Identifying where you are in the questionnaire and question instructions

Parallel Blocks
The FRS interview consists of a 'Household Schedule' and a 'Benefit Unit Schedule' which is repeated for as many benefit units as there are in the household (see definition of benefit units at ShowBen). Each of these is known generically as a parallel block. There are also other parallel blocks such as the 'Admin Block' and the 'Recall Block'. Sometimes these blocks are referred to as parallel fields.

Blocks of questions
These question instructions are broken down into sections: at the top level by the parallel blocks, then within the household and benefit unit schedules by blocks of questions on different subjects. Each of these blocks of questions is given a separate chapter, with a unique header at the top of the page.

The blocks of questions correspond to way the interview program is divided up. Each block has a name, which is a shorthand version of the content of the block. The contents page shows all the block names.

Question names
In a computer assisted interview there are no question numbers as such. Instead each question is given a name. In these instructions the name of the question, as it will appear on the screen, is given above the relevant instructions. The name of the question is also shown in bold type to the left of the question text. When you work through the questionnaire on the laptop, the name of the question will appear in the lower part of the screen against the space where you will enter the answers. This may be to the left of the answer field (i.e. where the cursor is) or above it when a set of questions is being repeated in a table form. In tables, the rows will have an identifier similar to the question name, either to indicate to which person the specific question applies, or the number of the loop if the series of questions is being repeated.

Knowing exactly where you are
The parallel blocks, blocks of questions and question names are the reference system used on FRS within the questionnaire. The reference system should therefore be used whenever a specific block and/or question in the program has to be identified (e.g. if you wish to contact someone at the office with a query, or are asked to do a field report).

There is a quick and easy way to identify exactly where you are in the questionnaire at any time. Pressing the <F9> key will bring up a box on screen containing the full text of the question, and any on-line help instructions that exist for that question.

At the top of the box is a line of text, which identifies the question block and question name you are at. In the benefit unit schedule the specific benefit unit number is also shown. Each part is separated by a full stop. To get rid of the box and back to the question, press <ESC>. Some question blocks are divided into sub-blocks, the name of which may also be shown. Some variables are ‘between blocks’, for these only the variable name will be shown.

Some examples of what is shown at the top of the box when you press F9:
HHG.P[1].MS
This means you are in block HHG (the ‘household grid’); as the grid is a table it indicates P[n] that you are in the line for person [number] (in this case, Person 1); and that you are at the question MS, about marital status.

QAccomDat.Tenure
You are in block QAccomDat (information about the accommodation) at the question Tenure.

Benefit_Unit[n].QCurst1.Adult[1/2*].Working
You are in the Benefit Unit schedule for Benefit Unit number [n]; in block QCurst1 (current employment status) at the question Working for Adult 1 or 2 in that Benefit Unit (BU) *as appropriate.

Moving around the questionnaire

Switching between Parallel Blocks
You can switch between the different parallel blocks quickly and easily. To do so, simply press <CTRL+ENTER>. This can be done at any time throughout the interview. A menu appears, listing all the parallel blocks for the household. Use the down/up arrow keys to highlight the block to which you wish to go, and press <ENTER>.

In the normal course of an interview you will only do this at logical points, such as when you reach the end of the household schedule, or the end of a benefit unit schedule. Please note, you should always complete the household schedule before starting a benefit unit schedule, in order that all the information needed for routing is available. You will also use it to select the admin block, at the end of the interview session, or when you want to complete the calls and outcome or non-response sections. At each of these points a display screen will instruct you what to do.

The menu which appears when you press <CTRL+ENTER> is shown overleaf:
The household schedule is called FRS49. The number of Benefit Unit schedules shown corresponds to how many there are in the household.

**Jump (tag) function**

In order to move around the questionnaire quickly it is possible to jump to the beginning of certain question blocks in the questionnaire using a special jump function. It is only possible to jump to a part of the questionnaire that has been completed. If you try to jump further than you have answered in the questionnaire then the laptop will simply take you to the last question for which you have entered an answer. Also if you try to jump to a block that was not on the route for your informant (e.g. the renter block when the house is owned) then you will stay at the same point from which you were trying to jump.

To use the jump function, press the <F3> key. A menu opens on screen, headed ‘Search Tag’. Underneath the words ‘Tag to search for’ type the number of the jump function which will take you to the part of the questionnaire you wish to get to. Then press <ENTER>. It is not possible to jump to a point in another schedule, except from household to BU1.

Checks and warnings

In the FRS questionnaire there are certain checks programmed that look for unlikely or inconsistent answers, as well as the usual limits to the ranges given for numerical responses. Information about the more complex checks is given below the question throughout these instructions

**Hard Checks**

Some checks are hard checks - at these checks the computer will stop the questionnaire, inform you of the problem and require an answer to be changed in order to proceed. They are normally for situations that are logically impossible such as the year a property was bought by the household being entered as a date before any household member was born.

**Soft Checks**

Other checks are called Soft Checks or Signals - these occur when unusual but possible answers are entered. Here a warning screen querying the situation appears. You can spot a soft check by the extra option in the highlighted bar at the bottom of the screen which allows you to suppress the warning.

**How to deal with checks**

When either type of check is triggered, a ‘dialogue box’ is displayed on screen. Hard checks will state ‘Error’ on the top line of the box, soft checks will state ‘Active signal’.

At the top of the box are the commands ‘Go to’, ‘Cancel’ and, for soft checks only,
‘Suppress’.

The error message will summarise the problem and in some cases suggest the action you should take (e.g. to check the figures you have entered). It may be necessary to probe with the respondent and then either change the answer or, if they confirm that the original answer was correct, suppress the warning.

The lower half of the box will also display the question or questions that have contributed to the triggering of that check. To return to any question that you wish to amend, you can use the arrow keys to take the highlight bar down to the question that you wish to change, then press <ENTER> or ‘G’ (for ‘Go to’) to return directly to that question. (Pressing ‘C’ for ‘Cancel’ will return you to the question at which the check was triggered). Once you have changed an answer, press the ‘End’ key to return to the point at which the check was triggered.

If you wish to suppress the warning, press ‘S’ (for ‘Suppress’). After suppressing the warning you MUST make a note using <Ctrl+M> to explain to editors the reasons why you suppressed this check.

Once suppressed, a warning will not be re-triggered on subsequent re-entering of the questionnaire. However, if you wish to see the checks that were suppressed, select the Navigate menu (<Alt+N>), and then ‘Show all errors’. You can then use the arrow keys to move from one to the next/previous one.

**Automated Checks**

Whenever an important soft check is suppressed, an automated system will be activated by the laptop providing a field for interviewers to leave a note explaining the suppression. This enables the interviewer to type their comments directly into the laptop without having to access the note facility using <Ctrl+M> which, in turn, ensures that the interview runs smoothly. An example of an automated note screen is shown over the page.

Where there are multiple checks at one question (e.g. Taxcred) the text of the signal will be displayed to ensure the interviewer knows which signal to make a note about. However, please ensure that, regardless of whether or not an automated note has been activated, **you always leave a note when suppressing a check**.
Notepad facility for notes/remarks

Whenever you suppress a soft check, want to draw attention to a situation you are not sure about, or wish to give further information which might be of use to the editors, you must write a note using the notepad facility. Firstly make sure you are at the right question. **If you have suppressed a check, the cursor will move to the next question, so before making your remark you must arrow/page back to the question concerned.**

The box for making your note is opened by pressing <Ctrl+M>. It works like a word processor. At the end of a line the text automatically wraps round so there is no need to press ‘enter’. You may edit your text by using the arrow keys to get the point you want to make a change, then use the ‘delete’ key or insert more characters.

Editors read every note made. Depending on the type of check and the information you give in the note they might be able to take some action. Even if the note simply states that you have confirmed an answer with the respondent, we can then be sure it is the correct answer or figure. In more complex situations please be as clear as you can. Please only use abbreviations that are well known and not something that only you will understand. To ensure that the editors can be sure to whom the note refers, please include the respondent’s name, as shown in the household grid.

When you have finished making your note, save it by pressing <Alt+S> or by clicking on Save, and return to the questionnaire. A small symbol resembling a paperclip appears beside the question to indicate that it has an accompanying note.
If you wish to discontinue with a note press <Esc> and Yes for ‘Undo Changes’. If you wish to delete a note at a later date, reopen the note, delete the contents and resave. The symbol will disappear as there is no information contained in the note.

**Standard period codes**

Rather than repeat the list of period codes at every period question in the instructions, they are shown below. Period code questions end in ‘...Pd’, e.g. RentPd, BenPd.

- 1: One week
- 2: Two weeks
- 3: Three weeks
- 4: Four weeks
- 5: Calendar month
- 7: Two calendar months
- 8: Eight times a year
- 9: Nine times a year
- 10: Ten times a year
- 13: Three months/13 weeks
- 26: Six months/26 weeks
- 52: One Year/12 months/52 weeks
- 90: Less than one week
- 95: One off/lump sum
- 97: None of these (EXPLAIN IN A NOTE <Ctrl+M>)

**Period code 97 - none of the above**

If you enter code 97 an automatic note will be opened. You **must** explain the circumstances when using code 97. The office editors need as much information as possible in order to be able to recode it to one of the other codes. For example, the number of days/weeks/months, or the start and end dates of the period covered.

There are two key period questions where a check will appear if code 97 is used. These are:

- **PayPd** - referring to last take home pay
- **MntPd** - referring to receipt of maintenance
On-line question instructions

Selected parts of these paper question instructions have been incorporated into the interview program. They are mainly key definitions or instructions for specific questions. They are not identified in these paper instructions. You will know when an instruction is available by the inclusion of ‘HELP <F9>’ somewhere in the on-screen question text. Press F9 and a text box pops up. To return to the question/answer screen, press <Esc>.

If <F9> is pressed when there is no instruction programmed, all the box will contain is the question and answer codes.

Guide to the instructions

To help you understand the Instructions the following symbols have been used:

- ? Denotes the question name
- ← Denotes the variable name
- / Denotes further information on a particular question
- ≈ Denotes a soft check
- ! Denotes a hard check
- ☆ Denotes new to the current survey year – either an addition or changes
Starting the Questionnaire

When you open a questionnaire the first thing you see is the following display screen. Here you can check that you are in the correct address and household. If correct, choose whether you want to enter the questionnaire or go to the admin block.

? The First Question

First

INTERVIEWER: FOR YOUR INFORMATION... You are in the Household Schedule for
Area No:

1. Continue

/ Display Screen

This is an example of a Display Screen. These provide information only and no questions are to be asked here. When you have read the information press <1> and <ENTER> and the program will take you on to the next question in the Household Schedule.

These types of screens will often appear at the beginning of blocks and will simply state what the next group of questions is about.

If you wish to go straight to the Admin Block, press <Ctrl + Enter> and select 'Admin' from the parallel blocks.

? Date Question

DateOK

INTERVIEWER: TODAY’S DATE ACCORDING TO THE LAPTOP IS DD/MM/YYYY. IS THIS THE CORRECT DATE?

1. Yes
2. No

If the laptop’s date is correct, code ‘yes’ and the next question, Start Date will be automatically filled in. If you code ‘no’ you will have to enter today’s date. It is extremely important that you check you have recorded the date correctly if you have entered the date manually.
Starting the Questionnaire

? Start Date
↩ BStartD

ENTER THE DATE ON WHICH THE INTERVIEW WITH THIS HOUSEHOLD WAS STARTED.

/Question Information for Start Date

If you have to enter this yourself, the laptop will accept a number of ways of entering the date but the format that is commonly used is with a slash between day, month, and year, e.g. 19/4/2005. It is important that the correct date is entered at this point as it will be used for calculating the reference period for retrospective questions throughout the interview. It is possible to change an incorrect date entered, but it may cause problems at retrospective questions if done too late.
Household Members

? Who Lives Here

Who normally lives at this address?
1. Press <Enter> to continue

ENTER A NAME FOR THIS HOUSEHOLD MEMBER

IT DOESN'T HAVE TO BE A NAME - JUST SOMETHING THAT UNIQUELY IDENTIFIES THIS PERSON WITHIN THE HOUSEHOLD SO YOU CAN REFER TO THEM LATER IN THE INTERVIEW.

/* Question Information for Who Lives Here

This question is where you ask for names. This is to make it easier to keep track of who you are talking to and, for later in the questionnaire, to whom specific questions should be addressed. If respondents prefer not to give their names, you may enter something like Mr, Mrs, HRP, Son, etc. You may wish to reassure the respondents that, after editing the names are removed. Do make sure that each person's allocated name is unique to avoid confusion, for example if there are two sons who do not wish to give their names, call them 'Elder son' and 'Younger son'. The names will be used to address questions to particular household members, mainly in the Benefit Unit schedule. Names can be up to 15 characters long and you may find that some respondents like to be addressed formally i.e., 'Mrs. Jones, Mr. Smith' etc. Please check this with the respondent before starting the questionnaire properly.

When you are entering the household grid information, be sure that you are happy with what you have recorded before you move on in the questionnaire.

? Anyone Else

Is there anyone else in this household?
1. Yes
2. No

This will be repeated until you answer 'no' to this question.

/* Question Information for Who Lives Here and Anyone Else

The Household Reference Person should be the 1st member but this is not imperative. In households consisting of more than one adult you will be asked to identify the HRP at a separate question later. Please ensure that you do not however enter a child first in the household grid. A total of up to 14 adults and children can be recorded in the questionnaire.
Adding People To The Questionnaire
If you later discover that you wish to ADD a person to the Household Grid return to this question (Anyone Else) for the last person, and change from 2 to 1. The program is able to add information to the calculation of Benefit Units. You will then need to answer the additional questions for that person which may include an additional Benefit Unit questionnaire if necessary.
Household Grid

Household Grid

? Sex
                         Sex

INTERVIEWER: CODE [NAME]'S SEX.
1. Male
2. Female
This appears to the left of the person's name in the grid.

? Date of Birth
                         DoB

Press <F9> for help screen
May I check, what is [Respondents Name] date of birth?

Interviewer: If day not known, enter 15th. If respondent is unsure of date of birth please check with respondent that the derived age given at DVAge is correct. Date of birth is asked for to allow accurate calculation of age and for data linkage purposes.

? Respondents Age
                         AgeOf

What was [name]'s age last birthday?

IF AGE NOT GIVEN, PROBE FOR AN ESTIMATE.
FOR LATER ROUTING, YOU MUST KNOW WHETHER:
A) MEN ARE AGED 16-64 OR 65+
B) WOMEN ARE AGED 16-59 OR 60+

If respondents refuse to give their age, then give your best estimate. (AgeOf will only be asked where no value is recorded for DoB)

? Marital Status
                         MS

Is [name]... READ OUT...
CODE FIRST TO APPLY...
1. ...single, that is, never married
2. ...married and living with husband/wife
3. ...a civil partner in a legally-recognised Civil partnership
4. ...married and separated from husband/wife
5. ...divorced
6.     ...or widowed?
7. Spontaneous only – In a legally-recognised Civil Partnership and separated from his/her partner
8. Spontaneous only – Formerly a civil partner, the Civil Partnership now dissolved
9. Spontaneous only – A surviving civil partner; his/her partner having since died
### Question Information for Marital Status

The aim is to obtain the legal marital status, irrespective of any de facto arrangement. The only qualification to this aim is that you should not probe the answer "separated". Should a respondent query the term, explain that it covers any person whose spouse is living elsewhere because of estrangement (whether the separation is legal or not). Ignore temporary absences, e.g., working on oil rig, etc.

A person whose spouse has been working away from home for over six months, for example on a contract overseas or in the armed forces, should still be coded as married and living with husband/wife if the separation is not permanent.

Civil partners may only be of the same sex, and must have obtained legal recognition of their partnership; probe whether partnership was registered under the new provisions that came into force as from December 2005.

Code 5 ‘Widowed’ also applies to those in Civil Partnerships whose partner has died.

### Question Information for Couple or Single

If there is more than 1 person in the household and the respondent is aged 16 or over and single or separated from a marriage or Civil Partnership or divorced or Civil Partnership dissolved or widowed (including Civil Partnership), the following question is asked.

**Couple or Single**

May I just check, are you/is [name] living with someone in this household as a couple?

**ASK OR RECORD**

**INTERVIEWER INSTRUCTION:**

Only respondents who are living with their partner should be coded as living together as a couple.

You may code No without asking the question ONLY if all members of the household are too closely related for any to be living together in a de facto marital relationship.

1. Yes
2. No

### Question Information for Couple or Single

The aim of this question is to identify the proportion of respondents who are living as same sex couples, although this question will also identify those couples of the opposite sex who are cohabiting. Only respondents who are living with their partner in this household should be coded as living together as a couple.
You may code no without asking this question ONLY if all members of the household are too closely related for any to be living together in a de facto marital relationship.

**Soft Check**

There is a check if a respondent states that they are living with someone in the household as a couple, but at the question concerning relationships within the household cohabite is not coded (**Couple or Single**=1 or 3 and **Relationship**<>2):

Can I just check, you said earlier that you were living with someone in this household as a couple, is this correct?

**IF YES:** go back and correct the code at **Relationship**
**IF NO:** go back and correct **Couple or Single** to No (2)

---

**Soft Check**

There is also a similar check if a respondent states that they are not living with someone in the household as a couple, but at the question concerning relationships within the household have described themselves as a cohabite (**Couple or Single**=2 and **Relationship**=2):

Can I just check, are you living with anyone in the household as a couple?

**IF YES:** Go back and correct the code at **Couple or Single** to Yes code (1)
**IF NO:** Go back and correct the code at **Relationship**

---

/ **Question Information for Widows and Widowed with Children**

Widows and widowers are asked the following questions to help understand their entitlement to widow’s benefit.

? **Widows**

↔ **W1**

*What was [name]'s age when widowed?*

? **Widowed with Children**

↔ **W2**

*Did [name] have any children aged under 16 when widowed?*
## Relationship

**ASK OR CODE [NAME]’S RELATIONSHIP TO [NAME] (enter code)**

1. spouse  
2. cohabite  
3. son/daughter (incl adopted)  
4. step-son/daughter  
5. foster child  
6. son-in-law/daughter-in-law  
7. father/mother/or guardian  
8. step father/mother  
9. foster parent  
10. father/mother-in-law  
11. brother/sister (incl adopted)  
12. step-brother/sister  
13. foster brother/sister  
14. brother/sister-in-law  
15. grand-son/daughter  
16. grand-father/mother  
17. other relative  
18. other non-relative  
19. Civil Partner  
20. Civil Partner  
97. (THIS CODE NOT USED)

The relationship to parents of a civil partner’s partner should be recorded as ‘mother-in-law’ and ‘father-in-law’, in the same way as relationships for married couples. Previously, the parents of a civil partner had been coded as ‘no relation’ to the other partner.

---

### Question Information for Relationship

You may want to introduce this section. A possible introduction is: “There are a lot of changes taking place in the make-up of households/families and this section is to help find out what these changes are. I’d like you to tell me the relationship of each member of the household to every other member.”

The section must be asked for all households consisting of more than one person. Please ask in every case. You should not make assumptions about any relationship.

You should probe on this question, but be sensitive. It may be that someone described as a ‘son’ or ‘brother’ earlier is actually a stepson or half-brother. Where possible, we want to know the true relationship. If you have doubts about any relationship, record as much information as possible to allow changes to coding later if appropriate. Half-brothers/sisters should be coded with step-brothers/sisters.

Treat relatives of cohabiting members of the household as though the cohabiting couple were married. That is the mother of a partner is coded as mother-in-law. Other relatives include cousins, nieces, nephews, aunts and uncles. For same sex cohabiting couples, any relatives of one partner should be coded as ‘no relation’ to the other partner.

The list of codes actually shown on the laptop will vary according to the person’s sex, e.g. code 7 will be either ‘father’ or ‘mother’.

On FRS the primary purpose is to give the computer enough information to work out who belongs together in Benefit Units, so it is extremely important to enter the right code each time. See instructions at [Show Benefit Unit](#) for Benefit Unit (BU) definition.

**The FRS records same sex couples** as being in the same Benefit Unit.

The FRS is not expecting to identify many same sex Civil Partnerships or same sex couples living together. There is a soft check if two people of the same sex are coded as cohabiting, in case of keying errors.
Soft Check

If same sex couple coded as married
“Civil partners must have obtained legal recognition of their partnership. Please check whether partnership was registered under the new provisions that came into force as from December 2005”.

If same sex couple coded as cohabiting
“A cohabiting partner has been found in our data to usually be of opposite sex. Are you sure this is a same sex cohabiting couple?”

? Full-Time Education

Is [name] currently in full-time education?
INTERVIEWER: INCLUDE CORRESPONDENCE COURSES AND OPEN LEARNING AS WELL AS OTHER FORMS OF FULL-TIME COURSES.

This question is asked of all who are over 3 and under 75. Any respondent who is registered as a full-time student at an educational establishment should be coded 1 (‘Yes’) at this question. If registered part-time code 2 (‘No’) here.

Apprentices should not be coded as receiving full-time education.

// Question Information for Full-Time Education

Students on sandwich courses. When a person spends approximately half the year as a full-time student and the rest of the time as a full-time worker, code according to the position at the time of interview.

Any full time student who is also currently working, (e.g. part-time work during term, or a vacation job) should be entered as currently in full time education provided that s/he intends to return to an educational establishment the following term.

If there is any doubt as to whether a person is 19 or under and still in full time education then check whether the parent or guardian is still receiving child benefit for that person. If this is the case then code as still in full time education.

See also the notes on ‘Treatment of children 19 or under on FRS’ in the Benefit Unit Allocation section.

It is important to probe in cases where the respondent states that s/he is currently in full-time education whether the move from, say, school to university was broken by a period of more than one academic year, particularly if they are in the age range 19-25. Do not count a year gap between leaving school and going to college or university as a break in continuous full-time education (as long as there is/was some clear intention to continue education).

Age Education Complete

FTEd

At what age did [name] complete continuous full-time education?

ENTER AGE (OR CODE ‘96’ IF STILL IN CONTINUOUS FULL-TIME EDUCATION)  
GIVE ESTIMATE IF AGE NOT KNOWN  
ENTER ‘97’ IF NEVER RECEIVED FULL-TIME EDUCATION

This question is asked for all those aged 19 and over and 16 to 18 year olds who are not currently in full time education.

'[Or is s/he still in full-time education]' appears if the respondent is age 19-23.

The age required here is that at which the respondent completed his or her continuous education that started in infancy. It should not include any period of education which was taken later in life, e.g. as a mature student.

Different on-screen instructions appear according to the respondent’s age:

If aged 19-25:  
‘CONTINUOUS’ CAN INCLUDE A BREAK, IF LESS THAN 18 MONTHS. CODE ‘96’ IF STILL IN CONTINUOUS FULL-TIME EDUCATION.

If aged over 25:  
ENTER AGE (OR CODE ‘96’ IF STILL IN CONTINUOUS FULL-TIME EDUCATION)

Holiday jobs do not count as a break provided that the person intends to continue with the course.

National Service between school and university or college would not count as a break.

A sandwich course begun immediately after school finishes should be counted as continuous full-time education.

Nursing training and similar vocational training undertaken while receiving a wage are not part of the continuous education process for the purpose of this question.

Soft Check
If aged over 25 and still in full time education (Age Education Complete = 96):  
This person is over 25, so is unlikely to still be in CONTINUOUS full-time education (i.e. having been OUT of education for less than 18 months). Please check.

Hard Check
There is a hard check to ensure that the age of completion of full time education is lower than the respondent's age. It is important to at least get an estimate. If the Don't Know or Missing keys are used at this question the following check appears.

Soft Check
This is a 'Key Question': it is very important to get an answer if you possibly can. An ESTIMATE is preferable to DK.

Question Information for Type of Education

Children who are at playgroups, kindergartens or nurseries where there is no attempt at formal education should not be coded as in full time education.

Children who are between schools/colleges should be coded according to the one that they will attend next term.

Nursery School/Class, Playgroup, Pre-school - provides education for children below compulsory school age i.e., under 5.

Primary – Include infant, junior and first schools

Special Schools – Provide education for children with special educational needs

Middle Schools – Dependent on age ranges these are deemed Primary or Secondary
   - Age ranges for Middle -deemed Primary: 8-12, 9-12, and 9-13.
   - Age ranges for Middle-deemed Secondary: 9-13, 10-13 and 10-14.

For middle schools with an age band 9-13, there is no other identifier for whether the school is deemed primary or secondary. However, DfES advise that most parents will be aware of the classification of the school.

Secondary school (state run or assisted) – includes all courses up to and including 'A' level at state secondary schools. Secondary schools include Secondary Modern, Grammar, Comprehensive and Technical Schools.

Non-advanced further education/6th form/tertiary/further education college – includes all courses up to and including 'A' level taken at sixth form, college, tertiary college or further education college, i.e. not at a secondary school.
Courses up to and including ‘A’ level include:
- National Diploma (OND)
- National Certificate (ONC)
- A/S Level
- GCE A Level
- General Certificate of Secondary Education (GCSE)
- Certificate of Pre-vocational education (CPVE)
- City and guilds/BTEC Foundation Programmes of Pre-vocational Studies
- SCOTVEC: National Certificate
- Scottish Certificate of Secondary Education: ordinary standard and Higher grades
- Certificate of six years study (CSYS) Scotland

National Vocational Qualification Levels 1, 2 and 3

City and Guilds Level 1: General Education
  Level 2: Industrial Competence
  Level 3: Leading to supervisory roles

RSA Course (most) - Pre-vocational
  Office/secretarial studies
  Advanced Diploma

Private and Independent schools are those at which at least some pupils pay fees. This will include all public schools in England and Wales and private commercial colleges.

University/polytechnic/any other higher education - includes all degree or degree equivalent education.

Courses above ‘A’ level include:

First degree (BA, BSc, BEng, BScEcon, LLB, MB, MA)
  (Scotland)
- Higher Degrees (MS, MSc, PhD)
- Teacher Training (BEd)
- Higher National Certificate
- Higher National Diploma
- National Vocational Qualification Level 4 and above
- SCPTTEC
- SCOTBEC
- Diploma of Higher Education
- BTEC Continuing Education Certificate/Diploma
- SCOTVEC Higher National Certificate/Diploma in Higher Education

City and Guilds – Career Extension Level – Master Technician
  Registration
  – Licentiate of the C & G - Professional degree.

State Schools are where the upkeep is either provided entirely by the State via the local authority or, as in the case of schools controlled by certain religious denominations, where most or all of the upkeep is provided by the State. There are a few cases in Scotland where small fees are paid at State schools: any such case should be coded
under State schools, not private or independent schools. Schools that have ‘opted out’ of Local Authority control still count as State schools.

**Home schooling** - includes children who are educated at home either by a tutor, parent or other relative.

**Soft Check**
There is a check on the type of education according to the child's age. If it seems unlikely the check says:
This doesn’t sound right in relation to [name’s] age: Please check your entry.

/ Question Information for Still Receiving Child Benefit
If a child aged 16 to 18 is at special school the following check question is asked to ensure they are allocated to the correct Benefit Unit:

☆ Number of Hours in School

← HrsEd

And how many hours per day does [name] usually attend school?
INTERVIEWER: Break times should be included if within the school grounds and supervised. If attends school infrequently or part days, use last day attended 0 can be a valid answer at this question.

? Still Receiving Child Benefit

INTERVIEWER: PLEASE CHECK: IS CHILD BENEFIT STILL RECEIVED FOR THIS PERSON? (IF YES, THIS CONFIRMS THEY STILL BELONG TO SOMEONE ELSE’S BENEFIT UNIT).

// Question Information for Still Receiving Child Benefit

See also the notes on ‘Treatment of children 19 or under on FRS’ in the Benefit Unit Allocation section.

// Question Information for Government Training

If a child is aged 16-19 and is not in full-time education the following question is asked to check whether they are on a government employment training scheme:

? Government Training
⇒ Trainee

Is [Name of person] currently on a government scheme for employment training?

1. Yes
2. No

The next question is asked of all respondents under 20, to enable derivation of academic year.

? Date of Birth
⇒ DOB

May I check, what is [name’s] date of birth?
IF DAY NOT KNOWN, ENTER 15th.

// Question Information for Where is Spouse

If a respondent is coded ‘married and living with husband/wife’ at Marital Status, but no-one else is coded as that person’s spouse, the following check question comes up.

? Where is Spouse
⇒ SpOut

INTERVIEWER:
You’ve recorded [name] as ‘Married & living with spouse’, but without a spouse in the household. PLEASE CHECK THIS. If spouse is away for six months or more, press 1 and enter to continue.
BUT IF NOT (e.g. if separated), ENTER 2 AND AMEND HOUSEHOLD GRID.
1: Married, spouse not in household
2: Other – AMEND HOUSEHOLD GRID

If SpOut=1 ‘Married, spouse not in household’
Is spouse expected to be away for 12 months or more?

INTERVIEWER: Ask or record.
If spouse is away for between 6 and 12 months code 2 ‘No’. We are only interested in recording here those away for 12 months or more.

1. Yes
2. No

Only record ‘yes’ at SpYrOt if the respondent and partner are expected to live apart for 12 months or more. For answer periods more than 6 months but less than 12 months record ‘no’.

For more information see ‘Question Information on Marital Status’ on page 15.

DWP want to record this because under the rules for income related benefits you are treated as a couple if you are temporarily apart (less than 52 weeks), otherwise you are treated as single. From knowing the length of the spouse’s absence, long term absences can be treated as singles when analysing the data increasing the accuracy of estimates of take up for income related benefits.

CODE ALL THAT APPLY

/ Question Information for Household Status

This question may be multi-coded according to all the people in whose name the property is owned or rented. On FRS, this can include a non-household member (code 97).

If an employer provides it free, code the household member(s) in whose name it is supplied, not 97.

If it is jointly owned by a household member and a non-household member (e.g. a separated couple), code both the household member and 97.

If the property is owned or rented by someone outside the household, and that person pays the rent or mortgage and provides it free to the household, code 97 only. An example is a flat occupied by an elderly person which is owned by his/her son.

If code 97 only has been recorded, an additional question will be introduced because someone within the household must be responsible for both the property and its upkeep.

? Who is Responsible
← WhoResp

Although you have mentioned that the rent or mortgage for this accommodation is paid for by someone outside the household, there needs to be someone within the household who is responsible for the property. Who then in this household is responsible for this accommodation?
Anyone else?
CODE ALL THAT APPLY

You cannot code children under 16 here.
Householder, Household Reference Person, Highest Income Householder

Householder Reference Person (HRP)
The next questions are to identify who in the household is the Household Reference Person.

The definition of Household Reference Person is as follows. He or she will be either:
- the sole householder (i.e. the person in whose name the accommodation is owned or rented),
- or if there are two or more householders, the one with the highest personal income from all sources,
- or if two or more householders have the same income, the eldest.

Normally the answer is derived from Household Status or Who is Responsible, but if there is more than one householder coded at those questions, the next questions are asked to establish the identity of the Household Reference Person. The Household Reference Person will be the person with the highest income from all sources, known as the Highest Income Householder (HIH).

/ Question Information for Sexual Identity

A new question (‘SIDQn’) has been added to FRS to record sexual identity. The Department for Work and Pensions must ensure that it meets the legislative requirements of The Equality Act (Sexual Orientation) Regulations 2007. A question on sexual identity on the FRS will help identify discrimination and disadvantage experienced on the basis of sexual orientation in areas such as employment and the provision of services such as housing or take-up of benefits.

Everyone can have a sexual identity regardless of, for example, their age or whether they are in a relationship. Therefore the question ‘SIDQn’ must be asked of every adult. To ensure anonymity of responses certain procedures should be adopted when administering this question.

Make no remarks when asking the question, as comments could be construed as flippant or insulting even if not intended to be.

Do not make any assumptions about the respondent’s sexual identity (for example, on the basis of being married/widowed or having children), or their ability or willingness to answer the question (for example, because of their age, ethnicity or religion).

Testing on other studies has shown that the question should not be given any special explanation about its purpose or confidentiality (although these can be explained if the respondent asks why this question is being asked). By including the sexual identity question along with national identity, ethnicity and religion, the purpose of this question is relatively clear to most respondents.

NOTE: The sexual identity question should not be asked by proxy or via an interpreter who is a friend/relative of the respondent.

