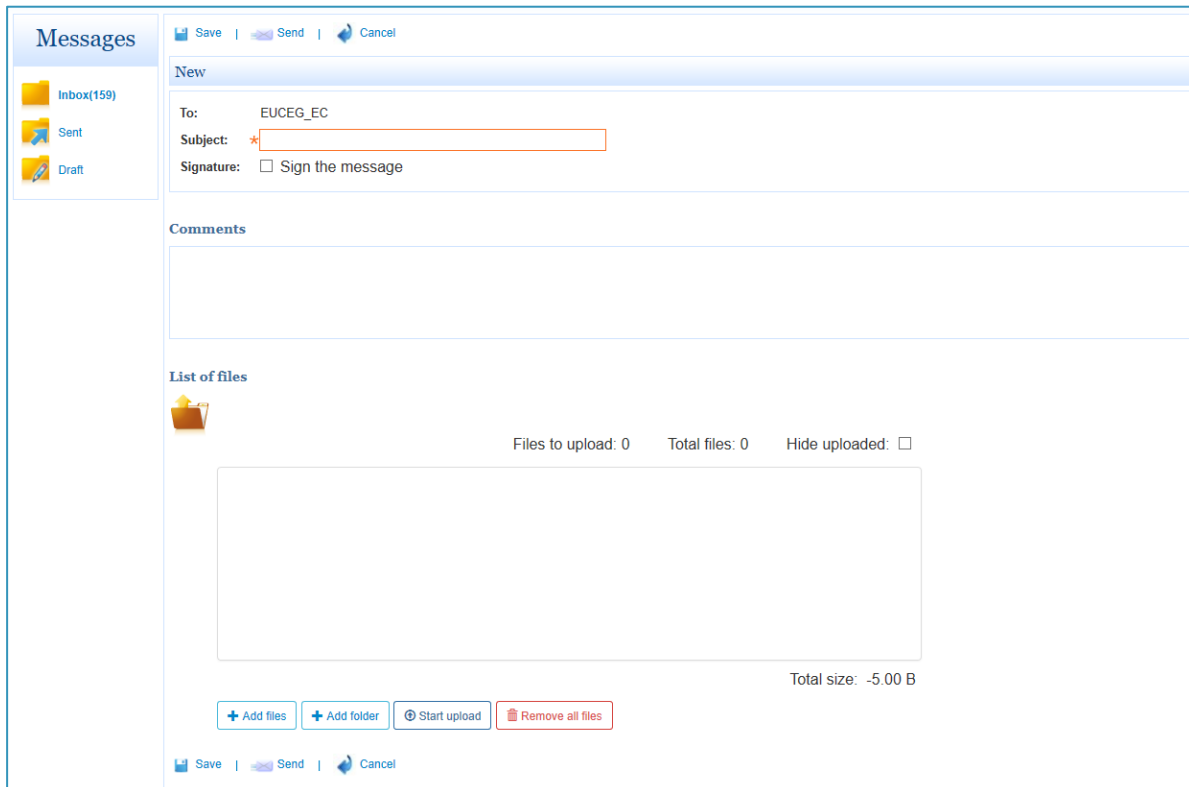

**NOTE:** Failure to respect this workflow will return an error that will be visible in the eTrustEx inbox.

## 5.2 How to upload and send an XML document

➔ From your "Inbox" in eTrustEx, click on "New":

A new page will open up:

