TRAde Control and Expert System

Release note

Version 6.36.00

Installation date: 18/07/2017

*Intended for
TRACES users*

Table of contents

I.	INTRA	3
I.1.	Estimated journey time	3
I.2.	Animal welfare and transport	3
I.3.	Place of inspection	4
I.4.	Notification and control post	4
I.5.	Bovine and BOVEX	5
I.6.	Registered equidae and optional boxes	5
I.7.	Acknowledgment of receipt	5
II.	DOCOM	5
II.1.	Acknowledgement and identification of the consignee	5
II.2.	DOCOM and movement inside a Member State	6
III.	CVED	6
III.1.	SLVU and search of CVEDA	6
III.2.	Notification and laboratory tests results	6
III.3.	RASFF access, RCA and RCCA	6
IV.	IMPORT	6
IV.1.	Column "Storage life"	6
V.	EXPORT	7
V.1.	country of destination and model of certificate	7
V.2.	Place and country of origin	7

I. INTRA

I.1. ESTIMATED JOURNEY TIME

The control of the date and journey time towards transfer and control points is calculated by TRACES considering the date of departure indicated in box I.15. "Date of Departure (dd/mm/yyyy)" and estimated journey time specified in box I.29. Until now TRACES the time passed at transfer and control points were not taken into account. Henceforth this time is included and now the date of arrival is mandatory.

I.2. ANIMAL WELFARE AND TRANSPORT

If the means of transport is modified at the control point it is now possible to indicate a second transporter (box I.17) and a second vehicle (box I.16). This information will be printed on the route plan. From now on it is also possible to indicate a trailer number.

I.17. Transporter

Name:	ALLIANCE BETAÏL
Type:	Commercial transporter
Address:	Le Creusot BP 13
Postal Code / Region:	25510 Pierrefontaine Les Varans

III.13. Place of inspection

Airport
 Approved body
 Assembly centre
 Control post
 Dealer's premise
 Enroute
 Establishment
 Exit point
 Holding
 Other
 Port
 Semen centre

1.4. NOTIFICATION AND CONTROL POST

Users linked to the control post and competent authorities responsible for the control post will now receive the automated notifications concerning arrival of the consignment.

I.5. BOVINE AND BOVEX

In box I.31. "Identification of the animals" for INTRA bovine certificate (64/432 F1), a column "Bovex corresponding passport state" has been added. This allows the Member States using BOVEX to get the information about the different steps of electronic data exchanges between their bovine identification database. The BOVEX transmitted values are: "submitted", "Retrieved", "Retrieved and acknowledged", "Retrieved and automatically acknowledged", "Not retrieved", and "Recalled". They are updated depending on the integration of the data in the national databases. This column is not printed out.

I.31. Identification of the animals		
Official identification	Passport number	Bovex corresponding passport state
1. FR123456789	FR123456789	

I.6. REGISTERED EQUIDAE AND OPTIONAL BOXES

In case of the attestation 2009/156 All Registered equidae, the following boxes are no longer mandatory: I.5. "Consignee", I.13. "Place of destination" and I.17. "Transporter".

I.7. ACKNOWLEDGMENT OF RECEIPT

In order to permit the Economic Operator at destination to inform about the arrival of the animals, a new tab "acknowledgement" has been added.

Acknowledgement	I.13. Place of destination
Arrival of the consignment: <input checked="" type="radio"/> Yes <input type="radio"/> No Conformity of the Consignment: <input checked="" type="radio"/> Yes <input type="radio"/> No Date of the Acknowledgement: 6/29/17 2:29 PM User that has acknowledged: EO20.PT@traces-cbt.net	Name: VR88M Type: Ovine/Caprine holding (EX) Approval number: VR88M Address: VR88M Postal Code / Region: 1350 Lisboa Country: PT Portugal

II. DOCOM

II.1. ACKNOWLEDGEMENT AND IDENTIFICATION OF THE CONSIGNEE

From now, the user that has acknowledged the reception of the DOCOM, appears with the link of his profile in the new section "Acknowledgement" in the tab "Acknowledgement" of a DOCOM under the "Date of the Acknowledgement".

Acknowledgement
Arrival of the consignment: <input checked="" type="radio"/> Yes <input type="radio"/> No Conformity of the Consignment: <input checked="" type="radio"/> Yes <input type="radio"/> No Date of the Acknowledgement: 6/29/17 2:29 PM User that has acknowledged: EO20.PT@traces-cbt.net

II.2. DOCOM AND MOVEMENT INSIDE A MEMBER STATE

From now, even in the case of movement at a national level, the second part of a DOCOM, materialized by the tab “certification”, appears and has to be validated by the economic operator. The same applies for the tab “acknowledgement” available at the signature by the consignee.

Within the framework of the section E of regulation 893/2017 as regards the provisions on the exportation of processed animal protein, the border inspection posts can now acknowledge and control any DOCOM, whatever the origin of the goods, national or from another Member State.

III. CVED

III.1. SLVU AND SEARCH OF CVEDA

Users linked to a SLVU can now access to CVEDA when the SLVU is the authority of the place of destination.

III.2. NOTIFICATION AND LABORATORY TESTS RESULTS

When in the tab “Laboratory tests”, the option “Not interpretable” is selected, no reminder is sent anymore if the definitive result of the laboratory test has been introduced in the tab “Checks”

III.3. RASFF ACCESS, RCA AND RCCA

Regional competent authorities (RCA) and restricted central competent authorities (RCCA) now have access to the information of the RASFF alerts through the search screen of CVED and through the tab “RASFF” from the CVED’s

IV. IMPORT

IV.1. COLUMN “STORAGE LIFE”

All characters entered into the field in the column “storage life” are now visible in the box I.28. “Identification of the commodity”. These characters were previously only entirely visible in the printed version of the certificate.

V. EXPORT

V.1. COUNTRY OF DESTINATION AND MODEL OF CERTIFICATE

As a country of destination, TRACES only authorizes the selection of the countries concerned by the model of EXPORT certificate. For example, choosing the export certificate for pig meat to Canada, imposes the selection of Canada in the box I.9 “country of destination” or an organisation located in Canada in the box I.12 “place of destination”.

The screenshot shows a form with two dropdown menus: 'I.9. Country of destination:' and 'I.10. Region of destination:'. The 'Country of destination' dropdown is highlighted with a red box and shows 'Canada' selected. Below the dropdowns is a text input field labeled 'N°:' and three buttons: 'Assign', 'Clear', and 'Select'.

V.2. PLACE AND COUNTRY OF ORIGIN

For some models of certificate, it is now possible in the box I.7 to introduce a country of origin different from the country of the place of origin of the box I.11. However, the place of origin still defines the local and central competent authorities (boxes I.3 and I.4). The dropdown menu of the box I.7 “country of origin” shows by default the country of the place of origin.

For now, the concerned models of certificate are all EXPORT certificate to Russian federation and the Eurasian Customs Union.

I.11 Place of origin			
Country Code	Name	Address	Postal Code / Region
ES	Caladero S.L.U.	PL Plaza C/Bari No. 3, 50197 Zaragoza	50001

The screenshot shows a form titled 'Country and region of origin' with two dropdown menus: 'I.7 Country of origin:' and 'I.8. Region of origin:'. The 'Country of origin' dropdown is highlighted with a red box and shows 'France' selected.

T RAde Control and Expert System (TRACES)

TRACES is a multilingual online management tool which notifies, certifies and monitors trade in animals, products of animal origin and feed and food of non-animal origin, as well as of plants, seeds and propagating material.

TRACES is an e-government system, following the requirements of the EU Digital Agenda towards dematerialisation of health documents.