Situations where a refusal code is appropriate
Unlike other questions in the FRS, ‘SIDQn’ requires that a ‘refusal’ is recorded even when the respondent has not necessarily refused to answer the question. This is to ensure respondent privacy. A refusal recorded at ‘SIDQn’ is not counted as one of the 12 ‘don’t know’ or ‘refusal’ responses that would create an incomplete FRS interview.

**Interviews conducted by proxy**
Only information provided by the individual concerned should be recorded at this question. If information is being collected by proxy then a ‘refusal’ (Ctrl +R) should be recorded.

**Interviews conducted by interpreter**
The question ‘SIDQn’ can be asked by an interviewer interpreter who is not known to the respondent, if the interview is being conducted with the respondent alone and in private. If an interview is being conducted by an interpreter who is a friend or relative of the respondent then a ‘refusal’ ‘Ctrl +R’ should be recorded.

**Ensuring privacy in other circumstances**
In cases where respondents are blind or have sight difficulties you can read out the response options from the card but only if interviewing one person on their own and privacy is assured.

If a respondent states they cannot read the showcards and asks you to read out the categories you should only comply if privacy is assured.

The refusal code (CTRL+R) should also be used in the following circumstances:

- In a situation where a respondent does not volunteer an answer to the question but reacts in a way indicating embarrassment or offence, such as total silence.

- If, when a personal interview is being conducted, another household member doesn’t allow the respondent to answer the question themselves and answers the question on the respondent’s behalf (e.g. a parent answering for their young adult son/daughter).

**Description of categories**
If a respondent asks what any of the response categories mean, you may assist. The subjective nature of sexual identity means that in providing a description you should only speak in general terms. For example, you can say:

**Heterosexual / Straight**
"Heterosexual or straight might mean, for example, that a person is attracted to people of the opposite sex."

**Gay / Lesbian**
“Gay or lesbian might mean, for example, that a person is attracted to people of the same sex.”

**Bisexual**
“Bisexual might mean, for example, that a person is attracted to both men and women.”

If a respondent says ‘I’m normal’ or ‘I’m ordinary’, do not assume their sexual identity but ask them again to choose the answer category which applies to them. For example:

“So which answer category would you choose?”
**Other**

Respondents who identify as ‘Other’ should be doing so because they feel the previous response options do not apply to them. ‘Other’ should not be coded because of comprehension or answering difficulties. It is important to understand that people who are currently celibate or have no sexual partners can still identify as heterosexual/straight, gay/lesbian or bisexual. People identifying as ‘Other’ could be asexual (people who are never sexually attracted to anyone) or people who dislike categorising themselves. Some transgender people (those who feel they were born in the wrong gender and are now living in a new gender of their choice) may choose this option, though others will identify with one of the other options on the card. A ‘please specify’ is not asked for privacy reasons.

**Administering the showcards**

To maintain privacy when interviewing people concurrently there are 7 separate showcards to ensure that each adult can refer to a unique category number for recording their sexual identity. This approach is maintained to enable people who might be embarrassed or concerned about disclosing their sexual identity to answer truthfully. The showcards are part of the existing FRS showcard set to not exaggerate the sensitivity of this question. If you think it more appropriate in the context of the household in which you are interviewing, it is permitted to remove these cards from the pack and individually distribute them to the adults as indicated on screen.

- Each card has a set of category numbers that are unique to that card
- You will be notified at each question which card should be provided to each respondent
- In situations where more than two adults are being interviewed the showcard pack will need to be passed on to each adult. If you think it more appropriate in the context of the household in which you are interviewing, it is permitted to remove these cards from the pack and individually distribute them to the adults as indicated on screen.
- The respondent is asked to say the number associated with the category which applies rather than answer in words.
- The category numbers on the card are not consecutive so that no inference can be drawn as to the category which it corresponds. For example, a respondent who identifies with the heterosexual/straight category who is given showcard A4 will answer ‘fifteen’ but the same respondent given showcard A5 will answer ‘thirty-six’.
- There is an additional sentence to read out in concurrent interviews so that respondents know that the number they read will be different to other people’s. This is because some respondents might query the fact that the number they read out was different from their partner. Such questioning will interrupt the flow of the
NOTE: You must use the correct showcard for each adult (as displayed on screen) because you will record the number without the corresponding response category being shown on screen (this is another measure to maintain privacy).

If you use the wrong card you will not be able to enter the number that the respondent answers with. If the wrong showcard is referred to a check will appear stating:

"The response XX does not coincide with the responses available on the showcard. Check the response again with the respondent, if they give the same response check the correct showcard has been administered (SHOWCARD AX)."

In the rare situation of there being more than 7 adults in the household, the laptop will reassign the cards to adults 8 and above. It is highly unlikely that the same card will be assigned to the people being interviewed concurrently.

INTERVIEWER: [NAME] IS CLASSIFIED AS A DEPENDANT ADULT OR A CHILD, I.E. HE/SHE WILL NOT FORM A BENEFIT UNIT OF HIS/HER OWN. TO PROPERLY ASSESS TO WHICH Benefit Unit HE/SHE BELONGS, PLEASE CODE WHICH OF THE PARENTS RECEIVE CHILD BENEFIT FOR [NAME].

/ Question Information for Legal Dependents

This question is only asked when it is not possible to allocate a child or dependant adult to the appropriate benefit unit from the information collected at the household grid.

The allocation of the child or dependant adult to the appropriate Benefit Unit is therefore made by ascertaining who in the household is in receipt of child benefit for this person.

/ Question Information for Show Benefit Unit and Benefit Unit Allocation

Benefit Units
The laptop calculates the Benefit Units that people belong to, and they will subsequently be interviewed according to those groupings in the Benefit Unit Questionnaire(s). The DWP groups people into Benefit Units in order to define dependency within families/households and thus eligibility for certain benefits and the amount they are entitled to receive. Many of these are means-tested, being based on income and assets. Benefit Units are the basic unit for analysis of FRS data.

It is crucial that the allocation to Benefit Units is done correctly, so check this display carefully, particularly in larger households, in connection with the relationships of all the people in the household grid. If the allocation is not correct, or you are in any doubt,
Benefit Unit Allocation

review the relationships, ages, marital and educational status of the household members, and if necessary amend any incorrect answers. It is important that you do this before proceeding; as some of the routing in the household questionnaire will vary according to the allocation, and people must be grouped correctly for the Benefit Unit questionnaires.

You need to be familiar with the definitions of Benefit Units so that you understand how allocation is conducted and know how adults are grouped together for the Benefit Unit part of the interview.

Definition of a Benefit Unit

A Benefit Unit will consist of:

1. A married or cohabiting couple (including same sex), with dependant children in the household.
2. A married or cohabiting couple (including same sex), with no dependant children in the household.
3. A man or woman with no wife/husband/partner in the household, but with dependant children.
4. One person only: i.e. a man or woman with no wife/husband/partner in the household, and with no dependant children.

Treatment of children 19 or under on FRS

Children are treated according to their ‘dependency’ or otherwise to other household members, which involves factors such as age, educational status and relationships, as follows:

a) Children under 16: included with parents or legal guardian.

In rare cases a child will not have a parent or legal guardian in the household – e.g. they live with grandparents or an elder sibling. If no one is coded as the child’s parent/guardian (Code 7 at the relationship question), or if the child is coded as no adult’s son/daughter (Code 3) a HARD check will trigger.

Hard Check

[Name] is under 16, so you MUST recode him/her as the child (relationship code 3) of an adult: in order of priority, the person receiving Child Benefit for him/her, or the legal guardian, or whoever is responsible for him/her.

(NB if no-one in the household is over age 15, the household is ineligible – outcome code 772)

Question Information for Show Benefit Unit and Benefit Unit Allocation

By changing the relationships in this way, the child will be allocated to another adult’s benefit unit. In the extremely rare situation of a person under 16 who is cohabiting with someone, sometimes their partner will appear to be their parent for some questions. However, under 16 year olds cannot be interviewed in their own right in the BU. In the
unlikely situation of a child or children under 16 living without an adult, the household would be ineligible for the survey (outcome code 77).

b) Children aged 16 to 19 in full-time further education (i.e. up to A-level or equivalent):

If the children are living with parent/legal guardian, they will be included in same BU as their parents or legal guardians as they should still be receiving Child Benefit for them. These children are ‘dependent’ in the same way as under 16s.

Some 16-19 year olds in full-time further education won’t however have a parent or legal guardian in the household. In these instances a soft check will trigger.

**Soft Check**

Who in the household is responsible for [name] – is there a legal guardian, or does anyone get Child Benefit for [name]? If so, recode [name] as that person’s legal dependent (code 3) or that person as [name]’s parent (code 7). If not, suppress the warning and continue.

/ Question Information for Show Benefit Unit and Benefit Unit Allocation

If you change a relationship code in such a way, the child will be allocated to the adult’s benefit unit as their dependant. If the check is suppressed however, the person will be allocated to their own Benefit Unit. A 16-19 year old in full-time further education who is married or cohabiting will be allocated to the BU of their spouse/cohabitee as their partner.

c) Children aged 16 -19 not in full-time further education or in government employment training, and young people aged 20 or over are treated as adults, in a Benefit Unit of their own (or with partner). No Child Benefit will be received for them.

d) Foster children (16+): if covered by a Local Authority maintenance allowance, will be treated as separate Benefit Unit.

e) Foster children under 16: treated as a) above.

5. Live here rent free (including in a relative’s/friend’s property; excluding squatting)

INTERVIEWER: PLEASE RECORD THE REASONS WHY YOU SUPPRESSED THIS WARNING, THEN PRESS <ALT> + S TO SAVE AND CONTINUE.

/ Question Information for Tenure

This question on tenancy asks for the formal legal tenure of the HRP’s household. If for example the HRP is a widow living in a house bought by her son (in his name) and he is living elsewhere, she should be coded as living rent-free even though she may regard herself as an owner-occupier. Similarly, a household, which is paying a contribution to the upkeep but not a formal rent, should be coded as rent-free. This could arise, for example, if a parent lived in a Granny flat as a separate household but paid a contribution to general expenses.

Owners
Only code people as mortgagors if they have a mortgage for buying their home. Some people who have paid off their mortgage and are effectively outright owners make an arrangement with the lender to continue to pay a small amount of ‘mortgage’ as payment for the lender for keeping the deeds. They should be coded as outright owners.

People who own their home with a lease are counted as owners. It does not matter that they pay ground rent.

In some cases, the property may at one time have been owned outright, and then subsequently had a mortgage or loan secured on it, e.g. to provide an income (usually for the elderly, on a ‘home income’ plan); or to provide capital for a business. In such cases the property is not ‘being bought’ with the mortgage, and should be entered as code 1, owned outright. A further question will deal with the mortgage or loan now secured on the property (at Other Mortgage 3 in the mortgage block).
Shared owners
Shared ownership means paying partly for a mortgage and partly rent so that, if the person moves, he/she will get some of the proceeds from the sale of the property, according to how much of the original cost has been paid off. Include people who have paid off the mortgage portion. People with shared ownership arrangements are treated as both renters and owner-occupiers in the interview. They are not local authority/housing association tenants even if their arrangement is with a local authority/housing association. Owners who pay a service charge should be counted as owners, not shared owners. Both rent and ownership questions will be asked, unless the mortgage part has been paid off, which is found out at Buying as Shared Owner below.

Rent-Free
People who live rent-free do not always regard themselves as doing so; meaning particular care is needed in dealing with such cases.

The following types of cases have caused problems. The correct coding is in brackets:
- Someone living in a “granny flat” owned by her son in his name (private renter living rent-free)
- Someone living in the property of a deceased partner which is held in trust (private renter living rent-free)
- A divorced/separated woman living in the house owned solely by her ex-partner who no longer lives there (rent-free if owned only in partner’s name; owner if the house is owned in the name of both partners)

Sometimes respondents think they live rent-free when they do not e.g. people on full benefit that do not pay any rent to the landlord themselves because housing benefit is paid directly by the DWP (rent). They may also think they live rent-free if the DWP pays their mortgage interest. FRS has a check to prevent this:

Soft check
Can I just check do you live rent free because you receive 100% housing benefit?
INTERVIEWER: IF YES recode Tenure to Code 4 (Rent it).

PLEASE CHECK THEIR RENT/MORTGAGE IS NOT PAID BY BENEFITS, ONLY ACCOMMODATION PROVIDED BY SOMEONE ELSE (EMPLOYER, RELATIVE, ETC) IS ‘RENT-FREE’.

Rent-free households are asked a minimal number of questions later, about their tenancy and the reason they don’t pay any rent.

Tied accommodation
People in tied accommodation should be coded here as renters (code 4) or rent-free (code 5), depending on whether or not they pay any rent. This group includes people whose accommodation goes with their job e.g. Clergy of various denominations, Church of England employees, caretakers, army personnel, council tenants whose accommodation goes with their job, and some farmers. People in tied accommodation are classified as private renters, irrespective of who they are renting from.

Housing co-operatives: code as renting from a housing association (code 4 here, and code 2 at *Who is your landlord?* below).

**Housing Action Trusts:** these are set up by local authorities and the properties rented are still owned by local authorities; their tenants are renting from a local authority.

**Rents to Mortgages scheme:** these are schemes available to council tenants whereby a tenant has the right to buy a share of their home for roughly the same price as the rent. These should be coded as Shared Owners here and 'local authority' at type of landlord (below).

**Private Sector Leasing:** the Council leases private property for several years and lets it out to tenants. The landlord is the immediate landlord, which is the local authority.

**Home Income Plans and Retirement Home Plans:** these are where outright owners raise a loan on the security of the house for a regular income. They should be coded as outright owners.

If they are using part of the annuity to pay off the interest on the loan (and this is normally the case), then code 'Yes' at the later question **Other Mortgage 2**, "Are you using this house as security for a mortgage or loan...?" On doing so, the mortgage questions will appear; see instructions at **Other Mortgage 2** for further information.

**Schemes for Mortgage defaulters:** in these cases the property reverts to the lender and a rent is paid instead of a mortgage. Code as renters.

The following question is asked to those coded 3 (shared ownership) at **Tenure**, in order to check whether it is appropriate to ask the mortgage questions as well as the rent questions.

3. Non-relative

How Many Rooms

How many rooms do you have altogether in your accommodation, that's excluding bathrooms and toilets, but including kitchens?

INTERVIEWER: ’YOUR ACCOMMODATION’ MEANS THE ACCOMMODATION OCCUPIED BY THIS HOUSEHOLD. EXCLUDE ANY ROOMS LET/SUBLET TO OTHER HOUSEHOLDS.
CONSULT INSTRUCTIONS FOR TREATMENT OF EQUIVOCAL ROOMS, E.G. ATTICS, CONSERVATORIES, BASEMENTS.

Enter the number of rooms used by the household. This should include any rooms shared but should exclude those rooms sub-let which are not used by the household.

In general, include any room which is habitable or usable by the household all year round.

If a room is open-plan count it as 2 rooms if it is divided by a sliding or folding partition. Count it as 1 room if it is divided by curtains or portable screens. If the respondent mentions a dinette attached to a kitchen, probe whether it is separated by a folding partition and if so, count it as a separate room.

Halls, landings and alcoves are not separate rooms.

If there is any doubt about whether to count a room, (particularly with attics, conservatories or basements) probe whether the room can be used all year round and whether it was built/converted for the purpose of living accommodation. If it is a basement or attic is there a window/skylight.

In order to be comparable with Census measures, if a kitchen is less than 6.5ft/2m wide at its narrowest point then it must not be counted as room.
How many rooms are kitchens

Kitchen

And how many of these rooms are a kitchen, that is used only for cooking and food preparation?

INTERVIEWER: DO NOT INCLUDE ROOMS THAT HAVE MORE THAN ONE FUNCTION FOR EXAMPLE, KITCHEN-DINER. A kitchen that contains a table and chairs, even if rarely used for dining, should be considered as multi-use and so not included.

Hard check

If number at Kitchen is greater than number of rooms. [x] is higher than the total number of rooms in the accommodation [x]

This question will assist DWP to monitor the take up of LHA. This allowance is fixed dependent on area and does not have to cover only rent. If a recipient chooses a cheaper option for rent then they keep the difference. It also differs from Housing Benefit in that it is paid to the recipient and not the landlord.

Household Status

INTERVIEWER: CLASSIFY THIS HOUSEHOLD AS ONE OF THE FOLLOWING:

1. Conventional household: i.e. single person or couple - with other family and/or boarder(s) and/or lodger(s).
2. 'Shared' household arrangements: identity of HRP is unclear or arbitrary e.g. students, nurses, unrelated adults etc, sharing ON EQUAL BASIS.

Note: Conventional Households include:
- tenure is owner occupier and a 2nd or 3rd benefit unit is paying rent
- tenure is rent free but 2nd or 3rd BU receives Housing Benefit
- 2nd or 3rd BU members paying rent to the householder(s) in BU1 are also named as householders (this is similar to part owned/part rented tenure)

This question is only asked if there is more than one Benefit Unit in the household.

Later questions about rent, housing benefit and intra-household contributions will be routed in different ways according to the classification here.

5. Relative/friend (before you lived here) of household member
6. Employer (individual) of a household member
7. Another individual, private landlord or Letting Agency

/ Question Information for Who is the Landlord

If property is let through a letting agent or estate agent, the questions refers to the owner not the agent, so please probe to try and find out who actually owns the property.

If the respondent does not know who the landlord is, use code 7 (other private individual or lettings agency) rather than coding 'Don't know'.

Code 1 (local authority) includes people renting from Housing Action Trusts.

Code 2 (housing associations etc) includes Registered Social Landlords. Nearly all housing associations are now Registered Social Landlords but continue to be known as housing associations.

Use Code 5 only if the respondent and landlord were friends before they were tenant and landlord, not if they have become friendly since then.

2. partly furnished (e.g. curtains and carpets only)
3. or unfurnished?

/ Question Information for Is the Accommodation Furnished

The category 'partly furnished' no longer has any legal significance: any letting which is not explicitly "furnished" will be classified legally as "unfurnished". We retain "partly furnished" here to ensure respondents do not mistakenly include lettings with, say, curtains but nothing else provided as "furnished". However do not use "partly furnished" simply because the respondent thinks that the furniture is inadequate.

If the building is a flat it is necessary to clarify whether the landlord lives in the same flat or not:

Note that ResLL is asked of ALL houses / flats etc whereas ResLL2 is only asked of flats. Tenancy rules differ greatly depending on whether the landlord lives in the accommodation or not.

? Resident Landlord
   ➔ ResLL

Does the landlord live in the building?
If yes, ask the following

? Resident Landlord 2
   ➔ ResLL2

Does the landlord live in the same flat as you or not?
If the landlord is not resident, the following questions are asked.

? Year Became Tenant

Service occupancy may be referred to as ‘tied tenancy’ as this type of tenancy is tied to employment.
Tenancy arrangements vary between England, Scotland and Wales.

For England and Wales, if the tenancy or the way in which the landlord has let the accommodation is not known or refused and the landlord is not resident, if the respondent first became a tenant from 1989 to February 1997 and there is a written agreement, the following question is asked.

For Scotland this question is asked if the tenancy or the way in which the landlord has let the accommodation is not known or refused, the landlord is not resident, the respondent first became a tenant from 1989 onwards and there is a written agreement.

**Question Information for Type of Tenancy, Other Types of Tenancy and Other Types of Tenancy**

**Assured Shorthold Tenancy**

There is a form of tenancy called an Assured Shorthold. It had to be initially for a fixed period and you had to be given a special notice in writing by the landlord that told you it was for an Assured Shorthold Tenancy. Here is an example of a notice to a tenant saying that the tenancy is an Assured Shorthold.

SHOW EXAMPLE OF NOTICE.

Does your notice state that it is an Assured Shorthold or not?

1. Yes, an Assured Shorthold,
2. Other agreement

In England and Wales, if the respondent first became a tenant from March 1997 or later, there is a written agreement, the type of tenancy is not known or refused, the following question is asked:

**Assured Tenancy**

Most tenancies are Assured Shortholds. There are others, just called ‘Assured’. For these you have to be given a notice, in writing by the landlord, which tells you it is NOT an Assured Shorthold agreement.

SHOW EXAMPLE OF NOTICE.

Does your agreement or notice state that it is NOT an Assured Shorthold?

INTERVIEWER: The law changed in March 1997 to the effect that by default all tenancy agreements are assured shortholds, unless the landlord gave written notice to the contrary.

1. Not an assured shorthold
2. No, other agreement

The law changed in March 1997 to the effect that by default all tenancy agreements are assured shortholds, unless the landlord gave written notice to the contrary.

The following question is asked for England and Wales if the tenancy began before 1989. The question is asked in Scotland in cases where the landlord is not resident.

IF HB STATEMENT AVAILABLE PLEASE CONSULT THIS.
1. Housing Benefit Statement
2. Some other document
3. None

// Question Information for Rent Documents

There is an example of a Housing Benefit statement in your materials. The statement or Rent Card or other document containing the details should be consulted whenever possible. They will contain useful information for the rent and housing benefit questions.

IF CONVENTIONAL/NON-SHARING HOUSEHOLD... the next question should record the full amount of rent paid by the whole household.
Rented Accommodation

How much rent does your household currently pay?

IF SHARING HOUSEHOLD... the next question should only record the share of the household’s total rent paid by the household reference person (and spouse/partner). The rent paid by the members of the other benefit units (even if given to the HRP to pass on to the landlord) should be recorded in the later blocks of questions, Rent within Conventional Households and Rent within Shared Households.

How much rent do you, that is just [Person 1 in BU 1] (and [Person 2 in BU 1]) currently pay?

How long did this cover?

Question Information for Amount of Rent

Here, the gross rent paid should be entered, i.e. the total amount of rent the respondent pays including components such as water rates or services such as heating, but after any Housing Benefit or rent rebate.

If the rent is in arrears either:
1. Enter the amount last paid even if this was a while ago but open a note <Ctrl+M> and give the date of this payment, or
2. Enter the amount last paid and open a note if this included an extra payment to cover arrears.

Rebates
1. If a 100% rent rebate/Housing Benefit is received but water/sewerage rates and other services etc are paid separately (i.e. not included in the gross rent charge), then the amount at Amount of Rent should be zero, and code 1 should be entered at Rebate.

3. If a 100% rent rebate/Housing Benefit is received and the water rates, etc, are normally included in the rent, then the amount paid for water rates etc should be entered at Amount of Rent.

Rent partly for business
If the rent includes an element for the business part of the property (e.g. a shop beneath a flat), and the amount of the domestic element is not known/cannot be split, enter ‘DK’ at Amount of Rent. The following check question will appear. Give as much information as possible, including the total rent for both the business and domestic parts of the property.

INTERVIEWER: IS THIS 'DON'T KNOW' BECAUSE RENT IS PARTLY FOR BUSINESS, AND YOU CANNOT ESTABLISH A SEPARATE AMOUNT FOR THE DOMESTIC ACCOMMODATION?

1. Yes (Please give full details in a note)
2. No

If 'yes', the 'don't know' at Amount of Rent will not be counted in the total number of refusals and DKs for this questionnaire.

Soft Check
There are some soft checks on amount of rent paid to check likelihood.

For Council Tenants - if rent works out at more than £100 per week:
Rent is £\[x\] for \[period code\]. That comes to £\[x\] a week.
Rents for Council and New Town tenants are normally below £100 per week.

For Non-Council Tenants - if rent works out at more than £150 per week:
The answer is much higher than the figures usually given at this question. Please check that your figure is correct. If so, suppress warning and continue.

? Eligible Amount
→ EligAmt

On the (rent book/ card/ statement), what is the amount shown for ELIGIBLE RENT?

THIS MUST BE THE ELIGIBLE RENT (MAY NOT BE THE SAME AS AMOUNT OF BENEFIT) ELIGIBLE RENT = AFTER DEDUCTIONS

/ Question Information for Eligible Amount

This question is only asked if a housing benefit statement is being referred to. Housing Benefit does not pay for certain services which might be included in the rent. The total amount payable for them is subtracted from the gross rent due. The remainder is called the Eligible Rent, which is the part of the rent on which Housing Benefit may be allowed, on a means-tested basis. It will be either equal to the amount of Housing Benefit, if 100% is allowed, or greater than the Housing Benefit. It cannot be less than the Housing Benefit.
What period does that cover?

The next question is only asked if not getting Housing Benefit

Are you awaiting the outcome of a claim for housing benefit - that is, either rent rebate or rent allowance?

All renters are asked questions about water/sewerage (except in Scotland where this is collected as part of council tax) and other charges included in the last rent. Where possible refer to a rent book or housing benefit statement.

Were water or sewerage charges (rates) included in the rent which you mentioned?

1. Both water and sewerage
2. Water only
3. Sewerage only
4. Neither

This question will only appear for renters in England and Wales. Include charges for emptying septic tanks in sewerage charges.

How much was included for (water/sewerage) in that (rent) period?

If both services are included in the rent, then enter the combined amount. The amount here should be included in the figure at Amount of Rent, so if it is greater, there is a soft check.

The following question is asked if Water and Sewerage Included Amount is not answered ‘Don’t know’ or refused

Owned Accommodation & Mortgages

Overview of the mortgage section

The mortgage section of the questionnaire is divided up into two parts.

The aim of the first set of questions (Year Bought Accommodation to Purchase Amount) is to collect information about:

- Mortgages that have been taken out to purchase a property and,
- Re-mortgages or further advances that have been secured on that property.

For any mortgages taken out to purchase a property questions are asked about the original amount borrowed, any re-mortgage or extension to the mortgage, payments to the lender and insurance policies covering the repayment of the loan;

For any re-mortgages and further advances an initial question is asked to establish the purpose of the re-mortgage or further advance. The full series of questions are only asked if it was to raise money to make essential repairs or if it was just to receive a more favourable interest rate. No further questions are asked for re-mortgages or further advances taken for other purposes because they are not considered to be related to housing costs.

The aim of the second set of questions (Introduction to Second Mortgages to Year Took Out Mortgage/Loan) is to collect information about:

- Any other mortgages secured on the property which have been taken out either to purchase the property or for any other reason. If there is more than one separate mortgage/loan secured, each one should be recorded individually. The degree of detail required about each mortgage/loan depends on its purpose:

Re-mortgages, further advances, top-ups, extensions and second mortgages and shared equity schemes

People can add to or otherwise change their mortgage liabilities by re-mortgaging, or borrowing an extra sum in the form of a ‘top-up’, ‘further advance’, ‘extension’ or ‘second mortgage’. These terms may be interpreted or defined differently from lender to lender, who also have their own names for such arrangements, such as ‘homeowner loans’ or ‘home improvement loans’. In cases where such a change has been made you will need to know whether there is one mortgage or more than one secured on the property, and what constitutes a separate mortgage or loan.

FRS uses the terms as below, but whatever names respondents refer to their arrangements by, the rule of thumb is that if a single payment is made to the lender covering both the original and extra amounts borrowed, it should be dealt with as a single mortgage/loan. Only if separate payments are made covering the different borrowings, should they be dealt with as separate mortgages/loans.
Owned Accommodation & Mortgages

- **Re-mortgages:**
  Re-mortgages are used to raise money by increasing the total amount borrowed, or to take advantage of a cheaper interest rate, usually from a different lender. The old mortgage is paid off and a new mortgage starts, so there is still just one mortgage to be dealt with. The amount originally borrowed is recorded first at **Borrowed Amount**, then the total amount of the re-mortgage at **Remortgage Amount**. The subsequent questions are with reference to the re-mortgage.

- **Further borrowing secured on the property in addition to the mortgage for purchase:**
  In addition to re-mortgages, people buying their accommodation with a mortgage or loan may borrow extra money, to raise funds for various purposes, in two different ways.

- **Separate second mortgages**
  One way is by taking out a new mortgage or loan, completely separate to that for purchase, either with the same lender or a different one. Separate payments will be made to the lender(s) on each mortgage. These mortgages/loans should be dealt with individually - you should not add together the individual amounts borrowed or the payments made.

- **‘Further advance’ or ‘top-up’ or ‘extension’**
  The other way is by extending the original mortgage/loan from the lender, e.g. from £90,000 to £100,000. The original and extra amounts borrowed are integrated into a single arrangement, with a single regular payment to the lender covering both elements. This kind of arrangement should be dealt with as a single mortgage. The extra money may be borrowed at the same time as that for the purchase of the accommodation, or subsequently. Both these situations should be handled in the same way: the amount (originally) borrowed for the purchase will be recorded first at **Borrowed Amount**, then the total borrowed including the extra amount a few questions later at **Remortgage Amount**. The amount at **Amount Outstanding on Mortgage** (the amount of the loan still outstanding) will be inclusive of the extra sum, and the amount of the last payment to the lender (**Amount of Last Mortgage Payment / Amount of Last Instalment**) will be the payment made on this total loan.

If both a re-mortgage and a further advance, or two or more than further advances have been taken out, **Remortgage Amount** should include the original mortgage or re-mortgage plus all subsequent borrowing, and **Amount Outstanding on Mortgage** should include the total outstanding on all borrowing.

- **Second mortgage or loan for purchase:**
  If two or more separate mortgages or loans secured on the property were taken out for purchase of the property (e.g. a main mortgage and a bank loan to raise a deposit), questions are asked about each one still being repaid.

If the property is being bought with a mortgage or loan (code 2 or 3 at **Tenure**):

**Shared Equity / Equity Share Mortgage:**
A shared equity or equity share mortgage is normally offered to key workers or first time buyers, allowing them to purchase a percentage of a property (usually 70% although this can vary) and the remainder is financed by a ‘loan’ with the builder, developer or housing association. These schemes vary from a shared ownership scheme as NO monthly repayments or rent is due on the loan (at least for the first five years). The ‘loan’ is usually repaid when the house is sold although some schemes do have a maximum term such as

FRS April 2012

69
10 years and the repayment of the loan is based on the market value at that particular time. These mortgages are treated as regular mortgages by banks and building societies and should be treated as such within the questionnaire.

Example: Respondent purchases a property using this scheme for £200,000 and requires a mortgage for £140,000 (70% of the purchase price) and has a ‘loan’ for £60,000 (remaining 30%). They sell the house in 5 years time and the house has increased in value to £300,000 so they then pay the loan back based on 30% of the market value at the time of the sale (i.e. £90,000).

In this instance you would record:

- PurcLoan = 1 (one loan to purchase the property)
- PurcAmt = £200,000 (full purchase price of the property)
- BorrAmt = £140,000 (actual amount of the mortgage taken)

And finally leave a note at BorrAmt explaining that the property was purchased via a shared equity scheme and any additional information the respondent may provide.

The First Buy Scheme in England is a similar scheme as it offers First Time Buyers (subject to eligibility) an opportunity to purchase a property. With this particular scheme the First Time Buyers are expected to fund a 5% deposit and up to an additional 20% deposit will be funded by the Government and Builder (combined). After 5 years ‘fee’ payments will be due on the 20% ‘loan’ although these payments will not reduce the outstanding balance and 20% of the property value at the time of sale will still have to be repaid.

If a respondent states that they have benefited from ‘The First Buy Scheme’ then this should also be recorded by entering the full purchase price of the property at PurcAmt, the actual amount of the mortgage taken at BorrAmt and also leave an appropriate note at BorrAmt explaining the property was purchased using this scheme.

</tbody>
</table>

**However**, if the respondent states that the current mortgage was ‘carried over’ from a previous property, **do not** enter the year the mortgage was originally taken out on the previous property. Because mortgages are secured on a specific property the old mortgage will have been paid off and a new mortgage started.

If the respondent just says ‘two years ago’ - please check the year with the respondent before entering into the questionnaire.

---

**Soft Check**

If the year entered is longer than the number of years the HRP has lived at the address (if 1 to 5 at **How Long at Address**):
The respondent has only lived here for less than \([n]\) years, but the mortgage started in \([\text{year}] - [n]\) years ago. Please check that BuyYear is when the mortgage on THIS PROPERTY was taken out. (If so, suppress and continue).

**? Purchase with Loan**

\[\text{PurcLoan}\]

Can I just check, did you take out one loan to purchase this accommodation, or more than one?
1. One
2. Two (or more) loans for purchase

Sometimes people take out an additional loan for example, to cover a deposit. This question is asked to find out whether the series of questions about mortgages should be asked once or twice.

Only include loans which are secured on the current property.

**? Purchase Amount**

\[\text{PurcAmt}\]

What was the purchase price of [your share in] your house/flat?

