## **1. Background Information**

### **1.1 Introduction**

The Survey on Income and Living Conditions (SILC) is conducted by the Central Statistics Office (CSO), in order to obtain information on the income and living conditions of different types of households. The survey also obtains information on poverty and social exclusion. A representative random sample of households throughout the country is approached to provide the required information. The success of the survey depends on the effectiveness of Interviewers in canvassing co-operation and in collecting accurate information from sample households. The survey is voluntary; nobody can be compelled to co-operate.

This survey, since 2004 is conducted throughout the European Union as the European Council and the Commission has given high priority to fight against poverty and social exclusion. The European Union requires comparable and timely statistics to monitor this process.

Data is required in both cross-sectional (pertaining to a given time in a certain time period) and longitudinal (pertaining to individual-level changes over time) dimensions. Therefore certain households are surveyed on an annual basis.

### **1.2 Status and Role of the CSO**

In Ireland the compilation of all official statistics is vested in the CSO. Prior to 1949 the Statistics Branch of the then Department of Industry and Commerce undertook this work. The CSO was constituted as a separate independent Office in 1949. It is located in the Department of An Taoiseach to ensure that it is completely independent of other Government Departments and seen to be an impartial reporter of the facts.

The confidentiality (see 4.4) of all information provided to the CSO by individual respondents is guaranteed by law under the 1993 Statistics Acts. All CSO office and field personnel become "Officers of Statistics" on appointment and are liable to heavy penalties under this Act if they divulge confidential information to any outside person or body. Confidentiality is the very basis of all CSO activity. Extreme precautions are taken to ensure that there are no violations of this principle.

The present Director General of the CSO is Gerry O'Hanlon  
The CSO's addresses and telephone numbers are as follows:

Dublin Office  
Ardee Road,  
Rathmines,  
Dublin 6.

LoCall: 1890 313 414  
CSO on the Web: <http://www.cso.ie>

Divisions include: Human Resources, Agriculture, Industry and Building, Prices, Vital Statistics, Household Survey Collection Unit, Earnings & Employment, Services Statistics, e-Government & Business.

Certain respondents will be interested in the organisation to which they are entrusting such detailed personal details. Interviewers should therefore ensure that they are in a position to generally describe the work of the Office in order to satisfy respondents' curiosity and to allay any fears they may have. Interviewers are not expected to be experts on the various CSO activities. Any requests for specific information should be referred to the Household Survey Collection Unit (HSCU) for attention.

### **1.3 Purpose and Use of SILC Results**

The European Council has given strong support to the eradication of poverty in the European Union. A better understanding of social exclusion is required throughout the European Union. The results of SILC give a very comprehensive picture of income, living conditions and poverty throughout the European Union. The results of SILC play a central role in meeting Irish national requirements in the area of poverty, social exclusion and household income, with particular reference to the National Anti-Poverty Strategy and tax-benefit modelling.

Government Departments make use of the SILC results in shaping policy, which in one way or another directly affects individual households:

## 1.4 Main Features of SILC

Every person aged 16 years and over in a household is required to participate. Two different types of questions are asked in the household survey:

(1) Household questions, which cover details of accommodation and facilities together with regular household expenses (mortgage repayments, etc.). This information should be supplied by the Head of the Household (HOH).

(2) Personal questions, which cover details of items such as work, income and health are obtained from every household member aged 16 years and over. Ideally this information should be collected **directly** from each household member.

## 1.5 CSO Clerical Organisation

The interviewers working on the survey (along with co-ordinators) are responsible for co-ordination of the survey (i.e. co-ordinating Quarterly National Household Survey (QNHS) fieldwork with SILC fieldwork). The SILC staff in the office, where necessary, will contact the individual interviewers concerning any major defects detected (e.g. the quality of the data collected) and verification of particulars may have to be sought from the household in question.

## **2. Sample of Households**

### **2.1 The Sampling Approach**

It would clearly be impractical to visit all households in the country. A sampling approach is used instead and income, living conditions, etc. are quite accurately estimated on the basis of returns made by a random representative sample of households.

The word "random" has a particular meaning in the statistical sense. It does not mean a haphazard or aimless selection. The word describes a systematic method of selecting elements from a list so that they come up purely by chance and that each element has an equal probability of being selected. Human choice or personal judgement is completely eliminated in this selection process.

Consequently, Interviewers will have no say in the selection of the households they approach. These households are selected by the CSO and specified in advance. Interviewers are supplied with a list of addresses, which must be approached in a particular order. "Substitutes" which will be discussed later (4.2) are allowed, but these are also specified in advance and must also be approached in a particular order.

This sampling approach works only if a high response rate is achieved. A high level of non-response by particular categories of households (e.g. high income) will bias the results. Interviewers must, therefore make every effort to achieve as high a response from sample households as possible. If an Interviewer only approaches households in the morning or afternoon on Mondays to Fridays then it is likely that there will be an under representation of households where all adults are working.

### **2.2 Size and Distribution of SILC Sample**

From 2009 in excess of 5,000 households are surveyed. It would be uneconomical to distribute the sample evenly over the whole country. To reduce costs the sample is made up of clusters of households from particular areas. The restriction of the sample to a set of compact geographic areas greatly facilitates interviewing.

### **2.3 Selection of Households for the SILC survey**

The sample design used for the SILC is based on the methodology adopted for the QNHS. The QNHS sample design was based on advice commissioned by the CSO in 1996 from Dr. David Steel, University of Wollongong, Australia.

In 1997 Dr. Steel designed the Irish QNHS as an approximately self-weighting two staged stratified cluster sample. He identified the Primary Sampling Units (PSUs) or Blocks as geographically defined contiguous groups or blocks of households based on Census of Population Enumeration Areas (EA).

The *first stage* of sampling initially involved, for each county, the identification of the primary sampling units (PSU) or Blocks and their stratification into the following eight population density stratum groups:

1. County Boroughs
2. Suburbs of County Boroughs
3. Mixed urban/rural areas bordering on the suburbs of County Boroughs
4. Towns and their environs with populations of 5,000 or over (large urban)
5. Mixed urban/rural areas bordering on the environs of larger towns
6. Towns and their environs with a population of 1,000 to 5,000 (other urban)
7. Mixed urban/rural areas
8. Rural areas

In each county the PSUs or blocks were then selected into the EU-SILC sample taking into account the individual stratum distributions within a county. We selected 1690 PSUs for the SILC sample. The number and stratification of the PSUs or blocks selected at a county level was determined in the following two steps:

### **Step 1**

The number of blocks selected in each county was determined as a proportion of its share of the State's population as recorded at the 2006 COP (i.e. a selection probability proportional to the county's population, e.g. if 10% of the Irish population lived in County Cork then 169 of the selected PSUs were in County Cork)

## Step 2

This step computed the overall sampling interval for the stratum groups in each county. The number of blocks selected for each stratum group within a county was determined as a proportion of their shares of the population in a county (i.e. a selection probability proportional to the stratum group's households within a county, e.g. if 20% of people that lived in County Cork lived in Cork Borough then 34 (i.e. approximately 20%) of the County Cork Blocks were selected from Cork Borough)

These 1690 PSUs were allocated to 130 Interviewer Areas (IAs). Therefore each IA was allocated 13 PSUs. The IAs are managed by 11 Co-ordinators. Each Co-ordinator is responsible for between 12 and 13 IAs and has a complement of Interviewers that collects household data in these IAs.

The second sampling stage involves the random selection of four independent samples of one original and three substitute households for each PSU. Once the second sampling stage is completed labels containing the addresses of the sample and substitute households are issued by Head Quarter staff to each Co-ordinator and these are then distributed to the Interviewers. In the case of longitudinal labels (i.e. labels that refer to households that were also interviewed in year N-1) the names of the contact persons are also included on the labels (assuming that these details were collected at interview in year N-1).

The original sample household constitutes the quota of co-operating households to be realised in each PSU. In a case where the sample household is not interviewed e.g. a refusal, the interviewer should systematically approach as many substitute households as is necessary (up to a limit of 2) to realise their quotas. In this fashion, variations in response by region and town size are controlled

### 3. Blaise Questionnaire

This manual is designed as a technical document to accompany the SILC electronic questionnaire, primarily for the use of CSO field staff.

Most of the questions in the manual reflect the technical specification of the SILC specified by Eurostat under Article 10 of Regulation (EC) N° 1177/2003 of the European Parliament and of the Council concerning Community statistics on income and living conditions (EU-SILC), published on 3 July 2003 in the Official Journal of the EU (OJ L165), However, the survey also includes questions that are specific to Ireland.

#### Electronic questionnaire

THE SILC IS CARRIED OUT ON LAPTOP COMPUTERS USING AN ELECTRONIC QUESTIONNAIRE THAT ALLOWS QUESTIONS TO BE SELECTIVELY ASKED TO FIT THE PROFILE OF THE RESPONDENTS (E.G. WORKING VS NOT WORKING).

The order of the questions in this document roughly mirrors the flow of questions in the electronic questionnaire, but some variation is to be expected.

#### Notes

The notes that accompany each variable are a combination of on-screen notes that appear on the laptop and supplemental notes for reference purposes. The variable notes are a combination of our own country-specific experiences and scenarios.

The notes are designed to standardise interviewer interpretation of the questionnaire and maximise data quality and reliability. The notes in this manual are presented for the information and use of field interviewers and do not necessarily represent official CSO policy.

#### Filters

Most of the variables on the questionnaire are accompanied by a *filter*. The filter is a description of the route through the electronic instrument which leads to this particular point on the questionnaire. In the example below, the NATIONAL question is asked if the IRISHNAT question has a value of 2. In other words, if the respondent is not an Irish national (IRISHNAT=2) we ask for his\her nationality (NATIONAL).

➤ **NATIONAL**  
*If IRISHNAT = 2*  
*If the respondent is not an Irish citizen*

While the filter provides a good indication as to how a particular question is activated on the electronic instrument, this does not reflect the entirety of the complex programming and routing that underlies the questionnaire.

**Important**

While every effort has been made to ensure that this manual is as accurate as possible, it is important to remember that the SILC is a constantly changing and evolving instrument and some differences may exist between the manual and the electronic questionnaire. Furthermore, it is impossible to reflect every single nuance of an electronic questionnaire in print, so the filters should be seen as indicative of how the questionnaire operates in the field rather than a definitive overview.

### 3.1 Presentation of Questionnaire

The descriptions of the SILC questions, in this manual, are presented as outlined below.

The variable name is highlighted by a bullet point and the text contained in brackets roughly describes what the question aims to capture. The text in brackets is NOT what is asked by Interviewers and is only useful when using the index (as this text broadly indicates what the question is about)

The ask condition is in italicised text immediately below the variable name

This text within the box is what the interviewer sees on the laptop computer for each question.

