BLAISE INSTRUCTION: Details

, in 2019 SILC questionnaire there is a question Change_Mth. This question replaces Change_Mth. In the 2019 questionnaire if Change_Mth=1 then interviewer is asked to key the month of the interview Mth_StusQ. You can keep Mth_StusQ in 2020. Could this variable be populated from the system date on the tablet e.g. if March 2020 interview then Mth_StusQ=3. Keep CurrYear and PrevYear questions but make the following changes If proxy, then substitute 'were you' with 'was Name' in question text e.g. if Mth_StusQ=3 then first CurrYear question is 'In February this year were you' so if proxy and respondent is John then question is 'In February this year was John' In current SILC questionnaire we only ask for activity for the 12 months prior to value keyed for Mth_StusQ e.g. if March 2018 interview then Mth_StusQ=3, then we ask for activity for all 12 months immediately preceding March 2018. So, first question is 'In February this year were you' and last (12th) question is 'In March last year were you'. In 2020 questionnaire we need to ask all PREVYEAR questions, so in this example we would also have to ask, 'In February last year were you' and 'In January last year were you'