**\text{Soft Check}\**

If the original amount borrowed is equal to or greater than £500,000

The answer is much higher than the figures usually given at this question. Please check that your figure is correct. If so suppress warning and continue.

**? Introduction to Mortgage Section**

\[\text{IntroM}\]

\((\text{Jump5})\)

THE NEXT QUESTIONS ARE ABOUT THE MAIN MORTGAGE FOR THE PURCHASE OF THIS ACCOMMODATION.

(QUESTIONS ABOUT ANY OTHER, SEPARATE MORTGAGE WILL FOLLOW)

This introductory screen appears if the property is being purchased with a mortgage (coded 2 or 3 at the earlier question \text{Tenure}). The next series of questions will relate to the mortgage for the purchase of the property, including any subsequent re-mortgage. If there is more than one mortgage for purchase, they will be repeated.

If there is a completely separate second mortgage secured on the property for any purpose other than purchase, it should be recorded later at \text{Other Mortgage 1}.

**? Borrowed Amount**

\[\text{BorrAmt}\]

What was the original amount of this mortgage or loan, in \([\text{year}]\)?

**\text{Question Information for Borrowed Amount}\**
This should be the amount borrowed (for this individual mortgage, if there is more than one) at the time the property was bought. It should exclude any top-up or further advance taken out at the same time or subsequently. If the respondent claims that the mortgage was transferred from a previous property, enter the consolidated/adjusted amount relating to the new property.

Properties/mortgages partly for business
In cases where the amount borrowed includes the purchase of non-domestic accommodation or land, e.g. a farm, a shop with flat above, try to obtain purchase and mortgage details for the domestic element only. Ditto, if the original mortgage was taken out partly to finance a business and partly for purchase of domestic accommodation.

If the respondent knows the proportion of the full purchase price/mortgage details relating to the domestic part, enter this proportion at the relevant questions. If the proportion is not known, enter DK at Borrowed Amount. The following check question will appear. Give as much information as possible, including the total amount borrowed, and indicate whether amounts given in other housing costs questions (structural insurance, water rates) relate to the whole property or just the domestic part.

**Soft Check**
If the original amount borrowed is equal to or greater than £250,000
The answer is much higher than the figures usually given at this question. Please check that your figure is correct. If so suppress warning and continue.

**Soft Check**
If the original amount borrowed is greater than the purchase price
The amount borrowed is more than the purchase price - this is very unusual. Please check your figures and, if necessary, explain in a note.

If the soft check is suppressed, the following automated instruction is activated.
INTERVIEWER: PLEASE RECORD THE REASONS WHY YOU SUPPRESSED THIS WARNING, THEN PRESS <ALT>+S TO SAVE AND CONTINUE.

If the respondent does not know the original amount of the mortgage, the following question is asked

? Borrowed Amount-Don’t Know
leftrightarrow Borrowed Amount

INTERVIEWER: IS THIS DON'T KNOW' BECAUSE THE ORIGINAL MORTGAGE WAS TO BUY DOMESTIC ACCOMMODATION AND FOR BUSINESS PURPOSES, AND YOU CANNOT GET A SEPARATE FIGURE FOR THE DOMESTIC PART?

1. Yes (Please give full details in a note)
2. No

If ‘YES’ is coded, the DK at Borrowed Amount will not count toward the total refusals and DKs for the questionnaire.
? Remortgage

RMort

Since [year of purchase], have you taken out a re-mortgage, with the same or a different lender - or have you extended the original loan by taking out a further advance or top-up?

INTERVIEWER: IF UNSURE, SEE HELP SCREEN <F9>

IF RE-MORTGAGED MORE THAN ONCE TAKE THE MOST RECENT OCCASION.
ONLY INCLUDE EXTENSIONS TO THE MORTGAGE, NOT OTHER LOANS SECURED ON THE HOUSE.

INTERVIEWER: DO NOT INCLUDE BUY TO LET MORTGAGES

A re-mortgage is a new mortgage on an existing mortgaged property. The old mortgage is paid off in the process, and the re-mortgage is a completely separate arrangement. The purpose may be to release part of the capital that has accrued, to increase the borrowing to raise funds, to change to a different type of mortgage (for example a Flexible mortgage) or simply to take advantage of a cheaper interest rate from another lender. If the re-mortgage was taken out with the same lender as the original one, also include it here.

A ‘further advance’ or ‘top-up’ means an extra amount was borrowed and was integrated with the original loan so that it is a single arrangement, with just one payment made to the lender. The amount at Amount Outstanding on Mortgage should include the extra top-up, and the amount at Amount of Last Mortgage Payment/IntPrPay should be a combined amount without you or the respondent needing to add figures together. Do not count any ‘top-up’ or ‘further advance’ at this question if separate payments are made; such separate loans are asked about later.

For further information see the guidance notes at the beginning of this mortgage section.
? Year Remortgaged
\[ \text{RMortYr} \]

In which year did you take out the most recent re-mortgage/further advance?

If both, or more than one further advance has been taken out, take most recent occasion.

? Remortgage Amount
\[ \text{RMAmt} \]

What was the total amount of the mortgage, after re-mortgaging/taking out the further advance?

INTERVIEWER: TOTAL SHOULD BE AFTER ALL RE-MORTGAGES AND FURTHER ADVANCES

This amount may be the same as the original loan, depending on whether they were remortgaging to get further advance or changed their mortgage for the same amount.

Enter the total of the original mortgage plus further advance/top-up(s), OR the re-mortgage (plus subsequent further advance/top-up(s) if any).

\[ \text{Soft Check} \]
If the original amount borrowed is equal to or greater than £250,000

/ Question Information for Type of Mortgage

Code 1: Endowment Mortgage

An endowment policy is taken out with either before or at the same time as the mortgage. The endowment policy is designed to end at the same time as the mortgage. Endowments are often sold by the lender or adviser who arranges the mortgage, they can also be arranged independently. Money paid into the endowment policy is invested in stocks and shares and other investments. Like all stock investments, endowment policies do involve risk and their value can fall and rise. At the end of a set number of years (the policy 'term'), the policy 'matures' and they get a lump sum, which is used to repay the mortgage loan.

The original mortgage amount remains outstanding until the policy matures. In the meantime interest is paid on the total amount borrowed and premiums are paid on the endowment policy.

Endowment mortgages were once very popular, but have fallen out of favour in recent
years. This is because many of the circumstances that used to make them attractive have disappeared, such as tax relief on premiums and mortgage interest, high inflation and high interest rates.

**Code 2: Repayment Mortgage**

In this case the money borrowed for the purchase of the house is repaid over a period of years; interest is also paid on the amount outstanding at the time. Monthly repayments are paid to the lender over an agreed number of years (called the mortgage ‘term’). Most people choose a term of 20 to 25 years for their first mortgage, but they can be for shorter or longer periods. The payments cover the interest on the loan and also gradually pay off the amount borrowed (sometimes called the 'capital' or the 'principal').

People with repayment mortgages (and pension, ISA or Unit Trust mortgages - see below) usually take out a mortgage protection policy with an insurance company so that in the event of death there is available a sum of money to pay off the outstanding mortgage. This arrangement should not be confused with the endowment policy of an endowment mortgage.

**Code 3: Pension Mortgage**

Interest only is paid to the lender and monthly contributions are paid to a personal pension plan which is designed to repay the mortgage on retirement. In addition, it is necessary to arrange a separate protection policy designed to repay the mortgage if the borrower should die before the end of the mortgage term. A pension mortgage can include a stakeholder pension.

**Code 4: Unit Trust or ISA Mortgages**

With a **unit trust mortgage** the borrower pays interest only to the lender and also makes monthly investments in a unit trust savings plan. As stock market prices rise, the lender may allow the borrower to pay off part of the loan. With this arrangement, a protection policy is also necessary.

With an **ISA Mortgage** the borrower pays interest only to the lender and pays monthly contributions into an Individual Savings Account, which is designed to pay off the loan.

**Code 5: Both an INTEREST ONLY and REPAYMENT mortgage**

This code applies if the mortgage is a **single arrangement** which has both an interest-only element and an interest-and-capital element, **combined into one regular payment made to the lender**. If there are two separate mortgages of different types secured on the property, and separate payments are made to the lender(s), only the main mortgage should be coded at this question. Separate, second mortgages not for the purchase of the property (or any separate mortgage for purchase) should not be entered here.

**Code 6. An INTEREST ONLY mortgage with more than one linked investment (e.g. pension and unit trust, endowment and ISA)**

Some borrowers have more than one investment scheme set up to repay the amount borrowed on an interest only mortgage. For example, an endowment and ISA. This code enables the questionnaire to uniquely identify this type of mortgage arrangement and subsequent questions collect information on all of the investment schemes linked with the interest only mortgage.
**Code 7. An INTEREST ONLY mortgage with NO linked investment (e.g. NO endowment, pension or ISA)**

This type of borrower has decided not to take out any type of investment or savings scheme to repay the mortgage as the end of the mortgage term.

The unique characteristic of an interest only mortgage is that payments to the lender only cover the interest on the loan. The payments do not re-pay any of the amounts borrowed. The mortgage still usually has a fixed term and the borrower is expected to repay the amount borrowed in one go.

With interest only mortgages the borrower usually arranges an investment such as an endowment or ISA to save the money needed to repay the mortgage debt. However, some borrowers **do not** set up an investment or savings scheme. It is this type of borrower that we would like recorded using this code. These borrowers may have a different strategy in place to repay the mortgage or have decided the later sale of the property will release enough capital to repay the borrowed amount. You may come across other schemes people have thought up to repay their mortgage for example, using proceeds from a maturing life insurance policy or paying off the amount borrowed using the occasional lump sum.

**Code 8. Another type or mortgage**

Please remember to make a note when using this code. The note should include details of the main features of the mortgage.

Please ensure when using code 8 that the mortgage is unique and is not covered by codes 1-7.

If code 8 is used the soft check will appear.

**Question Information for Type of Mortgage**

**A note on Flexible mortgages.**

These are a fairly new style of mortgage that is becoming more popular. Flexible mortgages can be repayment, endowment or another type of investment. Therefore it is important to read the following information and decide where it is best to code a flexible mortgage.

The most popular type of flexible mortgage is the all-in-one account. There are two types of all –in-one account; the current account mortgage and the offset mortgage.

The **current account mortgage** – all finances are kept together in ‘one pot’ so the
mortgage, current account, any savings, credit cards and loans are all combined resulting in one overall account with one outstanding balance.

The offset mortgage – is similar to above where there is one overall outstanding balance made up of all the different debits and credits however the savings, current and mortgage accounts are kept in separate accounts. Money can still be easily transferred between the different accounts.

Buy-to-let mortgages
Do not include mortgages for those properties purchased only for investment and rental income

3. Current payments into a Unit Trust or Investment Trust scheme
4. Current payments into any other savings/investment scheme
5. Proceeds of sale from existing house only
6. None of the above (describe in a note)

Question Information for Loan Covered by Other Savings

Loan Covered by Other Savings is asked directly after Type of Mortgage. This is so the question can act as a check (especially for those with INTEREST ONLY mortgages) to help ensure that Type of Mortgage has been correctly coded. For example, the respondent may have described their mortgage as an 'Endowment mortgage' (code 1). At Loan Covered by Other Savings they mention that they are also making payments into an ISA which they intend to use to repay their mortgage when it matures. This means that they have more than one investment or savings scheme linked to their mortgage, so at Type of Mortgage they should really have been coded as 'an interest only with more than one linked investment' (code 6) rather than an endowment mortgage.

We are only interested in recording saving schemes and investments that the respondent
is CURRENTLY making payments into. For example if they have completed contributing to an ISA then this should not be recorded at this question, so use code 6 and please make a note.

If Loan Covered by Other Savings is coded as 'None of the above' - please open a note and record details about how the respondent expects to repay the loan.

'Can I just check' will only appear at the beginning of this question when Type of Mortgage is coded as 'Interest only with NO linked investments' (code 7) or 'Another type of mortgage' (code 8). The question may not seem relevant for these cases, but we want to ask the question to check that Type of Mortgage is coded correctly.

If the respondent has an ENDOWMENT mortgage - please use code 6, you will be asked for information specifically about the ENDOWMENT mortgage at Endowment Policies. People with ENDOWMENT mortgages are only routed through this question to ensure that Type of Mortgage has been coded correctly.

> Flexible Mortgage

> MorFlc

All-in-one accounts are a new type of flexible mortgage which allow a person to link together accounts - for example, a current account, a savings account and a mortgage (as well as other types of loans). There are two types of all-in-one account: current account mortgages and offset mortgages.

INTERVIEWER: Examples include the One account (RBOS), a Woolwich Open Plan or some other all-in-one account.

Is your mortgage an all-in-one account?
Flexible mortgages are those which give the borrower the flexibility to make certain changes without asking their lender first, such as varying the amount or timing of payments, or taking breaks in some circumstances. People with such mortgages can make over or underpayments each month or can pay off lump sums without incurring charges. Other common features of flexible mortgages are the ability to withdraw lump sums and to take payment holidays. If people overpay it may allow them to pay off the mortgage early, or to take payment holidays later, for example if they have a baby or take a career break.

It is worth noting that increasingly many “traditional” mortgages have flexible features even though they are not strictly flexible mortgages. For example it may be possible to make lump sum payments without restriction. However for a mortgage to be truly flexible it should really have the facility to make overpayments and to make underpayments.

Flexible mortgages can be repayment, endowment or other investment mortgages.

A subset of flexible mortgages is called all-in-one accounts. There are two types:

- **current account mortgages**: mortgage combined with a current account and forms one account, e.g.: the One Account (RBOS)

- **offset mortgages**: the mortgage is run parallel with a current account and savings account between which money can be transferred and the mortgage debt offset against any savings held (offset) (see diagram), there may be several savings “pots” which together form the total savings e.g. Woolwich Open Plan

Current account mortgages and Offset mortgages are described in more detail after All in One Mortgage.

If the respondent has an all-in-one account

¿ All in One Mortgage

SHOW CARDS B8 & B9

Is your all-in-one account mortgage, a current account mortgage or an offset mortgage?

1. Current Account Mortgage
2. Offset Mortgage

Two show cards relate to this question. They are designed to help respondents decide
what type of 'all-in-one' mortgage they have.

**Summary...**
With a current account mortgage, the borrower’s mortgage is combined with their current account to form one account for example, the 'One Account'.

**In more detail...**

The main difference between an offset mortgage and current account mortgage is that with a current account mortgage, the borrowers’ current account and any other accounts are combined with their mortgage account.

The current account mortgage (CAM) combines the borrower's mortgage, current account, savings account, personal loans and credit cards into one account. Their salary is paid into this account, if they don't spend all their income at the end of the month, that amount is taken off what you owe on your mortgage.

For example, if they were paid £2000 after tax each month, then spend £1500 in the month, £500 is left in the account which comes off the mortgage. Since interest is calculated on a daily basis, the interest paid is immediately reduced.

The CAM allows the borrower to make overpayments and underpayments and borrow back money, so can be defined as fully flexible.

Respondents with a CAM will NOT be routed through the last payment questions.

**Question Information for All in One Mortgage-Offset Mortgage**

**SHOW CARD B6 Offset mortgages**

The Savings account, current account and mortgage are held separately but the balances in all the accounts are taken into consideration when calculating interest for the mortgage repayments.

**Summary...**
The mortgage is run parallel with a current account and savings account between which money can be transferred and the mortgage debt offset against any savings held (offset).

**In more detail....**
Offset is a new type of flexible mortgage. It links the mortgage to the borrowers Current and Savings Accounts. The borrower can save money on interest repayments, because the interest is calculated on the difference between the combined balance the Current and Savings Accounts and their mortgage balances. This means that the mortgage term could be reduced and the borrower saves money.

Interest is calculated daily, so every day the borrowers Current and Savings Accounts are in credit, the interest calculated on the mortgage will be reduced and the subsequent repayments.

By this we mean the agreed term since you have remortgaged or extended the original loan.

Soft Check
If more than 40 years after the property was bought and the respondent has re-mortgaged (Code 1 at Rmort))

Are you sure? The end date would not normally be more than 40 years after the last remortgage. Please check your figures.

Respondents who have an interest only mortgage with no linked investments should still be able to provide an answer to this question.

Amount Outstanding on Mortgage

What is the amount still outstanding on your mortgage/loan from this source – that is how much do you still have to pay off?

Probe that the figures given for the amount outstanding does apply to the total debt on this mortgage only, and does not include any separate arrangement.

If the respondent has an all-in-one current account mortgage the wording of Amount Outstanding on Mortgage will appear as follows.

What is the amount of the negative balance or overdraft on your current account?

If an interest only mortgage and the amount outstanding differs from the amount borrowed/re-mortgaged:

Soft Check
For an interest only mortgage, the amount outstanding should equal the amount [originally borrowed]/[of the re-mortgage].

This check should be suppressed when the capital amount borrowed for a mortgage has been reduced by a lump sum payment.

Soft Check
If a repayment mortgage and the amount outstanding is not less than the amount borrowed/re-mortgaged
For a repayment mortgage, the amount outstanding should be less than the amount [originally borrowed]/[of the re-mortgage].

If the respondent has an ENDOWMENT or other INTEREST ONLY mortgage the questions Amount of Last Mortgage Payment and Length Last Mortgage Payment Covered are asked.
These questions will NOT be asked if the respondent has an all-in-one current account mortgage.

Mortgage Protection Policy

[Apart from any endowment policies already mentioned] Do you have a mortgage protection policy to pay this mortgage/loan in the event of sickness, accident or redundancy [or death]?

---

/ Question Information for Mortgage Protection Policy

This question is asked for all types of mortgage. Only read ‘(Apart from any endowment policies...)’ if the respondent has said that there is an endowment policy covering the mortgage. The textfill ‘Or death’ appears if there is no endowment policy recorded earlier.
People with repayment, pension, Unit Trust or ISA mortgages usually take out a mortgage protection policy with an insurance company so that in the event of death there is available a sum of money to pay off the outstanding mortgage. Sometimes it is known as a ‘Whole Life Policy’. It is not always required. This arrangement should not be confused with the endowment policy of an endowment mortgage.

Policies to cover the mortgage in the event of death will continue to be included, but so too will be policies which repay all or part of the mortgage in the event of redundancy or long-term sickness.

If the mortgage type is repayment, pension, unit trust or ISA the following check appears if ‘no’ is coded.

**Soft check**
INTERVIEWER: for this type of mortgage there is normally a protection policy. Please check – was it included in the last mortgage payment? (If no policy, suppress warning and continue).

Often premiums are included with the monthly mortgage payment (or payment into a pension plan, Unit Trust or ISA) – ask the respondent to check, particularly if the mortgage is quite old. Sometimes no policy is needed, for example if the mortgage is small, or if the capital can be paid off in another way.

/ Question Information for Other Mortgages 1,2,3 and Other Purchases

Quite a common loan of this type is raised through ‘equity release’, for instance a Home Income Plan, Reversion Scheme or Retirement Home Plan. Typically, this is where elderly owners (e.g. 70 years or more) borrow money and use it to buy an annuity, part of which provides them with an income, the rest paying off the interest on the loan. (When the owner dies, the property is sold and the lender recoups the capital.) For FRS purposes you should treat this as a mortgage/loan not for purchase, coding ‘yes’ at Other Mortgages 3 and code 7 at the next question. However, if no interest is being paid on the loan, do not enter it at all.

If the respondent has any other mortgage or loan secured on this property, the following question is asked

? Other Purchases

6. for essential repairs to make the property fit for occupation
7. some other purpose (SPECIFY IN A NOTE)

/ Question Information for Other Purchases

If any code other than 6 (essential repairs) was entered, no further questions are asked about the mortgage.

If the mortgage was taken out to make essential repairs, the mortgage questions from
Introduction to Mortgage Section to Outside Payment Included Earlier are asked, plus the following extra question after Introduction to Mortgage (which now states that the next questions are about the loan for essential repairs).

?- Year Took Out Mortgage/Loan

1. Yes
2. No

The following questions are asked only if the last mortgage payment DID include an amount for insurance.

Council Tax

Council tax is based on the value of a dwelling and assumes two adults per household. The full bill consists of two equal elements: a property element and a personal element. Status discounts, which reduce or eliminate the personal element of the tax, are available to single persons and certain other households. Council tax benefit is available in the form of rebates to those on Income Support and others on low incomes. A Disablement relief is available if there is a disabled person in the household.

**Liability**

If the property is owner-occupied the owner (or joint owners) will be liable for payment of the tax. If the property is rented the tenant will generally be liable provided s/he lives in it as a main residence, though in multi-occupancy accommodation such as bed sits the landlord is liable.

❓ Consult Council Tax Documents

↩ CTConDoc

**NOW THERE ARE SOME QUESTIONS ABOUT THE COUNCIL TAX**

For your Council Tax, do you have a bill, statement or a payment book that you could consult?

ACCEPT A STATEMENT/BILL FROM THE YEAR 2011-2012 IF NO PAYMENT FOR 2012-2013 YET MADE

1. Yes – consulted now
2. No - no document (or will not consult)

It is important **whenever possible** to refer to a bill or statement as this is an area where many respondents have little idea of the details being asked. FRS is interested in the **most recent payment** (and all subsequent answers should relate to that payment). If the new bill for 2007-2008 has been received but no payment has been made yet, don't consult the new bill, try to get last year's instead.

❓ Council Tax Band

↩ CTBand

Could you please tell me which Council Tax band this accommodation is in?

**THIS MUST BE THE BAND GIVEN BY THE COUNCIL - DO NOT ACCEPT RESPONDENT’S OWN ESTIMATE OF VALUE OF PROPERTY.**

**COUNCIL TAX BAND I EXISTS IN WALES FOR PROPERTIES OVER £400,000.**

**IF THIS HOUSEHOLD'S ACCOMMODATION IS NOT VALUED SEPARATELY (e.g. because it's a rented part of larger premises), THEN USE CODE 10.**

INTERVIEWER: Band I only applies to Wales.

The council tax bands shown below are included in these instructions purely as a matter of reference. These valuations are not current, they are those that were made in 1991. It is extremely important that respondents do not reference the current value of their property, to the corresponding council tax bands constructed in 1991.

/ Question Information for Council Tax Band
There are two circumstances in which a band may not be entered:

Band not known
If the respondent is personally liable for the council tax (even though they may pay nothing) and doesn’t know the band, enter ‘DK’. Do not use the respondent’s estimate of the property’s value – particularly if they are giving their estimation of the current value. The valuations were made in 1991 and will therefore become increasingly out of date. If the band is coded ‘DK’, it will be obtained from the Local Authority by office staff.

Accommodation not valued separately
If the accommodation is not separately valued for the council tax, enter ‘9’. In certain accommodation, such as that which is multiply occupied like bed sits, the landlord will be liable for the tax. The landlord may decide to recover some or all of the cost of the tax by increasing rent charges and will not be legally obliged to identify the council tax component. In these situations where the tenant is not personally liable for the tax use code 9 to indicate that the accommodation that the interview is concerned with is not valued separately for the Council Tax.

To check that the correct code has been entered, the following check is triggered if either ‘dk’ or code 9 is entered.
INTERVIEWER: If necessary check which is correct; this accom:

- is NOT valued separately for C.Tax (enter code 9)
- or it IS valued for C.Tax, but respondent DOESN'T KNOW the tax band (enter Don’t Know).
If correct, suppress check & continue.

Question Information for Council Tax Band

Appeals

Owners and tenants will be legally obliged to pay the amount shown on their council tax bills when they receive them in March/April. The valuation bands are based on prices in April 1991 and will not be affected by subsequent changes in house prices, although improvements such as extensions will be taken into account if the property is sold. Appeals against the valuation band may now only be made in these circumstances, not with regard to the original valuation; the full payments must be made until the result of an appeal is decided.

Appeals on valuation matters must first be taken up with the valuation office; appeals on other matters must be raised with the local authority. If matters are not resolved within a specific period, they may be referred to a valuation tribunal. In a few cases appeals against the original valuation have not been settled yet.

If an appeal is still pending...
Enter the band which is shown on the original bill.

If a new bill has been received following an appeal..
Enter the new band shown on the bill.

If the bill was applied to a lower valuation band because disablement relief was allowed..
Enter the band that would have applied if disablement relief had not been granted.

Council Tax Lower Band

Was your Council Tax bill reduced to a lower band because there is a disabled person in the household?

INTERVIEWER: HOUSEHOLDS MUST MAKE A SPECIAL APPLICATION IN ORDER TO OBTAIN THIS REDUCTION

If a disabled person needs additional space or an extra room to meet special needs, the council tax bill may be reduced to that of a property in the band immediately below the band shown on the valuation list. Note that no ‘disablement relief’ can be allowed if the property is already in band A.

Informants will have to apply for disablement relief, so they should know if it has been allowed. If it has been allowed, the following check question is asked:
Council tax

Council Tax Band Before or After Check

You said you were in band [x]; is that the band after this lower valuation, or before?

Council Tax Amount

How much Council Tax do you/your household currently pay? (For Scotland Only also include Domestic water and sewerage charges).

INTERVIEWER: ACCEPT EITHER ANNUAL AMOUNT, OR MOST RECENT INSTALMENT

SCOTLAND ONLY- INTERVIEWER:-If the respondent has a private water supply or a septic tank and does not pay for water and sewerage with their council tax, make a note of whether water and sewerage are paid for separately and the amount currently paid for each.

Domestic Water Charge and Domestic Sewerage Charge in Scotland

In Scotland, the question includes the phrase including domestic water charge and domestic sewerage charges. These charges should be included in this figure. On bills the total annual amount payable for all three components may be identified as the ‘net amount payable’ (which may then be divided into instalments).

Council Tax Benefit is not applicable to domestic water or sewerage charges, and therefore every household eligible for council tax should pay them. If the household is allowed 100% Council Tax Benefit, the amount paid for water and sewerage charges should be entered at Council Tax Amount (either the annual net amount if paid in full, or the last instalment payment). For this reason a soft check is triggered if zero is entered at this question.

If the amount is changing/has changed following an appeal.

Enter the amount last paid and then open a note using <Ctrl+M> to give details of the previous/future amount for instalments and, if possible, how much has been paid in total so far or how much is due to be paid for the rest of the financial year. This information should be on the relevant bills.
If an amount is entered.

?[Council Tax Instalment]

(Can I just check) Was that the full payment for the year, or was it an instalment?

If an instalment:

?[Council Tax Payment Period]

How many instalments are there, over the whole year?

'WHOLE YEAR' = APRIL TO MARCH (12 MONTHS)

IF PAYMENT GIVEN IS FROM LAST YEAR, ENTER NUMBER OF INSTALLMENTS MADE LAST YEAR.

Enter the total number of payments which have already been made plus those which will be made in future, for the year April-March. (If the last payment entered relates to 2008-2009, give the number of instalments for that year.) If paid by direct debit, Local Councils usually set the number of instalments to 10 per annum.

If the last payment multiplied by the number of instalments exceeds the highest charge set for the relevant band in any LA in England, Scotland or Wales:

?Soft Check

That's [£amount] a year which seems rather high for a property in this band. Please check the amount and number of instalments. If correct, suppress warning and explain circumstances in a note.

If the band is not known or refused, the check will use the highest value.

If a statement/bill is consulted and instalments are being paid:

?[Council Tax Annual Amount]

REFER TO DOCUMENT BEING CONSULTED.

On the statement/bill, what is the total amount payable for the year, [including Domestic Water and Sewerage Charges but] after deducting any discounts or benefit?

'YEAR' = APRIL TO MARCH (12 MONTHS)

The reference to Domestic Water and Sewerage Charges appears in Scotland, where there are also the following questions with reference to Council Tax Annual Amount.
Council Tax Water Amount

How much is the annual Domestic Water Charge, as shown on the bill?
ENTER THE FULL CHARGE, BEFORE ANY STATUS DISCOUNT

Council Tax Sewerage Amount

How much is the annual Domestic Sewerage Charge, as shown on the bill?
ENTER THE FULL CHARGE, BEFORE ANY STATUS DISCOUNT OR TRANSITIONAL RELIEF

The amounts at the above two questions should be the full annual amount levied by the local water authority. If a household is allowed a status discount (see later), it will apply to the main council tax and to the water and sewerage charges. However the bill will probably show the amounts before any discount, but not after.

Council Tax Rebate

Are you allowed Council Tax Benefit or rebate, to help pay your Council Tax?

// Question Information for Council Tax Rebate

Council tax benefit (rebate) is available to those liable for council tax bills that are on low income. The amount allowed will vary according to levels of income and assets. People on Income Support/Income-based Jobseeker’s Allowance/Pension Credit or equivalent levels of income will be entitled to the maximum rebate of 100%.

Be careful that the respondent does not confuse Council Tax Benefit with status discount (see below). It is possible that both will apply (e.g. when the household consists of a single person on low income).

If mentioned by the respondent, include receipt of the one-off extended payment of Council Tax Benefit paid to people who return to work after a period of unemployment as a lump sum payment covering four weeks. It has to be claimed separately from ordinary Council Tax Benefit. Enter the full amount of the lump sum at Council Tax Rebate Amount and ‘four weeks’ at Council Tax Rebate Period. Questions on its receipt will be asked in the Benefit Unit questionnaire.

In Scotland, benefit is not allowed in connection with Domestic Water Charge and Domestic Sewerage Charge.

If the respondent earlier claimed they were getting Housing Benefit, or that DWP were contributing to their mortgage.

Soft Check

Earlier the respondent said they get Housing Benefit or help from DWP with mortgage. They should usually also get Council Tax Benefit. Please check: is their C.Tax bill ‘reduced’ - does the Council take anything off it? (apart from Discount). If so, change
answer to 'yes'.

? Council Tax Rebate Amount
↔ CTRebAmt

How much was allowed?

Soft Check
Zero amount of Council Tax benefit: this contradicts previous answer (at 'CTReb') that benefit WAS received. Please resolve if possible.

? Council Tax Rebate Period
↔ CTRebPd

How long did this cover?

Enter details of any benefit in connection with the last council tax payment made.

/ Question Information for Council Tax Rebate Period

If an appeal is pending...
Enter the amount that applied to the last payment.

If an appeal has been made and a new bill has been received...
Enter details of the most recent payment and if this is about to change following receipt of the new bill then open a note using <Ctrl+M> to record the future figures.

If the respondent knows how much rebate will be allowed for the whole financial year or part of it, it is acceptable to record this total figure together with the appropriate period code.

If a liable person's income is too high for her/him to qualify for benefit in her/his right, s/he will be able to claim on behalf of other adults (except dependents and lodgers) living in the same property who are on a low income. This type of benefit is called "second adult rebate".

Where there is more than one benefit unit in the household, and the liability for council tax is jointly held across more than one benefit unit, it is possible for the council tax benefit to be awarded at the benefit unit level. The following question asks which benefit unit(s) it was applied to. It will only be asked in households where the accommodation is jointly owned/rented by members of more than one benefit unit, and only when a statement is consulted.
INTERVIEWER: NO COUNCIL TAX IS PAID, BUT NO BENEFIT RECEIVED. ASK OR CODE: WHAT WAS THE REASON FOR PAYING NO COUNCIL TAX?

1. Bill not yet received and household not previously liable for C. Tax
2. Bill not yet paid and household not previously liable for C. Tax
3. Deliberate non-payment, in dispute, appeal etc
4. Household only recently moved into accommodation
5. Household has a ‘formal exemption’ from the tax (all students; MOD property; severely mentally impaired)
6. Paid by absent partner
7. Paid by employer
8. Other reason (DESCRIBE IN A NOTE)

Codes 1 and 2 at the above question should only apply in circumstances where no payment from last year can be given. E.g. a newly set-up household, or one that has moved from overseas.

If the respondent states that ‘the landlord pays it’ or ‘it’s included in the rent’, check whether this household’s accommodation is valued separately for the council tax. If it isn’t, such as if it is a bed-sit or rooms within a larger house, you should code Council Tax Band as 9 - not valued separately.

// Question Information for No Council Tax Paid

Exemptions
Two classes of exempt dwellings are likely to occur:

Accommodation occupied ONLY by students, or by the severely mentally impaired
If all members of the household are students or severely mentally impaired, the household is exempt. If any member of the household is not a student or severely mentally impaired then a status discount may apply, but not an exemption.

Accommodation owned by the MoD as armed forces accommodation.
The MoD will pay contributions in lieu of council tax to local authorities. These contributions may be recouped from services personnel through accommodation charges.

If no council tax benefit is received.

