

Draft work programme 2008 for the Social Dialogue
sectoral Committee “Industrial Cleaning”

I. New activities

- “Modernisation of work organisation” – joint project of research and case studies (financed by the European Commission)
→ National social partners to provide information and to adopt and disseminate the final report
- Multi-tasking: Identification of national practices and eventual common conclusions
- Multi-sectoral approach on “Best Value” in public procurements of cleaning services
→ Planned European Commission initiative

II. Ongoing activities - Joint awareness campaigns

- Promotion of day time cleaning
→ National initiatives by social partners
- Undeclared work
→ Elaboration of a compendium of best practices
→ Identification of possible means for joint communication campaigns at national level

III. Follow-up and implementation

- Follow up of previous joint actions and adoption of an implementation report
→ Evaluation of the outcome and identification of priorities for further elaboration
- Selection of Best Value in public procurements of cleaning services
→ Reflection on an evaluation tool of the impact

IV. Eventual joint actions with regard to the European political and legislative evolutions

- Examples: Flexicurity, equal opportunities, health & safety