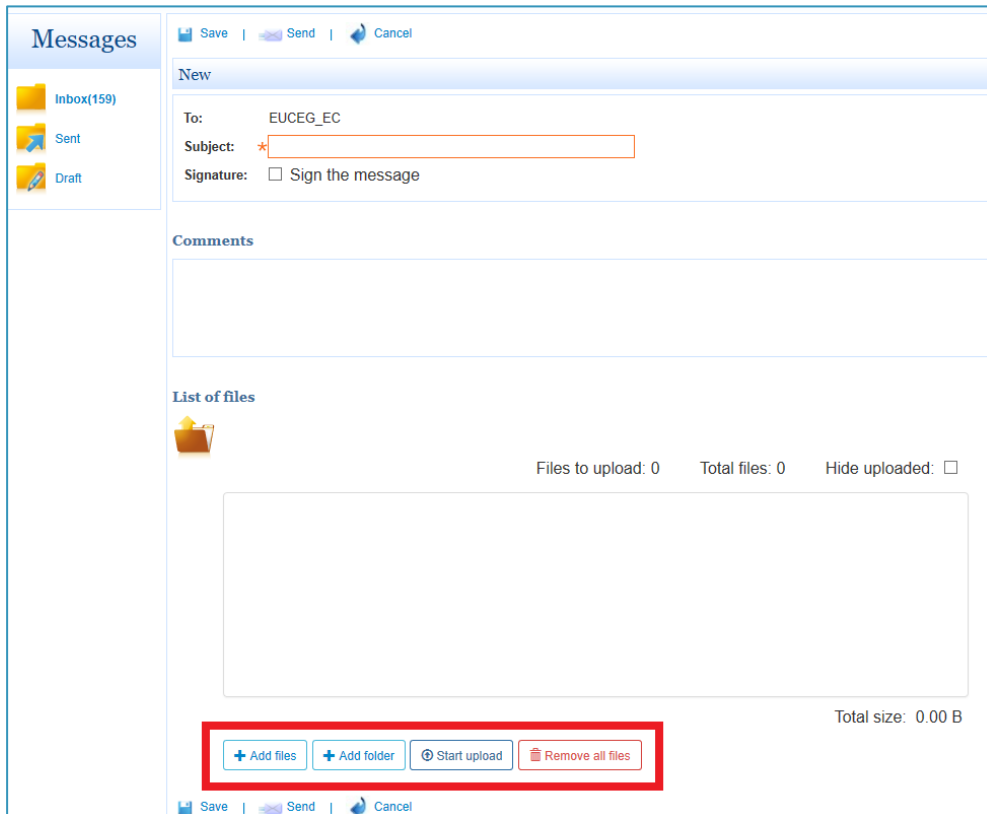

Four buttons at the bottom of the page are available, allowing you to:

**Add files:** to add the XML files one by one.

**Add folders:** to add an entire folder containing several XML documents.

**Start upload:** to complete the upload of the files.

**Remove all:** to remove all the loaded XML documents.

➔ Click on **"Add files"** or **"Add folder"**

➔ Select a document / folder and click on **"Open"**:

The file is added to the files list (**but not uploaded yet**).

➔ Click on **“Start upload”**:

The screenshot shows the 'List of files' interface. At the top, it displays 'Files to upload: 1', 'Total files: 1', and 'Hide uploaded: '. Below this, a table lists the file 'ee521c88-93b8-4c64-9724-0b3106bd8d9d.xml' with a size of '331.00 B' and a red 'x' icon. A red dotted arrow points from the 'Start upload' button to the file entry. Below the table, there are buttons for '+ Add files', '+ Add folder', 'Start upload', and 'Remove all files'. At the bottom, there are 'Save', 'Send', and 'Cancel' options. A dark grey overlay shows a progress bar for 'Preparing' at 99% and 'Uploading' at 0%, with a 'Cancel' button.

Files to upload: 1    Total files: 1    Hide uploaded:

ee521c88-93b8-4c64-9724-0b3106bd8d9d.xml	331.00 B	x
--	----------	---

Total size: 326.00 B

+ Add files    + Add folder    Start upload    Remove all files

Save | Send | Cancel

Preparing 99%  
Uploading  
Cancel

Files to upload: 1    Total files: 1    Hide uploaded:

ee521c88-93b8-4c64-9724-0b3106bd8d9d.xml    331.00 B    SUCCESS    x

Total size: 331.00 B

+ Add files    + Add folder    Start upload    Remove all files

Save | Send | Cancel

You can remove the file uploaded by clicking on the red cross

After the documents have been uploaded, you can add other files or documents.

- Once the XML's documents are loaded into the box, click “**Send**” at the bottom of the page to send your XML file directly to the EU-CEG System:

For each file that you send, you will receive a *response* in your inbox with the details of your submission:

- Check the response provided by the system in your inbox:
- if the response is **[SUCCESS]** it means that the file has been uploaded successfully and it should therefore reach the relevant Member State(s), based on the presentations contained in the product submission;
  - if the response is **[ERROR]**, your file **will not reach the Member State(s)**. If this happens, you need to check the error message, make the necessary adjustments in your submission, and upload the file again. If you have troubles understanding the error message and / or how to fix it, you can contact the support by email at [SANTE-EUCEG-ITSUPPORT@ec.europa.eu](mailto:SANTE-EUCEG-ITSUPPORT@ec.europa.eu)

**NOTE:** Please be aware that simply uploading an attachment in eTrustEx, will not make it visible to the Member State(s). The newly uploaded attachment must be referenced in the product submission, which must then be uploaded again.

### 5.3 Some common errors and how to fix them

Most commonly, when an error shows up, it is due to an empty mandatory field or a field that does not follow the business rule (for example the product ID). However, some errors can also appear later on in the process when you upload your (valid) files through the eTrustEx platform.

Here's a list of some common errors and their solutions:

**<Message>XSD validation failed.</Message>**

This error comes up when the uploaded files are coming from the "data" folder of the XML creator tool, which do not have the correct structure.