/ Question Information for Council Tax Discount

**Status Discounts**
The council tax assumes two adults per household. In certain types of household, where there are not two people liable for payment of council tax, the bill will be reduced so as not to penalise them unfairly. This is regardless of the income and assets status of the household.

Be careful that the respondent does not confuse a status discount with Council Tax Benefit (see above). It is possible that both will apply (e.g. when the household consists of a single person on low income).

If only one adult lives in the dwelling the bill will be cut by a quarter. Thus a 25% status discount will usually apply to a single person household.

Some people, such as those in the list above, are ‘disregarded adults’ and are invisible for council tax purposes. They are deemed to be unable to contribute to household bills.

Probe situations where respondents say that they have been allowed a status discount but there is more than one adult in the household. If a ‘disregarded adult’ (student/student nurse/apprentice etc) lives with one other adult then a status discount of 25% will apply. However no discount will apply if that person lives with two or more other adults.

50% status discounts will be rare and will apply where the sampled accommodation includes only disregarded adults (those in the above groups) other than students who will be completely exempt.

In Scotland, status discount is also allowed for Domestic Water Charge and Domestic Sewerage Charge.

SHOW CARD B12
Can I just check, were you allowed a 25%, or a 50% discount?

🪄 Soft check
Are you sure? Households with only one adult would normally have a status discount (25% reduction of the bill).

Soft Check
If a respondent claims that they are receiving a 50% discount there is a check to ensure that this is correct.

Are you sure? Discount is usually 25%. The 50% discount applies only if ALL household members belong to the groups shown on card I. Please check with respondent. If discount IS DEFINITELY 50%, suppress warning and continue.

Interviewer: Code as don’t know if respondent has not yet received their annual bill.

? Water and Sewerage Rebate

Are you receiving a rebate for your water or sewerage charges?

/ Question Information for Water and Sewerage Rebate

The vast majority of people have to pay the full water and sewerage charges, but there are also a few with a meter who are eligible for assistance under the Vulnerable Groups Scheme (Water Industry Act 1999). Under this scheme, people who qualify receive a bill capped at the average charge for their region, and do not have to pay the measured charge reflecting their genuine water consumption.

To qualify for assistance, the household must be metered. The claimant must also be eligible to receive certain benefits or tax credits (such as Income Support, Working Families’ Tax Credit, Jobseeker’s Allowance) and fulfil one of the following criteria:

They hold responsibility for three or more children under the age of 19; Or
They suffer from a specified medical condition which causes the household to use significantly more water (desquamation, a weeping skin disease, incontinence, abdominal stomas, renal failure requiring home dialysis etc); Or
They have a child with a medical condition outlined above.
This section is about charges on the accommodation and is asked of owners and those who occupy rent-free.

Often ground rent, service charges maintenance or factoring charges are not itemised separately. If this is the case and the respondent is not able to split the separate amounts, a combined amount should be recorded for ground rent, service charge, maintenance and factoring charges at category 9. Do not encourage respondents to estimate the separate amounts if they are not certain.

Similarly, if respondent states that they pay charges separately, but only know the combined charge, enter the total amount as a combined rate (category 9).

Do not record a combined amount and the separate amounts. Record one or the other.

Rent within Conventional Households

These questions are asked only if there is more than one Benefit Unit in the household and, if the household was defined as 'conventional', at the question Household Status (in block Tenure).

The following questions are asked with regard to each person not related in some way to the HRP (or partner) in the 2nd and subsequent Benefit Units:

Questions on receipt of housing benefit for boarders, lodgers and other adults not related to HRP will be asked in their own Benefit Unit questionnaire.

**Who Received Healthy Start Vouchers**

Who received the Healthy Start Voucher/s?

INTERVIEWER: {{NatCen prompt} Who Else? {ONS prompt} Anyone Else?}
INTERVIEWER:- Record the person on whose behalf the voucher was received. Eg if the voucher was issued due to pregnancy, record the female household member who received the voucher. If the voucher was received on behalf of a young child record the child as the voucher recipient.

See helpscreen for more details of voucher entitlement.

NOTE: DWP want to know who received the Healthy Start Voucher. Only the recipients eligible to receive Healthy Start vouchers will be made available to be recorded at ‘HSVPer’. It is important that the person the vouchers are received for is recorded. For example if a woman receives the vouchers for her children aged under 4 then only the children should be recorded as a recipient of the vouchers (because only pregnant women are able to receive the voucher on their own behalf). If a pregnant woman with a 7 year old child receives the voucher then only she should be recorded as the recipient (because only children aged under 4 years are eligible to receive the voucher).

  2. No

NOTE: This question will loop you back to the next person who receives healthy start vouchers.

If code 2 is entered at Free Item the following questions are asked.

Who receives fruit or vegetables

Who received the free fruit or vegetables at school?

Soft Check
The check on fruits or vegetables is trigged if the child is not aged 4 to 6.

INTERVIEWER: This code only applies to children at primary school aged 4 to 6.

How many pieces of fruit

Thinking just of the PAST SEVEN DAYS ending yesterday - how many pieces of fruit or vegetables did [name] receive?

If code 3 is entered at Free Item the following questions are asked.

Who Receives Free School Milk

Who received the free school milk?

Free School Milk Amount

Thinking just of the PAST SEVEN DAYS ending yesterday - how many cartons or bottles did [name] receive?

'Bottles’ or 'cartons' generally contain one third of a pint. Therefore, a legitimate answer would be 5 bottles.

Soft Check
The check on school milk is triggered if the child has received more than 6 cartons a week.
Warning: The answer is much higher than the figures usually given at this question. Please check that your figure is correct. If so, suppress warning and continue.

Childcare

Research commissioned by DWP and carried out by the Institute of Fiscal Studies has demonstrated disparities between FRS measures of childcare use and those on other surveys.

Measurements of formal group-based care appear to be underestimated on the FRS. This understatement of childcare costs on FRS described above has serious implications for the accuracy of tax credits costing and forecasting.

In order to try to reduce disparities between estimates of childcare on different surveys, the FRS has adopted the approach used on the Labour Force Survey (LFS) since the LFS was shown to produce more robust estimates.

The Childcare section has been restructured in an attempt to reduce some of the perceived repetition in the Childcare questions, especially where there is more than one child in the household receiving the same type of care, the interview will run the questions for each child concurrently.

Introduction to Childcare

The next questions are about childcare for your children. This includes all types of childcare, such as playschool or nursery school or a childminder as well as relatives or friends who look after your child(ren).

Childcare schemes run by approved providers, for example, an out of school hours scheme or a provider approved under a Ministry of Defence accreditation scheme

A registered childminder, nursery or childcare scheme is one that is registered by:

• OFSTED or the Social Care Inspection Commission in England
• the National Assembly for Wales (through the Care Standards Inspectorate for Wales) in Wales
• the Scottish Commission for the Regulation for Care in Scotland
• a Health and Social Services Trust in Northern Ireland.

Approved childcare in England is childcare approved by a body acting under the authority of the Secretary of State.

Childcare providers who are eligible to apply for approval in England include:

• Childminders who are not required to register
• Nannies or au pairs

If the childcare is childminder, day nursery or crèche, or nanny or au pair.

**Childcare: Employer Provided**

Is the childcare you've just mentioned provided by your employer?

FRS April 2012
As part of its objective to halve child poverty by 2010, the government introduced new tax and national insurance exemptions to encourage employers to provide more childcare support to their employees. The FRS plays an important role in monitoring the extent to which these incentives are taken up by employers. Please ensure that a yes is only coded above if a respondent is making use of the employer provided childcare.

Help Given and Received (Care)

The next questions are about receipt of care by household members, and provision of care by household members to people outside the household.

The help received can be from people inside, or outside, the FRS household including family members, social services, friends and neighbours, voluntary organisations.

At the first two questions it is important to allow the respondent time to read the show card which contains many examples of the kinds of help which are relevant. Quite often the respondent may not consciously think that the kind of things they do for another person as a matter of course constitutes providing care. This show card includes quite menial or trivial things which DWP are keen to capture.

¿ Anyone Needing Help

See Showcard D1 for examples of the types of help to be included.

At this question do not include people who provide this service as part of a formal job which is paid by some organisation. However, if the person receiving the service makes informal payments direct to the person providing it then it should be included at this question. e.g. - if an elderly Friend gives a helper £5 to cover travel expenses, the help is still of an informal nature so code 'Yes'.
If a helper is employed by a charity/social services and paid a regular amount to assist a number of people then code 'No' at this question and enter the details as a job.

Enter all the recipients of help covered by Anyone Needing Help and Does Anyone Give Help, both within and outside the household, at this question. Up to 5 codes can be entered.

For each recipient of help, whether in or outside the household, the following sequence of questions follows. However, for people outside the household who receive help from a household member (i.e. codes 15 to 22), the questions are only looped once per 'category'. Therefore, if, for example, member(s) of the household give help to 2 neighbours, please make a note of the answers for the second one, so that they can be aggregated in the office. 15. Relatives
16. Friends/neighbours
17. Local Authority home help or home care worker
18. Private domestic help
19. District nurse, health visitor or other kind of nurse
20. Other outside helpers

Code 20 includes provision of formal care or treatment not covered by other codes, both in the home, such as by visiting specialist teachers (e.g. for pre-school deaf children), and at places such as clinics, hospitals, health centres and day care centres.

The DWP is only interested in the receipt of care by household members (from other household members or from non household members), and provision of care by household members to people outside the household. This is very important as there were several cases last year where a non-household member was coded as receiving help from another non-household member. To prevent this, there will now be a hard check in the questionnaire which will be activated if both the person giving care and the person receiving care live outside the household. If this check is activated, please go back and check your answers at Give Help, QNeedPer and WhoLook. The DWP are not interested in non household members who care for other non household members as they cannot link this information to any of the answers given in other parts of the questionnaire.

! Hard Checks

Two hard checks that have been included at QneedPer are:

Please include the non-household member receiving help from someone in the household, or change 'GiveHelp' to 'No'.

Please include the household member who receives regular help, or change 'NeedHelp' to 'No'.

SHOW CARD D2
About how many hours a week, on average, does [name of helper] spend actually providing help for or looking after [name of recipient]? 

1. 0-4 hours per week
2. 5-9 hours per week
3. 10-19 hours per week
4. 20-34 hours per week
5. 35-49 hours per week
6. 50-99 hours per week
7. 100 or more hours per week
8. Varies – under 20 hours per week
9. Varies – 20-34 hours per week
10. Varies – 35 hours a week or more

The above question is asked for all those giving help, including non-household members. The hours are banded. The most important break is between codes 4 and 5, or codes 9 and 10, as someone caring for 35 hours or more a week may be entitled to Invalid Care Allowance/Carer's Allowance (depending on other criteria).

For the non-household member recipients, only one loop of questions can be asked for each category, e.g. only one neighbour, or one friend may be recorded (two for parents). Some of the questions are exclusive to one person (e.g. how often help is received/for how long) so if help/care is given to, for example, two or more neighbours, open a note for the second/third etc recipients, giving all the details asked for above.

Children's Carer's Allowance

This question will capture income from benefits paid to 16-19 year olds. Previously income received by trainees was not collected on FRS as the respondents were defined as children as their parents can receive Child Benefit for them.

Question Instructions for HiQual1, HiQual3, OthQual and AnyEd

Do not attempt to give any guidance, or express any opinion of your own about any of the terms used. If respondents say they are unsure what counts as “a certificate” or “degree-level” (or any other term), reassure them that we would like them to make their own best judgement of how to answer.

Question Information for Any Education

All adults are asked the next question except those who have indicated that they are still in full time education at Full-Time Education. For adults currently in education, there are questions about the type of education and study time, then the resources on which students are living (grants, parental contributions and loans), and repayments of loans.

The parents/guardians of dependant adults in non-higher education will be asked about their receipt of grants or scholarships.

The following question is asked of all who were NOT recorded as being in FT Education in the Household Grid

Any Education

AnyEd

Are you at school or 6th form or at present enrolled on any full-time or part-time education course excluding leisure classes? Include correspondence courses and open learning as well as other forms of full-time or part-time education.

1. Yes
2. No

Amongst other things, DWP is interested in education status in relation to eligibility for Jobseeker’s Allowance (JSA). Under JSA rules, no distinction is made between types of education (full/part-time, vocational, recreational etc). Include attendance on educational trips, educational holidays, residential courses and summer schools. During holiday period’s respondents should be coded as receiving education (provided they intend to continue with the course).

The following question is asked of all adults who have indicated that they are still in full time education in the household grid at Full-Time Education, or if code 96 at Age Education Complete.

9. any other correspondence course
10. any other course including other self/open learning courses

? Hours of Educational Tuition
↔ EdHr

In your course of education, how many hours tuition do you normally receive each week? Only include time spent in lectures, seminars, and practicals where a tutor is present.
INTERVIEWER: IF NONE (EG DISTANCE LEARNING), ENTER ‘0’
Question Information for Hours of Educational Tuition

Only include ‘guided learning hours’. This means time spent actually in contact with a teacher/tutor/lecturer, whether in the lecture theatre, classroom, seminar or practical. It is the way study time is generally defined in Further Education and under JSA rules, so on FRS apply the concept to all types of education. If the number of hours varies, give an average figure. Enter the hours that should be received, if this differs from the number that actually are received e.g. due to any non-attendance.

Time spent studying in the respondent’s own time (at home, in the library etc) should be excluded.

If there are no ‘guided learning hours’, enter ‘zero’. This would include distance learning, such as correspondence courses and Open University. Such learners are treated as part-time students under JSA rules, and thus flexible in their ability to work. (OU students are allowed up to one week per course for summer school, but do not count this in the number of hours above).

If more than 0 guided learning hours.

INTERVIEWER: {England, Scotland and Northern Ireland only} Existing EMA claims for those studying in England will be received for the remainder of the 2010 academic year (i.e. up to August 2011). From September 2011 onwards, no new Education Maintenance Allowance (EMA) claims will be received for those studying in England.

For those living in England, Scotland and Northern Ireland and studying in England, existing EMA claimants will have their claims paid for the remainder of the 2010 academic year (i.e. up to August 2011). By September 2011, no one studying in England (excluding those living in Wales) will receive EMA. A check will make sure that EMA is correctly reported after August 2011.

// Question Information for EMA Amount Period

There are 2 types of EMA payments: Weekly Payments and Bonuses at the end of a term or when the learning agreement has been achieved. Sometimes the weekly payments are not necessarily paid every week, especially at the beginning of the term. These may experience delays and the young person would not necessarily know how many weeks a payment may cover. In cases such as this record the amount and open a note giving as much information as possible.

Bonuses are more difficult to collect information about as evaluation suggests some young people do not know they are receiving them and/or what the amount is. You should therefore not include Bonuses at the questions EMA Amount and EMA Amount Period, but enter D/K and leave a note.
Question information about grants, bursaries etc

Respondents in Further, Higher and private education are then asked some questions about income from scholarships, bursaries, loans and parental contributions. The grant questions for dependant children will be asked of their parents.

In England and Wales, students may receive a scholarship, bursary or grant. The Higher Education Grant (similar to the old maintenance grant) was introduced in September 2004 to provide financial support of up to £1000 to university students with a household income of less than £21,186 per year. There are also access funds available to students in England and Wales.

The 16-19 Bursary fund was introduced in 2011 to replace EMA. Claimants can receive support in the form of travel passes, books etc. Alternatively they may receive money, the maximum per year being £1,200.

**Adult Learning Grant** - Respondents are eligible for an ALG if they are adults taking a full-time course (including BTECs, NVQs, GSCEs and A-levels. It is worth up to £30 per week during term time. This is a means tested grant.

In Scotland support is primarily through loans but means tested grants are available. These may cover Scots studying in England and Wales who receive these grants.

Help with fees should be excluded from the ‘income from grants’ recorded in the FRS.

If a private company provides a scholarship, bursary, grant or similar award this SHOULD be included.

**16-19 Bursary Fund**

Have you received any support from the 16-19 Bursary Fund?

1. Yes
2. No

HELP SCREEN: The 16-19 bursary fund is a scheme to help the most vulnerable young people continue in full-time education. It was introduced in September 2011 to replace the Education Maintenance Allowance (EMA). Those most in need including young people in care, care leavers, young people claiming income support, and disabled young people who receive both Employment Support Allowance and Disability Living Allowance, will be eligible for the maximum bursary. Other students facing financial difficulties may also be able to claim a bursary to help cover the cost of transport, food, books and other course-related essentials.

Each school, College, Academy or training provider will have their own applications process.

Have you been a student at a college or university at any time since 1990?

This question is only asked of respondents under 60. Current students and those who have been a student since 1990 are asked the next questions. This is because the Education (Student Loans) Act 1990 set up the provision for making loans to students towards their maintenance and phasing out student grants.

In the last 12 months, have you made any repayments of a Student Loan?
INTERVIEWER: This includes deductions from pay.
Students may take out a student loan from the Student Loans Company in Glasgow, or some private financial institutions. They are repaid once the borrower starts earning over a certain amount, and have their interest rates kept in line with the RPI which means that in real terms students pay back no more than they borrow. Do not include repayment of other loans taken out while a student.

Any Children Outside Household

Have [either of] you any [other] children aged 16-24 OUTSIDE this household, who are currently receiving full- or part time education?

INCLUDE MARRIED CHILDREN AGED 16-24.

This question is only asked if at least one adult in the Benefit Unit is over 40.

The next questions find out about any parental contributions to education costs being made by the parents.

Include any step-children for which anyone in the household still has a legal responsibility.

Name of Children

Could you tell me the child’s first name?

Asking the name of the child is only to make later questions clearer and as with the household a first name only is required or anything that will identify this as ‘Child1’ or ‘Child2’ to you.

DWP do not wish to collect information on payments made for tuition fees at the following question and such payments should be excluded.

ASK OR CODE:
Did you do any paid work in the 7 days ending Sunday the [date/month], either as an employee or as self-employed?

PROMPT IF NECESSARY: Were you working last week?

(Do NOT include ODD JOBS, BABYSITTING or MAIL ORDER AGENTS as ‘paid work’. Do include occasional jobs done on a regular basis)

(INTERVIEWER: IF BUSINESS START-UP, CODE AS WORKING).

“Do include occasional jobs done on a regular basis”

/ Question Information for Working

You should take the respondent's definition of whether they are in paid work or not, but it must be paid work.

On the FRS do NOT count mail order agents or baby sitters as having been in paid work, and exclude odd jobs - all these are dealt with later. Do however count childminders.

‘Paid work’ at this question means any work for pay or profit done in the reference week. It is to be included, however little time is spent on it, so long as it is paid and regular. For example, it includes Saturday jobs and casual work.

If the respondent does not receive monetary payment for the work they undertake, then they are not in paid work. This includes cases such as au pairs who do not receive monetary payment but instead receive free board and lodging in exchange for their services. Other cases include Roman Catholic priests who are not paid for their work, but receive a stipend to cover their living expenses.

Self-employed people are considered to be working if they work in their own business, professional practice, or farm for the purpose of earning a profit even if the enterprise is failing to make a profit or is just being set up. Respondents on a Business Start-up Scheme should always be coded as working.

Training for nurses is now carried out under the Project 2000 scheme and as such, nurses on this scheme should be classed as students, like any student nurses you may encounter with more traditional arrangements.

Someone who regards themselves as retired, but sits as a director on board meetings (however few) and is paid for this work, should be classified as in paid work. We do NOT expect interviewers to probe routinely for this.

Include people on the Employment option of the New Deal for 18-24 year olds as having done paid work. Do not treat any of the other New Deal options as being in paid work.

If the respondent did work in the last 7 days, but earlier was coded 2 at How Long unable to Work, the following check is triggered.
Employment Status

Soft check
Are you sure they did paid work last week? Earlier they said they have been unable to work for 28 weeks or more. Please clarify and change one of the answers.

Number of Jobs

How many JOBS, for pay or profit, do you have?
INTERVIEWER: DO NOT COUNT Mail Order Agents OR Babysitters AS PAID WORK, BUT DO COUNT Childminders.

1. One job only
2. Two jobs
3. Three jobs
4. Four or more jobs

The above question is asked only of those that are in employment.

1. One job only
An informant should be coded as having one job only if he/she:
- does the same type of work for more than one employer e.g. domestic duties, gardening, teaching.
- has two jobs but is paid one salary only for both jobs.
- is changing jobs or is going to change jobs, so that not more than one job is held concurrently.

2. More than one job
-If an informant has more than one job it is the status of the main job which should be entered at Employment Status. The respondent should decide which is their main job. If they are unable to do so, choose that which was for the largest number of hours.
-If an informant has arrangements to work with two (or more) different employers concurrently doing different work (even if one relates to casual work), he or she should be coded as having more than one job.

The following question is asked if the respondent has been working in the 7 days ending last Sunday. The information gathered from now to the question Year Became Tenant is used to derive internationally agreed definitions of people’s employment status.

Employment Status

Are you working as...READ OUT (RUNNING PROMPT)...?

1. an employee
2. or self-employed (including Business Start-Up)?

/ Question Information for Employment Status

An employee is someone who, at the time of interview, has an arrangement with an employer (another person or an organisation) to work for the latter for a wage or salary. This does not include informants who are on an employer's books but who have not yet started work.
Employment Status

Employees who are temporarily away from work due to short-term illness or accident, holidays, strike, being temporarily laid off or short time working should be coded as employees, as long as they have a job to return to with the same employer. If they are about to start a new job, code 3 at JobAway.

If someone is on the books of their husband's/wife's firm for tax purposes, they should be coded at as an employee, regardless of how many hours they work.

Directors
A director of a limited company is always counted as an employee, i.e. as an employee of his or her own company.

Employees are not asked whether they are a director of a limited company, in the job description section, whereas the self-employed are asked. See the instructions at Dirctr for an explanation, and the definition of self-employment below.

Sandwich Student
If a sandwich student has an arrangement to work for an employer, and is attending college or university at the time of interview, he or she should be coded as an employee.

Casual or Seasonal Workers
These should be coded as employees if, at the time of interview, they are actually working for an employer. If they are not working at present code them as not working.

Intermittent Work
People with a regular but intermittent arrangement to work for the same employer (such as many school kitchen staff) should be coded as employees, even during the periods when they are not working.

Resident employees
e.g., domestics, who are members of the household, should be treated as working in the same way as any other employee.

Clergy
Church of England and non-conformist ministers should be treated as employees. Jehovah’s Witnesses are treated as self-employed.

Occupational therapy
Informants who attend a therapy centre etc for physically or mentally disabled should not be coded as employees. They should be coded as not having paid work and then refer to Reason Not Wanting Work.

Employment outside the United Kingdom
Where the informant is employed abroad, be sure to record the currency they were paid in. If this is not £ sterling enter details in the note-pad.

2: Self employed
The term self-employed covers people who are responsible in their work only to themselves and who do not receive a wage or salary from an employer. Tax is not normally deducted at source but paid direct to Inland Revenue by them (‘Schedule D’ status). Hence directors and managers are employees of their companies. The self-employed pay Class 2 (regular) and Class 4 (% of profit over a certain level) National Insurance contributions.
Employment Status

Self-employment can be for any number of hours, e.g. as little as one hour a week, provided that the job is regular.

In addition to persons such as sole or part owners of a business, the following are considered to be self-employed: doctors in private practice, farmers, landlords who manage their own property, and people with recurring freelance jobs such as musicians or journalists.

Building and other construction workers who are sub-contracting under the CIS5 or CIS6 system (may be known as ‘on the lump’ or ‘on the cards’) should be treated as self-employed. These workers are usually paid a wage by the contractor and have the standard rate of income tax deducted from that wage. They are however responsible for their own payment of regular (Class 2) National Insurance contributions.

Informants on any Business Start-up schemes must be coded as self-employed, all the relevant self-employed questions should be asked and the allowance received regarded as profit.

Mail Order agents and baby sitters should not be treated as self-employed. Instead, their income is picked up separately later in the questionnaire. Childminders are treated as self-employed and there are specific questions concerning their income.

If the respondent is under 61 and did not work in the 7 days ending last Sunday, the following question is asked.

/ Question Information for Government Training

Work based learning for young people/Youth Training (YT):
This can be delivered in a wide variety of ways. It focuses on unemployed 16 and 17 year olds and (generally) provides a two year integrated programme of training, education, and work experience. All those on YT now have the opportunity to gain a recognised National Vocational Qualification, or credit towards one.

Work based learning for adults (WBLA) / Training for Work (TfW):
This is open to those aged 18 to 59. The allowance is £10 a week more than Contribution-based Jobseeker’s Allowance.

It is designed to meet people's needs either by offering an individually tailored package or practical and directed training to help them acquire the skills and experience needed to compete for jobs. Each trainee should have a training plan which was agreed at the start of his/her training and each should receive a training allowance on top of their weekly benefit.

In many parts of England and Wales the responsibility for planning and delivering Employment Training and Youth Training has been contracted to Local Training and Enterprise Councils (TECs). Two thirds of the board of each TEC are private sector employers. The balance may be leaders from education, trade unions, voluntary organisations and the public sector. In Scotland, training responsibilities are carried out by Local Enterprise Councils (LECs).

Work Trial
Run by the Employment Service, this is aimed at the long term unemployed. Participants receive up to 15 days work experience with an employer in an existing vacancy, and provides them with an opportunity to be recruited permanently. During the Work Trial participants receive the unemployment related benefits to which they are entitled, and appropriate expenses (e.g. travel). The employer is not allowed to top-up this income or make any other payments. There is no obligation on the employer to take on the participant neither after the trial nor on the participant to accept any offer of employment. The income for respondents coded as being on Work Trial will be picked up in terms of the usual state benefit(s) they receive.

If the Work Trial ended during the reference week:
- if the employer took the respondent on as an employee with immediate effect, code **Working** as ‘yes’ (and record anticipated pay if necessary)
- if no offer of employment was made, or an offer was refused, or an offer was made and accepted but the employment was to begin after the reference week, code **Working** as ‘no’, and code 3 at **Government Training**.
Employment Status

New Deal 25+/Employment Zones/Project Work
This programme, for people who have been unemployed for over 18 months, consists of a period of intensive job search help for 13 weeks followed by, for those still unemployed. Those on work experience receive an allowance.

Career Development Loans
These allow adults to pay for vocational education or training. The scheme involves certain banks and the Department for Education and Skills, which pays the interest on the loan during the training time and for up to a month afterwards. The loans amount varies between £300 and £8,000, and can be used towards course fees, books and materials, and living expenses.

Youth Credits
Youth Credits are known by different names in different areas. They are given by the young adult to an employer or training provider in exchange for training. Most are plastic cards, but some are like cheque books or vouchers.

New Deal for Young People (18-24)
For details of this scheme, see the instructions below and at the next question, New Deal Type.

New Deal for 50+
The New Deal 50 plus started in April 2000 and whilst is not a separate payment in itself it does qualify for an increased Working Tax Credit.

It is open to people who are over 50 years of age who have been receiving either Job Seekers Allowance, Income Support, Incapacity Benefit or Severe Disablement Allowance. The aim is to help people find work, through identifying training opportunities and assistance when applying for work.

The New Deal for Disabled People
This was extended nationwide in July 2001. The New Deal is voluntary and is open to people who receive disability or health related benefits but would like to work. The scheme is delivered through a network of Job Brokers who have previously worked with people with health conditions and disabilities.

New Deal for Young People (18-24)
The New Deal for 18-24 year olds started nationwide in April 1998. It is open to people in that age group who have been receiving Jobseeker’s Allowance for 6 months or more. The aim is to help people to find work and improve their prospects of remaining in employment. It is delivered by partnerships between the Employment Service, local authorities, voluntary organisations, Training and Enterprise Councils (TECs) or, in Scotland, Local Enterprise Councils (LECs) and private companies. Young people are required to take part once they receive notification of a place.

The scheme provides a range of help consisting of the initial Gateway, then one of four options, and a follow-through strategy. The different stages or options are treated in different ways on FRS, so the question New Deal Type is asked to those coded 6 at Government Training.
If the respondent is not aged between 18 - 24 the following check is triggered

**Soft Check**
This training is normally only available to those aged 18-24

If the respondent is under 50 years of age a following check is triggered:

SHOW CARD F5

Which New Deal option are you on?

INTERVIEWER: (Code main option)

1. The Gateway
2. Employment option
3. Full time education or training (including Adult Learning Option)
4. Voluntary Sector
5. Environmental task force

/ Question Information for New Deal Type

**Code 1: The Gateway**
This is an initial period of counselling, advice and guidance from the Employment Service, in finding employment and improving basic skills. Participants are still seeking employment outside the New Deal. It may last for up to 4 months, but usually participants will have moved to another option after 1-3 months. Participants do not receive an allowance, so are not asked the next question Programme Allowance Amount, but continue to receive Jobseeker's Allowance. They are routed to the questions about seeking work.

**Code 2: Employment option**
This option consists of a private sector job with an employer, for up to 26 weeks, and usually becomes possible after 2 months on Gateway, though in a few cases may be sooner. Participants spend the equivalent of a day a week in education or training, either with the employer or elsewhere. Participants are paid a wage by the employer, who receives a subsidy (£60/week if f/t, £40 if p/t for those aged 18-24, and £75/week f/t, £50/week if p/t for those aged 25+, plus £750 towards training for all ages) in return for taking them on. It is hoped that usually the job would be made permanent after the 26
Employment Status

weeks.

People in this option should be treated the same as those working as an employee, and be asked the occupation & industry and pay questions. They will probably have said they did paid work in the reference week at the question Working and therefore not be asked the training scheme question. Just in case someone on this option does come here, however the following soft check is triggered if New Deal Type = 2.

**Code 3: Full time education or training option**

This option becomes possible after at least 1 month on Gateway. It is mainly for those without an NVQ / SVQ level 2 or equivalent qualification. It consists of full-time study on an approved course designed to lead to a qualification. This option lasts up to 12 months. (Shorter periods may be undertaken before entering another option). The cost of the training is paid direct to the provider of the education/training.

Participants receive an allowance equal to JSA benefit and ‘passported benefits’. (‘Passported benefits’ means retention of 10p of JSA so that if eligible can still receive Housing Benefit, Council Tax Benefit etc). The allowance should be recoded at the next question. Include any discretionary payments for special clothing/equipment or exceptional travel costs.

People on this option are also asked the questions on seeking work. They should not be counted as receiving JSA in the benefits section.

**Adult Learning Option**

ALO is a pilot (from September 2006 for two academic years) that allows jobless and inactive benefit customers an opportunity to study full time in order to obtain a Level 2 qualification (equivalent to 5 GSCEs at grades A-C). The ALO pilot will run in five Jobcentre Plus districts and their associated Learning and Skills Council (LSC) areas: Central London; Lambeth; Southwark & Wandsworth; Greater Manchester East & West; Gloucestershire, Wiltshire and Swindon, and Birmingham.

**Code 4: Voluntary Sector**

After 3 months on Gateway the participant may start on the Voluntary Sector or Environmental Taskforce options, which last for up to 6 months. Participation consists of full-time work placement including 1 day or equivalent per week on training. The work placement is intended to equip participants with skills and work habits. The Voluntary Sector option aims to deliver a range of community benefits, such as improved relations or safety.

**Code 5: Environmental task force**

The purpose of the Environmental task force is to contribute to the improvement of the local, regional or global environment. Participants on both options either receive a wage, paid by the provider of the job, or an allowance paid by the Employment Service. The allowance is equivalent to benefit, plus a grant of £400 divided into weekly/fortnightly payments. Either way, the respondent should be treated as being on a training scheme, not in paid work, and the wage or allowance received entered at Programme Allowance Amount. They should not be in receipt of JSA in the benefits section.

If New Deal Type = 2 the following soft check is triggered.

*Soft check*

The Employment option would normally count as “being in paid work”: please return to previous question ‘Working’ and change answer to ‘yes’.

If JobAway = 4

Can I just check, are you looking for work, waiting for a job you have already obtained, or would you like any form of paid employment?

INTERVIEWER: If yes please recode JobAway as 2, if NO suppress.

The word ‘like’ means here actively wanting and seeking employment.
NB: If JobAway = 3, respondents will be asked Start (whether able to start job in next 2 weeks) and YsrtWk (If not, why not). See both below. NB: if JobAway = 4, respondents will be asked UnPaid1 and Unpaid2 before being routed directly to Retire.

