European Water Conference
20th and 21st September 2018
Museums Quartier Vienna

Source: <https://www.mqw.at/besuch/anreise-und-uebersichtsplaene/mq-arealsplan/>

The conference is co-hosted and organised jointly by the Austrian EU Presidency and the European Commission (DG ENV). The Conference will be open to all those working and having a stake in the field of water management. The focus will be on the presentation and discussion of the findings and conclusions of:

- the report from the Commission to the European Parliament and the Council on the Implementation of the Water Framework Directive River Basin Management Plans and the Floods Directive Flood Risk Management Plans;
- the European Environment Agency's (EEA) 2018 State of Water report;

- the public consultations on the Water Framework Directive, Floods Directive and Urban Waste Water Treatment Directive (to be launched in the first half of 2018) as part of the water 'Fitness Check' evaluation process.

The outcomes from the conference will feed directly into the public consultation for the above-mentioned water 'Fitness Check' which will be ongoing at that time.