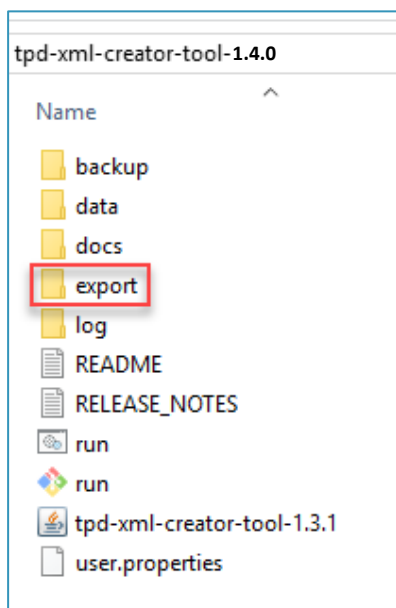

You MUST upload the XML files that are located in the "export" folder of the XML creator tool and not those located in the "data" folder.

Follow the instructions described below:

→ once your XML is validated by the tool, click on export:

You will notice that a new folder called export has been created on the XML creator tool root folder:

Here, you will find the XML files with the correct XSD structure that you can then upload on eTrustEx.

**<Message>Invalid XML document.</Message>**

This error can occur if:

- Your XML file is not a real XML file (e.g. a file with the .doc, .jpeg, etc. extension changed in .xml).
- You have created the XML file yourself, without the XML creator tool, and some tags are missing.
- You have manually edited the XML file created by the XML creator tool and left a mistake.

**NOTE:** that the system only accept XML files.

The validity of the XML is determined by the XSD structure we have set up. You can find the concerned XSD in the CIRCABC online library.

**<Message>The value of the 'SubmissionType' element cannot be '1' because a submission already exists for this product.</Message> (duplicate submissions)**

This error states that your submission already exists in the EUCEG system and the system does not accept duplicate submissions. In other words, you cannot use submission type 1 for a product that was already registered.

Therefore, if this is a new product, you need to change the product ID and submit it again with the same submission type.

If you are trying to notify an update for an existing product, you must resubmit the product and use the appropriate submission type according to the data dictionary below:

Value	Name
1	Notification of information on a new product (new EC-ID).
2	Substantial modification of information on a previously notified product leading to a new EC-ID (with a link to the previous EC-ID).
3	Addition of product presentation (e.g. national market) to an existing product submission.
4	Removal of product presentation, including product withdrawal, from an existing product submission.
5	Update of information on a previously notified product submission at product and/or presentation level not leading to a new EC-ID.
6	Update of information required to be submitted for notified products in regular intervals (annually), such as sales data or actual quantities of ingredients.
7	Correction of clerical/administrative errors in existing product submission.

**<Message>The Submitter with the submitterID 'XXXXX' is not registered yet in the EUCEG system.</Message>**

This error is related to the **submission workflow**: it occurred because you have submitted your product XML file(s) before your submitter ID and / or your attachment XML file(s).

As a reminder, this is the submission workflow:

1. **Submitter ID XML File** (this file has to be uploaded only once, unless you need to change details about your company)
2. **Attachments XML File(s)** if there are any (once the attachment is uploaded, it can be used in the product file and doesn't have to be uploaded again unless you update the attachment in the xml creator)
3. **Product XML File(s)**

Each type of document should be sent through a separate message in eTrustEx following the above sequence (making sure a [SUCCESS] response is returned on each step before moving on to the next one).

**<Message>The 'MethodsFile' element with attachmentID '35981765-3431-43ae-b733-f8df06a53f6a' does not exist.</Message>**

In this example it's the 'Method file' but it could be any attachment.

Just like in the previous example, also in this case, the error is again "**workflow related**". This means that you have sent the product before uploading that specific attachment (the *Method file*, in this case), so you did not follow the workflow. To fix the error, repeat the submission procedure uploading the XML files in the correct order.

As you can see, the error messages are self-explanatory which in turn, makes errors easy to solve but in case you need some additional help, you can always reach out to the EU-CEG support by email at [SANTE-EUCEG-ITSUPPORT@ec.europa.eu](mailto:SANTE-EUCEG-ITSUPPORT@ec.europa.eu) (please make sure to provide your submitter ID and send a screenshot of the error message).

## 5.4 Add a new user in your Organisation

You need a **local Party Administrator** to administer users on behalf of your Organisation.

The first local Party Administrator of your Organisation (**you**) is set-up by the Commission. Once this person has been granted access, you will be able to administer users independently from the services of the Commission.

**NOTE:** It is recommended to setup a "back up" administrator

When adding users you have to assign them a "role". The role will define what usage rights they will have in the application.