Question Information for Working Away

The above question is asked in order to deal with any uncertainty that may exist in the minds of people who were away from PAID work during the reference week.

If the respondent has been absent from their job for a long period (e.g., career break, long term sick etc), only code ‘yes’ if there is definitely a job for them to return to (e.g. on holiday, sick leave, maternity leave, career break, laid off etc).

In a case where the respondent is unsure whether they actually had a job the following points may be helpful.

1. Employees
For employees a job exists if there is a definite arrangement between an employer and an employee for work on a regular basis (i.e. every week or every month) whether the work is full time or part time. The number of hours worked each week may vary considerably but as long as some work is done on a regular basis a job can be said to exist.

2. Long term absence from work
If the total absence from work (from the last day of work to the past week) has exceeded six months, then a person has a job only if full or partial pay has been received by the worker during the absence, and they expect to return to work for the same employer (i.e. a job is available for them).

3. Career Break
In some organisations employees are able to take a career break for a specified period (which may be a number of years) and are guaranteed employment at the end of that period. If a respondent is currently on a career break they should be coded 1 here, only if there is an arrangement between the employer and employee that there will be employment for them at the end of the break. This is not dependent upon them receiving payment from their employer during this time. The respondent’s opinion of whether they have a job to go back to should be taken.

4. Seasonal Workers
In some industries (e.g. agriculture, forestry, fishing, types of construction etc) there is a substantial difference in the level of employment from one season to the next. Between seasons respondents in such industries should be coded ‘no’ at this question. (However note that the odd week of sick leave during the working season would be treated like any other worker’s occasional absence and code ‘yes’ here).

5. Casual workers
If a respondent works casually for an employer but has not worked for them during the reference week, they should be coded ‘no’ at Working Away, even if they expect to do further work for the employer in the future.

If Working Away = ‘no’.

Unpaid Work (1)
Did you do any unpaid work in that week for any business that you own?

The people we expect to answer 'yes' here are those whose work contributes directly to a business, farm, or professional practice that they own, but who receive no pay or profits.

Unpaid voluntary work done for charity, etc should not be included.

If not.

... or that a relative owns?

These are people whose work contributes directly to a business, farm, or professional practice owned by a relative but who receive no pay or profits (e.g. a wife doing her husband's accounts or helping with the family farm or business).

Unpaid voluntary work done for charity, etc. should not be included.

The questions about looking for work or training have been split into two questions.

Looking for work

Thinking of the 4 weeks ending Sunday the (date/month), were you looking for any kind of paid work at any time in those 4 weeks?

1. Yes
2. No

Looking for training

Thinking of the 4 weeks ending Sunday the (date/month), were you looking for a place on a government training scheme at any time in those 4 weeks?

1. Yes
2. No

How long have you been looking for paid work or a place on a government scheme?

1. Not yet started
2. Less than 1 month
3. 1 month but less than 3 months
4. 3 months but less than 6 months
5. 6 months but less than 12 months
6. 12 months or more
But if the informant was not looking for paid work or a place on a scheme the following question is asked.

? Waiting for Work
↔ Wait

Were you waiting to take up a job that you had already obtained?

? Like to Work
↔ LikeWk

Even though you were not looking for work in the 4 weeks ending Sunday the (date/month), would you like to have a regular paid job at the moment, either full- or part-time job?

If respondent would not like to have either a full-time or part-time job at the moment.

? Reason Not Looking for Work (1)
↔ Nolk

Are you prevented from seeking work by any of the following... READ OUT: PROMPT EACH ITEM INDIVIDUALLY...

1. ..Disability or illness?
2. ..Caring for a disabled or elderly person?
3. ..Having to look after child(ren)?
4. ..(None of these)

If the respondent was coded 1, 2 or 3 at Reason Not Looking for Work (1) above, ‘ASK OR CODE (e.g. 3-6)’ will appear above this question. It may be clear which of the reasons applies from the answer at that question, but if in doubt, check what the main reason was why the respondent did not want to work.

? Reason Not Wanting Work
↔ NoWant

ASK OR CODE (e.g. 3-6)
May I just check, what was the main reason that you did not want work (in the last 4 weeks)?

1. Waiting for the results of an application for a job
2. Student
3. Looking after the family/home
4. Caring for a disabled/elderly person
5. Temporarily sick or injured
6. Long-term sick or disabled
7. Doesn’t need employment
8. Retired from paid work
9. Any other reason
The respondent's answers to these questions should be accepted. If, in exceptional cases, the answer covers more than one coding category - ask which the main reason is and code that one only.

An informant who left work early on a Government Job Release scheme should be treated as retired.

**Occupational Therapy**
Informants who attend a therapy centre etc should be coded as 5 or 6 depending on degree of sickness, etc.
The benefit from the centre should be entered as code 2 at the question Regular Allowances in Maintenance, Allowances and other Source’s Income block and treated as a regular allowance from an organisation.

If the respondent was looking for work or a place on a Government scheme in the last 4 weeks the next question is asked.

1. **Able to Start Work**

2. **Reason not able to Start Work**

What was the main reason you would not be able to start work in the next 2 weeks?

1. Student
2. Looking after family/home
3. Temporarily sick or injured
4. Long-term sick or disabled
5. Retired from paid work
6. Other reasons

If worked as an employee in last 7 days.

1. **Today Normal Working Day**

Have you been, or will you be going to work today?
IF NO, ASK: Can I just check, is today normally a working day for you?

1. Yes
2. No - although this is a normal working day
3. No - because NOT a normal working day

The above question is asked of employees only. If absent from work on what, for the informant, is a normal working day Code 2: ‘No’.
Employment Status

If code 2 or 3.

? Absent from Work
← AbsWk

Have you been away from work for more than the last 3 WORKING days?

The above question applies only to employees. The following questions are asked only of those who have been absent from work for more than 3 days.

? Reason for Absence
← AbsWhy

What is the reason for your absence?

10. Other – Code and explain

NB: Parental leave is unpaid leave up to 13 weeks during the child’s first 5 years.

? Absent with Pay
← AbsPay

Are you receiving ... READ OUT (RUNNING PROMPT)...
1. ... full pay from your employer
2. ... part pay or made-up pay
3. ... or no pay

If the informant is receiving statutory sick pay only, then enter code 3: 'No pay' from the employer. If the informant is receiving statutory sick pay and pay from the employer then code 2: as 'part pay' or 'made up pay'.

? Number of Weeks Absent
← Abs1No

How many weeks in all have you been away during this spell of absence?

IF LESS THAN ONE WEEK CODE 0. YOU WILL THEN CODE DAYS AT THE NEXT QUESTION.

Soft check
If Abs1No is more than one week and they said they did paid work in the previous week at Working:

Respondent said earlier that they worked in the last week ... but have just said they have been off work for two weeks or more. If they have been off work, change ‘Working’ to ‘No’.

Then you will need to code ‘7’ at Train and ‘Yes’ at JobAway.
Employment Status

If less than 1 week, code 0.

If over retired from paid employment at **Working Away** and not currently working.

Looking back to the time when you finished continuous full-time education how many years since then have you spent in paid FULL-TIME work?

INTERVIEWER: Enter to the nearest whole year. [NAME] finished full-time education at age [XX]. It has been around [XX] years since [NAME] left full-time education. Years spent in National Service count as Full-Time work.

☞ Soft Check
Warning: The answer is much higher than the figures usually given at this question. Please check that your figure is correct and not the respondents retirement age. If correct, suppress warning and continue.

? Years in Part-Time Work
← PtWk

Looking back to the time when you finished continuous full-time education how many years since then have you spent in paid PART-TIME work?

INTERVIEWER: Enter to nearest whole year. These years may overlap with full-time work, if kinds of job were held concurrently. [NAME] finished full-time education at age [XX]. It has been around [XX] YEARS since [NAME] left full-time education. Years spent in National Service count as Full-Time work.

At the two questions above you should always try to get an estimate in preference to using the Don't Know or Missing key. Holding two part-time jobs at once still counts as being in part-time work.

Jobs held before completing full-time education, such as student vacation jobs should not be counted for either of these questions.

Include time spent working abroad at both of these questions.

Years spent in National Service count as full-time work.

If a respondent has held full and part-time jobs concurrently enter the total number of years in that job for each question, even if this does appear to be double counting the time.

Soft Check
There is a check between the ages of the respondent, the age at which they completed full time education and the number of year that they reply that they have spent in full time work. If the figure seems too high:
That seems rather high considering that the respondent is [x] years old, and left full-time education at the age of [x].
Please check your entry.

It may be the case that the respondent has rounded the figure up to the nearest year which is acceptable. Otherwise probe whether the respondent has included a period of work that began before completion of full time education.

1 ... to claim Jobseeker’s Allowance (formerly Unemployment Benefit)?
2 ... (THIS CODE NOT USED)
3 ... to get credits for National Insurance contributions?
4 ... no, not signed on at Employment Service local office or Jobcentre.
The above question is asked of all respondents of working age. If they are currently in work, the special preamble is included, "Some people who have jobs are also entitled to claim Jobseeker’s Allowance or National Insurance credits..." The purpose of this is to make it clear that it may be quite possible, and normal, for someone to be working and ‘signing on’ at the same time. Note that the question is priority-coded (first to apply).

NI credits may be available for each week of incapacity for work, unemployment, attendance on approved training courses or entitlement to Maternity Allowance Some people working less than 16 hours a week and receiving JSA may get them.

DESCRIBE FULLY - PROBE MANUFACTURING or PROCESSING or DISTRIBUTING ETC. AND MAIN GOODS PRODUCED, MATERIAL USED, WHOLESALE or RETAIL ETC.

/ Question Information for Organisation Work For

The answer that you need to record should be an activity, not a title, name or a vague heading (e.g. leisure industry, health care, motor trade).

Ask yourself during the interview: "Has the respondent answered the question clearly, fully and unambiguously?" If not, use a non-biasing probe to extract more detail about the activity of the firm/organisation.

Check 'mainly' where appropriate.

If the respondent works in manufacturing probe for the main product made and main raw material used. For processing probe for the main end product. For distribution the main product that is distributed and whether it is wholesale or retail. If the respondent works in an office, what activity is the office responsible for (even if that activity is not actually done at the office). If necessary, summarise the description using the respondent's own words and ask the respondent if they agree with the summary.

If a respondent is a teacher, but has another job during the school holidays, teaching should still be coded as the main job.
Self-employment status determines the respondent's industry according to their own type of work. Employees of specialist service/contract firms are also coded according to their own industry type. For example:

- a cleaner employed by a cleaning contractor should be coded to the cleaning industry and not to the industry which is doing the contracting;
- a self-employed plumber working on a building site where the main contractor is a big building firm should be coded to plumbing, not building;
Details of employment

- a typist working in an office on a building site and employed by an employment agency should be coded to the industry for building;

- a self-employed typist working in an office on a building site should be coded to the industry for typing service, not building;

- a typist working in an office on a building site and employed by the building firm should be coded to the industry for building, not typing service.

If there is no depot but there is a contract (including an informal agreement) to supply a particular service, the agency or its employees should be coded to the industry of that service.

INTERVIEWER: See Helpscreen for instructions on recording private firm or business, a limited company, or some other kind of organisation.

1. A private firm or business, a limited company,
2. Or some other kind of organisation?

/ Question instructions at ‘Sector’
The public sector is defined as owned, funded or run by central or local government. The private sector is everything else. Some examples are as follows:

Private Sector examples
- Public Limited Companies (PLC). These are companies that are quoted on the stock market and have shareholders. ‘Public’ here refers to the availability of shares to member of the public through the stock exchange.
- Limited Companies (Ltd). These are incorporated businesses owned by one or more individuals. These may also be referred to a private limited companies.
- Self-employed individuals; sole traders, or owners of small shops or businesses.
- Partnerships (e.g. lawyers working as partners in a practice)
- Charities, private trusts, housing associations or other voluntary organisations.
- Trade Unions (employees of).
- Private contractors. This applies even if they work exclusively for the public sector (e.g. a cleaning firm, catering firm or freelance consultant working for a government department or local authority).

Schools
- Schools, depending on type, may fall into one of several categories:
  - A local authority school (code 2 at Sector)
  - A Further Education college (code 2 at Sector)
  - A private school (code 2 at Sector). Most private schools, including so called ‘public schools’, are charities.
Details of employment

- **Doctors and dentists** (and others working in their practices) should be coded according to whether the practice is mainly NHS or private. Probe if necessary. GPs are technically self-employed even when they work exclusively for the NHS but, for the purpose of this question, they are to be treated as working for the NHS if that is what they mainly do:
  - Mainly private work (code 1 at Sector)
  - Mainly NHS work (code 2 at Sector)
  - Health Authority or NHS Trust (code 2 at Sector)
  - Private Hospital (code 1 at Sector)

- **Churches and Friendly Societies**: code 2 at Sector

- **Charities**: Use code 2 at Sector, e.g. OXFAM, NSPCC, RNLI, RSPCA, The National Trust, Imperial Cancer Research

- **Government-funded bodies and agencies**: Use code 2 at Sector. This includes central government and the civil service. Other examples are the JobCentre Plus, Research Councils, the British Council, National Museums and Art Galleries, and prisons.

- **Public bodies with a greater degree of autonomy** than the above: Use code 2 at Sector. This includes nationalised industries and or state corporations. Examples are: The Post Office, Royal Mint, BBC, Equality and Human Rights Commission, Civil Aviation Authority.

- **Deregulated bus service**: Use code 1 at Sector for Transport for London and municipal bus companies.

- **Magistrates Courts Probation Service**: Use code 2 at Sector – local government or council

- **Magistrates Courts Probation Service:** Use SectrNP code 4 – local government or council

/ Questions instructions for questions ‘Sector’ and ‘SectrNP’

Questions ‘Sector’ and ‘SectrNP’ are related so should be dealt with together. ‘SectrNP’ is only asked of those who have been coded 2 ‘Some other kind of organisation’ at ‘Sector’. Code 1 at ‘SectrNP’ ‘a public limited company’ is designed to weed out the answers to Sector which have been (incorrectly) identified as ‘some other kind of organisation’. It is important to distinguish PLC firms from genuine public/state corporations/nationalised industries which are code 2 at ‘SectrNP’. Back-coding at ‘Sector’ may be appropriate; checks will indicate where this is necessary.

**NOTE:** If respondents are hesitant or unsure about the status of the company, it is their understanding of the type of organisation that should be recorded. Unfortunately we cannot look at individual companies to find such details.

Further instruction on how to code certain types of organisation have been added to the helpscreens at ‘Sector’ and ‘SectrNP’.

// Question Instructions for Employment Situation

This gives respondents a wide range of employment situations from which to choose rather than simply ‘employee’ and ‘self-employed’, particularly those we define as self-employed but who might not themselves.

Some respondents might say that two or more codes apply but this question should be single coded to the description which the informant thinks best fits the situation. The crucial distinction to be made is between Code 1, which is for employees, and Codes 2-7, which cover various self-employed situations. It does not matter which of the self-employed codes is used - there is no routing dependent on this.

Managers who are employees but, for example, run a branch of a shop should be coded as ‘employees’ not as working for themselves. If an error is made here, it will become apparent when pay details are asked, and you may need to come back to Employment Situation to recode.

_soft_check_

If Employment Situation and the earlier question Employment Status are answered differently, that is if Employment Status = ‘employee’ and Employment Situation = any of 2-7, or if Employment Status = ‘self employed’ and Employment Situation = 1.

These two questions are now in conflict. Select the one you wish to change, or suppress this warning.

The next question is only asked of those coded 2 - 7.
Details of employment

¿ Director of Company
→ Dirctr

In this job/business are/were you the director of a limited company?

Directors of limited companies are normally treated as employees because they are legally employees of their company no matter how small it is. Therefore if the respondent has said they are an employee at Employment Situation there is no need to ask whether they are a director, because they will be on the correct route.

Some directors of limited companies, although legally employees, may manage their affairs as if self-employed. For example, they may not pay themselves a salary but may operate in terms of profit/loss/drawings from the business, or they may act as a consultant to their own limited company, and will be responsible for paying their own income tax and National insurance contributions.

Soft Check
If you have coded someone as the director of a limited company, and coded them as self employed at Employment Situation, the following soft check is sprung:-

Directors are usually EMPLOYEES. Please check: Are they on PAYE? Do they/would they get a PAYSLIP? If yes to either, return to previous question Etype and code as 1, 'employee'. (If NO, suppress warning and continue).

If this check is suppressed, the questions for the self-employed will be asked. However, the person will be regarded as an employee for the purposes of SOC coding.

In order to make sure the route which best fits the situation is followed, the following question is asked of directors:

¿ National Insurance Contributions
→ DirNI

In this job/business, are your National Insurance contributions deducted at source?

If NI is deducted at source.

Soft Check
A company director with NI deducted at source is legally an EMPLOYEE. Important: please return to previous question EType and code as 1, 'employee'. (If you suppress this check, you must explain special circumstances in a Note).

If NI is not deducted at source.

The following group of questions are only asked about the respondent's main job. For employees the next three questions are asked.

¿ Other Responsibilities
→ RspOth

In your job do you have formal responsibility for supervising the work of other employees?
DO NOT INCLUDE PEOPLE WHO ONLY SUPERVISE:
- children, e.g. teachers, nannies, childminders
Details of employment

- animals
- security or buildings, e.g. caretakers, security guards

For the purpose of identifying those respondents with responsibility for supervising the work of others, children, animals and security of buildings are not deemed to be ‘other employees’.

Sometimes job titles can be misleading. For example, a 'playground supervisor' supervises children not employees and so should be coded 2. Similarly, a 'store manager' may be a store-keeper and not a manager or supervisor of employees.

/ Question Information for Number of Employees

We are interested in the size of the 'local unit of the establishment' at which the respondent works in terms of the total number of employees. The 'local unit' is considered to be the geographical location where their job is mainly carried out. Normally this will consist of a single building, part of a building, or at the largest, and a self-contained group of buildings.

We are only interested in people working for their employer at the place where they work. It is the total number of employees at the respondent’s workplace that we are interested in, not just the number employed within the particular section or department in which he/she works.

If a respondent works from a central depot or office (e.g. a service engineer) base, the answer is the number of people who work at or from the central location. Note that many people who 'work from home' have a base office or depot that they communicate with. It may even be true of some people who work ‘at home’ (e.g. telecommuter who retains a desk or some minimal presence in an office). If in doubt, accept the respondent’s view of
Details of employment

whether or not there is a wider establishment outside the home that they belong to for work purposes.

❓ Year Started Work

↔ WorkYr

In which year did you start working continuously for your current employer/as a self-employed person?

Interviewer Instruction: For agency workers please record the year they began continuous work with the agency rather than the year they started with a specific employer.
Details of employment

If a respondent has a contract that is renewed, for example yearly, you should take the respondent’s opinion as to how long they have worked continuously for their employer.

For employees we are interested in continuous employment with their current employer. Any previous separate spells of work with their current employer should be ignored.

If the respondent’s company or firm changed ownership but his or her conditions of employment did not change it should be treated as one continuous period of employment. However if the respondent was made redundant and then re-employed by the new owners, then it would be the date they were re-employed that would be entered.

For the self-employed we are interested in the length of time the respondent has been continuously self-employed even if he or she has been doing different jobs or running different businesses during that time.

1. ... a permanent job (contract of unlimited duration),
2. ... Fixed term or temporary job (work contract of limited duration),
3. ... work without a contract,
4. ... or some other working arrangement?

INTERVIEWER: Respondents who have a contract to do their job, which may be renewed, for example, once a year, should be coded according to whether or not the respondents themselves consider their job to be of an unlimited duration.

If the respondent has a contract which finishes automatically at the end of a probationary period, and requires a new contract if the person continues to be employed by the same employer, this should be coded as a temporary job.

If the respondent considers the job to be temporary this does not necessarily mean the contract is temporary. For example, someone working part-time while studying may intend to leave the part-time job when the studying is completed. This should only be coded as a temporary job if the contract is of fixed duration.

? Number of Jobs (2)

When you were last working, how many JOBS did you have for pay or profit?

This question is asked of people not currently in employment who therefore did not get asked Number of Jobs earlier.

Questions Main Job Title to Number of Employees are repeated for subsidiary jobs (up to 3 jobs in all)

Details of employment

Other Jobs Description

INTERVIEWER: USE THE NOTEPAD FACILITY <Ctrl+M> TO DESCRIBE THE FOURTH AND HIGHER ORDER JOBS
The next questions are about the hours worked in each job. This includes those on a government training scheme and those in unpaid jobs (the latter just get asked Total Hours per Week).

Ever do Overtime

Do you ever do any work which you would regard as paid or unpaid overtime?

“Ever” means whatever the respondent takes it to mean. If the respondent is unable to answer, refer to the last 4 weeks (as in the questions below).

The words “… which you would regard…” are an important part of this question as we are specifically interested in whether the respondent considers that they do any overtime, not whether the employer would officially class it as overtime.

Some self-employed respondents may say that non-productive time, e.g. book-keeping, is paid and some may say it is unpaid overtime. You must accept whatever the respondent regards the overtime as.

If the respondent does no overtime.

Total Hours per Week

How many hours per week do you usually work in this job/business - please exclude meal breaks?

97 OR MORE = 97
Accept the answer given. For example for teachers it may very well exceed a basic 27 to 28 hours.

INTERVIEWER:: If the work pattern is not based on a week, or hours worked per week vary, get an average of the last 4 weeks.

/ Question Information for Total Hours per Week

For the questions relating to hours of work the hours should be recorded to the nearest 15 minutes, with part hours as decimals e.g. 36 hours 30 minutes would be recorded as 36.5, 40 hours 45 minutes would be recorded as 40.75.

If the work pattern is not based on a week, get an average over the last 4 weeks.

If the respondent has been off sick for a long period, take the usual hours worked before going sick.

If a person has started a new job in the reference week the usual hours should relate to what the person expects them to be in the future.

For apprentices, trainees and other people in vocational training exclude any time spent in school or other special training centres outside their workplace.
Details of employment

For those rare individuals who usually work 97 hours or more per week, code as 97.

Respondents working on-call
If someone states at the hours questions that they usually work 24 hours a day because they are ‘on-call’, the average number of hours actually worked should be probed for. Identify how many hours were actually worked in the last four weeks and average these out to give a weekly total for usual hours. This should include only those hours during which the respondent was actually working. Therefore if, for example, a respondent was on-call all night, but was only called out to work for two hours, the actual working hours for this night would be two hours.

If the respondent works overtime.

When overtime is taken on a seasonal or irregular basis and the respondent has difficulty in providing a ‘usual’ figure, take the average over the last four weeks.

Include hours worked at home if paid.

? Hours of Unpaid Overtime

How many hours UNPAID overtime do you usually work per week?

Employee Pay Details

explain why in a note <Ctrl +M>.

If a tax refund was included in the last net pay, the check will work incorrectly (any tax refund amount is not included in the gross pay, but is in the net pay). If this is the reason that the figures don’t add up, suppress the check and make a note. See also instructions at the following question Included in Pay.

“Smart pensions” is the name some are using for a new salary-sacrifice idea, whereby the employee agrees to a cut in their gross pay, offset by switching their contribution to the pension scheme onto their employer. This results in the employer saving on NI contributions and improved savings for the employee. Employee contributions vary but 5% or 6% of pensionable pay are the most frequent rates. Companies that have introduced smart pensions include Tesco, Sainsbury’s and BT.

You may find the terms “reference pay” or “base pay” on the payslip. These refer to the amount of gross pay received before the introduction of smart pensions and are only used by the employer to calculate pensions, overtime etc. This base pay will be higher than the actual gross pay received by the employee.

If you come across such cases, please record the net and gross pay as reported by the respondent. If you cannot reconcile the figures on the payslip (for example where “reference pay” or “base pay” are mentioned), open up a note to give details of any discrepancies in pay so that these can be accounted for when editing the data.

Question Information for Included in Pay

Statutory sick pay is received by employees from their employer for the first 28 weeks of sickness in a tax year. After this period, they may receive Employment and Support Allowance. The payment is subject to various conditions including length of service. **Note that SSP is only payable from the fourth day of absence from work – do not include any pay that is received from an employer before a respondent is eligible for SSP.**

Statutory Maternity Pay
Statutory Maternity Pay has a 39 week duration. The first six weeks are paid at 90 per cent of the respondents average weekly earnings (normally based on two months’ earnings) with no upper limit. The remaining 33 weeks are paid at £135.45. If 90 per cent of the respondent’s earnings is less than £1345.45 then they receive £1345.45 throughout.

Statutory Paternity Pay
Statutory Paternity Pay is available to fathers of children born on or after 6 April 2003 and is paid if gross earnings are £107.00 a week or more. It has a 2 week duration and entitlement cannot be established until the baby has been born. Payment for the 2 weeks will be either be at a rate of £1345.45 a week, or 90 per cent of the respondents’ average earnings if less than £1345.45 (normally based on two months’ earnings).

Statutory Adoption Pay
Statutory Adoption Pay became available on 6 April 2003 to parents of adopted children. It has a 39 week duration and becomes available once the child is placed for adoption. Payment for the 39 weeks will be either be at a rate of £1345.45 a week , or 90 per cent of the respondents’ average earnings if smaller (normally based on two months’ earnings).

Tax refunds
If the amount of a tax refund received is more than the PAYE in that pay period, the amount for PAYE will normally be shown as 0 on the payslip. The remaining amount of the tax refund payment will be shown separately – enter this as the tax refund at Income Tax Amount below and zero at PAYE Amount, and open a note to explain the situation. If the amount of a tax refund received is less than the PAYE in that pay period, the PAYE will be reduced by the amount of the refund. There may be no other indication that a tax refund was received and the amount of the tax refund may not be shown. If the respondent mentions that a refund was included, but doesn’t know how much it was, enter ‘dk’ as the refund amount at Income Tax Amount (see below), and open a note to explain that the PAYE was reduced for this reason and any other information which can be given. The figure for net pay will include the tax refund, but the figure for gross pay will not include it - it only includes earnings.

Mileage allowance is a specified amount paid for each mile the vehicle is used (e.g. 25p per mile). The mileage will vary from week to week. Fixed allowance is a specified set amount per week or month etc, paid regardless of the amount the vehicle is used/number of miles travelled.
Refunds for motoring expenses covers such items as parking fees, repairs etc.

/ Question Information for Usual Pay

Usual Pay is the amount that the respondent usually expects to receive. If the respondent’s last pay was the first time that they had received a change in salary, or new payments or deductions began, and the respondent will be receiving this amount from this point on, then the last pay is treated as usual. For example, if the respondent has just received the first month of a new salary then they should say that it is usual even if it is the first time they have received it.

The first month of a new salary then they should say that it is usual even if it is the first time they have received it.

If the last pay amount contains unusual or one–off payments or deductions then it is not usual. For example, if their last pay included holiday or back pay, an occasional bonus, irregular overtime or tax or business refunds. Also, if the respondent’s salary has changed but they have not yet received the new amount then the pay they just received is not usual. At the usual questions they should record the amount they will receive next time.

Respondents who answer ‘no’ here are asked the following question.

¿ Why Pay Unusual

**Company cars**

The DWP are aiming to improve the method of measuring poverty and comparing household incomes by taking into account non-cash benefits. Company cars and vans and fuel for private use are considered to be a non-cash benefit. For example, households who have the private use of a company car will have the financial benefit that a household who has bought their own car does not. New questions about company cars and vans have been added to the FRS to identify those households who have this non-cash benefit. The DWP will use the information on company cars and vans and fuel for private use to incorporate this type of non-cash benefit in their comparative analyses of household income and poverty target monitoring. This methodology is employed in measurement of poverty across the EU. This information will allow better comparisons of poverty in the UK and other EU countries.

Question Information for Extra Benefits

Code 8 ‘Workplace nursery’

A workplace nursery should be coded where the employer provides a place in a nursery that they wholly or partially fund and manage e.g. nursery on site.

Code 9 ‘Childcare vouchers/Employer contracted childcare’

Childcare vouchers are for the purpose of paying an approved childcare.

Employer contracted childcare is where the employers contract directly with an approved child carer e.g. provide subsidised places in a nursery/holiday play scheme that is not on site.

Code 11 ‘Vouchers’

The vouchers category should include: any voucher stamp or similar document or token capable of being exchanged for money, goods or services. This included vouchers for clothing travel, food or meals. The vouchers category should exclude: childcare vouchers at category 10. Record childcare vouchers at category 9 ‘childcare vouchers/employer contracted childcare’. Extra information for code 11 ‘benefits in kind’ has been added to the help screen.

From 2008/09 the benefits in kind recorded by FRS were revised to include only those taken up by at least 200,000 people in the UK according to administrative data sources. Some categories were dropped from the 2005/06 survey, e.g. luncheon vouchers; other categories were added, e.g. company car.

This question will only be asked if ExpBen=9 (‘Childcare’).

Question Information for Childcare Vouchers Salary Sacrifice

Childcare vouchers

Under new rules introduced by the Inland Revenue, employers can offer a scheme which allows parents to use part of their salary to buy childcare vouchers and they will not have to pay tax and National Insurance on this amount.

The scheme will operate through the employer payroll and the chosen amount will be deducted from their salary each month before tax and National Insurance are calculated. Vouchers can then be used to pay child care providers who will redeem them through the provider.

This question will only be asked if Childcare Vouchers Salary Sacrifice=1.

For any subsidiary employee jobs, the questions are repeated, up to the ‘hours worked’ questions.
Self-employed Earnings

The next questions are only routed on for the self-employed (including directors of limited companies who handle their finances as if self-employed).

It is often difficult for self-employed people to give precise details about their income but please try to complete these questions as fully as possible. The questions are designed in order to reflect how people think of their employment situation and to make it clearer to informants which figures are required. The questions also reflect the fact that a group of the self-employed (particularly sub-contractors) have pay arrangements similar to employees.

There are two separate users of the FRS data: the statisticians who use the profit and loss information, and other analysts who are interested in the current income situation. The questions provide information for both these needs.

QUESTIONS ABOUT MAIN JOB AS SELF-EMPLOYED

Can I check, do you think of yourself more as having a job, or a business?

INTERVIEWER: USE ANSWER (OR ‘Occupation’ etc) LATER, AS APPROPRIATE AT ‘Job/business’.

1. Job
2. A business
3. Neither of these
This question is for your convenience as it will enable you to ask subsequent questions using the description most applicable to the informant.

The questions are meant to cover each job or business separately. However, someone whose occupation is ‘piecemeal’ and involves different pieces of work being done sequentially or simultaneously, perhaps for different people (e.g. a handyman, gardener, building sub-contractor) should be treated as having one job, provided that the work is of the same nature, or accounts are not kept separately for the different pieces.

**Business Accounts**

In this job/business are annual business accounts prepared for the Inland Revenue for tax purposes? **INCLUDE IF PREPARED BY ACCOUNTANT**

1. Yes
2. No
3. Not yet but will be

If profit and loss accounts have been prepared but not yet submitted to the Inland Revenue, code yes. The question refers to both accounts prepared by the informant or an accountant. Those self-employed who may not consider themselves as ‘being in business’, such as sub-contractors and those working for themselves, may still employ an accountant to sort out their tax etc. These accounts should be referred to when possible.

If accounts have not yet been prepared but will be, the profit/loss question will be bypassed.

**Sole or Partnership**

Are you working on your own account or are you in partnership with someone else?

1. Own account (sole owner)
2. In partnership

It is important to record only the informant’s share in the following questions, **not** the total for the partnership/company. If in partnership the display below appears:

**Share of Business**

**INTERVIEWER: READ OUT**
The questions that follow are about just YOUR OWN SHARE of the business - that is, NOT including your partner’s share.

For those who keep business accounts the following questions are asked:

**Recent Period for Accounts**
What is the most recent period for which accounts have been prepared for the Inland Revenue?
ENTER BEGINNING OF PERIOD. IF DAY OF MONTH NOT KNOWN, ENTER ‘15th’.

? Recent Period for Accounts

INTERVIEWER: ENTER END OF PERIOD (for which accounts have been prepared)

The most usual period for accounts is 12 months. A common error is to enter 13 months instead of 12. If a period of less than 12 months is keyed, the following check will appear:

☞ Soft Check
That seems a rather short period (only [x] days), please check your entry.
Periods of less than a year are acceptable if confirmed as such.

❗ Hard Check
If the last date for a self-employed profit code is earlier than the first date:
The end date is earlier than the beginning date. Have you transposed them?

