General Lifestyle Survey 2011

Household and Individual Questionnaires

Preface

The General Lifestyle Survey (GLF) is used by the Office for National Statistics in Great Britain to collect data for the European Union Statistics on Income and Living Conditions (EU-SILC). However, the GLF is not used solely for the purposes of EU-SILC. Other topics are also covered by the questionnaire, including smoking and drinking habits and family information.

This document includes all questions collected on the GLF in 2011.