**There are two types of role available:**

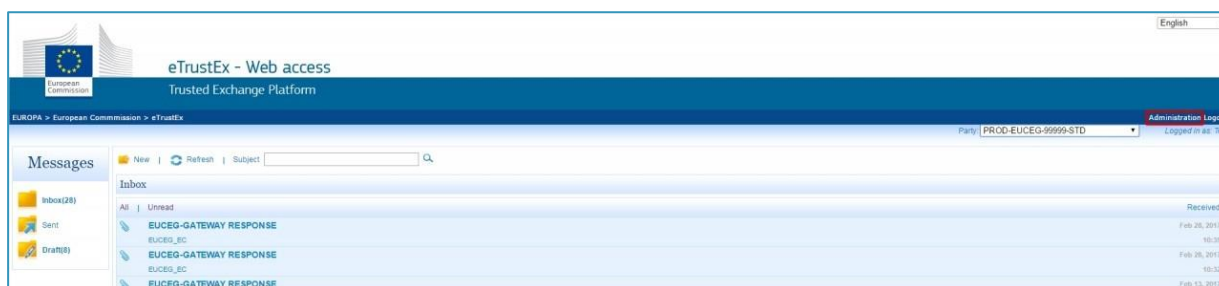

**Operator:** this role allows you upload files and view the response messages of your party (or parties).

**Administrator:** this role grants you "Operator" rights but also the ability to grant Operator and Party Administrator roles to other users for your party (or parties) in the system.

**NOTE:** The new user will need to have an EU Login account to have the ability to be added on the organization

➔ Click on "**Administration**" next to "**Logout**", at the top right corner of eTrustEx web page:

You will be redirected to the Administration page. Here you can see the configured users of your organization (only you, by default).

**NOTE:**

- It is possible for a Party Administrator to have access to multiple parties. If this is the case for you, open the dropdown list to display the list of all your administered parties. Otherwise, you will only see your single party already displayed:

The screenshot shows the 'Administration' page with tabs for 'Party', 'Business', and 'System'. The 'Party' tab is active. Below the tabs, there is a 'Party' field with the value 'ACC-EUCEG-99905-STD' and a dropdown arrow. This dropdown arrow is circled in red. To the right of the dropdown is the text 'GENERIC'. Below this, there is a section titled 'Send notifications to functional mailbox' with a help icon. Underneath are two checkboxes: 'Message notification' and 'Status notification', both of which are unchecked. At the bottom right, there are 'Save' and 'Add user' buttons.

- If you have another functional mailbox, you can add it in the fields highlighted below. When a new message arrives, a notification is sent to this mail address:

This screenshot is similar to the previous one, but the 'Send notifications to functional mailbox' section is highlighted with a red rectangular box. Within this box, the 'Message notification' and 'Status notification' checkboxes are circled in red. The 'Party' dropdown and 'GENERIC' text are also visible. The 'Save' and 'Add user' buttons are at the bottom right.

- You can choose if you want to receive a notification only when a submission is done (message) or when your profile (status) change, or you can choose both options. **The checkbox needs to be activated.**

→ To add a new user in your organization click on "**Add user**":

Party

Party ACC-EUCEG-99905-STD

Send notifications to functional mailbox

Message notification   ?

Save  
Add user

Administrators

Name	ECAS Unique ID	Message notification	
		<input type="checkbox"/>	✗
test user	test_user	<input type="checkbox"/>	✗
test user2	test user 2	<input type="checkbox"/>	✗
		<input type="checkbox"/>	✗
		<input type="checkbox"/>	✗
		<input type="checkbox"/>	✗

A pop-up window will appear.

1. Type the full name of the user
2. Enter the ECAS (EU Login) Unique ID (UID : "Unique identifier at the Commission") as provided by the user

**NOTE:** the user must provide you the UID and not their login username, the UID can be find on their EU Login account details page and generally starts with the letter "n\*\*\*\*\*"

3. Optionally, you can enter an email address. **This is only** if the user wishes to receive a notification email when a product has been submitted or the status has been changed. You can choose both options. If this is the case, select the checkbox to activate the email features
4. Enter a role for the new user:

**Operator:** this role will allow you to view messages for the selected party.

**Administrator:** this role will allow you to view messages and administer the users of the selected party.

- Click on **"Save"** to confirm the new user.

The user will be added in your organization, any changes to the roles will be activated at the next login for that user.

#### 5.4.1 Additional actions

##### Edit user:

- Click on the name.

A popup window will open the form, where you can modify the values of the selected user.

##### Delete user:

- Click on the icon to the right of the user.
- A popup window appears to confirm the delete.
- Click on **"Remove"** to confirm the delete of the user

**NOTE:** Make sure to keep at least one "Administrator" otherwise you will not be able to access to eTrustEx and you will have to contact the support team that will restore the administrator used in the registration form.