Here it will always be necessary to go back and change the dates to which the profit or loss refers.

☞ Soft Check
If the end date is more than 12 months after the start date:
Are you sure? This is more than 12 months. Please amend your coding, or explain in a note <CTRL+M>.

❗ Hard Check
If either date is in the future:
This must not be a future date. Please amend your coding.

☞ Soft Check
Also, we will not accept any dates for accounts longer than 7 years ago.
We cannot accept accounts for more than 7 years ago: If last accounts were more than 7 years ago, enter D/K at this and the next question (SE2) and make a note.

? Profit Documents

What was (your share of) the profit or loss figure shown on these accounts for this period? It would be helpful if you could refer to a document, such as the annual accounts, or the Notice of Tax Assessment from the Inland Revenue.

INTERVIEWER: FIRST, CODE DOCUMENT CONSULTED (1st to apply)

**PrBefore**

What was (your share of) the profit BEFORE tax [and lump sum National Insurance deductions]?

The question is worded according to whether the profit was before tax but after NI, or before tax and NI. There is a check if the figure here is lower than the profit figure:

**Soft Check**

Profit BEFORE Tax/NI is less than net profit - that can’t be right! Please check your figures.

Next we want to get a picture of the current income form the job or business. A straightforward way is to ask for information on money drawn from a business bank or building society account.

**Work Account**

**WorkAcc**

Do you have separate bank or building society accounts for your work and your private finances?

This question is to identify whether the respondent has one or more bank or building society accounts which contains only money relating to the business/job. If a business/work account also contains money from a source not connected to the business/job, this question should be coded 'no'. If coded 'yes':

**Draw Money for Non-Business**

**OwnSum**

SHOW CARD G6

Do you draw money from your work account for any non-business purposes, such as any of the things shown on this card? (CODE ‘YES’ IF ANY APPLY’)

The card shows:

- Money from the work account:
  - used for payments to yourself and any other personal spending
  - used to pay domestic bills (including standing orders)
  - transferred to a private account
  - used for any other non-business use?

**Non-Business Amount per Month**

**OwnAmt**

Thinking of the last 12 months, on average how much have you taken EACH MONTH for these non-business purposes?

The purpose of these questions is to get a picture of current monthly income from self-employment. They ascertain how much money is being drawn from the business for the personal use of the informant and their household. Money drawn solely for business
Self-employed Earnings

purposes should be excluded as should, where possible, business elements of domestic bills.

It is appreciated that the figures given here will have to be estimates. If a business has been in operation for less than a year, give the average over the length of time that the business has been operational.

¿ Other Non-Business Income
↩ OwnOther
Apart from any drawings from the bank/building society, do you receive any other income from this job/business, for personal use?

These questions cover income for the business that is not channelled through the bank/building society account. This may be 'cash in hand' for work carried out. Try to get an estimate, but, as this may be a sensitive topic (because some or all of this money may not be declared as income in the accounts), a refusal can be accepted here.

¿ Non-Business Average Amount
↩ OwnOtAmt
On average, how much is that each month?

Those self-employed who do not have profit/loss accounts, or do not have a separate business account or who do not make drawings from a separate business bank account are asked about their income from the job. This group of people may include sub-contractors who, while legally self-employed, have income arrangements similar to employees.

¿ Income Amount
↩ SEIncAmt
Now I’d like to ask some questions about your income from your job/business: that is, after paying for any materials, equipment or goods that you use(d) in your work.

On average, what was your WEEKLY or MONTHLY income from this job/business over the last 12 months?

By ‘income’ we mean money from the job/business that is used for personal, domestic, non-business use. In other words, what the respondent has to live on. It will not necessarily be the same as the annual profit divided into weekly or monthly amounts. Again the figures given here may be estimates. Sometimes they will have the equivalent of a payslip, or their invoices, or some other document which may be referred to - though it is the average monthly or weekly income that is required, not the last payment received.
Was that weekly or monthly income?

1. Weekly income
2. Monthly Income

May I just check, is either income tax, or your regular National Insurance contribution DEDUCTED AT SOURCE? (INTERVIEWER: THIS IS ‘CLASS 2’ NI)

1. Income tax deducted
2. regular NI deducted
3. no, neither deducted

Some self-employed, especially those who are sub-contractors, may have Income Tax or National Insurance payments deducted at source by whoever contracts them. Only one may be coded.

Different tax and NI arrangements can apply in different situations. Actors under contract, for example, have NI but not tax deducted at source. Construction industry sub-contractors (without a ‘715’ exemption certificate) are given Inland Revenue form SC60 by the contractor showing the details. They have tax but not regular NI deducted at source. The questions should cover all these different circumstances.

The self-employed may pay both Class 2 regular National Insurance contributions (the 'stamp') and/or Class 4 lump sum National Insurance contributions, which are based on the profit made on the business. For SC60 workers the tax deducted will typically include an amount for Class 4 contributions. In such cases code 1 only. At the end of the sub-contractor's accounting period figures will be submitted to Inland Revenue showing the income and the amount of tax and Class 4 NI paid over the period. IR will then notify the person of the amount of tax and NI Class 4 payable and whether a balance needs to be paid by or credited to him/her.

These questions cover Income tax and Class 2 regular NI payments only.

How much was your last National Insurance payment?

The self-employed pay regular contributions (Class 2), which in 2012-2013 are £2.65 per week, if profit/earnings exceeds a set level. (If paid by standing order/direct debit, the monthly equivalent may vary slightly as it is calculated on a daily basis). Do not include lump-sum contributions (Class 4, on profits between two set annual amounts) here; they are asked about separately at Lump Sum NI Profits.

All the self-employed are asked about tax paid in the last 12 months. For those who have already reported Income Tax deducted at source, this is the tax in addition to this amount that has been paid direct to the Inland Revenue. This might include tax outstanding from a previous set of accounts.

Payments of tax direct to the IR by the self-employed often include a Lump sum Class 4 National Insurance payment based on the profits of the business. If the lump sum NI amount cannot be separated from the tax, then include the total amount as tax and record 'Don't Know' for the amount of NI lump sum.

¿ Business Income Tax Payments

⁻→ SeTax

Have you made any income tax payments relating to this job/business in the last 12 months?

Include any income tax payments made in the last year covering this job, even if they do not relate to the amount given at Profit Amount (2), e.g. to a previous year's figures.

Income tax on other sources of income will be asked about later.
Business Income Tax Amount Annual

How much did you pay altogether in the last 12 months?
[Please only include tax paid on income from self-employment.
INTERVIEWER; IF UNABLE TO GIVE SEPARATE AMOUNT, ENTER ‘DON’T KNOW’]
Enter the total amount paid for this job, within the last year. It may or may not relate to the profit given earlier. Add together all payments made in the year – it is quite usual for payments to be made every 6 months. The text fill ‘Please include....’ appears when the self-assessment tax return has been referred to. Under self-assessment people can choose to calculate their own tax due. If the respondent has income from other sources to include on their tax return (e.g. from investments, pensions etc), the tax due will be calculated on the whole income. If at all possible, the respondent should give tax paid only on self-employed earnings, but if this is not possible, enter ‘don’t know’.

Lump Sum NI Contribution

Does that figure include a LUMP SUM (Class 4) National Insurance contribution based on taxable profits?
If ‘yes’.

Those whose tax payment did not include a Class 4 NI contribution are asked separately about these payments.

Child Tax Credit is paid directly to the person who has main responsibility for caring for the children in the family (into a bank or building society account). The recipient can choose whether to receive the payments weekly or every four weeks. If the respondent qualifies for Income Support or income-based Jobseeker’s Allowance, they will be entitled to the maximum amount of Child Credit for their children.

Child Tax Credit
Child Tax Credit is a payment to support families with children. Parents can claim Child Tax Credit if they are responsible for one or more children, and do not have to be working. Child Tax Credit was introduced to provide support for children up until their 16th birthday, and young persons aged 16-18 years who are either in full time non-advanced education or have left full time education but do not have a job (providing they are not claiming income support or tax credits in their own right). The awarding of Child Tax Credit will not affect a respondent's right to Child Benefit. Families will still be able to claim Child Benefit as they do now and it will continue to be paid as a separate payment.

Working Tax Credit
Working Tax Credit is a payment to top up the earnings of working people on low incomes, including those who do not have children. There are extra credits for those recipients in working households where someone has a disability (known as the disability element). Tax Credit is available to employees and the self-employed, and includes support for the costs of qualifying childcare.

People who are responsible for a child or young person can claim Working Tax Credit if they are aged 16 or over and work at least 16 hours per week. People without children can claim Working Tax Credit if they are
i) aged 25 or over and work at least 30 hours a week;
ii) aged 16 or over, work at least 16 hours a week and have a disability which puts them at a disadvantage in securing employment; or
iii) either the claimant or their partner are aged 50 or more, work at least 16 hours per week and are returning to work after time spent on qualifying out-of-work benefits.

Working Tax Credit is paid in addition to any Child Tax Credit the recipient may be entitled to and is based on the number of hours normally worked and income (joint income for couples). The recipient will normally receive the payment of Working Tax Credit into an account (through a bank, building society, or post office account) in a similar manner as a benefit payment. If the respondents are part of a couple that both work at least 16 hours per week, they can decide who will receive the payments of Working Tax Credit.

Working Tax Credit also makes an allowance for extra financial help towards the costs of approved or registered child care. This is known as the child care element within Working Tax Credit. Respondents will only be entitled to this if they are working at least 16 hours per week. If a respondent is eligible to receive the child care element of Working Tax Credit, this will always be paid to the person who is mainly responsible for caring for the child or children, and will form part of their payment of Child Tax Credit (i.e. it is not paid as an element of Working Tax Credit).

Information on tax credits for disabled people is increasingly important due to plans to move Incapacity Benefit recipients into work. If a person receives Working Tax Credit the following question will be asked. This will be asked to all recipients of Working Tax Credit regardless of whether they stated that they have a disability at the Health questions. This is because not everyone on Incapacity Benefit considers themselves to be disabled so may not answer the Health questions in the way we might expect.

**WTC with Disability Element**

Child Care Tax Credit is normally only recorded if both partners work at least 16 hours per week, or one is in such work and the other incapacitated. Please check and record in a note.

The Inland Revenue have informed us that there are cases where an award of £0 is made. The respondent may have been previously overpaid due to an unexpected increase in their income which was not reported. The Inland Revenue will therefore recover the money by giving an award of zero until the surplus amount has been repaid.

An award of £0 may also have been made if the household income is too high so the household is not eligible for tax credits.

Pension Schemes

THE QUESTIONS THAT FOLLOW ARE ABOUT PENSION PROVISIONS.

? Pensions
   ↔ PensDV
   (Jump20)

The questions on pensions were re-designed for the 2006/07 FRS survey. The new questions were intended to collect higher quality, more accurate information.

A new variable is produced automatically called Pensions. This variable is be used to control the routing of the questionnaire through the pensions block. Pensions has three categories:

1. Aged under 70 and an employee or doctor or dentist in practice.
2. Self-employed (of all ages) or under 70 years of age and has previously worked but is not currently in work.
3. For respondents who are not self-employed and are over 69 years of age, and those who have never worked (all ages).

This question will only be asked if Pensions=1

? Employer Scheme
   ↔ EmpSchm

Does your employer run a pension scheme for any employees?

1. Yes
2. No

INTERVIEWER: Do not record details of frozen pensions in the pensions section. Only record if contributions are paid into the pension.

? Eligibility for Employer Scheme
   ↔ EligSchm

Are you eligible to belong to a pension scheme run by your employer?

Interviewer: Employers may provide a pension scheme that is only open to senior management or permanent staff.

1. Yes
2. No
3. Don’t Know

Previously, no information on a person’s eligibility to join an employer’s scheme has been collected. This has led to incorrect assumptions about non-membership being made.

This question will only be asked if Pensions =1 AND Employer Scheme=1 AND Eligibility for Employer Scheme=1

? Member of Pension Scheme
   ↔ MemSchm

Are you a member of a pension scheme run by your employer?
1. Yes
2. No
3. Don’t Know

This question will only be asked if Pensions =1 OR IF Pensions =2

? Private Pension
↔ PrivPen

Help screen F9

Do you have a pension that you have arranged for yourself, for example with a pension company or financial advisor? Do not include pensions where you are receiving payments. Also exclude the State Pension and Pension Credit.

INTERVIEWER: Do not record details of frozen pensions in the pensions section. Only record if contributions are paid into the pension. Exclude any occupational pensions. Exclude any AVCs and FSAVCs – which are top-ups to pensions not pensions in their own right.

1. Yes
2. No
3. Don’t Know

? Check No Pension
↔ ChkNoP

INTERVIEWER: The respondent seems NOT to have a pension which is being contributed to, is this correct?

Identify whether the respondent has no pension at all, or is making a contribution to a pension or has ONLY frozen pension(s).
If the respondent has no pension at all code as 1 ‘No pension’.
If the respondent has any pension that is being contributed to code this as code 2 ‘Does have a pension’.
If the respondent ONLY has a frozen pension record as code 3 ‘frozen pension only’, at this question. This is the ONLY question where a frozen pension should be recorded. DO not record details of frozen pension anywhere else in the pension section.

Exclude AVCs and FSAVCs – which are top-ups to pensions not pensions in their own right.

1. No pension
2. Does have a pension
3. Frozen pension(s) only

! Hard Check
This check will only be activated if Check No Pension=2

? Employer Pension
↔ EmpPen

This question will only be asked if Pensions = 1 (Aged under 70 and employee or doctor or dentist in practice) AND Member of Pension Scheme = 1 (Member of employer scheme).

SHOW CARD L1
Thinking about the pension scheme run by your employer, which of the pension arrangements described on this card best describes your employer pension?

INTERVIEWER: If respondent has a stakeholder pension run by their company this should be coded as stakeholder and NOT occupational. This question only refers to employer-based pensions. Exclude personal pensions.

1. A group personal pension (these are personal pensions arranged by an employer for a group of employees)
2. A company or occupational pension scheme
3. A group stakeholder pension (these are stakeholder pensions arranged by an employer on behalf of employees – the employer may or may not contribute to such a pension)
4. None of these

We are interested here in the type of employer-based pension, and it may be helpful if the respondent can refer to documentation. The helpscreen information is reproduced here, as there is a lot of information.

There are some differences between stakeholder pensions and other types of personal pensions.

SHPs have to meet certain standards set by the Government to make sure they offer value for money, flexibility and security
- the charges are capped;
- there are low minimum payments;
- they are more flexible than many other private pension schemes - you can choose when and how often you pay into the scheme and there are no penalties if you miss a payment; and
- other people, as well as an employer, can pay into a stakeholder pension on your behalf. That means that partners or other family members can help you to save for your retirement.

Which of the statements on this card best describe this scheme?
INTERVIEWER: Code one answer only. It may be helpful to consult a payslip if available.
If the respondent is a member of a smart pension or salary sacrifice pension
scheme use code 3.

1. Contributions are taken out of my pay each week or month
2. The scheme is non-contributory, but I do pay something to make additional
   provision for myself or my dependants
3. The scheme is non-contributory. No-one takes money off my pay each week or
   month

⇐ Soft Check
INTERVIEWER: Earlier the respondent said that he/she made a ‘contribution to a pension
or superannuation scheme’. Please check whether contributions to pension were taken out of their salary or wage.

Soft Check
Earlier the respondent said they contribute to a pension or superannuation scheme through their wage/salary, but do not appear to currently have a pension. Check answers with respondent and amend the pay or pension details accordingly. Please make a note of the circumstances.”

Question Information for Type of Scheme

It may be helpful to consult a payslip if available.

Code 1: If the scheme is fully contributory, a typical contribution would be about 8% of gross pay. Sometimes an extra contribution of perhaps 1% or 2% for dependents (e.g. widows/widowers pension) may be made.

Code 2: applies if the employee does not contribute to the basic pension -the employer pays it all - but does pay a contribution of perhaps 1% or 2% of pay for extra benefits for self or dependents (e.g. widows/widowers pension). Such an arrangement applies to Civil Servants and some other public servants.

Code 3: applies if the employee does not contribute to the pension at all.

This question will only be asked if Pensions=1 AND EmpPen=1 OR EmpPen=3

Employer Contributions

Who contributes to your employer [group personal pension or employer sponsored group stakeholder] pension – you, or your employer, or both of you?

Interviewer: Code one answer only

1. Respondent only
2. Employer only
3. Both contribute
4. Neither

Stakeholder Pensions have to meet certain standards set by the government to make sure they offer value for money, flexibility and security:
- the charges are capped;
- there are low minimum payments;
- they are more flexible than many other private pension schemes-you can chose when and how often you pay into the scheme and there are no penalties if you miss a payment; and
- other people, as well as an employer, can pay into a stakeholder pension on your behalf. That means that partners or other family members can help you save for your retirement.

Question Information for NI Contributions in Pension
State Pensions
The pension paid from the state can be divided into essentially two layers.

The Basic State Pension
The Basic State Pension provides a basic flat-rate level of pension, rising year on year with the rise in price inflation and is available to all those who have paid a sufficient number of years of National Insurance contributions.

Additional State Pension
The second layer is an earnings related pension and effectively provides a top-up pension based on an individuals level of earnings over their career. Unlike the Basic State Pension, the amount of pension the individual receives from the Additional State Pension is dependent upon the amount the person earned, and hence the total National Insurance contributions they paid across their career.

Contracting Out
Contracting out is a mechanism that permits individuals to give up their right to an Additional State Pension and either pay a reduced level of National Insurance in the case of an Occupational Pension scheme or receive a rebate from the Inland Revenue in the case of Personal/Private or Stakeholder Pensions. Instead of paying into the State Earnings Related Pension Scheme (SERPS) or into the State Second Pension (S2P), employees can join a contracted out occupational pension scheme (if the employer operates one) or take out an appropriate personal pension.

/ Question Information for Personal Pension

Personal pensions
Introduced in 1988, a personal pension is a kind of pension that people set up for themselves, with a pension provider such as a bank, life assurance company or building society. It is entirely your own, which means you can continue to contribute to it if you move jobs. Personal pensions are the most common pension arrangement for people who are self-employed.

Self Invested Personal Pension Schemes (SIPPs)
Self Invested Personal Pension Schemes (SIPPs) are a type of personal pension where the person who sets up the pension has control over the management of investments. They are designed for people who want to manage their own fund by dealing with, and switching, their investments when they choose. They decide which assets are bought, sold or leased and when assets are acquired or disposed of. These pensions should be coded a Personal Pension at the question 'PersPen'.

Stakeholder pensions
Introduced in 2001, SHPs are a special type of low-charge personal pension. SHPs are suitable for people who are self-employed, moderate and low earners, and those who do not have an income of their own but can afford to save for a pension (e.g. women on a career break). SHPs can also be set up for children.

Personal Pension Rebate

Some people have a personal pension that is opted out of the Second State Pension (S2P, formerly SERPS). This type of pension receives a contribution paid in once a year, from HM Revenue and Customs (HMRC, formerly the Inland Revenue). Does this describe the type of pension that you have?

1. Yes
2. No

Employees can have part of their Class 1 National Insurance contributions rebated into a personal pension. They continue to pay full Class 1 NI contributions but the HMRC (formerly the Inland Revenue) rebates the State Second Pension element of those contributions to the personal pension scheme. Pensions for those who have contracted out of the State Second Pension are called ‘Appropriate Personal Pensions’.

This question will only be asked if Pensions=1 AND one or more personal pensions have been recorded AND the pension is opted out of the State Second pension.

THE QUESTIONS THAT FOLLOW ARE ABOUT STATE BENEFITS
(Jump21)

All adult respondents are asked whether they are in receipt of any state benefits. For each benefit received there follows questions about the method of payment, amount last received and for certain benefits other follow up questions.

Throughout this section, please encourage respondents to find payments books, receipts, bank statements, DWP letters or Award Notices relating to benefits received. It is very important that as accurate information as possible is obtained, in what is a complex system.

Definitions of each benefit (excluding a few uncommon ones) are given below, under the question at which their receipt is recorded (Benefit Question 1 to Benefit Question 7).

<table>
<thead>
<tr>
<th>/ Question Information for Receipt Of Benefits: Methods Of Payment And Combined Benefits</th>

Giro cheque
The last ‘Giro’ cheques were issued in October 2004. A new contract has been set up since then with the Alliance and Leicester bank to enable cheque payments to be made to benefit recipients who are unable or unwilling to provide direct payment account details. Record these cheque payments as Giro cheques, as respondents are likely to continue to think of the Alliance and Leicester cheques as ‘Giros’

Direct to bank/building society account (direct payment)
An initiative was launched in April 2003 to pay the majority of benefits directly into a bank, building society or Post Office account. For those respondents who do not have or do not wish to have a current account, banks, building societies and the Post Office offer what is known as a basic bank account or a card account solely for this purpose. The account operates purely to allow benefit to be paid electronically and allow the recipient to draw the benefit from their account. These accounts are:-

a Bank or Building Society Basic Account or Starter Account or a Card Account at the Post Office.

With the withdrawal of order books and giro cheques (see above), most pensions and benefits are now being paid via direct payment. Respondents receiving pensions/benefits via direct payment should be sent information on the amount of benefit and/or pension they will receive via an entitlement letter sent by the DWP, Benefits Agency or The Pensions Service (part of the DWP). Providing the respondent has kept their letter in a safe place, you will be able to use the letter(s) as documentary evidence of the amount of benefit/pension received. A bank/building society/post office account statement will be a useful alternative.

Please be careful of instances where respondents give you the amount that they withdraw out of the account each week rather than the actual amount of benefit they receive. DWP
are only interested in the amount of benefit people actually receive so if the respondent is not consulting documentation and is unsure of how much they receive, please enter a Don’t know at BenAmt and put any useful information into a note. If the respondent is consulting their account statement and receives one benefit only, you may be able to collect the amount directly from their statement. If they receive two or more benefits and they are unsure of the split, please treat these as combined benefits (see instructions below).

Paid directly for motability

Motability is a registered charity through which those who receive the higher rate of Disability Living Allowance mobility component may hire or purchase a vehicle (e.g. car, electric scooter, wheelchair) at a reduced rate. Either part or the whole of the allowance is paid to Motability.

Combined Benefits

When more than one benefit is paid into the same account, you should try to identify the separate amounts received for each benefit, to enter at the appropriate Benefit Amount questions. However, it is sometimes difficult to identify the individual amounts. If the respondent has the Award Notice which specified which benefits they have been awarded, this should distinguish the names and amounts.

If you are unable to separate an amount covering a combination of benefits you must not enter the total amount received at any of the Benefit Amount questions. What you should do is enter ‘dk’ at Benefit Amount for EACH BENEFIT concerned, and make a <Ctrl+M> note at each.

The note should state the following:

- the name of the household member concerned;
- the names of the individual benefits covered by the payment;
- the total amount received;
- the period covered;
- any other information which might be useful (e.g. whether paid at lower or higher rate).

This information will be used by the office editors, who will try to split the amount based on set procedures, or if this is not possible the data will be supplied to DWP to do the split.

When a ‘dk’ is entered at any Benefit Amount question a check question will follow, asking whether it is a ‘dk’ because separate amounts for the benefit cannot be established. If that is the reason, the ‘dk’ will not be included in the total of ‘dks’ and refusals for the questionnaire.

Components of benefits

Some benefits are made up of different components, such as Retirement Pension. There may be a basic pension plus various other additions, premiums or allowances according to individual circumstances. The components are shown as letters on the left hand of an order book. In these cases the benefit is still thought of as a whole and the total amount of all the components should be entered at Benefit Amount for that benefit.

Please also refer to the later notes about Attendance Allowance and Disability Living Allowance being paid as a component of Retirement Pension/ Widow’s Pension/ Bereavement Allowance or as part of Widowed Mother’s Allowance/Widowed Parents
State & Other Benefits and Pensions

Information on Checks

There are range checks on every benefit in this section. The ranges are based on the amounts known from latest DWP publications on benefit levels. All the checks are soft and may be suppressed if the respondent is convinced, or can produce documentation to show, that they are receiving the queried amount. If you are interviewing in April the checks will allow amounts from the previous financial year.

There are also checks relating to eligibility for certain benefits, e.g. if the respondent is over state retirement age but is not receiving Retirement Pension or if child benefit is being claimed, but there does not appear to be a child resident in the household.

Note that all benefits are paid on a weekly or number of week’s basis. In other words, no benefit should usually cover a calendar month.

Note about questions Benefit Question 1 to Benefit Question 7 (which benefits are received):

When there are two adults in the benefit unit, the question is put to the first adult, then immediately put to the second person as “And [name], what about you?”. The exception is when one of the follow-up questions Wid, War, DC, DM, Attendance Allowance, or JSAType (see below) is required, in which case that will come first.

7. Severe Disablement Allowance
8. None of these

/ Question Information for Benefit Question 1

Child Benefit

This benefit is received for each child under 16 and for any child aged 16-19 still in full-time further (but not higher) education. It is usually (but not necessarily) paid to the child’s mother. It is not paid for foster children. There are three rates:

- higher rate for the only, elder or eldest child of a couple
• ‘LP’ rate for the only, elder or eldest child of a lone parent
  lower rate for subsequent children.
• The ‘LP’ rate incorporates an additional element to replace One Parent Benefit,
  which was abolished from April 1997. Since July 1998 it has not been available to
  new claimants.

If a woman or single man has children in the household there is a soft check that s/he is
receiving child benefit.

Or if the father answers that he is claiming Child Benefit when he is married or cohabiting
a soft check is triggered.

It could be that the father's partner is not the mother or stepmother of the child and it is
the man that claims the benefit.

Guardian's Allowance
This is a weekly payment for someone who takes an orphan into the family. In
exceptional circumstances this may be paid if one of the child's parents is still alive but
cannot care for the child.

Invalid Care Allowance/Carer's Allowance
This is a weekly paid benefit to those spending at least 35 hours a week caring for a
severely disabled person. They must not earn more than £100 per week after deduction
of allowable expenses, or be in full-time education for 21 or more hours per week. If the
disabled person dies, Invalid Care Allowance/Carer's Allowance will continue for up to
eight weeks. It should be coded to the person doing the caring.

Each year there are a number of respondents who report receipt of ICA but do not report
providing care. A soft check will appear to double check with the respondent whether
they care for someone. If this is the case then return to the carers section and ask them
the carer questions again. Make a note where you cannot reconcile the answer to ICA.

Similarly, if someone in the household is receiving ICA then the carer, who is also in the
household, should be receiving DLA(C) or Attendance Allowance. If, on double-
checking, it is established that the person receiving care is in receipt of DLA(C) or
Attendance Allowance go back to Ben2Q and change the answer. Otherwise, suppress
the check and make a note if appropriate.

Retirement Pension
This is a taxable weekly benefit for women on reaching 60 and men on reaching 65 (also
see changes in state pension age below). The basic pension rate is the same for men,
women who have paid their own NI contributions at the standard rate, and for
widows/widowers on their late partner’s NI contributions. Married women who are not
entitled to a pension on their own contributions may receive a pension on their husband’s
contributions.

Those who have paid NI contributions as an employee after April 1978 may also receive
an additional earnings related pension. Those who have been in a contracted-out
occupational pension scheme may receive a guaranteed minimum pension, which is
the minimum amount that must be paid under such a scheme. Guaranteed minimum
pension is also known as contracted-out deduction. Those who decide not to claim their
pension on reaching retirement age can earn additional pension increments.
From April 2005, DWP introduced more generous incentives to defer taking up the state pension. There is strong interest in how many people will take advantage of the deferral option.

People will be able to put off claiming their State pension for as long as they want and be able to earn extra State Pension, or a lump sum. If they defer they can choose one of the following options when they do claim:

- **Extra State Pension:** this is worked out at 1% for every five weeks the claim is deferred (minimum term five weeks).

- **A lump sum payment:** A one-off lump sum payment based on the amount of normal weekly State Pension someone would have received, plus interest added each week and compounded. They also receive their State Pension when they claim it paid at the normal rate.

With this option people have to put off claiming their State Pension for at least 12 consecutive months.

The compounded rate will be broadly equivalent to an annual interest rate of 2% above the Bank of England's base rate (so if the base rate was 4.75%, the annual rate of return would be 6.75%). As the Bank of England base rate may change from time to time, the rate of interest used to calculate the lump sum could also change.

**Old Person’s Pension or over 80s pension**

This is for those people aged 80 or over who are entitled to State Retirement Pension of less than the amount payable on a spouse’s contributions, or to none at all.

**Changes in State Pension Age**

Currently, the State Pension age is 65 for men born before 6 April 1959. For women born on or before 5 April 1950, State Pension age is 60.

Changes to the State Pension age for women came into effect from 6th April 2010. The State Pension age for women born on or after 6 April 1950 will increase gradually to 65 between 2010 and 2020.

Questions which are only asked of respondents at State Pension age or above on the FRS have been routed according to the age calculation 65 for men and 60 for women. Given the gradual change in State Pension age for women during 2010 the State Pension age for women will depend on their date of birth. The routing to questions intended to be asked of female respondents of State Pension age from 2010 will be calculated from the respondent’s date of birth and the date of interview. For the very few female respondents who refuse to give their date of birth, a set State Retirement age of 60 will be applied until 2012.

The State Pension age will be calculated within the CAPI program. Details of the change in women’s State Pension age are given here so that you are aware that from 2010 not all women aged 60 will be routed to the questions relating to older people that you might be used to asking.

From 6 April 2020, the State Pension age will be 65 for both men and women. Further changes to State Pension age are expected from 2024.
Soft Check
Respondent is a woman/man with dependent child(ren), yet has not been recorded as receiving Child Benefit. Please check whether this is correct. If so, explain circumstances in a note <CTRL+M>.

Soft Check
Respondent is a father receiving Child Benefit. Normally the mother receives the Child Benefit. Please check whether your answer is correct. If so, explain circumstances in a note <CTRL+M>.

Soft check
Are you sure [Name] receives Invalid Care Allowance/Carer's Allowance? They're not coded as a carer at WhoLook in the Household Schedule. Please check whether they are a carer. If so go back to the carer questions to record [Name] as a carer. If this is not appropriate please make a note of the reason why they have not been recorded as a carer.

Soft check
Are you sure that [Name] does not receive DLA(C) or AA? The person who cares for them receives invalid care allowance/carer's allowance, so the person cared for could be entitled to receive DLA(C) or Attendance Allowance. Please make a note if they do not receive DLA or AA.

Soft check
If Ben1Q = 4 'Retirement Pension (NI) or Old Person's Pension and age is not state retirement age

"You’ve recorded that this person receives Retirement Pension/Old Person’s Pension but the respondent is not of retirement age. Are you sure that's right? Please amend as necessary."

Asked to all males over 65 yrs of age and women over 60 yrs of age who did not answer 4 at Benefit Question 1.

Deferred State Pension
DefrPen

INTERVIEWER: The respondent is aged 65 or over (male) or over 60 (female) and so could collect state pension BUT they have not reported having NI retirement Pension (or Widow’s pensions /bereavement allowance) or Old Person’s pension. However, some people defer taking up their state pension in order to build up extra State Pension which they receive when they start claiming State Pension. This question is checking whether people have deferred taking up State Pension.

Have you deferred taking up your State Pension?

1. Yes
2. No

PLEASE NOTE: There are many reasons why someone may not collect their State Pension. At DefrPen we only want to know whether the reason for not receiving the State Pension is because the respondent has taken up the deferral option or not. Code 1 ‘Yes’
at DefrPen if the respondent has taken up one of the deferral options (e.g. the Extra State Pension or the Lump Sum Payment). Code 2 ‘No’ if the respondent is not receiving Retirement Pension for any other reason (although he/she is eligible to receive it).

If DefrPen = 2 ‘No’

INTERVIEWER: It appears that the respondent is not claiming Retirement pension and has not deferred their State pension. Please check the reasons for this and explain in a note.

// Question Information for Deferred State Pension

Widow's Pension
For those respondents widowed after April 2001, Widow’s Pension will no longer be payable (replaced by Bereavement Allowance). However, existing widows will continue to receive it. Widow’s Pension is a weekly benefit for women aged 45 and over (or 40 and over if widowed before April 1988) paid when their husband died or when their Widowed Mother’s Allowance ends. Widows over 60 may opt to keep receiving Widow’s Pension until they are 65, instead of Retirement Pension. Include Industrial Widow’s Pension: paid to widows of those who died as a result of an accident at work or a prescribed disease.