Allowed value(s). This is what the Interviewer keys as an answer

➤ **Hist (History (i.e. temporarily absent or resident in household))**

*Ask if Can\_Int=1*

*If the Interviewer can continue to interview the household*

***Please indicate <Name> usual situation by selecting the appropriate code.***

1. The person is a household member and has spent (will spend) at least one night at this address during the week of the SILC interview
2. The person is a household member but he/she is temporarily absent (i.e. has not spent (will not spend) at least one night at this address during the week of the SILC interview)
3. This person has moved since the last SILC interview
4. This person has died since the last SILC interview

#### 4. Household Details

➤ **BLOCKNO (Block number or Primary Sampling Unit (PSU) number)**

*Please enter the Block number.*

Enter a numeric value between 90000 and 92601

**Note:** This is the unique 5-digit number assigned to a Block. The SILC sample is selected from the 1996 QNHS sample. A SILC Block No is made up of the old QNHS Block No (from the 1996 QNHS sample) and a leading 9. If the Old QNHS Block No was 1666 then the SILC Block No is 91666. The Block numbers appear on the labels.

➤ **LDU\_NO (Dwelling sequence number)**

*Please enter the Household number.*

Enter a text of at most 3 characters

**Note:** This is the 3-digit number within a block, which is unique to the dwelling unit. This is essentially the number of the household within the Block; numbers typically run from 001 to 075. (It is NOT the street house number)  
The BLOCKNO and LDU\_NO together form a unique identifier for each household in the SILC sample.

➤ **Quarter**

*Which Quarter does this entry refer to?*

1. Quarter 1
2. Quarter 2
3. Quarter 3
4. Quarter 4

➤ **WRONGKEY (Error message when household is not in lookup file)**

*If an Interviewer keys in the incorrect Block number, LDU number and Quarter combination, an error message will be activated.*

***The program has been unable to find the Block Number, LDU Number combination you have entered in the lookup data files. This could mean one of three things.***

- 1. You have keyed in the wrong Quarter***
- 2. You have keyed in the wrong Block Number LDU Number combination***
- 3. A new LDU was issued to you by your co-ordinator***

***If the reason is because of 1 or 2 above please re-key correct values, otherwise please Key 9 to continue.***

Enter a numeric value between 9 and 9.

**Note:** From Quarter 1, 2008 there is a lookup data file, which contains the Block Number, LDU Number and Quarter to which the LDU has been assigned. Occasionally, new LDU numbers will be issued by the SILC section, e.g. if all the originally issued LDUs for a particular Block were vacant. Obviously in such a case the new LDUs would not be in the lookup file and the Interviewer should key 9 (as advised) to continue.

➤ **Sample\_Hse (Sample house or substitute house)**

***Is this household a 'sample household' or a 'substitute household'?***

1. Sample household
2. First substitute household
3. Second substitute household

**Note:** There are 2 substitute addresses supplied for each sample house.

➤ **Visit\_No (Visit number from grid)**

<b><i>Please enter the Visit Number for this BLOCK.</i></b>
1. First visit 2. Second visit 3. Third visit 4. Fourth visit

**Note:** This is the visit number as indicated by the interviewer's Grid, which is given to the interviewer by his/her co-ordinator. Please ensure that you key in the correct **visit number** for the BLOCK. If you do not key in the correct **Visit\_No**, the question as to whether the household will participate in SILC in the following year may not be asked. The visit number in many cases is a notional visit number, for example a household may be visit number 4 even if it is the first time the household is visited for SILC purposes.

➤ **INTWRNO (Interviewer number)**

<b><i>Please enter your Interviewer number.</i></b>
Enter a text of at most 4 characters

**Note:** Full-time interviewer numbers run from 0001 to 0499, while back-up numbers start at 0501.

➤ **IA\_Num (Interviewer Area (IA) number)**

<b><i>Please enter your Interviewer Area (IA) number.</i></b>
Enter a text of at most 3 characters

➤ **Week**

***Which Week does this entry refer to?***

Enter a numeric value between 1 and 13

**Note:** The value keyed in for week should be the week as specified by the co-ordinator for the particular block i.e. the week to which the Block is assigned and not necessarily the week in which the household is approached.

➤ **Int\_Cntact (Interviewer contact at the address)**

***PLEASE RECORD CONTACT AT ADDRESS***

1. Address contacted
2. Address cannot be located
3. Unable to access address
4. Address does not exist or is a non-residential address or is unoccupied or not a principal residence
5. Address not needed

**Note:** This variable should be coded FOR ALL ASSIGNED (i.e. both sample and substitute) LDUs. If the sample house for a specific block in a given **Quarter** is interviewed, then in the case of this variable, a value of 5 is keyed for the three substitute houses (i.e. address not needed). These LDUs can then be used in future SILC samples.

➤ **YEARX (Year of the survey)**

This is entered automatically by the system.

➤ **Can\_Int (Can interviewer interview the household)**

Ask if *Int\_Cntact=1*

If the address is contacted

<Block No.> <LDU No.>

**May I continue to interview this household?**

**ⓘ If this is a Longitudinal Household (i.e. a household that had been interviewed at this address last year) and NO HOUSEHOLD MEMBER INTERVIEWED last year currently resides at this address PLEASE CODE 2.**

1. Yes
2. No

**Note.** If **any** household member will not participate in the survey then **Can\_Int=2**. If it is a longitudinal household and none of last years household members currently reside in the household then you cannot interview the household, i.e. **Can\_Int=2**.

➤ **Whynot (Why can interviewer not continue the interview)**

If *Can\_Int = 2*

If the household cannot be interviewed

**ⓘ Why was permission not given? (Please select and enter a code).**

1. Refusal to co-operate
2. Entire household temporarily away for duration of fieldwork
3. Household unable to respond (illness, incapacity...)
4. Other reason
5. No current household member participated in SILC last year

➤ **WhyNtxt (Why can interviewer not interview the household (text string))**

*If Whynot=4*

*WhyNtxt is asked if the value for Whynot was 'Other reason'*

**ⓘ Please describe why permission to interview was not given?**

Enter a text of at most 40 characters.

From quarter 3 2009, we started to collect some information on non-responding households, Interviewers try to collect the following information on these households.

➤ **PerCntct (Personal contact with the household)**

*Ask If Whynot in (3,4) ask after WhyNtxt*

**Interviewer If you have personally made contact with a household member please Key 1 otherwise Key 2**

1. Made contact with a Household Member
2. Didn't make contact with a Household Member

***If PerCntct=2 then end Interview.***

➤ **Dwel\_Ncnt (Type of Dwelling)**

*If Int\_Cntact = 1*

***Interviewer please estimate the number of bedrooms in the dwelling***

Enter a numeric value between 0 and 99

➤ **Chld\_Ncnt (If a child (children) live in household)**

*If Int\_Cntact = 1*

***Interviewer Do you believe that a child (children) lives in this accommodation (i.e. there is a household member less than 16 years of age)***

1. Yes
2. No

➤ **NonCntct(If non-contact household will supply some basic information)**

*If Whynot in (1,3,4)*

*If the household refused to participate*

***Could you give me some basic information on your household, in total the time required to provide this information should be less than 2 minutes?***

1. Yes
2. No

➤ **TenNcnt (How household occupies the accommodation)**

*Ask if NonCntct=1*

***In which of these ways does your household occupy this accommodation?***

1. Owned Outright
2. Owned with Mortgage (including joint owner rental with Local Authority)
3. Owned with tenant purchase system
4. Owned with affordable housing
5. Rented from Local Authority
6. Rented from landlord with furnishings
7. Rented from landlord without furnishings
8. Rent free (i.e. landlord receives no rent)

➤ **PersNcnt(Number of persons in non responding household)**

*If NonCntct=1*

*If the permission given to collect some basic information*

***How many persons usually reside in the household?***

Enter a numeric value between 1 and 20

The numeric value keyed for PersNcnt opens up the required number of lines to collect basic information on all household members in the non-responding household.

➤ **AgeNcnt(Age of non-responding household member)**

*If NonCntct=1*

*If the permission given to collect some basic information*

**What age is this person>?**

Enter a numeric value between 0 and 120

➤ **SexNcnt(Sex of non-responding household member)**

*If NonCntct=1*

*If the permission given to collect some basic information*

**Starting with the eldest, please enter this persons gender?**

2. Female

➤ **ActNcnt(Activity status of non-responding household member)**

*If AgeNcnt>15*

*If the household member is over 15 years of age*

**Is this person**

1. Working
2. Retired
3. Student
4. Otherwise not working (e.g. on home duties, unemployed, disabled)

➤ **WrkNcnt**(Type of work of non-responding household member)

*If ActNcnt=1*

*If the household member is working*

***Is this person***

1. A full-time employee
2. A part-time employee
3. Self-employed
4. Unpaid family worker

➤ **PenNcnt**(If retired non-responding household member is in receipt of a pension)

*If ActNcnt=2*

*If the household member is retired*

***Is this person in receipt of an occupational (NOT A SOCIAL WELFARE) pension from a previous employment?***

1. Yes
2. No

➤ **EndNcnt(End non-response questionnaire)**

*If NonCntct =1*

*Asked after basic information is collected on non-responding household*

***Thank you for providing the CSO with this information***

➤ **HH\_WhyNt (Where have the longitudinal household members moved to)**

*If WhyNot=5*

*HH\_WhyNt is asked if the value for Whynot was 'No current household member participated in SILC last year'. This can only happen in the case of longitudinal households*

***Do you know where the Household member(s) who resided at this address on (date of last interview) have moved to?***

***Interviewer: Please see instructions, if the same value is not applicable for all household members that resided at this address last year***

1. Moved to another Household in the Republic of Ireland
2. Moved to another Household outside the Republic of Ireland
3. Household member(s) (have all) passed on since the last interview
4. All Household member(s) have moved to a collective institution (e.g. Nursing Home)

**Note:** If different values for this variable could be assigned to Household members, who resided at this address last year e.g. one household member may have died; another might have moved to another private household in the Republic, please key the lowest numeric option that applies to a Household Member. (e.g. in this example please key 1)

➤ **HH\_Move (Contact details of a member of the moved household)**

*If HH\_WhyNt=1*

*HH\_Move is asked if the value of HH\_WhyNt was 'Moved to another Household in the Republic of Ireland'*

**Could you please give me the contact name, address, and phone number of a household member (from last year's interview) who has moved to another address in the Republic since he/she participated in the SILC survey?**

**ⓘ Please remember to key in the name of the former household member.**

Enter a text of at most 80 characters.

**Note.** Please key in the contact details of one of the household members that has moved to another private dwelling in the Republic of Ireland. This is needed in order to trace the longitudinal household, as the household members that have moved to other private dwellings in the Republic of Ireland should be interviewed at their new address(es).

Do not go to the new address to interview the individuals that have moved. If these individuals have to be interviewed at their new address(es), this will happen at a later date and you (or a colleague) will be instructed by your co-ordinator to interview the former household members at their new address(es).

➤ **No\_Pers (Number of persons resident in household)**

*Ask if Can\_Int=1*

*If the Interviewer can continue to interview the household*

**Please enter the number of persons usually resident in the household.**

Enter a numeric value between 0 and 20.

**Note:** See 6.3 above for definition of a household member.

➤ **NoNotRes (Number of new household members)**

Ask if *Can\_Int=1* and the household is longitudinal

If the Interviewer can continue to interview the longitudinal household

**How many people (not on this list) should now be listed?**

ⓘ **Remember this list refers to the lines, names & surnames in the <equivalent data model last year> questionnaire**

Enter a numeric value between 0 and 20.

