

Trade monitoring through customs surveillance data

The TAXUD surveillance system ("customs surveillance") records and centralizes all EU trade data (import and exports) directly from the national customs authorities on a daily basis. For each transaction, the stored data contain the information available on the Single Administrative Document (SAD), including the volume and origin of the consignment.

According to Art.55(2) of Commission Implementing Regulation (EU) 2015/2447, the customs authorities shall provide the Commission at least once a week with data on customs declarations for the goods that have been made subject to surveillance at release for free circulation or at export.

The "customs surveillance" data provide actual and prompt information about the trade (import/export) transaction in terms of volume and origin or destination.

Publication of data

This report is published on a weekly basis.

The data are expressed in quantity of the product itself, unless otherwise stated
Below the specifications of the products included in the report

Product	Type	CN code	Conversion factor milled equivalent
Paddy	Indica	1006 10 79 (<i>until 31/12/2016: 1006 10 27; 1006 10 98</i>)	0.552