Widowed Mother’s Allowance
Was a weekly benefit for widows of any age who have at least one child for whom they get Child Benefit. This was discontinued in April 2001 and replaced with Widowed Parent’s Allowance.

Widowed Parent’s Allowance
Replaced Widowed Mother’s Allowance in April 2001. Widowed Parent’s Allowance extends the benefit to fathers as well as mothers. Payments to widowed fathers will be retrospective in the sense that although payments will only start from April 2001, they will be paid to both existing and new widowed fathers with dependent children. As with the redundant Widowed Mother’s Allowance, there will be both basic and Second State Pension (formerly SERPS) elements payable, and additions for each dependent child.

Bereavement Allowance
For those widowed after April 2001, Widow’s Pension will no longer be payable. Instead, there will be a new benefit called Bereavement Allowance. This is time limited and is paid for 1 year only. In addition the State Second Pension (formerly SERPS) element will no longer be payable. Bereavement Allowance will be payable to both widows and widowers who are aged 45 and over, and there will continue to be an age related scale for those widowed aged 45-55.

All these benefits are contributory, taxable and subject to normal income related benefits rules, and are paid on the basis of the contributions of the deceased spouse.

Note that Bereavement Payment (formerly Widow’s Payment) should not be included here; it is a lump sum payment and there is a code for it at the later question on lump sum state benefits (Benefit Question 5).

Soft Check
If there are any children in the same benefit unit as a widow/widower under 65 who is not
recorded as receiving Widowed Parent’s Allowance:

Respondent is a widow/widower under 65 with dependent child[ren], but is not getting Widowed Parent’s Allowance. Please check that this is correct.

If the respondent is aged over 50 and currently working, either as an employee or self-employed, but were out of work before this current job, the following question is asked concerning the New Deal for over 50s.

?? New Deal Payment
← NDeal

Are you currently receiving payment as part of the New Deal for over 50's?
This New Deal Scheme is available to those who are aged over 50 and who were not working and on benefit for more than 6 months previously.

- If they take a full time job – the New Deal pays an extra £60 per week tax free (known as an Employment Credit) on top of the wage (£40 for part time work)
- The New Deal guarantees a take home wage of at least £180 a week, £9,300 a year if in full time employment
- An in-work Training Grant of up to £1500 may also be available when you start work
- Is paid straight into the bank account or by Giro, but not with wages.

SHOW CARD I2
And looking at this card, are you at present receiving any of the state benefits shown on this card - either in your own right or on behalf of someone else in your household?

1. Care component of Disability Living Allowance ONLY
2. Mobility component of Disability Living Allowance ONLY
3. BOTH Care Component and Mobility component of Disability Living Allowance
4. Attendance Allowance
5. None of these

Hard Check
INTERVIEWER: If respondent receives both Care Component of DLA and Mobility Component of DLA record as Code 3 ‘BOTH Care Component and Mobility component of Disability Living Allowance’.

// Question Information for Benefit Question 2
Disability Living Allowance has two elements and is directed at the care needs and mobility needs of disabled people of working age and below.

The care component has three rates and has replaced Attendance Allowance for those under retirement age.
The mobility component has two rates, the higher one being for those unable to walk or who are severely restricted, and replaced the old Mobility Allowance.

Motability is a registered charity through which those who receive the higher rate of Disability Living Allowance mobility component may hire or purchase a vehicle at a reduced rate. Either part or the whole of the allowance is paid to Motability. The full amount received including any paid direct to Motability should be recorded. If the amount entered is after deducting money paid direct to Motability, a check will trigger. Please enter the amount of the higher rate as displayed in the check.

**Attendance Allowance**

Is a benefit for people disabled at or after age 65 who live at home and need looking after because of their physical or mental disablement. Attendance Allowance is not related to any income, savings or NI contributions and can be paid in conjunction with other benefits including Income Support. There are two rates - a lower one for people who need looking after by day or night, and a higher one for people who need looking after by day and night. Attendance Allowance for those disabled before they were 65 was replaced in April 1992 by Disability Living Allowance (Care component).

**Receipt of both Retirement Pension/Widow’s Pension/Bereavement Allowance/Widowed Mother’s Allowance/Widowed Parent’s Allowance and Attendance Allowance or Disability Living Allowance**

Recipients of Retirement Pension, Widow’s Pension, Bereavement Allowance, Widowed Mother’s Allowance, Widowed Parent’s Allowance may also get Attendance Allowance or DLA (but not both); the Attendance Allowance /DLA may be paid separately from the RP/WP/BA/WMA/WPA, or as a component of it. In either case, the Attendance Allowance /DLA should be coded at Benefit Question 2.

**Soft check**

If a parent states that someone in the household is receiving DLA, it is important to ensure that it is not for the dependent child (aged 16-18) who has already been identified as receiving DLA in their own right. This is because there can be more than one disabled family member and a parent could have 2 disabled children, one under 16 and one 16 – 18 years.

Respondent said earlier that [name of 16-18 year old] was receiving DLA Care component/Mobility component. Check if DLA indicated at Ben2Q is for [name] or for someone else. If it is for [name], then delete answer at Ben2Q as this has already been picked up at Block QHealth.

The following consistency check is triggered if the respondent receives DLA but said earlier that they had no health problems at Health.

**Soft check**

Does the respondent really mean Disability Living Allowance? Earlier they said they had NO long-standing illness or disability.

If the respondent is receiving both Retirement Pension/Widow’s Pension/Bereavement Allowance/ Widowed Mother’s Allowance/ Widowed Parent’s Allowance and Attendance Allowance or DLA(Care) and/or DLA(Mobility) the following check questions are asked as appropriate.
State & Other Benefits and Pensions

Attendance Allowance

Is this Attendance Allowance paid as part of your [Retirement Pension / Widow’s Pension / Bereavement Allowance / Widowed Mother’s Allowance / Widowed Parent’s Allowance], or do you receive it separately?

1. Paid as part of pension
2. Paid separately

Disability Living Allowance 1

Is this Care Component of DLA paid as part of your [Retirement Pension / Widow’s Pension / Bereavement Allowance / Widowed Mother’s Allowance / Widowed Parent’s Allowance], or do you receive a separate payment?

1. Together with pension
2. Separate payment

Disability Living Allowance 2

Is this Mobility Component of DLA paid as part of your [Retirement Pension / Widow’s Pension / Bereavement Allowance / Widowed Mother’s Allowance / Widowed Parent’s Allowance], or do you receive a separate payment?

1. Together with pension
2. Separate payment

If the Attendance Allowance or DLA is paid as part of one of these benefits (i.e. it is paid as a component of the total WP/BA/WMA/WPA payment), the follow up questions for Attendance Allowance / DLA (how it is paid, amount received etc) are not asked, and the amount should be included in Benefit Amount for WP/BA/WMA/WPA. If the Attendance Allowance is paid separately the follow up questions will be asked for both benefits.

For retirement pension only, if it is received via a bank/building society/post office account with Attendance Allowance or DLA, you will be asked to record the amounts for DLA / Attendance Allowance separately from RP. This is because the respondent should have received a separate entitlement letter for their disability/care benefits from the Disability and Carers Directorate within the DWP.

Benefit in Future 2

Can I just check, have you been awarded any of (these/the other) allowances to start at some future date, either for yourself or for some other household member?
INTERVIEWER: Exclude payments made under the Social Services Direct Payment Scheme. Code all that apply.

/ Question Information for Benefit Question 3

Jobseeker’s Allowance (JSA)
From October 1996 Jobseeker’s Allowance replaced Unemployment Benefit (UB) and Income Support (IS) for unemployed people (i.e. people actively seeking work but who weren’t eligible for Unemployment Benefit). Recipients of those benefits were automatically transferred to JSA.

The basic rules for receipt of JSA are that the claimant must be out of work or working less than 16 hours a week; be capable of work, available for work (usually of at least 40 hours a week) and actively seeking work; have a Jobseeker’s Agreement with the Employment Service; be aged 18 or over and under state pension age; and any studying must only be part-time. (See under Type of Jobseeker’s Allowance below for further details of JSA).

Pension Credit

In October 2003, the Minimum Income Guarantee (MIG) was replaced by Pension Credit, a tax credit administered by the Pensions Service (formerly the Benefits Agency).

There are two main elements to Pension Credit:-

1. The Guarantee Credit. This is the minimum amount a pensioner can be expected to live on (£142.70 per week for a single person and £217.90 for a couple). There may be additional amounts for owner occupier’s housing costs, for disability and for caring responsibilities. The additional amounts could include Severe Disability Premium. This is not a benefit in its own right such as Severe Disablement Allowance. If this is included, the full amount should be recorded at BenAmt.

2. The Saving Credit. This is available only to pensioners aged 65 and over and aims to reward those who have made provision for their retirement over and above the state pension. The Savings Credit will give pensioners 60 pence for every £1 of income they have from second pensions, annuities, or savings up to a maximum amount in the region of £18.54 per week for a single person or £23.73 per week for a couple. Where a pensioner’s income exceeds the level of the Guarantee Credit, every excess pound will reduce the savings credit by 40 pence.

The Pension Credit is designed to be less intrusive than the MIG in that, apart from major changes to personal circumstances, people aged 65 and over will not have to report changes in their circumstances for up to 5 years at a time. However if their income drops, they can ask for their Pension Credit to be increased.
State & Other Benefits and Pensions

**Income Support**

Income Support is for people aged 16 or over whose income is below a certain level. To get Income Support you must be:
- sick or disabled OR
- a lone parent or foster parent OR
- getting Invalid Care Allowance/Carer's Allowance for looking after someone.

You cannot get Income Support if you work for 16 hours a week or more on average (or if your partner works for 24 hours a week or more on average). Income Support can be paid to top up other benefits, or earnings from part-time work, or if there is no money coming in at all. The amount depends on age, whether the person has a partner, dependant children, whether anyone has a disability, weekly income and savings. The savings limit for the claimant (and partner if any) is £16,000.

If the respondent is coded as receiving both Income Support and Jobseeker’s Allowance the following check is triggered.

**Incapacity Benefit**

is paid to people who have been medically assessed as incapable of working and who cannot get Statutory Sick Pay from an employer. If a person is/was receiving Statutory Sick Pay, Incapacity Benefit replaces it after 28 weeks. It is a contributory benefit; it is not means-tested. There are three basic rates:
- the short term lower rate for the first 28 weeks of sickness;
- the short term higher rate for weeks 29-52;
- and the long term rate from week 53.

Extra benefit may be paid for dependant adults and children. For new claimants, entitlement ends at state pension age.

Since 31st January 2011 no new incapacity claims have been accepted, people now may be able to claim Employment and Support Allowance (ESA)

**Maternity Allowance**

may be paid to those women who are not entitled to Statutory Maternity Pay, for 39 weeks, starting from the 11th week before the baby is due.

**Industrial Injuries Disablement Benefit**

For those disabled as a result of an accident at work or as a result of a prescribed industrial disease. It can be received even if the recipient continues/returns to work.

Do NOT include receipt of Reduced Earnings Allowance (REA), at this question. It should be recorded at the ‘any other state benefit’ code at Ben5Q. See the later instruction at that question for the definition of REA.

**Employment and Support Allowance (ESA)**

Employment and Support Allowance (ESA) is to be paid to new claimants from October 2008, with existing Incapacity Benefit and Income Support claimants being migrated to ESA over time.

Main phase - Claimants of Main Phase ESA will receive a basic payment at JSA (25+) rates, an additional ‘work related activity component’ or ‘support component’ and, in some cases, an extra premium.
**Work related activity component** - Those assessed at the PCA as having ‘limited capability for work’ will receive this component.

**Support component** - Awarded to a minority of claimants who are assessed at the PCA as having ‘limited capability for work’ and ‘limited capability for work-related activity’.

**Extra Premiums** - Severe Disability Premium (SDP), Enhanced Disability Premium (EDP), Carer Premium, Pensioner Premium and Higher Pensioner Premium currently payable with IS and IB will still be payable as a premium on top of ESA.

---

**Soft Check**
If a person coded as working claims to be receiving Jobseeker’s Allowance the following check is triggered:

Respondent is coded as working more than 16 hours a week and receiving Jobseeker’s Allowance. Tactfully check this. (JSA is not usually payable in this situation).

It is possible to work under 16 hours a week and to receive JSA, if the earnings are under certain amounts.

There are also checks if the respondent has answered in the block Qcurst that they are signed on at an Employment Service office in order to receive Jobseeker’s Allowance, but is not coded at receiving this at Benefit Question 3, or that they are not signed on but are receiving it at Benefit Question 3.

**Soft Check**
Respondent said earlier they were claiming Jobseeker’s Allowance. If so, they should be coded here also. Please resolve the discrepancy, or explain it in a note.

---

**Hard Check**
Pension Credit is only available to those aged 60 and over.

**Soft check**
Please check: you cannot normally receive both Jobseeker’s Allowance and Income Support at the same time. If correct, suppress the warning to continue and explain the reason in a Note.

In case respondents confuse Income Support with (income-based) JSA the following check will be triggered if they said earlier that they were seeking work:

**Soft check**
Are you sure? People who are looking for work (recorded earlier) would normally be receiving Jobseeker’s Allowance, not Income Support.

If respondents claim they are not in receipt of housing benefit but are receiving income support

**Soft check**
You and/or [name] said you are not in receipt of housing benefit, but one of you is receiving Income Support. Can I just check, is this correct? Similarly, if respondents said they were in receipt of housing benefit but are not receiving income support
Soft check
You and/or [name] said you are in receipt of housing benefit, but neither of you is receiving Income Support. Can I just check, is this correct? If a respondent is over 60 and tries to report being in receipt of Income Support.

Hard check
From October 2003 IS / MIG for those aged 60 and over was replaced by pension credits. Recode respondent as being in receipt of pension credit. Tell respondent 'Income Support / Minimum Income Guarantee has been replaced by Pension Credit for all those aged 60 and over from October 2003. I will therefore ask you to answer these questions about pension credit.

PLEASE NOTE: Minimum Income Guarantee (MIG)
In October 2003, Minimum Income Guarantee (MIG) for people aged 60 and over was replaced by Pension Credits. All references to MIG have been removed from the questionnaire.

Some respondents (about 11 people per year in the whole FRS sample) will still receive Income Support/Minimum Income Guarantee (IS/MIG). So although it will be a very rare scenario, some respondents may correctly tell you that they receive IS/MIG. However as the vast majority of respondents will not be receiving IS/MIG we do not want to misreport people who believe they are in receipt of MIG but are in fact receiving Pension Credit. Code any reports of Income Support/MIG as Pension Credit and make a note at Benefit Question 3 explaining that the respondent reports that they get MIG. If you can check any relevant documentation so that you can be sure MIG is received that would be helpful in verifying the respondent’s claim to be in receipt of MIG.

Soft Check
If currently working. Respondent says he/she is currently receiving Incapacity Benefit whilst being employed. This is not normally possible. Please check that your answer is correct. If so, explain circumstances in a note.

If anyone is receiving Jobseeker’s Allowance (code1), the following question is asked.

Type of Jobseeker’s Allowance

There are two types of Jobseeker’s Allowance. Is your Allowance...

1. ...contributory, that is based on your National Insurance contributions,
2. ...or is it income based Jobseeker’s Allowance, which is based on an assessment of your income?
3. ...or is it a contribution of ‘contributory’ and ‘income based’?

Question Information for Type of Jobseeker’s Allowance

There are two types of JSA:

- Contribution-based, which is dependent on the claimant having paid enough Class 1 National Insurance contributions in the previous two years. (Those who formerly received Unemployment Benefit were transferred to this type of JSA.) It is payable for up to 6 months.
- Income-based, which is dependent on the level of the claimant’s income or savings.
(Those who received Income Support as an unemployed person were transferred to this type of JSA.)

Only one type may be awarded at a time. Once the maximum time on contribution-based JSA has passed the claim will be reviewed to see if the person is eligible for income-based JSA. A claimant who satisfies the contribution conditions but whose income does not meet their needs will be awarded income-based JSA, which will include an element based on the contribution record. It is not possible to receive JSA and Income Support simultaneously.

There are fixed age-related rates for the allowance. For income-based JSA only, the claimant may get extra for an adult dependant and various other premiums. Payment is by giro cheque or direct to a bank account.

Small amounts may be earned from part-time work before affecting the benefit, the maximum that can be earned varying from £5 to £15 a week depending on which type of JSA is received, marital status, the number of hours worked by a partner, dependant children and other criteria.

There are some checks relating to the type of JSA. If the person was self-employed in their last job, and is coded as getting contribution-based JSA:

**Soft check**
Only people who have recently been employees can receive contributory JSA. Please check if they have been an employee in the last 3 years.

If the person has been out of work for over 6 months but says they are receiving contribution-based JSA.

**Soft check**
Are you sure it is contribution-based JSA? Earlier they said they had not worked in over 6 months. Only Income-based JSA is payable after 6 months out of work. Check with respondent and explain in a note if correct.

**Benefits in Future 3**

6. Maternity Allowance
7. Industrial Injury Disablement Benefit
8. None of these

If a respondent is under 60 years old and says that they have applied for Pension Credit
Only those aged 60 and over are eligible for Pension Credit.

Soft Check

Question Information for Winter Fuel Payment

Winter Fuel Payment
A one-off payment of £200 to help towards winter fuel bills each year. Paid to all households that include someone aged 60 or over who is ordinarily resident in Great Britain.
Households with someone aged 80 or over receive an additional payment of £100. From Winter 2004/05, eligible households with someone aged 70 or over will also receive a one-off payment of £100 to help with living expenses, including council tax bills. This one-off payment is being paid automatically in most cases with Winter Fuel Payment so record
it here and open a note to specify the separate amounts. If it is not paid with Winter Fuel Payment, record the details at Ben5Q (code 9).

NOT to be confused with cold weather payments which is an award to families on Income Support, income based Job Seekers Allowance or have a child under 5, when the temperature falls below zero for 7 consecutive days.

Age-Related Payments
Age-Related Payments are being made during Winter to many households where someone aged 65 or over lives. There are two Age-Related Payments – one to help with Council Tax bills, and the other to help with additional living expenses. Only one of the Age-related payments will be received. It is not possible to receive both payments.

In a very small number of cases, the respondent will not receive Winter Fuel Payment. In these cases, record the Age-Related Payment as ‘Any National Insurance or State benefit not mentioned earlier’ (Code 8 at question Ben5Q). You will then be asked for the name of this ‘other benefit’, before being asked a few other questions about the period of time it has been received and the amount received.

There is a complex entitlement system for Age-Related Payment. A person will qualify for Age-related payment based on their age and whether they received Pension Credit during the qualifying week 19-25th September 2011. The amounts received will also differ according to the individual’s circumstances but if received at all will be £50, £100 or £200.

Those who will NOT receive Age-Related Payment
- If the respondent does not receive Pension Credit and has a partner aged under 65 who is claiming Income Support or income-based Jobseeker’s Allowance then the respondent will not receive an age related payment.
- If the respondent is aged under 70 and receives Pension Credit (guarantee credit element)

Those who should get Age-Related Payment
If the respondent does not get Pension Credit or gets the ‘savings element’ of Pension Credit he/she will receive an Age-Related Payment for Council Tax bills.

The respondent will receive £200 if:
- He/she is aged 65 or over and lives alone
- Respondents are a couple living alone and the respondent and his/her partner are 65 or over will receive a household payment of £200.
- If the respondent is aged 65 or over and lives with a couple who receive the ‘guarantee credit element’ of Pension Credit
- If the respondent is the only person living in a care home who qualifies for Age Related Payments

The respondent will receive £100 if:
- If the respondent is aged 65 or over and lives with another person (who is not his/her partner) or lives with a couple who are also aged 65 or over
- If the respondent lives in a care home

The respondent will receive £50 if:
- If the respondent is getting the ‘guarantee credit element’ of Pension Credit and the

**Benefit Question 5**

**SHOW CARD I5**

In the last 6 months, have you received any of the things shown on this card, in your own right?

INTERVIEWER: Exclude Winter Fuel Payments as 7 ‘Any National Insurance or State Benefit not mentioned earlier’. If an age-related one-off payment was paid but not with Winter Fuel Payment please use code 7 ‘Any National Insurance or State Benefit not mentioned earlier’.

INTERVIEWER: Exclude payments made under the Social Services Direct Payment Scheme.

1. ‘Extended payment’ of Housing Benefit/rent rebate, or Council Tax Benefit (4 week payment only)
2. Bereavement Payment– paid in lump sum
4. Lone Parent’s Benefit Run-On/Job Grant
5. . In-Work credit
6. Return to work credit
7. Any National Insurance or State benefit not mentioned earlier
8. None of these

**Soft Check**

It is unusual to receive extended housing benefit. It is only available to claimants who had been on income support, income based jobseeker’s allowance, Incapacity benefit or severe disablement allowance and the entitlement ended because the claimant recently started work or increased work hours or pay, in these cases they may be entitled to receive the same amount of housing benefit and/or council tax benefit for up to four weeks after benefits ceased. Check with respondent whether these conditions apply to them. If not do not record the respondent as in receipt of extended housing benefit as housing benefit receipt has already been recorded earlier in the interview.

If respondent insists that extended housing benefit is received record here and the amount and make a note that the respondent does not meet the criteria but insists they receive extended housing benefit.

**Extended Payment of Housing Benefit/Council Tax Benefit**

People who leave benefit because they start work or increase their part-time hours or earnings may be eligible for continuation or run-on of Housing Benefit or Council Tax Benefit (or both). They must have been in receipt of JSA(IB) or Income Support for 26 weeks. This extended payment has to be claimed separately from the ‘normal’ Housing
benefit/Council Tax Benefit and is added on as 4 extra weekly payments. It can be received any time over the past 6 months.

**Bereavement Payment (formerly Widow’s Payment)**

A lump sum paid immediately after the spouses’ death provided that he/she had paid enough NI contributions. As the amount received is a fixed rate (£2000) there is no follow up question asking the amount. In addition, a widow or widower may receive Widowed Parent’s Allowance, Bereavement Allowance or Widow’s Pension (see earlier question).

**Child Maintenance Bonus**

Child Maintenance Bonus (now phased out and replaced with Child Maintenance Premium) was available to Income Support and JSA (IB) recipients who have a dependant child. They must also have been in receipt of child maintenance for that child. While they were on benefit, they could accrue a bonus up to a maximum of £1000.00. That bonus accrued weekly at the amount of maintenance received to a maximum of £5 per week. The bonus was only payable if and when the customer came off benefit to start full time work.

**Child Maintenance Premium**

Changes in the way that child maintenance is calculated have resulted in Child Maintenance Bonus being phased out when the reforms take effect. For those who are already getting child maintenance, the amount they can receive will build up until they are transferred to the new system. For those who apply after the new system is introduced (or are transferred to the new system), they will be able to keep up to £10 a week of the maintenance paid for their children. This is called Child Maintenance Premium.

**Lone Parent’s Benefit Run-On**

The Lone Parent's Benefit Run-On entitles a lone parent who leaves Income Support or Job Seeker’s Allowance (Income Based) to go into work to an extra 2 weeks IS. This is provided that the lone parent has been on IS or JSA(IB) continuously for at least 26 weeks, that they have been a lone parent throughout that period, and that the work is for at least 16 hours a week and expected to last for at least 5 weeks.

From 25 October 2004, Lone Parent's Benefit Run-on was replaced by a new Job Grant. This is a tax free payment payable if the person is taking up full time work of at least 16 hours per week. The amount depends on individual circumstances:

- £100 for single people and couples without children
- £250 for all lone parents and couples with children

**Work-Search Premium**

The Work-Search Premium was introduced into 8 pilot areas to help remove the disincentive of the costs of job search. It is available to lone parents who have been on IS or JSA (IB) for 12 months or more, and who agree to search actively for work.

The premium is an award of £20 per week, and is paid in addition to benefit for up to six months of intensive consistent work search activity.

**In-work Credit**

In work credit is available to parents bringing up children alone, who have been getting IS...
or JSA for at least 52 weeks or more without a break. The credit is a fixed tax free payment of £40 per week (£60 per week in London). It is payable for up to 52 weeks on top of earnings when a parent starts work of at least 16 hours per week and where the work is expected to last for at least 5 weeks.

**Work–related Activity Premium (WRAP)**
Provides a £20 per week payment for lone parents for up to six months in addition to income support. WRAP will be made available to those in the 7 pilot areas who have been on qualifying benefits (IS, JSA or IB) for at least 6 months, whose youngest child is aged 11 or over and who engage in some agreed work-related activity. WRAP will replace the existing Work-search Premium (WSP) in April 2007, but WSA is retained as a category at question benefit question 5 as it could be relevant to those receiving this payment in the 6 months prior to April 2007.

**Return to work Credit**
Introduced to reward those recipients who come off benefits to return to work. It is a credit worth £40 per week and is paid to those earning up to £15,000 per annum.

† **Hard Check**
Any National Insurance or State benefit not mentioned earlier includes:
- Cold Weather payments;
- Earnings Top-Up: being piloted in some areas from October 1996, this may be paid to lower paid people working more than 16 hours a week.
- Reduced Earnings Allowance: this might be paid to a person disabled as a result of an accident at work or an industrial disease before October 1990, if their earning capacity fell as a consequence. The allowance is tax-free.
- One-off payment to people aged 70 or over to help them with living expenses e.g. council tax bills
- any other benefit

Do NOT include the Christmas Bonus paid automatically to recipients of certain benefits in December. It does not need to be recorded anywhere. The name of the benefit should be stated at the text question Other Name Benefit below.

If respondent claims to be in receipt of Work-Search Premium or In-work Credit.

† Other Name Benefit

You cannot be in receipt of Work-Search Premium/In-work Credit unless you are a lone parent. Please amend this answer.

Household Benefit Unit

In Benefit Units other than that of the Household Reference Person, there follow questions about receipt of Housing Benefit/rent rebate. If the benefit unit consists of two adults, these questions should be asked of the benefit unit as a whole, rather than to the members individually. The questions are asked to those who were asked about the rent they pay in the intra-household contributions section in the household questionnaire.
Some people qualify for Housing Benefit or Local Housing Allowance, that is a rent rebate or allowance. Are you receiving Housing Benefit (or Local Housing Allowance) either directly or having it paid to your landlord on your behalf?

(IF COMBINED WITH ANOTHER BENEFIT AND UNABLE TO GIVE SEPARATE AMOUNT, ENTER 'Don't Know' FOR BOTH/ALL SUCH BENEFITS)
(IF PENSION CREDIT RECEIVED FOR GUARANTEE CREDIT AND SAVINGS CREDIT ENTER TOTAL RECEIVED HERE)

**INTERVIEWER:** Record the FULL amount of benefit actually received not just the amount withdrawn from the account. The amount taken from the account may be only part of the benefit received. If the respondent does not know the actual amount received, code don’t know and make a note.

An amount should only be entered if it is solely for the benefit named on-screen. In cases where two or more benefits are paid in combination, check any documentation and if it lists individual benefit amounts, enter them as appropriate. An Award Notice should itemise in this way. If it is not possible to identify individual amounts, enter ‘don't know’ for both/all benefits concerned. Never enter a combined benefit amount, i.e. covering more than one benefit coded at *Benefit Question 1* to *Benefit Question 5*, at any single *Benefit Amount*. If 'dk'.

¿ Don’t Know Benefit Amount 1
↔ BenAmtDK

**INTERVIEWER:** IS THIS 'DON'T KNOW' BECAUSE IT'S PAID IN COMBINATION WITH ANOTHER BENEFIT, AND YOU CANNOT ESTABLISH A SEPARATE AMOUNT?

1. Yes **INTERVIEWER:** Leave your 'Amount' answer as 'Don't know' and ENTER THE COMBINED BENEFIT FIGURE IN A NOTE, with explanations as needed.
2. No

If 'Yes', the note should state the following:
• the name of the household member concerned;
• the names of the individual benefits covered by the payment;
• the total amount received;
• the period covered;
• any other information which might be useful (e.g. whether paid at lower or higher rate).

'Don't know' should also be entered at Benefit Amount for the other benefit(s) concerned, and a note made cross-referencing the other(s). The 'don't knows' in these circumstances are not included in the count of DK/refusals in the questionnaire. It is important to give accurate details so that office editing can be done to apportion the total amount if possible. In cases where combined amounts cannot be apportioned at the edit stage, the combined figure is given to DWP.

? Benefit Period
← BenPd

How long did this cover?

For some benefits there are checks if the amount received (or weekly equivalent) either differs from the set rate or rates for that benefit, or in the case of income-related benefits, if it falls outside the normal range of payments.

It is important to probe or check these where possible, to ensure that the correct benefit type has been recorded, or the correct figure entered. Please see instructions at some individual benefits above.

If doing this does not resolve the check, please make a note for the editors. The note should either confirm that the benefit type and amount is confirmed as correct – and if a document was consulted, say this - or give as much information as possible to enable the editor to amend it if necessary, for example if a certain rate is received (standard, low, middle, high) but they don't know exactly how much it is.

If respondent receives Pension Credit and the weekly amount is more than £250.

If Pcomp is Coded 1-2 and the follow-up questions PCmpAmtG and PCmpAmtS are coded 'Don't Know' the following soft check will appear.

The award notice is made up of a number of pages. The section of the award notice entitled 'How pension credit has been worked out' gives the breakdown of the components of the pension (see your training pack for an example). Respondents may have only kept the first page of the award notice and therefore only know the total amount of benefit received as the subsequent pages may have been thrown away. If this is the case, please suppress the check and leave a note to explain why you are unable to give a breakdown.

- Soft check
  Respondent is consulting award notice but cannot give the breakdown of components. Please check ALL pages of award notice and look out for section titled “How pension credit has been worked out” to find the breakdown. If respondent has only kept first page, please make a note.

If the amounts recorded in Pension Credit Guaranteed Element AND Pension Credit Savings Element do not equate to the total amount of Pension Credit received

INTERVIEWER: Please check that the annuity mentioned includes home income plan or equity release. Annuities purchased from pension funds are excluded from Code 5. Annuities from an occupational pension should be coded as Code 1 'Employer pension'. Annuities from a personal pension should be coded as Code 3 'Personal pension'.

This question relates not only to a private pension received by the informant from their own previous employer but also to a private pension from the employer of a deceased spouse or other relative. Also include receipt of pensions from a current employer.

**Question Information for Any Other Sources of Income**

An occupational pension from an overseas government or company should be accepted at this question, if paid in sterling.

If paid in foreign currency, the pension should be treated as unearned income and entered at Royalties.

Regular income from an insurance policy or from equity release (and not purchased from pension funds) should be included under 'annuity'. Under equity release schemes (such as Home Income Plan, Reversion schemes, Retirement Home Plan) elderly property owners may take out a loan secured on their home and use it to buy an annuity, part of which provides then with an income. Such a loan/mortgage should be recorded as a second mortgage in the household questionnaire (provided interest on the loan is being paid).

A soft check has been added to AnyPen to double-check that Code 7 ‘A share of an
employee or personal pension from an ex-spouse/partner as a result of a court order or settlement made on divorce’ applies to the respondent who was earlier identified as being a widow in receipt of widow’s pension or benefits.

Soft Check
The respondent receives Widow's pension. Are you sure that they receive a 'share of an employee or personal pension as a result of a court order or settlement on divorce'? Should you have coded 2 'widow's employee pension' instead? Please check the circumstances and explain in a note if necessary?

The following question is asked if 'An annuity' (code 5) is entered at Any Other Sources of Income.

? Type of Pension Lump Sum
↩ PenLump

ASK OR CODE:
Can I just check, was that annuity bought with...

1. a Lump sum from an EMPLOYEE pension scheme?
2. or a lump sum from a PERSONAL pension scheme?
3: or neither of these?

¿ Royalties

SHOW CARD K2
In the last 12 months, that is since [date], have you received any income not yet mentioned from any of the sources listed on this card?

1. Rent from any property
2. Royalties e.g. from land, books or performances
3. Income as a sleeping partner in a business
4. An occupational pension from an overseas government or company, paid in FOREIGN CURRENCY
5. None of these

There is a soft check if the respondent also receives income from subletting to ensure no double counting occurs.

Sleeping partner in a business: this includes income from, for example, being a Lloyd’s name.

