

Responsible Care –programme in Finland

Taru Reinikainen
National Officer

Co-operation and continuity shown in every day actions

- The well-being of the personnel is the responsibility of the entire work community.
- Co-operation between the management and the employees is needed for maintaining well-being at work.
- Safety culture often reflects the attitudes, beliefs, perceptions and values that employees share in relation to safety
- Everyone has the right to get home from work in good health!
- The social partners in Finland chemical industry are:
 - [Chemical Industry Federation of Finland](#)
 - [Industrial Union TEAM](#) (blue collar workers)
 - [Trade Union Pro](#) (white collar workers)
 - [Federation of Professional and Managerial Staff YTN](#) (academics)

Responsible Care - Our Commitment to Sustainability

- Programme covers all fields related to the sustainability. Programme covers a total of 97 companies, 80% of the sector's turnover and 60% of the staff. It is expanding into new chemical industry sectors and different companies.
- Results have been systematically monitored with metrics covering.
- Programme is a platform for unique cooperation with Chemical Industry and trade unions. The Chemical Industry Federation of Finland is coordinating the execution of the programme. Trade Unions are involved in monitoring and developing the programme.