**Note:** The names of the household members from last year's questionnaire appear on the screen. If there are no new household members since the date of the last interview then key in 0 (zero) for the **NoNotRes** variable. If there are new household member(s) then the value keyed for **NoNotRes** should reflect this, in order to open up additional lines to collect data on the new household member(s).

➤ **Under\_23 (Anybody under 23 in household)**

Ask if *Can\_Int=1*

If the Interviewer can continue to interview the household

**Is there any person usually resident in the household under 23 years old?**

1. Yes
2. No

**Note:** The reason this question is asked is that, regardless of means, households cannot qualify for certain social welfare payments unless at least 1 household member is aged 22 or less e.g. Family income supplement, Back to School Clothing and Footwear Allowance. Therefore if no household member is under 23 then certain questions relating to the receipt of specific social welfare payments will not be asked.

➤ **Under\_16 (If there is any household member Under 16 years of age)**

Ask if Under\_23=1

If there is a household member Under 23 in the household

**Is there any child in the household older than 1 year and less than 16 years of age?**

**Interviewer: Please include those aged 2 or 15**

1. Yes

2. No

➤ **No\_U16 (If there is any household member aged 15 years or less)**

Ask if Under\_16=1

If there is a household member Under 16 in the household

**How many children are aged 15 years or less?**

Enter a numeric value between 0 and 20.

➤ **CoupleHouse (Establish if the household contains a couple)**

Ask if respondent aged 16+ and household contains at least 2 persons aged 16+

**Does this household contain a couple?**

1. Yes

2. No

➤ **Int\_Instruct (Instruction for Interviewer to interview HOH on line 1)**

*Ask if Can\_Int=1 and the Interview is a cross-sectional interview*

**ⓘ** *You are about to commence a personal questionnaire. Please ensure that the person entered on line 1 is 16 years or over, ideally the household member on line 1 should be a household member capable of answering questions on Household expenses.  
Press RETURN to continue*

Enter a text of at most 1 character.

**Note:** It makes it easier for the processing section when the person on line 1 is the head of household.

## 5. Individual Details

### ➤ Name

Ask if *Can\_Int=1*

*If the Interviewer can continue to interview the household*

**Please identify the person by keying in their first name.**

Enter a text of at most 14 character

**Note:** A respondent can refuse to give you his/her name. It is preferable that names are recorded, as there is a longitudinal aspect to SILC. This means that certain households will be interviewed for 4 years. Names should be keyed in accurately as personal interviews will be conducted with most household members every year for 4 years. If someone refuses to give a name it will make it more difficult for you (or a colleague) to identify the Line number of the household member in following years.

### ➤ Surname

Ask if *Can\_Int=1*

*If the Interviewer can continue to interview the household*

**Please enter <Name> surname.**

**Note:** If it is a respondent's first year in SILC and if an interviewer keys in a value of 3 or 4 for **Hist** then an error message informs the interviewer that he/she had made a keying error as values 3 and 4 are only relevant in longitudinal questionnaires.

Household members with a **Hist** value =1.

If a household member is currently living in the household and if he/she spends at least a night's-rest in the household during the SILC week then the **Hist** value keyed should be 1

For example, a crèche, ... The place of the care can be a dedicated child care centre or the carer's home. This means that if somebody sets up a child minding facility at his/her home and if this person employs carers to mind the children (i.e. the person that set up the facility is in a supervisory or administrative role) then the number of hours minded in this type of child care should be recorded here and not recorded in **Child\_Mindr**.

Ask if the person is aged 16 or over and there is more than 1 person in the household

**Is the information being supplied directly by the person concerned?**

1. Yes
2. No

**Note:** Every attempt should be made by the interviewer to collect information by direct interview as information collected by proxy is usually inferior to information collected by direct interview

### ➤ Proxy\_Id

Ask if *Dir=2* (Asked if the interview is by proxy)

**Which person is supplying information about <Name>?**

**ⓘ If the variable is pre-filled with a 0 value PLEASE PRESS RETURN TO CONTINUE**

Enter a numeric value between 0 and 20.

**Note:** In the case of a first time interview it is likely that the information collected about the person on line 1 is by direct interview. If it is a longitudinal interview then the information collected about the person on line 1 may be by proxy. In longitudinal interviews when the information collected about the person on line 1 is by proxy i.e. **Dir=2**, then **Proxy\_Id** is pre-filled with a 0 and the interviewer should press return to bring the interview to the variable **Proxy\_Name**. The interviewer then keys the name of the individual who is giving the information about the person on line 1.

➤ **Proxy\_Name**

*Ask if Proxy\_Id=0 Asked if the person on line 1 is interviewed by proxy (as we need to identify the person that is giving the proxy interview)*

***Please enter the name of the person who is supplying information about <Name>.***

Enter a text of at most 20 characters.

## 8. Education Details

12. Post-Graduate (e.g. Post Graduate Diploma at NFQ level 9, Master Degree (taught or researched) at NFQ level 9)
13. Doctorate or higher (e.g. Doctoral Degree/higher Doctorate at NFQ level 10)
14. Other

**Note:** We are looking for educational standards that have been attained and can be compared in some measurable way. Therefore 'attained' means that any tests, exams, dissertations, thesis etc. must be taken or submitted, and passed. For example, to have completed the leaving certificate syllabus but not to have actually sat and passed the leaving certificate exams is not considered for our purposes to be 'successfully completed'.

By way of exception a household member could be coded as 2 (Primary) even though he/she may not have successfully sat an exam at the end of primary education.

The classification of non-Irish educational qualifications is difficult, but important. Due to language difficulties and different educational systems it can be awkward to figure out the highest level of a non-Irish respondent's education using this question. However, many non-Irish respondents will have benchmarked their educational achievements against the Irish educational system to some extent (formally or non-formally), and will have a rough idea where they fit on the hierarchy.

Some rough guidelines:

Try to work out if the course completed was primary, second-level or third-level  
Do terms like "Leaving Certificate", "second-level", "certificate" or "degree" ring any bells?

Try to use the respondent's occupation to get an idea where his/her educational qualification may lie. For example:

If the respondent is in the construction sector, does he/she have a trade qualification?

If the respondent is working in IT does he/she have an IT degree?

About FETAC

As the national awarding body for further education and training in Ireland, the Further Education and Training Awards Council (FETAC) gives people the opportunity to gain recognition for learning in education or training centres, in the work place and in the community.

FETAC's functions include:

- making and promoting awards
- validating programmes
- monitoring and ensuring the quality of programmes
- determining standards

Programmes leading to FETAC awards are offered nationwide by a wide range of providers in diverse settings, including BIM, Fáilte Ireland (CERT), FÁS and Teagasc centres, VECs, adult and community education and training centres, Institutes of Technology and in the workplace.

FETAC was set up as a statutory body on 11 June 2001 by the Minister for Education and Science under the Qualifications (Education & Training) Act, 1999. FETAC has responsibility for making awards previously made by BIM, Fáilte Ireland (CERT), FÁS, NCVA and Teagasc.

➤ **High\_Age (Age when attained highest education level)**

**<Name> What age were you when you attained your highest level of education or training?**

Enter a numeric value between 10 and 74.

➤ **Left\_Ed (Age when left full time education)**

Ask if Educat in 2,3,4,5,6,7,8,9,10,11,12 or 13

If the respondent has attained a specified level of education

**<Name> at what age did you complete full-time education i.e. the period of education that started in early childhood?**

**ⓘ If this person has never left full time education please insert a numeric value of 1.**

Enter a numeric value between 1 and 65.

**Note:** Initial education is that in which the person participated on a continuous basis since beginning their education. The key issue is participation on a continuous basis without a break to, for example, begin work, take care of children etc., apart from semester or summer breaks that are a normal part of the educational programme. The year at which initial education is completed need not be the same as the year at which the highest level of education was attained.

A person may return to education after a break of several years in order to gain additional qualifications. The participation need not have been full-time. For example, a person may participate in Third Level on a part-time basis (or by correspondence course) while working for pay, or engaging in home duties. As an exception, someone taking a year off between the completion of second level and beginning third level education could be considered to have completed initial education at the end of third level, unless they were 'at work' for the year. This approach would seem to best meet the requirements of a variable for use in studying school to work transitions.

*It is very important for routing of subsequent questions that if the respondent has never left full time education, the interviewer should insert a numeric value of 1*

➤ **Current\_Ed (Current education status)**

*Ask if  $Educate=1$  or Ask if  $Calc>15$  and  $Left\_Ed >4$  or*

*Ask if  $Calc>15$  and  $Left\_Ed = Don't\ know$  or  $Refused$*

*If the respondent is aged 16 or over and gave an answer of 'Don't know' or 'Refused' to the question as to his age when he/she first left full time education.*

**<Name> Are you currently participating in any education or training course?

**<Name> Which of the following best describes the level of education or training that you are receiving?**

Multiple answers are allowed.**

1. An Education Scholarship
2. Reimbursement or part reimbursement of course fees from an employer
3. Third level maintenance grant scheme (e.g. VEC, Higher Education Grant)
4. Paid sheltered workshop work
5. FAS or CERT course allowance
6. Other grants or allowances received for education or training
7. Social welfare scheme (e.g. Back to Education allowance)
8. Received no grant/allowances in the last 12 months

Enter at most 7 values.

**Note:** The total annual value of the educational grant(s), scholarship(s) or allowance(s) which the household member received from either public (i.e. Department of Education and Local Authorities) or private (i.e. University or school) sources, over the last 12 months should be recorded. Note that this total value should include both the amounts received directly in cash and those received in kind (e.g. where registration fees are paid directly to the educational institution without the student or parents first receiving the money; also the value of any free books supplied should be included). For example, if the scholarship consisted of €300 in cash plus registration fees which amount to €700 the total value entered by the Interviewer would be €1,000.

Included here is Back to Education Allowance (value 7). There is also a question on Back to Education allowance in the Social welfare part of the questionnaire. Edit checks on interviewed households ensure that if a value is collected for Back to Education Allowance in both parts of the questionnaire, it isn't included twice in the final data set.

➤ **Grant\_Value (Annual value of education grant(s))**

*Ask if Ed\_Grant in 1, 2, 3, 4, 5, 6, 7*

*If the respondent received an education grant or training allowance in the last 12 months*

Enter a numeric value between 0.00 and 999999.99.

**Note:** This is the total value of these grants over the last 12 months, if the respondent received 2 maintenance grants worth €3000 each then the total value received in the last 12 months was €6000.

## 9. Employment Details

### ➤ Paidwork (If respondent worked for payment or profit in the last week)

*Ask if Calc>=15*

*If the respondent is aged 16 or over*

**<Name> In the past week, did you do any work for payment or profit, even if it was for one hour?**

1. Yes
2. No

**Note:** It is important that the threshold of one hour is stressed. – Some people work from time to time for small durations. If the person did such work in the week prior to the interview week, then the answer should be Yes. The fact that it was a “minor” job will be picked up later when subsequent questions are asked.

Also, working for payment or profit in this context means ANY work for pay or profit done in the reference week. Even for those still at school, a Saturday/Sunday paper round or baby-sitting for pay/profit should be included if it lasted longer than one hour in the reference week.

