H- INFORMAL LEARNING

Next, I will ask you about a different kind of learning, from those we have been talking about. It has nothing to do with school, or with that kind of learning where you have a teacher, tutor or monitor, with classes taking place in a classroom or a similar place. I am asking you to think about that kind of learning that you get outside school, and where the motivation to learn something came from you (self-learning), in your free time or in your work time. Finally, I would like to ask some questions about your parents:

The reference period for those variables is when the interviewee was a young teenager, between the ages of 12 and 16. If the respondent hesitates or asks for a specific age, the age of 14 should be used. Any changes that occurred after the reference period should not be taken into account; the interviewer must accentuate the fact that the reference period is when the interviewee was a young teenager.

N4. When you were a teenager, what was the highest completed level of education of your mother/guardian?

The reference period for those variables is when the interviewee was a young teenager, between the ages of 12 and 16. If the respondent hesitates or asks for a specific age, the age of 14 should be used. Any changes that occurred after the reference period should not be taken into account; the interviewer must accentuate the fact that the reference period is when the interviewee was a young teenager.
