2011: The International Year of Chemistry

- An initiative of IUPAC, the International Union of Pure and Applied Chemistry and UNESCO, the United Nations Educational, Scientific and Cultural Association
- Both organizations jointly oversee the deployment through a Managing Committee where ICCA represents the chemical industry
- IYC 2011 is a worldwide celebration of chemistry and its contributions to the well-being of humankind
- Both ICCA and Cefic fully support IYC 2011 as a unique opportunity for all stakeholders to improve the image of chemistry

Objectives (IUPAC - ICCA)

- Increase public understanding and appreciation of chemistry in meeting world needs (reputation)
- Encourage interest in chemistry among young people (attractiveness)
- Generate enthusiasm for the creative future of chemistry (sustainability & innovation)
- Celebrate the 100th anniversary of Marie Curie Nobel Prize in Chemistry and the 100th anniversary of IUPAC (role of women in science)

3

Theme and key messages

Theme: Chemistry – our life, our future

Key messages: chemistry enabler of solutions

- Fighting Climate Change
- Safeguarding Water Resources
- Securing Food Supply
- Protecting Health

Global experiment on the theme « Water, a chemical solution »

- > targeting school children worldwide
- > aiming at developing their interest in science
- > using tests adaptable to local conditions around the globe

5 Global Events

- Opening ceremony in Paris at Unesco headquarters on 27/28 January
- World Chemistry Leadership meeting during IUPAC congress in Puerto Rico on 2 August
- Biofuels Conference in Malaysia in November
- East African Conference on SAICM Implementation (date tbc)
- Closing event in Brussels on 1 December

5

Opening ceremony Paris (27/28 January)

- Chemistry in a historical perspective (since China ...)
- Chemistry and women in science
- Worldwide trends and perspectives
 - . Millennium Goals and People, Planet, Profits
 - Food
 - Health
 - New Materials
 - Energy
 - Environment and Climate
 - Economic and Social Aspects
- Debate with academics, industry people and students
- Press Conference

Closing Ceremony Brussels (1 December)

- Morning: Interactive media-friendly event
- Afternoon
 - The world in 2050 our expectations from the life sciences, industry and governments to build a better world by 2050 – prepared by a group of young people / scientists
 - Response by 2 scientists
 - Debate with scientists, CEOs, 1 NGO and 1 politician, 1 representative of the Trade Unions (TBC), moderated by a top level journalist
 - VIP dinner at the Métropole (IUPAC 100 years)
 - Report on major events and the global experiment?

7

Industry commitment needed

- Federations and companies to work together at national level
 - to develop activities in line with IYC objectives
 - to fund them when and where it makes sense
 - to help defining partnerships
- Take all opportunities in 2011 to celebrate chemistry and help to improve our reputation as solution providers, making also the best use of existing initiatives
- Share all ideas, programmes, promotional materials, good examples, guidelines

National Associations already preparing IYC in Europe

- Austria
- Belgium
- Estonia
- Finland
- France
- Germany
- Greece
- Italy

- The Netherlands
- Norway
- Poland
- Slovakia
- Spain
- Sweden
- Switzerland
- Turkey
- UK

and others hopefully very soon ...

9

Activities under preparation by AFEMs

Partnerships

- Trade Unions
- Trade Fairs
- · Professional Associations of Chemists (IUPAC and others)
- · National Academies of Science
- Academia and Faculties of Chemistry
- Scientific Research Councils
- Museums and Science Centres (members of ECSITE)
- National Societies of Chemistry
- National / regional ministries of Education (SchoolNet for global experiment)
- Downstream users through the Value Chain
- · National representatives of Unesco / SAICM
- · Science Centres and museums
- Press/Media
- More partners = more interest from media

Types of activities/initiatives under preparation by AFEMs

- Promotional Elements
- Institutional Events and Actions
- Society and Media involvement
- Science, Education and museums involvement

11

Promotional elements & Institutional Events

Promotional Elements

- IYC logo promotion or local adaptation: Austria, France, Spain
- Commemorative postage stamp: Germany, Spain
- Commemorative book: Germany, Spain (11 Ideas to change the World with chemistry)

Institutional Events & Actions

- National opening or closing events or special General Assembly: Belgium, Finland, France, Germany, Spain, Switzerland, UK
- Other events: Greece, Spain (reception with King and Parliament)
- Creation of a foundation: The Netherlands

Society and Media

- Participation in Events / Fairs: Spain (Expoquimia)
- . Open doors and visits to plants: Belgium (May), Germany, Switzerland, Turkey
- Advertising campaigns: Austria, Spain, Turkey
- Exhibitions, congresses & conferences/debates: Finland, France, Italy, The Netherlands, Spain, UK (chemistry meeting global challenges, women in chemistry)
- Photography contest: Spain, CZ (Bohemia project?)
- Special website promotion: Spain, Switzerland, Turkey of course a recommendation to all of us
- · Linking chemistry with sport stars
 - · tennis star: Spain
- Long-distance races (10/20 km) through chemical plants: The Netherlands
- · Celebrating role of women in chemistry: UK, Poland
- Responsible Care Awards: Cefic
- Special Reports/brochures: Responsible Care, CSR (Spain, Belgium?),
 Competitiveness Reports, Innovation (Spain), Sustainability (Switzerland), etc.
- · Special media programme: Finland, Switzerland

13

Science, Education, Museums

- "Chemistry weeks": Austria, Belgium, Italy (food and nanos)
- · Travelling science circus, chemistry truck: Finland, Germany
- Olympics of chemistry/competitions: Greece, Italy, Spain (including Business Awards), Switzerland (chemistrt poster contest)
- (High School) Teacher trainings, school materials: Spain, Turkey School visits: UK, Turkey
- · Videos for schools: Austria, Italy
- New museums, new departments: Germany, Spain
- Science & Research Awards: Spain, UK
- SUSCHEM Young Chemist Research Awards: Spain
- Events / websites focusing on Careers / Chemistry Vocations Programme: Spain (500 high schools), UK (future forum)
- "Meet the Boss" actions: Belgium/Netherlands, UK (schools visits by CIA Chief)
- · University events & lectures: Finland
- Wonderlabs and experiments: The Netherlands