Working for Payment or Profit refers to work which is considered to be of a gainful nature, i.e. working in a job in which payment is received – either in cash or in kind – or from which profit is made. However, a person that performed a task for himself/herself, in the sense that he/she receives the end product should not be recorded as working or having a job. Thus, knitting or dressmaking only for oneself or one’s own family or as a gift should not be regarded as work for the purpose of this question. Similarly, painting one’s own home should not be recorded as work.

Self-employed people are regarded as working if they work in their own business, farm or practice for the purpose of making a profit – even if the enterprise is not making a profit or has just been established.

➤ **Wrk\_Stus (Self perceived activity status)**

*Ask if Calc>15*

*If the respondent is aged 16 or over*

**<Name>How would you define your current economic status?**

1. Working (including unpaid work in a family business or currently not at work due to maternity, parental, sick leave or holidays)
2. Out of work (i.e. unemployed or not yet at work)
3. Other (e.g. in education, retired, disabled or engaged in home duties)

**Note:** This is a self-perception question, i.e. the person classifies himself/herself according to how he/she sees his/her situation. Therefore **Paidwork** could have been =1 but **Wrk\_stus** could be=2 or 3.

➤ **Wrk\_Time (Full-time or Part-time worker)**

*Ask if Wrk\_Stus=1*

*If the respondent classified himself/herself as working*

**<Name>Would you consider your work full-time or part-time?**

1. Full-time
2. Part-time

➤ **Wrk\_Type (If employee or self-employed)**

Ask if *Wrk\_Stus=1*

If the respondent classified himself/herself as working

**<Name> Are you?**

1. Working as an employee
2. On a community employment scheme
3. Assisting relative(s) (in unpaid capacity)
4. In an apprenticeship
5. Self-employed with employees
6. Self-employed without employees

➤ **Unem\_Prd (If period in last year without employee income)**

Ask if *Wrk\_Stus =1 and Wrk\_Type=1, 2, or 4*

If the respondent classified himself/herself as working, and working as an employee, or on a community employment scheme, or in an apprenticeship

**<Name> Was there any period in the last 12 months when you didn't receive a wage or salary payment**

**ⓘ If the respondent was on paid sick or holiday leave or if the respondent arranged to have salary paid during term time then key 2.**

1. Yes
2. No

**Note:** This question does not ask if the respondent was out of work at any time during the last year. It asks whether he/she didn't receive a wage or salary payment at any time in the last 12 months. The respondent may have been on sick leave for 6 months and received his/her wage payments during this absence. In such a case please key 2.

*Term-Time*

If a respondent had taken term time in the income reference period and arranged with his/her employer to have his/her salary paid pro rata over the 52 weeks of the year (i.e. salary payment amount adjusted to ensure salary payments during term time), then you should key 2.

If the respondent didn't receive salary payments during term time then Key 1

➤ **Unem\_PrS (Period out of work if self-employed)**

Ask if *Wrk\_Type= 5 or 6* Asked of those self-employed with employees or self-employed without employees

**<Name> Was there any period in the last 12 months (excluding holidays) when you did not work?**

- 1. Yes
- 2. No

➤ **Unem\_Lgth (Length of time in income reference period when not in receipt of employment income)**

Ask if *Unem\_Prd=1*, or if *Unem\_PrS=1*  
If the respondent had a period in the last 12 months where he/she was not in receipt of employee income, or if respondent is self-employed with employees or self-employed without employees and had a period in the last 12 months where he/she did not work.

**<Name> For how many weeks in the last year were you NOT in receipt of employment income?**

Enter a numeric value between 0 and 52.

➤ **Away\_Work (If currently away from work)**

Ask if *Wrk\_Stus=1* and *Paidwork=1*

Ask if *Paidwork= 2* and *Wrk\_Type=3*

If the respondent classified himself/herself as working AND worked for payment or profit in the last week, the respondent is asked whether he/she is presently away from work.  
If the respondent is an unpaid family worker he/she is asked if he/she is presently away from work.

If the respondent didn't work for payment or profit in the last week but is self classified as 'working' and he/she is NOT an unpaid family worker, he/she is not asked whether he/she is currently away from work. We assume that the respondent IS away from work and the respondent is routed to *Away\_Week* i.e. the number of weeks away from work.

**<Name> Are you presently away from work for more than the last 5 working days?**

1. Yes
2. No

**Note:** The respondent may have worked for payment or profit for more than 1 hour in the reference week (e.g. a teacher on school holidays marking exam papers) and still consider himself/herself as away from work. The person may have worked in the last week but may not have received payment e.g. Assisting relative(s) (in unpaid capacity).

➤ **Away\_Week (Weeks away from work)**

*Ask if Away\_Work=1*

*or Ask if Paidwork=2 AND Wrk\_Type = 1,2,4,5 or 6*

*If the respondent is away from work at present*

*If the respondent didn't work for profit in the last week and classified himself/herself as Working as an employee or on a Community employment scheme or in an Apprenticeship or Self-employed with employees or Self-employed without employees*

**<Name> For how many weeks are you currently away from work?**

Enter a numeric value between 0 and 52.

➤ **Away\_Why (Reason for current work absence)**

Ask if *Away\_Week* >0

If the respondent is away from work for 1 week or more

**<Name> What is the reason for your absence?**

1. New job which had not started by the week of interview
2. Bad weather
3. On temporary lay-off
4. Slack work
5. Short-time work (including systematic week-on/week-off)
6. Job sharing
7. Education or training outside the place of work
8. Labour dispute
9. Own illness or injury
10. Maternity Leave
11. Holiday
12. Career Break
13. Other leave for personal or domestic reasons
14. Other reasons

**Note:** Someone who answers 1 (new job that had not started by that week) should have obtained the job by date of the interview. Otherwise, the person was not absent from the job in the week of interview.

Many on a community employment scheme will be on a week-on/week-off arrangement and thus will be coded 5.

Someone who answers 12 (career break) should have an arrangement to return to work for the previous employer after a specified time. The career break should be 3 months or more – otherwise code the person to 11 (holiday).

In some employment's, special paid leave is granted for domestic reasons (bereavement, sick child etc.). Code 13 (other leave for personal or domestic reasons) here. If a person takes leave out of annual leave entitlement, the correct response is 11 (holiday).

Code 8 (labour dispute) should only be used for somebody directly involved in the dispute. Otherwise, code 4 (slack work) or 5 (short-time work, including systematic short-time work) should be used, whichever is appropriate.

➤ **Away\_Pay (If in receipt of pay when away from work)**

Ask if *Away\_Work = 1* and *Wrk\_Type* in (1,2,4) and *Away\_Week >0*

If the respondent is either working as an employee, on a community employment scheme or is in an apprenticeship **and** the respondent is away from work for at least 1 week

**<Name> What pay are you receiving from your employer during this absence?**

**ⓘ If the employee works reduced hours and is in receipt of his/her USUAL pay during the absence from work please Key 1.**

1. Full Pay
2. Part pay
3. No Pay

➤ **Return\_Wrk (If respondent will return to work)**

Ask if *Away\_Week >0* if *Away\_Why=1* then *Return\_Wrk* is pre-filled with 2

If the respondent is away from work for at least a week

**<Name>Do you expect to return to your job or business?**

1. Yes
2. No

➤ **Oow\_Type (Out of work type (category))**

*Ask if Wrk\_Stus=2*

*If the respondent is Out of Work*

**<Name> Are you?**

1. Unemployed but seeking work.
2. Unemployed but not seeking work
3. Unemployed because of illness, sickness, etc. but intending (not currently seeking) to seek work.
4. Not yet at work.

**Note:** If the respondent is out of work because of illness but he/she is currently seeking work code as 1. Unemployed but seeking work.

➤ **Notw\_Type (Not working type (category))**

*Ask if Wrk\_Stus=3*

*If the respondent classified his/her current economic status as Other (e.g. in education, retired, disabled or engaged in home duties)*

**<Name> Are you?**

1. Engaged in home duties

➤ **Wrk\_Lstyr (If worked in the last year (12 months))**

Ask if Wrk\_Stus=3 and Calc <76 or Ask if Wrk\_stus=3 and Paidwork=1 and Calc>75

Ask if Oow\_Type= 1,2 or 3

If the respondent is under 76 and if the respondent classified his/her current economic status as Other (i.e. retired, disabled in education etc)

If the respondent is over 75 and if the respondent classified his/her current economic status as Other (i.e. retired, disabled in education etc) but the respondent said that he/she worked for payment or profit in the last week

If the respondent classified himself/herself as Unemployed but seeking work, Unemployed but not seeking work or Unemployed because of illness, sickness etc but intending (not currently seeking) to seek work.

**<Name> Did you work at any time during the last 12 months?**

1. Yes
2. No

**Note:** This question is also asked of someone who has classified himself/herself as 'Unable to work because of permanent illness or disability'. The reason for this is that the onset of the illness may have been within the last 12 months. The respondent, even though he/she has a permanent illness or disability', may have partaken in occasional work and therefore have received some employment income in the income reference period.

➤ **Weeks\_Wrk (Weeks worked in last year)**

Ask if Wrk\_Lstyr=1

If the respondent worked in the last year

**<Name> For how many weeks did you work for payment in the last 12 months?**

**<Name> Apart for holiday or casual work, have you ever had a job?**

1. Yes

2. No

**Note:** Vacation jobs undertaken by students, from which they return to studies or to other non-work situation, and any other casual work undertaken from time to time are disregarded. Normally having ever worked refers to persons who worked on full or partial time basis for at least 6 months.

➤ **Unemp\_Yr (Year when last worked)**

*Ask if Ever\_Wrk=1*

*If the respondent has ever worked*

**<Name> In what year did you last work?**

Enter a numeric value between 1920 and 2008.

➤ **Unemp\_Mth (Month of year in which respondent last worked)**

Ask if *Ever\_Wrk=1* and *Unemp\_Yr >1999*

6. June
7. July
8. August
9. September
10. October

If the respondent is not yet at work

If the respondent is under 75 and is engaged in home duties or retired or in full time education or 'other reason' for not working

If the respondent has classified himself/herself as working is currently away from work for more than the last 5 working days and does not expect to return to work

**<Name> Are you looking for work / a change of work ?**

1. Yes

2. No

**Note:** Students who are not working are routed to this question. In many cases students will not be 'currently looking' for a job. This means that **Lkanjob** will be coded 2. In other cases students may be looking for a full time job (e.g. they are in the final week(s) of their studies, or they are in education because they are waiting for a specific job to come up). A Household member who has classified himself/herself as working but is currently away from work **and** does not expect to return to his/her job is also routed to this question and should be asked '**Are you looking for a change in work?**'

➤ **Job\_Type (If looking for full-time or part-time work)**

Ask if Lkanjob =1 or Ask if Oow\_Type=1

If the respondent is looking for a job or If the respondent classified himself/herself as 'unemployed but seeking work'

If the respondent is not seeking work

If the respondent classified himself/herself as 'Unemployed but not seeking work'

**<Name> Which of the following reasons best describe why you are not seeking work?**

**Because:**

1. you have already found a job, which will start later within a period of at most 3 months
2. you have already found a job, which will start in more than 3 months time
3. of illness or disability
4. of personal or family responsibilities
5. of education or training
6. of retirement.
7. of compulsory community service
8. of the belief that there is no work available
9. of other reason

**Note:** This question is asked of a respondent self-classified as being in education who is not looking for a job. The reason that best describes why such a respondent is not seeking work might be value 8 above 'because of the belief that there is no work available' and not necessarily value 5 'because of education'.

➤ **Change\_Mth (Month in which there was a change in activity status)**

*Ask if Wrk\_Lstyr=2 or Wrk\_Type=3 or Unem\_PrS=2 or Unemp\_Prd=2 or Oow\_Type=4*

*If the respondent is currently not working and didn't work in the last year*

*If the respondent is an unpaid family worker or didn't have an unpaid period in the last 12 months or If the respondent is 'Not yet at work'*

**<Name> Was there any month during the last 12 months when there was a change in your principal activity status?**

**ⓘ Interviewer: Please give the respondent a relevant example of a 'change in principal activity status'. See instructions for examples.**

1. Yes
2. No

**Note:** It is very important that you know what constitutes a 'change in principal activity status' and that you are able to give the respondent a relevant example e.g. if the respondent is a 19 year old employee, he/she may have left school in the last 12 months. In this case the Interviewer should be able to use 'in education' as an example of a change in activity.

If the respondent is a working mother then she may have taken parental leave in the income reference period and this would be a good example to use.

➤ **Mth\_StusQ (If there was a change in activity status in the last 12 months the interviewer keys in the current month)**

*Ask if Unem\_Prd=1 or Unem\_Prs=1 or Wrk\_Lstyr=1 or Change\_Mth=1*

*If a working respondent had a period in the last 12 months when he/she was not in receipt of employment income*

*If the respondent is currently not working and worked in the last year*

*If the respondent answered yes to the question as to whether there was a month where there was a change in activity in the last year.*

**<Name> The next questions relate to your activity status for each of the last 12 months, i.e. whether you worked, were unemployed etc.**

**ⓘ Please key the current month.**

1. January
2. February
3. March
4. April
5. May
6. June
7. July
8. August
9. September
10. October
11. November
12. December

**Note:** In the data models that preceded the Q34 2006 data model, the variables **CurrYear [1]** etc. read into the system date of the laptop. For example if an interview was carried out in January and **Change\_Mth=1** then the respondent was asked questions re. his/her activity for each of the 12 months prior to the interview month e.g.

**<Name> In December last year were you?**

1. Employee (full-time)
2. Employee (part-time)

This worked well except if an interviewer opened up the same interview in a month after the interview month. If this happened the value keyed at data collection for the last month(s) of the income reference period was deleted. By specifying the month of the interview date the values of **CurrYear** [1] etc are now anchored to the value keyed for **Mth\_StusQ**.

➤ **CurrYear[1] CurrYear[2],PrevYear [1] (Activity status for each of the last 12 months)**

Ask if *Unem\_Prd=1* or *Unem\_Prs=1* or *Wrk\_Lstyr=1* or *Current\_Mth=1*

**<Name> In <Month> this year were you:**

1. Employee (full-time)
2. Employee (part-time)
3. Self-employed (full-time)
4. Self-employed (part-time)
5. Unemployed
6. Retired
7. Student
8. Employee on parental leave
9. Other (e.g. home duties)

**Note:** If a respondent spent equal time on more than 1 type of activity in the same month, priority should be given to economic activity e.g. if a person worked for 2 weeks and was on home duties for 2 weeks then the person should be defined as working.

## 10. Industry & Occupation Details

### ➤ Chnge\_job (Did respondent change job)

Ask if Paidwork=1

Ask if Wrk\_Stus=1

If the respondent worked for payment or profit in the last week

If the respondent classified himself as working

**<Name> Have you changed your main job in the last 12 months?**

**ⓘ Please see special instructions related to longitudinal respondents**

1. Yes

2. No

**Note:** Please be aware of the following special cases:

#### Promotions

If someone receives a promotion within their employment this should be considered a new job and the subsequent employment questions should be asked with reference to the new post.

This is because the terms and conditions of the new post could be different to the previous post.

#### New job to start in the future

If someone has lined up a new job to start in the future but has not yet taken it up, this should not be considered a changed job. A 'changed job' should only be recorded if the respondent has commenced working in the new job by the reference week.

➤ **Chnge\_Rsn (Reason for changing job)**

Ask if Chnge\_Job=1

If the respondent changed jobs

**<Name> What was the main reason you left your previous job?**

1. To take up or seek a better job
2. End of a temporary contract
3. Obligated to stop by employer (e.g. business closure, redundancy etc.)

12. Other reason

**Note:** Obligated to stop by employer in **Chnge\_Rsn** covers a number of situations, such as dismissed or made redundant, closures of the employer's business, or early retirement.

➤ **Job\_Yrs (How many years in current employment)**

Ask if Chnge\_job=2

If the respondent did not change jobs

**<Name> How many years are you in your current employment?**

**❗ If the respondent is less than 1 year in his/ her current employment please key 0.**

**❗ If the respondent works in more than 1 job, then this question relates to the respondent's principal job.**

Enter a numeric value between 0 and 80.

➤ **Industry**

Ask if *Paidwork=1* or *Wrk\_Stus=1* or *Ever\_Wrk=1* or *Wrk\_Lstyr=1*

If the respondent is considered to be in employment in the given week, or has ever been in employment.

**(What does (did) the business mainly make or do?)**

**Please enter a full description.**

**Industry**

Enter a text of at most 60 characters.

**Note:** If the respondent has classified himself as retired (or otherwise non working) and he/she has worked for payment or profit in the week prior to the SILC interview date, then this question relates to the Industry in which he/she worked in the week prior to the SILC interview and not the Industry from which he retired (if the Industry is different).

The text entered here should be an ACTIVITY, (such as health-care, leisure, motor trade, selling, manufacturing, distribution) not a title, name or a vague heading .

Also, the Ask condition for this question is different than the QNHS equivalent question because the industry of all respondents that have been in employment is asked {there is no cut off year (1984 in the case of the QNHS)}. This is because SILC examines the different living conditions of retired professionals versus non-professionals.

➤ **Ind2 (Coding respondent's Industry)**

**❶ Press the backspace key to code the Industry.**

**❷ You must enter a complete description of the respondent's industry.**

Enter a text of at most 60 characters.

➤ **Occup (Occupation)**

This automatically searches the Occupation look-up file for the same occupation and brings up a list of all the occupations that are similar to the one entered.

**Note:** On the right-hand side of the screen there is a code associated with each occupation. The interviewer then selects the occupation (using the ARROW KEYS and ENTER), that most accurately resembles the one entered and the corresponding code is entered in the next field on the questionnaire (OCC2). If necessary the respondent can be shown the list of occupations on the screen to select the most appropriate option.

Note: The more complete the text description entered the easier it is to code.

Note: The INDUSTRY questions are coded using the same mechanism as the OCCUP question above.

➤ **OccupOth (Other code 183 is entered)**

Ask if *OccupOth*="other" code 183

**ⓘ** *<name> answered that his/her occupation was OTHER  
Please type in a description for <name>'s occupation.*

*If the respondent is considered to be in employment in the given week, or has ever been in employment.*

**How many people work(ed) at your place of employment?**

5. 5	10. 10	15. Do not know but more than 10 people

**Note:** The respondent is included in the number. The values for this variable are different from the QNHS values. Respondents that have given their present or past work positions as self-employed without employees are routed away from this question.

➤ **Wrk\_Ctract (Type of work contact)**

Ask if Past\_Wrk=1,2,3,4 or Ask if Wrk\_Type=1,2,3,4

If the respondent is currently working and is not self employed or if the respondent worked in the past but was not self employed

**Could you please tell me what is (was) the type of your work contract?**

**❗ If farmer, this question relates to his/ her employee position held.**

1. Permanent job/ contract of unlimited duration
2. Temporary job/ work contact of limited duration
3. Occasional work without a contract
4. Other working arrangement

**Note:** Temporary contract refers to a temporary job situation. According to the LFS, a contract may be regarded as temporary “if it is understood by both employer and the employee that the termination of the job is determined by objective conditions such as reaching a certain date, completion of an assignment or return of another employee

who has been temporarily replaced. In the case of a work contract of limited duration the conditions of its termination are generally mentioned in the contract”. To be included in this group are: persons with a seasonal job, persons engaged by an employment agency and hired out to a third party, unless they have a contract of unlimited duration with the agency concerned, persons with a specific training contract for a probationary period. This applies if a contract finishes automatically at the end of a probationary period, necessitating a new contract if the person continues to be employed by the same employer.

Work with no contract covers all cases when there is no formal, written contract, even if the work involved is not casual but regular or even long-term.

Some other working arrangement can cover various miscellaneous situations, such as ‘outworkers’ who may work for several ‘employers’ under differing work arrangements, and may indeed be on the borderline between employment and self employment.

➤ **Wrk\_Svise (If supervisory position)**

Ask if *Past\_Wrk=1,2,3,4* or Ask if *Wrk\_Type=1,2,3,4*

*If the respondent is currently working and is not self employed or if the respondent worked in the past but was not self employed*

**<Name> Does the total number of hours you work per week (in all employment) exceed 30 hours?**

**❶ Respondents who classified themselves as not working are asked this question if they worked for payment or profit in the past week.**

1. Yes
2. No

➤ **Resn\_Lowhr (Reason for working less than 30 hours per week)**

Ask if *Low\_Hrs=2*

If the respondent works for less than 30 hours per week

**<Name> What is your main reason for working less than 30 hours per week?**

1. Undergoing education or training
2. Personal illness or disability
3. Want to work more hours, but cannot find a full-time job or work more hours in this job
4. Do not want to work more hours
5. Number of hours in all jobs are considered as full time job
6. Housework
7. Looking after children or other persons
8. Other reasons

**Note:** If there are two reasons for working less than 30 hours per week and it is not clear which is the main reason then the list should be treated in order of priority, with code 1 having the highest priority and code 8 having the lowest priority.

➤ **First\_Job (Age when started first job)**

Ask if *Wrk\_ctract =1,2,3,4 AND Left\_Ed >4*

Ask if *Wrk\_ctract =1,2,3,4 AND Left\_Ed ='Refused'*

**<Name> At what age did you start your first regular job or business? (after you first left full time education)**

**<Name> is <Calc> and first left full time education at <left\_ed>, therefore the value keyed must be greater than <left\_ed>**

Enter a numeric value between 8 and 65.

**Note:** Part-time or holiday jobs that the person may have engaged in while in school or university are not included. (Calc = Present age of respondent) The routing of this question is such that respondents that have never left full time education are not asked this question.

➤ **Yrs\_Wrk (Years spent at work)**

*Same filter as First\_Job (see last page)*

**<Name> Since you started your first regular job or business, roughly how many years have you spent at work either as an employee or self employed?**

Enter a numeric value between 0 and 65.

## 11. Farm Questionnaire

### ➤ Farm\_Own (If owns or rents a farm/market garden)

Ask if Calc>15

If the respondent is 16 years or over

**<Name> Do you own or rent a farm/market garden or did you own or rent a farm/market garden at any time during the last 12 months?**

**ⓘ If the farm is jointly owned, please see instructions in electronic help manual. If the farmer let out all his/her land please key 1**

1. Yes

2. No

**Note:** If a farm is jointly farmed by 2 or more household members please key 1 for **Farm\_Own** in the personal questionnaire of **one** of the farmers.

Please write a comment in the comment box that the farm is jointly owned by the husband and wife and once the SILC processing section has made an estimate of the farm income then the estimated income can be adjusted to reflect a farm employment income value for each respondent. If there is more than 1 farmer in a household and the farms are independently farmed then **Farm\_Own=1** in the case of each individual farmer.

### ➤ Acres\_Own (Acres owned)

Ask if Farm\_Own=1

If the respondent owns rents or let land in the last 12 months.

**<Name> How many acres of land did you own in 2009?**

Enter a numeric value between 0 and 9999.

**Note:** The farmer is asked for Acres of land owned not hectares. The value should be in 'Statute Acres'. In a very small minority of cases the respondent may be able to provide information only in terms of Irish or Cunningham acres. If this happens then the Cunningham acre amount should be divided by 1.2913 to give the statute acre amount. Most Department of Agriculture related forms that farmers fill in now ask for values in hectare amounts. Teagasc (The Agriculture and Food Development Authority) believe that farmers are more likely to express land areas in statute acres. If a farmer gives a value in hectares, divide this amount by .4047 to calculate the equivalent acre value.

Winter Barley is normally harvested in July, Spring Barley is harvested in August. The decision to grow a winter or a spring crop will be taken based on spreading the workload on the farm or the chances of getting better weather earlier in the Summer. Winter Wheat is normally harvested in August and Spring Wheat harvested in September.

Most of the produced Sugar Beet was sent to the Irish Sugar Company for processing before the last remaining processing plant in Mallow shut down. Sugar beet can be fed as fodder to certain livestock.

Most Oilseed rape is exported where it is used in the manufacture of oils and margarine.

Linseed is grown for the production of oil, paints and lubricants amongst other things.

**Note:** There are two distinct types of sheep farming in Ireland - hill/upland sheep farming and lowland sheep farming, and there is a lot of crossover between the two systems as hill farmers trade freely with lowland farmers (this is known as a stratified, or multi-layered industry). The sheep industry relies on cross-breeding to produce good quality meat animals. Hill lambs are often sold to the lowlands to be "finished" (fattened for meat). Hill farming is a system of farming found in mountain and bogand areas. Sheep have access to wide areas of upland grazing, with few enclosures or fences. The breeds are hardy and, by comparison with lowland breeds, they are often more lightly built. They are accustomed to rough terrain and a harsh climate.

If the respondent has/had another job and it is/was a self employed position then you should key 2 for **Sec\_Job**, i.e. the other job was NOT an employee position. You should have keyed 3 for **Income\_Typ** i.e. the respondent earned both self employed and employee income in the income reference period. If the respondent *occasionally* works/worked as an employee in a second employee position, you can also key 2, as the amount earned from this position in the income reference period will be collected in the **Occ\_Inc** questions (i.e. income from occasional work in the income reference period).

➤ **Sec\_Job2**

This question is asked, in order to precisely estimate the total employee income earned by the respondent in the income reference period. Also some individuals may have had 2 employee positions that ran concurrently in the income reference period and this questions aims to accurately estimate the total amount earned from the principal employee position in the income reference period.

➤ **PRSI\_Class (PRSI Class)**

2. J	8. S
3. B	9. K
4. C	10. M
5. D	11. Doesn't pay PRSI

**Note:** In general PRSI deductions are decided by the nature of the employment and the amount of the employee's gross reckonable earnings in a week.

People in industrial, commercial and service-type employment under a contract of service and entrants to the Public Service (recruited from April 6 1995) with weekly reckonable earnings over a certain threshold are within Class A PRSI.

People with reckonable earnings from all employment's lower than the threshold level and employees over 66 years of age are within Class J PRSI.

Ministers of Religion employed by the Church of Ireland representative Body are within Class E PRSI.

Permanent and pensionable Civil Servants, registered doctors and dentists employed in the Civil Service and Gardai, recruited prior to April 6 1995 are within Class B PRSI. Commissioned Army Officers and members of the Army Nursing Service recruited prior to April 6 1995 are within Class C PRSI.

Permanent and pensionable employees in the public service other than those mentioned in Classes B and C recruited prior to April 6 1995 are within Class D PRSI .

NCO's (Non Commissioned Officers) and enlisted personnel of the defence forces are within Class H PRSI.

People receiving income which is not subject to social insurance contributions but which is liable for the Health Contribution such as occupational Pensions, income deriving from positions of certain office holders (for example, Judiciary and State solicitors) and income of people over the age of 66 previously liable for Class S are within Class K PRSI.

People with nil contribution liability (e.g. employees under age 16, people within Class K with a Nil liability) are within Class M PRSI.

Self employed people including certain company directors, people in business on their own account and people with income from investments and rents are within Class S PRSI.

Share-fishermen/women who are already paying PRSI under class S can pay a contribution over and above what is being paid under Class S, this is Class P PRSI.

Certain PRSI Classes are divided into sub-classes e.g. Class A is divided into Classes AO, AX A1 and A2. We do not ask for the sub class of PRSI that the respondent pays, so if for example the respondent pays Class AX social insurance, please Code as Class A.

When the respondent is unable to provide a figure for usual hours, the average of the hours actually worked per week over the past four weeks is used as a measure of usual hours. Apprentices, trainees and other persons in vocational training should exclude the time spent in school or other special training centres.

➤ **Wage\_Part (Introductory question for last wage)**

**i** *Has the <Name> supplied you with a wage slip?*

1. Yes  
 2. No  
 3. Respondent doesn't receive a wage slip from his/her employer

**Note:** It is very important that Interviewers get to see wage slips. The Payment of Wages Act 1991 gives all employees in Ireland a right to a pay slip, which will show the gross wage and details of all deductions. A pay slip is essentially a statement in writing from the employer to the employee that outlines the total pay before tax and all details of any deductions from pay. Obviously when an Interviewer gets to see a wage slip the income details collected from the respondent will be more correct than estimated amounts. The following page has an example of a wage slip.

**What was the total gross amount you earned in your last wage/salary payment?**

Enter a number of at most 10 positions with 2 decimals.

Note: This amount will appear on a wage slip as 'Gross amount' or 'Total taxable'. The Gross amount is the amount before any deductions i.e. the amount of the wage before tax, social insurance, pension deduction or any other deduction is taken from the wage. Pay-slips should be consulted on every possible occasion; only in this way are we assured of getting the precise details. Sometimes the Gross amount on a pay check may include the cash equivalent amount of a Benefit in Kind (BIK). This may appear on the wage slip as a 'Notional amount' and since 2004 the cash equivalent value of non-cash benefits are subjected to tax and social insurance. It is important to key in the total gross amount (this amount will include the notional value of a BIK) There is a question later as to whether the gross amount keyed includes this notional value.

➤ **Wage\_TaxD (If tax deduction from last wage)**

*Ask if Wage\_Grs >0 AND Wage\_Grs is not equal to Wage\_Net or*

The 'tax year' in Ireland operates on the calendar year basis (i.e. January - December).

At the start of each 'tax year', employees receive a statement from the Revenue Commissioners. This statement is called a "Notice of determination of tax credits and standard rate cut-off point". The notice shows employees the value of tax credits and standard rate cut off point.

**Note:** Most employers and employees (over 16 years of age) in Ireland pay social insurance contributions into Ireland's national Social Insurance Fund. In general, the payment of social insurance is compulsory.

Ireland's Social Insurance Fund is made up of a current account and an investment account managed by the Minister for Social and Family Affairs and the Minister for Finance, respectively. The current account consists of monies collected from people in employment. This money is then paid back to fund social insurance benefits and entitlements. The investment account is a savings account that is managed by the Minister for Finance. The Comptroller and Auditor General has responsibility for ensuring that the accounts are kept in order and reports are made to the Houses of the Oireachtas.

The amount of social insurance one pays depends on earnings and the type of work. Social insurance contributions in Ireland are referred to as PRSI (Pay Related Social Insurance). Sometimes, people describe their PRSI record as "stamps". This term dated from before 1979 when employers would literally stamp a card each week of employment. That card was then brought to a local social welfare office in order to claim social welfare payments.

Since 1979, employers keep a record of the insurance contributions. These monies are now collected by the Revenue Commissioners who in turn make annual returns of these records to the Department of Social and Family Affairs. All records of your insurance contributions are kept by the PRSI Records section in the Department of Social and Family Affairs.

### **Social insurance benefits**

There is a wide range of benefits that are available to people who have paid social insurance. Entitlement to these benefits is dependent on a number of conditions other than the social insurance requirements. The social insurance qualifying criteria vary, depending on what payment you are applying for. In general, the following will be examined:

What class/classes of social insurance you have paid.

The age when you started making social insurance contributions (this applies in the case of pensions).

How many paid and/or credited contributions you have made since entering insurable employment.

The number of contributions paid and/or credited in the relevant tax year before the benefit year in which you make the claim. The relevant tax year is the second last complete tax year before you make a claim.

A yearly average of the number of your contributions in the case of some pensions.

Enter a numeric between 0.00 and 999999.99.

**Note:** In general, large employers in Ireland have occupational pension schemes, but many smaller employers throughout the country do not.

Each pension scheme has its own set of rules. Pension schemes nationally are generally regulated by the Pensions Board. Members of schemes have certain rights in respect of such matters as information. The contributions to approved occupational pension schemes may attract tax relief. Regulation for tax purposes is supervised by the Retirement Benefits District of the Revenue Commissioners.

### **Occupational pensions and personal pensions**

Occupational pensions are organised by employers to provide pensions to one or more employees on retirement or to surviving dependants on the death of an employee.

A **personal pension scheme** properly known as a Retirement Annuity Contract- RAC) is an arrangement by a self-employed person or an employee, generally a person who is not a member of an occupational pension scheme, to provide a pension on retirement or to surviving dependants on death.

You may be a member of an occupational pension scheme and also arrange a personal pension. However, it may not be possible to avail of the tax benefits in respect of both. You may not contribute to an occupational pension scheme and a personal pension arrangement at the same time in relation to the same employment. However, you may make a personal pension arrangement in respect of earnings from another employment or from self-employment.

A person becoming an employee and joining an occupational pension scheme can now continue to contribute to the RAC schemes where they join an occupational pension scheme. However, tax relief will not be given to continued contributions.

From 2003 onwards, Personal Retirement Savings Accounts (PRSAs) became available. These are designed to be used instead of occupational pension schemes by employers who do not wish to sponsor such schemes. They may also be used to supplement occupational scheme benefits, as Additional Voluntary Contributions (AVCs) and as a substitute for personal pension schemes. From 15 September 2003, employers must offer access to at least one standard PRSA to any employee who is not eligible to join an occupational pension scheme within 6 months of joining employment and must offer a PRSA for AVC purposes if there is no facility for AVCs within the scheme.

### **Kinds of occupational pensions**

Occupational pension schemes may be contributory or non-contributory, funded or unfunded, defined benefit or defined contribution.

In contributory schemes, both you and your employer pay contributions towards the scheme. In non-contributory schemes, you do not contribute but your employer does.

If the respondent only started working in the week prior to the interview and he/she didn't work at any other time in the income reference period and the new job's gross basic salary is €50,000 then key 50000.

**<Name>**

**What amount did you receive in <Occ\_Add type> (before tax and social insurance) in the last 12 months?**

Enter a number of at most 10 positions with 2 decimals.

**Note:** A profit sharing payment could be a cash amount, which is subjected to tax. It could also be in the form of shares in the company for which the employee works. If it is the form of shares then a 0 amount should be keyed for Profit sharing bonus, as we are collecting cash values in this question.

Below is a note on Approved Profit Sharing Schemes.

Approved Profit Sharing Schemes allow an employer to give an employee shares in the company up to a maximum value of 12,700 euro per year tax-free (2006 threshold level). Approved Profit Sharing Schemes are subject to certain conditions set out in legislation and administered by the Revenue Commissioners.

Providing the scheme meets the required conditions, an employee will pay no tax on shares up to a maximum value of 12,700 euro per year. The employer must hold the shares for a period of time (called the "retention period") and the employee must not dispose of the shares before three years. If an employee disposes of shares before this time, he or she is liable to pay income tax on whichever is the lower of the following:  
The market value of the shares when they were given to the employee or;  
The value of the shares at the time of sale.

Ask if Co\_Car=1

If the respondent has a company car

**<Name>**  
**Approximately how many business miles do you travel each year?**

Enter a numeric value between 0 and 99999.

**Note:** The reason this question is asked is to determine the Benefit in Kind notional value of the car to the respondent. If a company car is used by a sales representative who covers a large territory and a similar car is used by an office based employee (who in effect does little business mileage) then the 'benefit' is greater to the office based employee.

➤ **BIK\_TRAV (If received travel/car allowance)**

Ask if *Income\_Typ=2 or 3, and Pub\_Priv = 2 or 3, and Co\_Car=2*

*If respondent has received employee income in the last 12 months and doesn't have a Company Car and isn't (wasn't) a public sector employee*

Enter a numeric value between 0.00 and 999999.

**Note: Car allowance**

A car allowance is where an employee gets a set amount in addition to a salary each week to run a car. This is normally to take in all expenses -- insurance, tax, petrol, and maintenance. This is taxed as a 'ransom expense' because the employee does not have to produce receipts for expenditure.

Therefore, it is taxed simply as a benefit-in-kind at the marginal rate of taxation through PAYE.

➤ **BIK\_PAYE (if received other BIKs)**

Ask if *Income\_Typ=2 or 3, and Pub\_Priv = 2 or 3*

*If respondent has received employee income in the last 12 months and isn't (wasn't) a public sector employee*

**<Name>**

3. Low interest loan
4. Free/subsidised children's school fees
5. Free/subsidised Club subscriptions
6. Free/subsidised creche
7. Free/subsidised housing costs (electricity/gas/phone/Free (reduced) rent
8. Lunch allowance/Luncheon vouchers
9. None of these non cash benefits

➤ **BIK\_Val <1,2,3,4,5,6,7,8> (Value of BIKs received from employer)**

**<Name> What was the cash equivalent value of the <BIK\_PAYE type> that you received from your employer in the last 12 months?**

Enter a number of at the most 10 positions with 2 decimals.

There is slight modification of the question text dependent on the BIK\_PAYE item e.g.. if BIK\_PAYE =3 then question text is

**<Name> What was the value of the Low interest loan benefit over the last 12 months?**

**① i.e. What was the difference in the interest you paid in respect of this loan and the amount you would have had to pay if you borrowed an equivalent amount from a bank (at a non preferred rate)?**

**<Name> What is the weekly value of luncheon vouchers or lunch allowance received from your employer?**

Enter a number of at most 10 positions with 2 decimal points.

**Note: Salary\_Shr** asks if the respondent 'forgone salary' to purchase shares in the company in which he/she works. For example an employee might forgo a percentage of his/her salary and receive the forgone percentage in shares. This reduces the employees tax liability (assuming that he/she does not sell the shares before a defined time period elapses). **BIK\_PAYE** asks the respondent whether he/she received Free shares from his/her employer. An example is a case where the employee took a 'bonus payment' in the form of shares. In other words the employee didn't forego part of his/her basic salary to receive these shares.

➤ **Doc\_P60 (If respondent can supply Interviewer with a P60 certificate)**

*Ask if Income\_Typ=2 or 3*

*If respondent has received employee income in the last 12 months*

A P60 is a form issued by an employer to an employee certifying details of the employee's pay, tax and PRSI contributions for the tax year. The Form P60 must be given to each employee who is in employment at 31 December on any given year. This should be done before 15 February of the following year. - the maximum amount of salary that may be foregone is 7½% of basic salary.
- where it is intended to include a provision for a minimum amount of salary to be foregone, that minimum amount cannot exceed the lesser of £100 or 1% of basic salary.
- where varying percentages are included in a scheme the same choice must be given to all participants.

The self-assessed tax year is the same as that for employees i.e. the calendar year. The tax year changed in 2000, prior to that the tax year ran from April 6<sup>th</sup> to April 5<sup>th</sup>.

### **Preliminary Tax**

Preliminary Tax is an estimate of Income Tax payable by a self employed individual for the year and must be paid by 31 October. Preliminary Tax includes PRSI and Health Contribution as well as Income Tax.

The amount of Preliminary Tax that must be paid to avoid interest charges is the lower of:

- 90% of the final liability for the current tax year or
- 100% of the final liability to tax for the immediately previous year or
- 105% of the final liability for the year preceding the immediately previous year. This option is only available where the Collector-General is authorised to collect tax by direct debit. The 105% rule does not apply where the tax payable for the pre-preceding year is NIL

This means that if an Interviewer is Interviewing a self employed respondent in the latter part of the year then the respondent may be in a position to give the interviewer very up to date figures relating to self employed income and tax liability

- pay Preliminary Tax for 2008 on or before 31 October 2008,

- pay the balance of tax due for 2008 on or before 31 October 2009,

**Note:** A dividend is a taxable payment declared by a company's board of directors and given to its shareholders out of the company's current or retained earnings. Dividends are usually given as cash, but they can also take the form of stock. Dividends provide an incentive to own stock in stable companies even if they are not experiencing much

growth. Companies are not required to pay dividends. The companies that offer dividends are most often companies that have progressed beyond the growth phase, and no longer benefit sufficiently by reinvesting their profits, so they usually choose to pay them out to their shareholders.

**Note:** A with-profits policy is an insurance contract that participates in the profits of a life insurance company. The company is usually a mutual life insurance company, or had been one when it began its with-profits product line (e.g. Standard Life or Canada Life).

With-profits policies evolved over many years as a means to achieve long-term capital growth. Today they are accepted as a form of long-term collective investment whereby the investor chooses the insurance company based on factors such as: financial strength, historic returns and the terms of the contracts offered.

The premiums paid by with-profits, without-profits and non-profit policyholders are pooled within the insurance company's life fund. The company uses the pooled assets to pay out claims and other settlements. A large part of the life fund is invested in equities, bonds, property and more complex financial instruments to achieve capital growth.

The insurance company aims to distribute part of their profit to the with-profits policy holders in the form of a bonus. The bonus rate is determined by complex actuarial calculations with reference to the return on the underlying assets, the level of bonuses declared in previous years and other actuarial assumptions (especially future liabilities and anticipated investment returns).

**Unit trust** The category of investment known as a mutual fund in the US is called a unit trust in other parts of the world. A form of pooled savings where a number of investors buy units in a trust that are managed by professional investment managers.

**Note: Back to Work schemes.** There are 2 types of Back to Work schemes, 1 for employees and the other to encourage unemployed people to become self-employed. Under these schemes an individual can keep a certain percentage of their social welfare payments over a given period (3 –4 years) and they can also keep secondary benefits (provided their household income remains under a specified amount). Secondary benefits include Fuel allowances and the Medical card.

**Note: Back to Education Allowance scheme.** An unemployed person, a single parent or somebody with a disability, may be able to pursue approved second-or third-level education courses through the Back to Education Allowance scheme. **Note:** Illness Benefit is a payment made by the Department of Social and Family Affairs to those in Ireland who are aged under 66 and incapable of work because of illness and **have enough social insurance contributions**. In general in Ireland, there is no existing employment legislation on the issue of sick pay or sick leave. This means that if a person is on sick leave from employment (either with a medical certificate or not) then he/she is **not automatically entitled** to pay from employment. Instead, it is at the discretion of the employer to decide his/her own policy on sick pay and sick leave, subject to employment contract or terms of employment

### **If a person is not entitled to pay for sick leave**

If there is no entitlement in a person's terms and conditions of employment to pay during sick leave, he/she may apply for Illness Benefit if he/she have enough social insurance contributions

### **If a person is entitled to pay for sick leave**

Where there is an entitlement in a contract of employment to sick pay, the employer will probably require the employee to sign over any Illness Benefit payment from the Department of Social and Family Affairs to the employer for as long as the sick pay continues.

**Note:** Disability Allowance is a weekly allowance paid to people with a disability in Ireland that are aged 16 or over and under age 66. The disability must be expected to last for at least one year and the allowance is subject to both medical suitability and a means test.

**Note:** Blind Person's Pension is payable to blind people and those with low vision. The person is required to undergo an eye test. This pension is means tested.

**Note:** Invalidity Pension is a social insurance payment made to people in Ireland who have been incapable of work and receiving Illness Benefit for at least twelve months before the date of their claim. (This applies to those who will continue to be incapable of work for at least a further twelve months). It may be possible to go onto Invalidity Pension after a shorter period if the illness or disability is of such a nature that the person is unlikely to be able to work for the rest of his/her life. At age 65, the rate of payment increases to the same rate as Retirement Pension. Invalidity Pension is taxable. Somebody who is in receipt of Invalidity Pension is also entitled to a Free Travel Pass and may also be entitled to the Household Benefits Package (i.e. The Electricity Allowance, The Natural Gas Allowance, The Electricity (Group Account) Allowance, The Bottled Gas Refill Allowance, The Telephone Allowance The Free Television Licence).

### **Rules**

A person must have at least 260 (i.e. 5 years) paid contributions since entering insurance and at least 48 contributions paid or credited in the last complete tax year before the date of the claim. The person may be allowed to do rehabilitative type work (max. 20 hours per week) and retain the Invalidity Pension.

**Note:** Injury Benefit is one of the benefits available under the Occupational Injuries Scheme. It is a weekly payment made if somebody is unfit for work due to an accident at work or because he/she contracted a disease due to the type of work they do. ## 19. Household Questionnaire

### ➤ Wh\_Ans\_HS (Will somebody answer the housing questions)

*Will somebody answer the housing questions now?*

1. Yes
2. No

### ➤ No\_Ans\_H (Person number of household member answering household questionnaire)

*Ask if Wh\_Ans\_HS=1*

*If somebody will answer the household questionnaire*

*Please enter the line number of the person who is answering the housing questions.*

**ⓘ** *The person who answers these questions should be the Head of Household.*

The Names of the household members are listed here (assuming personal questionnaires are complete)

Enter a numeric value between 1 and 20.

**Note:** If you have skipped a person's personal interview then the line option for this person will not appear on the screen. If you key the line number of the skipped household member for the variable **No\_Ans\_H** then the following error message is activated.

***This person has not answered age and may be less than 16 years of age.***

This is because in the case of a skipped person the age questions have not yet been asked. If an interviewer is happy that the respondent is 16 years or over then the interviewer can suppress the error check.

Given that the household-level response is going to be attributed to all household members, it is essential that the information be collected from someone who can, in some sense, 'speak for' the household.

For instance, if the 'selected respondent' is the 16-year old son or daughter, this person is highly unlikely to be able to provide good quality information on such issues as the mortgage or rent payments, housing costs etc.

The household respondent will be chosen according to the following priorities:

Priority (1): the person responsible for the accommodation;

Priority (2): a household member aged 16 and over whom is the best placed to give the information.

*Ask if Wh\_Ans\_HS=1*

*If somebody will answer the household questionnaire*

***In what year was the dwelling constructed?***

0. Don't know
1. Before 1919
2. 1919-1940
3. 1941-1960
4. 1961-1970
5. 1971-1980
6. 1981-1985
7. 1986-1990
8. 1991-1995
9. 1996-2000
10. 2001-2005
11. 2006 or later

➤ **Own\_Rent (If dwelling is owned or rented)**

Ask if Wh\_Ans\_HS=1

If somebody will answer the household questionnaire

**Do you (or a member of the household) own or rent the dwelling?**

1. Own
2. Rent

**Note:** The owner of the accommodation should be a member of the household. If for instance the accommodation is provided by a relative (such as by parents to their children) who is not a member of the household, then Rent should be keyed i.e. 2. A person is owner if he possesses a title deed independently if the house is fully paid or not.

➤ **Own\_Dwel (If owned outright or with a mortgage)**

Ask if Own\_Rent=1

If the respondent owns the dwelling

**Is your dwelling**

1. Owned outright?
2. Owned with a mortgage (including joint owner rental with the local authority)?
3. Owned under the tenant purchase scheme?

**Note:** This question relates to formal mortgage arrangements (i.e. loan) used to purchase the accommodation occupied by the household. A formal arrangement means that there is a legal contract and fixed repayments at regular intervals.

If the accommodation was purchased with a loan from a relative (e.g. father) or from a Bank the arrangement would be regarded as a mortgage only if there are regular "contractual type" fixed repayments. If there are no regular fixed repayments (e.g. loan repaid at Head of household's convenience) the arrangement is treated as a "personal loan" (not a mortgage) and the accommodation should be treated as "owned outright". The organisation financing a house mortgage always retains the property title and lease for safekeeping; this is sufficient confirmation of the existence of a true "mortgage". If a loan or mortgage is not for home purchase (i.e. if it is for home improvement or some other purpose) it becomes in effect a "personal loan".

➤ **Per\_Own1 (Person 1 that owns the dwelling)**

Ask if  $Own\_Rent=1$  and  $No\_Pers>1$

If the respondent owns the dwelling and there is more than 1 household member

**Could you please tell me which household member(s) owns the dwelling?**

**ⓘ Please insert the person number. If jointly owned, please insert the person number of the eldest joint owner**

The Names of the household members are listed here (assuming personal questionnaires are complete)

Enter a numeric value between 1 and 20.

**Note:** There is no age cut-off for this variable, e.g. if a household member is 2 months old, then the line on which this person appears is an option for this variable.

➤ **Per\_Own2 (Person 2 that owns the dwelling)**

Ask if  $Own\_Rent=1$  and  $No\_Pers>1$

If the respondent owns the dwelling and there is more than 1 household member

**ⓘ If a number of household members jointly own the dwelling please insert the person number of the second eldest joint owner.**

**If the dwelling is not jointly owned with another household member PRESS RETURN TO CONTINUE.**

The Names of the household members are listed here (assuming personal questionnaires are complete)

Enter a numeric value between 1 and 20.

**Note:** If this question is not relevant e.g. a single parent with an infant child then PRESS RETURN TO CONTINUE.

➤ **FTB\_Morg (If first time buyers)**

If the respondent owns the dwelling with a mortgage

**Are <Per\_Own1> and <Per\_Own2> first time buyers?**

1 Yes

2 No

➤ **Time\_Own (Length of time dwelling is owned)**

Ask if Own\_Rent=1

If the respondent owns the dwelling

**How long (in years) has <Name>(s) owned the dwelling?**

Enter a numeric value between 0 and 99.

**Note:** if less than 6 months please code as 0. If dwelling jointly owned the name of the other person will also appear in question.

➤ **Morg\_Agency (Mortgage lender)**

Ask if Own\_Dwel=2 or 3

**From whom did you get the loan or mortgage to purchase this dwelling?**

1. Building Society
2. Local Authority
3. Insurance company
4. Bank
5. Housing Finance Agency
6. Other

**Note:** Building Societies are the most common ("interest and principal" arrangement) and Insurance Companies and Banks are also involved. Local Authority and Housing Finance Agency loans can be availed of by low income households. The residual category covers all other sources. For example, a house loan from an employer would be coded here as long as it is not a Building Society, Insurance Co. or Bank. Private loans would also be coded here as long as there was a definite agreed repayment arrangement.

➤ **Morg\_in\_Am (Mortgage interest amount)**

*Ask if Own\_Dwel=2 or 3*

*If the dwelling is owned with a mortgage or under a tenant purchase scheme*

**Do you know the amount of interest you paid on your mortgage in the last 12 months?**

***If yes specify that amount.***

Enter a numeric value between 0 and 999999.

**Note:** The lending institution issues an annual 'Certificate of Interest' This states explicitly the amount of mortgage interest paid over a 12 month period.

➤ **Morg\_Type (Type of mortgage)**

*Ask if Own\_Dwel=2 or 3*

*If the dwelling is owned with a mortgage or under a tenant purchase scheme*

***Is your mortgage?***

1. An Endowment mortgage
2. An Annuity mortgage
3. An Interest only mortgage

**Note: ENDOWMENT MORTGAGES** In this arrangement an endowment policy is taken out with an Insurance Company either before or at the same time as the mortgage, and it is arranged that when this policy matures after a specified number of years it will cancel out (i.e. pay off) the original sum (i.e. the principal) borrowed under the mortgage. The full principal remains outstanding until the policy matures and interest is paid on the full amount until then. Effectively, the mortgage repayments consist of interest and the endowment policy premiums.

**ANNUITY MORTGAGES** This is the usual type of mortgage arrangement. The money borrowed for the purchase of the house is repaid over an agreed number of years; interest being paid on the amount outstanding at any particular time. Usually the payments in any one year consist partly of repayments of the original loan (i.e. the principal) and partly of interest. The same total amount is normally paid each year (assuming interest rates remain constant), and as time goes on the interest part becomes smaller and the principal repayments get larger as more and more of the original amount borrowed is repaid.

**INTEREST ONLY MORTGAGES** This option was only introduced to the questionnaire in Quarter 3, 2006. The reason for this is that interviewers reported that an increasing number of respondents answered 'Interest only mortgage' when asked about the type of their mortgage. An endowment mortgage is an interest only mortgage but in addition to endowment policies there are other types of interest only mortgages e.g. policies where the borrowed principal is repaid by a matured pension.

This is where you only repay the interest on your mortgage each month, so you'll need some sort of investment plan to pay off the capital, e.g. a pension, an endowment policy, an ISA or other long term investment plan. When your investment matures, you cash in the plan and use it to pay off your mortgage loan. You are responsible for the repayment of the capital when the mortgage reaches the end of the term.

*If the dwelling is owned with a mortgage or under a tenant purchase scheme*

**How much is your present monthly mortgage repayment before mortgage interest relief?**

*Ask if Own\_Dwel=2 or 3*

Enter a numeric value between 0 and 9999999.

**Note:** In some cases a person may re-mortgage a property in order to obtain money for housing purposes (e.g. repairs, renovations, maintenance etc.) or for non-housing purposes. What we are looking for is the Original amount of the mortgage.

➤ **Morg\_Supp (If received Mortgage interest supplement)**

**Did you or anybody in your household receive a mortgage interest supplement, under the Supplementary Welfare Allowance Scheme at any time in the last 12 months or any other regular payment for housing costs from the Community Welfare Officer at the Health Service Executive (HSE)?**

1. Yes
2. No

**Note:** The purpose of mortgage interest supplement is to provide short-term income support to eligible people who are unable to meet their mortgage interest repayments in respect of a house which is their sole place of residence. The supplement assists with the interest portion of the mortgage repayments only. The capital element of the repayment is not taken into account in calculating the amount of supplement payable as it is not considered appropriate that the Exchequer should repay part of the initial loan and thereby provide assistance towards the accumulation of a capital asset on the part of the individual concerned.

A person may be entitled to a supplement towards the amount of mortgage interest payable by him or her in respect of his or her residence provided that:

- he or she is habitually resident in the State (effective 1 May 2004);
- the loan agreement was entered into at a time when, in the opinion of the Health Service Executive, the person was in a position to meet the repayments;
- the residence in respect of which the loan is payable, is not offered for sale.

Domestic water charges were abolished in 1997, but if you are a member of a group water scheme, you may still have to pay a certain amount for your domestic water. Water charges are used specifically to maintain and improve the water and waste water systems.

Most local authorities provide domestic refuse collections and householders availing of this service are charged. The cost of “tags” should be included and most households will have an idea of their total local authority or private refuse collection charges as there is tax relief on domestic service charges.

➤ **Amt\_LocAu (Local authority charge paid in year)**

**Note:** There are different types of ownership of property in Ireland. Owning the leasehold interest in a property means that you own just the building and not the land it is on and that your ownership is for a fixed number of years. If you own a leasehold property, you must pay a ground rent to your landlord because he or she owns the ground it is built on. The amount of ground rent paid varies. Often this landlord will be your local authority, for instance, in Dublin; it may be Dublin City Council. Owning the freehold interest in a property means that you own the land and buildings (if any) outright. There is no period of years attached to the ownership. Ground rent does not affect freehold property.

**Note:** Bank current account: These offer day-to-day money management facilities such as various flexible payment methods to allow customers to distribute money directly to others. Standard services offered by current accounts include a chequebook, the facility to arrange standing orders, direct debits and payment via a debit card. A savings account is not a current account where no such facilities are available.

Standing orders are customers' instructions to their bank to pay a set amount, to a named beneficiary, at regular intervals (say on the 1st of the month) – either for a specific period of time or until cancelled. A standing order requires the customer's bank to *send* the money. Typically, a standing order might be used to pay a fixed amount to a savings account.

Direct debits are customers' authority for beneficiaries to claim payments (variable in amount and frequency) from the customers' accounts and customers' instructions to their bank to allow the taking of those payments. A direct debit requires the beneficiary to *claim* the money). A direct debit is more likely to be used to make payments that can vary from time to time e.g. mortgage.