If codes 2, 3 or 4 at Royal:

¿ Amount of Royalties in last 12 months
↔ RoyYr

Thinking of your [royalties/income as a sleeping partner/pension paid in foreign currency] how much have you received in the last 12 months?
ENTER AMOUNT IN £

If code 1 at Royal:

¿ Rent received in last 12 months
↔ PropRent

SHOW CARD K3
How much rent have you received before tax from other property in the last 12 months, AFTER paying for any of the things on this card?

The card includes the following expenses related to the letting of property, which are allowable against tax:

1. Mortgage payments
2. Repairs, maintenance and renewals (do not include capital improvements).
3. Interest on a loan to purchase the property.
4. Rent, rates, insurances paid on the property.
5. Legal and professional costs relating to the purchase.
6. The cost of services provided (cutting grass, maintenance etc).
Income from Pensions, Trusts, Royalties and Allowances

If the accommodation is furnished, there is a 10% allowance on rent for wear and tear of the furnishings. Other allowances may be taken into account for tax purposes.

The question refers to other physical property (i.e. buildings), and is intended to cover mainly:

i) property where one of the respondents is a private landlord
ii) income from e.g. second homes or holiday homes which are let.

It can include property both in this country and abroad.

If the respondent has more than one property, enter the total amount of rent received.

If the respondents jointly own a property that is being rented then identify both of them at this question and then apportion the amount of income received.

This question asks for all rent received over the last 12 months even if the property has been sold and therefore no longer owned by the respondent.

The following sources of income should NOT be included on FRS:

(i)  Sale of house, stocks and shares or any other assets.
(ii)  Maturing life policies, cash-in or life assurance.
(iii) Pools or lottery wins.
(iv)  Legacies.
(v)  Cash gifts from friends or relatives inside or outside the household.
(vi)  Honoraria (An honorarium is earned income and should be entered at Bonus).

Items (i) to (vi) are regarded as 'windfall' income and should not be included in the survey.

Life assurance/insurance/endowment policies with a savings element should not be included. The assumption would be that on maturation the money would be spent or transferred into one of the savings or investment types that are recorded.

Whilst we cannot accept NEGATIVE amounts, if PropRent £amount is given, respondents are asked:

? Property profit or loss
← RentProf

Is that a profit or a loss from the property?
1: Profit
2: Loss

This caters for losses on properties.

If receiving rent from a property and this was a profit
istar Amount of tax paid
← Proptax

? Receiving any Maintenance
↩ MntRec
Press <F9> for help
SHOWCARD K4

Now, I'd like you to think about any child maintenance: are you receiving any formal or informal money payments from a previous partner for your [child/children]? Please include payments you receive regularly and those you receive only now and again. It doesn't matter whether payments are received directly, passed on by a court, the CSA or DWP.

INTERVIEWER: Include both formal and informal payments received either regularly or irregularly at this question. Exclude presents on birthdays or on religious festivals (e.g. Christmas)

INTERVIEWER:- Exclude any allowances or alimony that the respondent receives on their own behalf, that is any payments that are not for the child/children. This will be collected later at Alimny.

1 Yes
2. No
3. Use this code if it's clear that there are no previous partner(s) and no children from any previous liaison /partnership.

/ Question Information for Receiving any Maintenance

Use Code 1: 'Yes' if:
any payments are being received from a previous partner either directly, or passed on by a court, the CSA or DWP.

Use Code 2: 'No' if:
a) There is any previous partner who might therefore potentially be liable to make or, indeed, to receive, maintenance payments or,
b) If the respondent has any children from a previous partnership or liaison (however brief). Such children do not need to be members of the household, or in the custody of your current respondent (e.g. they might be with the ex-partner).

Use Code 3 only when the respondent explicitly states that there are NO circumstances (former partners or children by previous liaisons) which could make the respondent potentially liable either to PAY or to RECEIVE maintenance. This will prevent any further question on this topic coming up for this respondent.

There follow some questions about any maintenance being received by the respondent.

If MntRec = 1 ask the following question
SHOWCARD K5
Looking at this card, which of these arrangements do you have for receiving maintenance for your [child/children]?

INTERVIEWER: Code all that apply

1. Child Support Agency (CSA) making arrangements for maintenance payments on [your/my] behalf
2. A court order requiring previous partners to make payments
3. A voluntary agreement between [yourself/myself] and previous partner
4. Other arrangement
5. No arrangement made

Do you receive these payments yourself, or are they paid via the DWP or the Child Support Agency?

IF BOTH i.e. 2+ PAYMENTS RECEIVED, CODE BOTH

1. Paid to self
2. Paid via DWP/CSA

Maintenance payments are increasingly handled by the Child Support Agency. If a respondent answers that a payment is made via the CSA or the DWP both of these should be coded as 2.

It is possible to code both situations, in which the subsequent questions Maintenance Payment Amount to Who is Maintenance For will be asked for each arrangement, and there will be a display screen as follows for each in turn.

Question Information for Other Income Tax Amount

These questions pick up any income tax paid to Inland Revenue which is not covered elsewhere in the questionnaire.

Do not include tax deducted at source from pay, pensions, annuities, accounts and investments, or tax paid in relation to self-employment, which are all recorded at the questions on those sources of income (even if only implicitly indicated as being ‘after tax’ and no tax amount is recorded).

Include payments direct to Inland Revenue, such as those declared on a Self-Assessment Tax Return; for example higher rate tax payers are responsible for paying the second 20% on investment income (the first 20% being deducted by the bank, share company etc). Tax on employment earnings not paid through PAYE should be covered here (e.g. a payment demanded due to previous underpayment).

Exclude any payment of Value Added Tax (VAT), Capital Gains Tax or an amount set aside for payment of income tax.

This question is only asked of those who are not in work as employees or self-employed,

QUESTIONS ABOUT OCCASIONAL WORK AND ODD JOBS

SHOW CARD K7
During the last 4 weeks, have you received any money from the kinds of work shown on this card, which we have not yet covered?
CODE ALL THAT APPLY

1. Babysitter
2. Mail order agent
3. Odd job, occasional work or professional advice
4. No to all

For the exact dates included in the FOUR WEEK period, use your calendar.

The purpose of this question is to account for any income received from babysitting, acting as a mail order agent, or an 'odd job', which would not have been accounted for at the employee, subsidiary employee or self-employed questions. Note that it doesn’t matter whether the work was carried out in the 4 weeks - it is the receipt of income in that time which counts.

An 'odd job' is defined as a job which is undertaken once only at one specific point in time and without any regularity or continuity. It is therefore non-recurring. Also if a respondent had a job that only lasted a short period of time, probe as to whether the original intention of the work was that it would be regular, even if this did not turn out to be the case. If a job is carried out repeatedly, even at irregular intervals and regardless of the number of hours worked, it should be treated as a regular job, e.g.
service in the Territorial Army.

Note: Students' holiday jobs should not be shown here but should be coded according to the situation at the time of interview.

Children’s Income

Children’s Income from Government employment Training Schemes

So that they have a complete picture of income from employment training, DWP wish to capture income received by 16-19 year olds on government training schemes. This information will be added to income data already collected for adults (those aged 19 and over) in employment training.

Income received from employment training by 16-19 year olds will be recorded separately at the child income section. A new category has been added to ‘ChEarns’ specifically to record income from employment training. Previously this had been recorded as income from a spare time job. Details of the income received from employment training will be recorded at two new questions ‘ChAmtTrn’ (amount received) and ‘ChPdTrn’ (period covered).

If child is aged 16-18, in full-time further (not higher) education and receives income or earnings from a spare time job, Trust or other allowance, the following questions are asked.

Education Maintenance Allowance (EMA)

The routing to the question ‘ChEMA’ has been revised so that it is no longer dependent on the answer to the question ‘KidInc’. ‘KidInc’ is asked if there are one or more children in the benefit unit.

  ➔ ChEMA
Helpscreen F9

FRS April 2012 313
Do you receive an Educational Maintenance Allowance (EMA)?

INTERVIEWER: {England, Scotland and Northern Ireland only} Existing EMA claims for those studying in England will be received for the remainder of the 2010 academic year (i.e. up to August 2011). From September 2011 onwards, no new Education Maintenance Allowance (EMA) claims will be received for those studying in England.

1. Yes
2. No

Educational Maintenance Allowance (EMA) has been withdrawn from new applicants studying in England (except for those living in Wales who will receive Welsh EMA). For those living in England, Scotland and Northern Ireland and studying in England, existing EMA claimants will have their claims paid for the remainder of the 2010 academic year (i.e. up to August 2011). By September 2011, no one studying in England (excluding those living in Wales) will receive EMA. A check will make sure that EMA is correctly reported after August 2011.

NOTE TO INTERVIEWERS: EMA is a Department for Education and Skills (formerly Department of Education and Employment) scheme to see if financial incentives will encourage school retention rates after age 16. Up to £30 per week can either be paid directly to the student or to a parent – generally the mother.
Adult and Child Social Deprivation and household items

This section looks at a large number of items that can be associated with standard of living. For the purpose of this study, hardship is defined by the respondents’:

- ability to afford a number of items that most other people agree families ought to have;
- their other ‘unmet needs’; and
- whether they are managing their money and staying clear of problem debts – that is debts they cannot repay and are ‘getting behind with the repayments’.

These questions will be used to gain a better understanding of people's living standards and the spending choices that they make. No single one of these items is a very adequate measure, but taken together they add up to a very sensitive measure of family material well-being or hardship.

The series of questions which determine hardship are either factual or opinion based. For them to effectively determine hardship and deprivation the answers must reflect the respondent's interpretation of the question. Do not attempt to guide or re-phrase the question. If the respondent does not understand what is being asked (for instance they are unclear about what we mean by ‘all weather shoes’), simply repeat the question and ask them to answer it to the best of their ability. Please do not give your translation of a phrase or question.

The questions will only be asked of ONE adult in the benefit unit. The respondents can then answer together if they wish. The computer will randomly select the adult required to answer the deprivation questions.

If there any dependent children in the Benefit unit, the following questions are asked about child deprivation:

? Child Deprivation Introduction

The next questions are asked about all the children you (and your partner) are responsible for in this household. Please think about [Names of children in BU] when answering these questions.

Respondents are asked to think of all of their dependent children when answering these questions. Cases may arise, however, where one child ‘has’ and one cannot afford or one ‘doesn’t need’ and one cannot afford. In these cases priority coding is necessary. The priority will ALWAYS be cannot afford, therefore in the above two examples, ‘cannot afford’ should have been coded. Following this, if one child ‘has’ and one ‘doesn’t need’ interviewers should code ‘doesn’t need’. Therefore, the priority order is:

1: cannot afford,
2: doesn’t need,
3: (all) have.

The Following questions; Number of Television Sets [1], Number of Television Sets [2] and Concessionary Television Licence are only asked of the first Benefit Unit respondent.

Questions about TV ownership are asked because people pay for TV licences as part of their household expenses. Certain groups of people have discounts to their TV licence
fee e.g. the visually impaired. TV licence fees are also reduced for people who have a black and white television set. The amounts paid for TV licences need to be accounted for in the calculation of household income. Therefore, questions on both black and white and colour television sets are asked.

Adults’ Savings and Investments

? Any Accounts

Yes – any account
No
Don’t Know

This first question simply identifies whether the respondent has (had) any of the types of account listed at the later questions. If ‘yes’, the next question identifies which types. See below for further details of what does and doesn’t count as an account.

? Type of Accounts

Current account with a bank, building society, supermarket/store or other organisation
Basic Bank Accounts including introductory/starter accounts (including internet and telephone banking)
Post Office card accounts

Internet or telephone banking – type of account not known
None of these
Question Information for Type of Accounts

Note that codes 2 and 3 differ from normal current accounts in that they are designed purely to allow the administration of benefits. Many will not offer the facilities associated with a current account such as an overdraft etc. See below for more information.

Current accounts – offer the widest range of banking services. You can pay other money into these accounts and some let you use the Post Office to get your money.

Basic bank accounts – have the basic features of a current account, but won’t allow you to have an overdraft. Most allow Post Office access to your cash.

The Post Office card account – is an account designed for the collection of benefits, state pensions and tax credits only, so you can’t pay any other money in. The POCA cannot be used for receiving cheques, setting up direct debits, standing orders or paying bills etc.

Code 4 – The National Savings Bank (Post Office) Ordinary Accounts ceased to exist after 31 July 2004 and was replaced with the Easy Access Savings Account.

Note that code 7 includes bank and building society savings bonds, but not National Savings and Investments Bonds, with profit or distribution bonds or insurance bonds, which are dealt with later on.

Code 10 – none – is not possible, as the question is only asked if the respondent has any account. If the respondent has no account of the types at this question after all, recode AnyAcc to ‘no’.

Include current and savings accounts with supermarkets (e.g. Sainsbury’s Bank) or telephone banks (e.g. First Direct), or internet banking at 1 or 7. Do not count credit accounts where money is paid into it in advance (e.g. by direct debit) for goods, but can’t be withdrawn. A current account by definition is an account used for day to day transactions. There is immediate access to the money – usually by a card for cash machine withdrawal and/or a cheque book.

A savings account is not normally used for day to day transactions and there is often a minimum deposit and a notice period for withdrawals.

Life assurance/insurance/endowment policies with a savings element should not be included. The assumption would be that on maturation the money would be spent or transferred into one of the savings or investment types that are recorded.

Tax Exempt Special Savings Accounts

TESSA’s ceased to exist from April 2004 and all references to them have now been dropped.

TOISAs (TESSA-only ISAs):

From 6 April 1999, savers were able to transfer the capital from a maturing TESSA into the new Individual Savings Account (ISA). See below for details of ISAs.

Individual Savings Accounts

Introduced on 6 April 1999, Individual Savings Accounts, or ISAs, are intended to develop and extend the savings habit and ensure that tax relief on savings is fairly distributed. UK residents aged 18 or over are eligible to hold them. There are annual...
Adults' Savings and Investments

ceilings on investment, and income from ISAs is tax-free.

ISAs are provided and managed by financial institutions such as banks, building societies and insurance companies. There are 2 components:
- Cash
- Securities (stocks, shares, unit/investment trusts, bonds, gilts, life insurance)

**Please note that since April 2005** the life insurance component has been merged with the stocks and shares component. If a respondent informs you that their ISA is made up of a life insurance component you must code it as stocks and shares.

These components may be held singly or collectively in various ways. Each year there are two options for opening an account:
- one ‘Maxi’ ISA, with a single manager: this must include the securities component; the other cash component is optional; or
- up to two separate ‘Mini’ ISAs, with different managers, one for each component.

All ISAs should be recorded at this question. Securities ISAs should not be recorded at the question on stock market investments held, **Invests**. The cash component can include some National Savings products.

**Investment limits (prior to 6th April 2008)**:
There are subscription limits in each tax year the maximum is £7,000 overall. How it is applied depends on the type of ISA. ISA managers must ensure that:
- Maxi ISA subscriptions do not exceed £7,000 of which no more than £3000 may be in a cash component and no more than £4000 may be in the stocks and shares (including life insurance) component;
- Mini ISA subscriptions do not exceed £4000 in a securities component £3000 in a cash component and £4000 in the stocks and shares component.

**Investment limits (from 6th April 2008)**:
From 6th April 2008 ISA’s were restructured to remove the distinction between mini and maxi ISA’s. Individuals are now able to subscribe to either a cash ISA, a stocks and shares ISA or both. All savers have an annual ISA investment allowance of £10,200. Up to £5,100 of that allowance can be saved in cash with one provider. The remainder of the £10,200 can be invested in stocks and shares with either the same or another provider.

TESSA ISA’s (TOISA) – were allowed to be opened with the capital from a maturing TESSA on an annual basis and did not affect entitlements to other ISA’s. As TOISA’s can no longer be set up with the withdrawal of TESSA’s they should be counted as ISA’s. The securities component similarly should be counted as an ISA, not recorded at the question stock market investments. Any PEP’s that are reported by respondents should be recorded as ISA’s as all PEP’s have been converted to stocks and shares ISA’s.

**Credit Union**
A credit union is a financial co-operative similar in many respects to mainstream building societies. Its members both own and control the credit union, which is run solely for their benefit. All members of a specific credit union must share what is known as a “common bond i.e. they must be connected in some way or another to the other members of that credit union. For example they could be employed by the same employer, or live or work in the same area. All the members pool their savings together into a single ‘pot’ from which loans can be made to members from that credit union. Members who have deposited money into the credit union receive an annual dividend while those to whom money is lent have to pay interest on the loan.
If the respondent has an ISA the following question is asked:

? Type of ISA
← ISAType

There are different types of ISA. Do you have…
INTERVIEWER: READ OUT, CODE ALL THAT APPLY…
1. …Cash in an ISA?
2. …Stocks and shares (in an ISA)?

See above for details of these types.

For each type of account (except post office card accounts as these do not accrue any interest) coded at Accounts the following are asked.

☆ Account Interest
← AcctInt

How much interest have you received altogether from any [Current/National Savings Bank Ordinary/National Savings Bank Investment/ISA/Basic Bank Account/Savings/Credit Unions/ other] accounts in the last 12 months?
INTERVIEWER INSTRUCTION: Please exclude any interest from any Basic Bank Accounts.
(IF NONE, ENTER 0)
INTERVIEWER: For any JOINT account, ONLY GIVE THIS RESPONDENT’S SHARE OF THE INTEREST
INTERVIEWER: IF ACCOUNT HAS BEEN HELD FOR 12+ MONTHS, AND INTEREST IS MONTHLY, ACCEPT MOST RECENT MONTH’S INTEREST AND MULTIPLY BY 12 FOR ONE YEAR’S WORTH.

☆ NOTE: THE INTEREST ON CURRENT ACCOUNTS IS USUALLY VERY LOW SO AMOUNTS OF £10 OR OVER SHOULD BE CHECKED

This question is repeated for all named accounts. Include all interest, whether credited to the account, paid by cheque or to into another account, or withdrawn by the account holder. The total amount of interest credited in the last year from all accounts of the type mentioned in the question wording should be entered, so probe how many accounts of that type the respondent has. If possible the respondent should refer to a statement, pass book, or bank statement.

/ Question Information for Account Interest

For current accounts only, this instruction is displayed:
IF ACCOUNT HAS BEEN HELD FOR 12+ MONTHS, AND INTEREST IS MONTHLY, ACCEPT MOST RECENT MONTH’S INTEREST AND MULTIPLY BY 12 FOR ONE YEAR’S WORTH.

Normally we expect you to probe for all interest received/credited during the year; however interest on current accounts may be as little as a few pence per month, and to look up 12 statements is burdensome, so it is acceptable here to multiply the last or a
typical month’s interest by 12. If the account has been held for less than a year, multiply by the appropriate number of months or add individual monthly interest together. This instruction does not apply to other accounts.

Joint Accounts:
In the Adult’ Savings and Investments section of the Benefit Unit DWP requires information on individual incomes. Interest and dividends should be split between joint account holders. This should be possible except when, rarely, tax is deducted from one holder’s interest but not another, and only the total interest after tax is known; In such cases enter ‘Don’t Know’ at Account Interest for each person and open a note stating the total amount of interest and the reason why it cannot be split.

ISA interest
The income from cash components (including TOISAs) and securities components should all be recorded here. Add together separate amounts from different components/accounts if necessary. No interest is paid on the life insurance component.

The following question is asked of all accounts with the exception of ISAs. ISAs are exempt from tax, and therefore the question does not apply.

? Account Interest Before or After Tax

Can I just check, is that interest after tax or before tax?
IF BEFORE TAX, ASK: have you signed a form to get the interest without paying tax?
1. After tax
2. Before tax – but tax payable
3. Before tax – signed form to get interest without tax
INTERVIEWER: IF REGISTERED AS A NON-TAXPAYER, USE CODE 3.

/ Question Information for Account Interest Before or After Tax

Normally, 20% tax is deducted from interest payments by banks and building societies etc. However, there are two reasons why a figure for interest after tax may not be entered at Account Interest.

Code 2: use this if gross interest is entered at the previous question but tax has been/will be paid on it. For example, tax is deducted at source but the statement/passbook/other document only shows the gross interest and the tax deducted, not the net interest.

Code 3: people whose income is below the income tax threshold can sign a form so that tax is not deducted. The form does not need to be re-signed each year.

If the respondent does not know whether tax is deducted, this can normally be established from the presence or absence of an entry for tax in the passbook or statement. For joint accounts with two holders, the form can be signed by just one holder; tax is then deducted at 10%. Establish which person signed the form, and code this question accordingly for each. Make a note if the interest can be split in the correct proportion between them, of the total amount.

Soft Check
If Accounts=6 ‘ISA’ AND Invests=4 ‘PEP’

/ Question Information for Investments

Securities held in an Individual Savings Account (ISA) should be recorded at the Type of Accounts question as an ISA, not here.

Investment Companies with Variable Capital (ICVC) and Open Ended Investment Companies (OEIC) should be coded 2 as Unit Trusts/Investment Trusts.

ICVC’s are a replacement of OEIC and there is little difference between the existing unit trusts and the new ICVCs apart from the structure of the fund and the fact that ICVCs have a single price rather than a bid offer spread. For this reason they can be coded together at category 2. Further information on the various trusts is listed below.

Unit Trusts
Unit trusts are investment vehicles in which there are an unlimited number of shares which expand and contract depending on demand. Unit Trusts do not have an umbrella structure and investors cannot switch between sub-funds. When you buy a unit trust share, you buy into just that one unit trust.

Instead of a single price at which you buy and sell, the unit trust’s shares are offered at a buying (bid) price and selling (offer) price, like an ordinary share. The difference between the two, the spread, can be as much as 6% and represents the initial fee charged by the trust in whose units you are dealing.
### Investment Trusts

An investment trust is a limited company, with a fixed number of shares, which is listed on the stock market. The trust invests its funds in a wide range of areas or sectors in both quoted and unquoted companies on behalf of its investors. The funds are managed by a professional fund manager, usually backed up by a team of less experienced analysts cum managers and dealers.

Investment Trusts are “closed ended which means that people buying the shares do not add to the value of the fund, neither do those selling remove assets. The only way to add capital is to have an issue of new shares.

Like any other company, it will have a board of directors which represent the interests of shareholders and an annual general meeting at which investors can voice their views to the board. The shares of an investment trust are bought in the same way as a normal quoted share, with the level of the demand for the shares influencing the direction of the trust’s share price.

### Investment Companies with Variable Capital (ICVC)

ICVCs replaced Open Ended Investment Companies (OEIC). Unlike investment trusts, they vary in size depending on demand for the shares.

Purchases increase the size of the fund; sales reduce it. ICVCs tend to be structured as an “umbrella fund”: once an investment is made, it can be switched between a number of sub-funds between which the investor can switch at minimal cost:

The various sub-funds often have very different investment objectives – income, growth or some specialist sector of the market, for example – and investors are free to choose between them as they wish, depending on their investment objectives.

The price for shares in an ICVC is the same whether investors are buying or selling. However, the investor is still liable to hefty charge up front, after which there is a smaller yearly charge.

### Profit savings plans

Profit savings plans attached to occupations should be coded 3. Such plans include the Moneyspinner account, the Gold and Silver accounts and the Platinum Bond which are available to the police nationally through Police Mutual.

With Profit Bonds and Distribution Bonds should also be included under code 3 (stocks, shares, bonds, debentures, other securities).

### With Profit Bonds

With Profit Bonds are life assurance policies that invest in the With Profit Fund of a life assurance company and have no fixed maturity date. An investor in a With Profits fund benefits from the profits made by the With Profits fund. The fund comprises equities, i.e. shares, gilts, property and corporate bonds. Profits are distributed to policyholders in the form of Annual Bonuses which once added cannot be taken away, except where an encashment is made in the early years. When setting its bonus rate the insurance company seeks to smooth out the fluctuations of the stock market to produce steady growth.

### Distribution Bonds

Distribution Bonds are a lump sum investment which has a very small amount of life cover. It invests in a Distribution life fund, which is a fund that pays out the dividends.
and yields from investments held instead of reinvesting them with the fund.

? Investment Account Interest

How much interest [or dividend] have you received altogether from any [GILT EDGED STOCK-WAR LOAN/ UNIT TRUSTS /OTHER STOCKS, SHARES, SECURITIES] in the last 12 months?

INTERVIEWER: FOR ANY JOINT INVESTMENT, ONLY GIVE THIS RESPONDENT’S SHARE OF THE INTEREST
(IF NONE, ENTER 0)

Enter the TOTAL amount of interest or dividend from ALL these investments that have been received in the last 12 months, including those no longer held. Include all interest/dividend, whether paid by cheque or to into another account, reinvested or withdrawn by the account holder. The following documents will be helpful:

- Dividend note (interim or final): from the company which issues the stocks or shares. This comes with the cheque and will also state the holding details. Check how many dividends are paid per year so that all payments are collected.

3. Annual statements for Unit Trusts similar to ‘dividend notes’ above, from the fund manager.

/ Question Information for Money in Any Other Investments

National Savings has changed its name to National Savings and Investments.

With Profit Bonds and Distribution Bonds should not be recorded at this question. They should be recorded at the previous question about investments (Invests) under category 3.

Note that questions concerning Government savings relate to the present and not the past 12 months.

The Pensioner’s Guaranteed Income Bond is a National Savings and Investments Bond. It offers a fixed rate of interest for either 1, 2 or 5 years, with income paid monthly, gross of tax. There is a minimum investment of £500. The Bond is available only to persons aged 60 years and over. It may be held jointly.

National Savings and Investments SAYE was withdrawn in 1994. Since then Building Societies have provided them. There are also some current SAYE schemes which are designed to allow people to save money to purchase share options tax free. Under this scheme, investors agree to pay a fixed amount each month over 3, 5 or 7 years (min £5, max £250 per month). The interest rate is fixed regardless of which bank or building society is providing the scheme. These schemes are only permissible with the approval of the Inland Revenue.

FIRST Option Bonds/Fixed Rate Savings Bonds – FIRST Option Bonds were withdrawn from sale on 21/10/1999 and replaced with Fixed Rate Savings Bonds. People who held FIRST Option Bonds from before October 1999 can keep them and receive interest at the rate for a one year Fixed Rate Savings Bond. Fixed Rate Savings Bonds can be purchased with the interest guaranteed for 1, 3 or 5 years. Interest can be credited annually or monthly and is paid into a bank or building society account. The minimum holding is £500 and the maximum holding is £1,000,000.

Guaranteed Equity Bonds – offers potential for stock market growth with no risk to capital. The bond is a 5 year investment giving a return linked to the performance of the UK’s quoted top 100 companies. If the FTSE loses value, the investor will get their original sum back. Minimum investment is £2,000 and the maximum is £1,000,000.

Endowment not linked to current property – endowments not linked to current property need to be recorded in the FRS questionnaire. It is increasingly common that endowments linked to ‘old property’ are still held because of the decline in their values and the current value of these policies needs to be collected.
If respondent had earlier claimed that they are purchasing their property with an endowment mortgage, the following signal is triggered:

**Soft Check**
Earlier you mentioned that you have an endowment mortgage. Can I just check, you also have a different endowment NOT connected to your current property?

INTERVIEWER: If endowment is different suppress the check making a note to confirm you have probed. Otherwise return to Money in Any Other Investments and remove the endowment code.

THE QUESTIONS THAT FOLLOW ARE ABOUT CHILDREN’S SAVINGS

? Child’s Savings
↔ ChSave

Thinking of your child [child’s name] does he/she have any savings in a bank or building society account; or any National Savings & Investments, such as Children’s Bonus Bonds; or any stocks and shares, or Child Trust Fund or other investments?

1. Yes
2. No

If Child’s Savings = ‘Yes’

/ Question information on Child Trust Funds

Child Trust Fund (CTF) accounts were introduced in April 2005. The CTF was Government savings policy which ensured that all providers had to offer a Stakeholder account – which will invest in mainly non-cash investments such as equities; alternatively parents could opt for a straightforward cash account.

4. NOTE: If a child has a Child Trust Fund this fact will be recorded at the child savings questions ‘ChSave’ and ‘TotSave’ rather than at individual questions relating to Child Trust Funds.

What is the Child Trust Fund?

The Child Trust Fund (CTF) is a long-term investment and savings account for children born between 1st September 2002 and 2nd January 2011. The initial amount received varies with the child’s date of birth; although from 6 April onwards the standard amount will be £250 (if the respondent claimed child benefit for the child on or before 02/08/2010) or £50 (if respondent claimed child benefit for the child on or after 03/08/2010). The money in the CTF account belongs to the child and the child alone. But it cannot be taken out until he/she turns 18 when he/she can decide how to use it.

A voucher for the amount of money to which the child is entitled will be sent to all eligible children after Child Benefit has been awarded. The voucher can only be used to open a CTF account for the child. Children in families receiving Child Tax Credit with income at or £16,190 or less (the current income limit for 2011/2012) will receive an additional payment paid directly into their CTF account. There will be a further payment when children turn seven, again with a higher payment for children in families on lower incomes.

Anyone is able to pay money into the account, up to the account limit of £1,200 each year, and any gains and/or interest in the account will be tax-free.

There were different CTF accounts available to suit people’s different needs. CTF
Children's Savings and Investments

providers (e.g. banks, building societies, stockbrokers) offered different accounts, such as savings accounts and accounts that invest in shares. All CTF made available a stakeholder CTF account.

- **Savings Account** – With a savings account any money that is invested is secure and earns interest.

- **Stakeholder Account** – The stakeholder CTF account works by investing the child’s money in shares to take advantage of the potential for higher growth that this kind of investment offers. Once the child turns 13, money in the account starts to be moved to lower risk investments or assets (such as cash).

- **Account investing in shares** – This type of accounts that invests the child’s money by buying shares in companies.

If an account is not opened the Inland Revenue will automatically open a stakeholder account.

**Total of All Savings**

7. From £30,000 up to £35,000
8. From £35,000 up to £40,000
9. Over £40,000
10. Does not wish to say

/ Question Information for Total Household Savings

This question is asked of adults. Note that if the respondent has a current account which fluctuates over pay periods, the amount required is the figure left in the account at the end of the pay period, just before the respondent is paid again. If the respondent is overdrawn on any accounts do not take this amount away from the total amount, simply count it as a zero asset.

If the total assets of the respondent (and partner) are between £1,500 and £20,000 (i.e. code 2, 3 or 4 is used), they will be routed into the assets questions after the next few questions. For an explanation of the reason the question is asked and why the bands are split as they are, see the General Notes at the beginning of the Assets questions.
The respondent may refuse to give any assets information and it will not count against the total number of refusals accepted in each schedule.

Also a respondent may be prepared to say into which band their assets fall but give no
further information. In this situation code the appropriate band and then at the beginning of each group of assets questions use the 'Does not wish to give details' code.

The next questions are to compare the benefit unit’s current regular income with that of twelve months ago. The question should concentrate on the benefit unit as a whole, including children, not to its individual members.

SHOWCARD N6

Looking at this card, roughly how much was left in the [Current account and Basic Bank Account] at the end of last (month/pay period)?

INTERVIEWER: For any joint accounts, only give this person’s share of the balance. If those with a joint account have different pay periods take the amount before the earliest pay entered the account. The figure needed is the amount that was in the account just before ANY pay entered the account.

INTERVIEWER: If a respondent is not paid monthly or is paid just before the end of the month then the figure needed is the amount that was in the account just before the respondent was paid.

If the adult members of the benefit unit are not eligible to be asked further questions concerning their assets (they possess assets of a value less than £1,500 or assets with a value greater than £20,000), the final questions below (Personal or Proxy to Finish) follow immediately.

If the adult members of the benefit unit are eligible to enter the Assets questions, those questions Personal or Proxy to Finish appear at the end of the Assets questions instead.

The asset block is no longer a separate parallel block, but is now integrated into the benefit unit. Whether the questions are on route in the interview will still depend upon the respondent having the appropriate value of assets (£1,500 -£20,000) to make the assets questions accessible.

There are a number of advantages in incorporating the assets block into the benefit unit. The questions flow naturally on and do not involve going into a separate parallel block. This makes it easier for interviewers and makes the interview flow better for respondents. There is less chance of overlooking the assets questions. Also, the assets questions come up in the same format as for the benefit unit questions so there is no risk of overwriting previous details in those households where more than one BU is routed to these assets questions.
General Notes

These questions are included in order to enable DWP to estimate eligibility for certain benefits. To achieve this they need to study the personal holdings of certain types of assets. The purpose of these questions is to provide more detailed information on the current values of the assets held by informants but is only needed where the total value of the assets is between £1,500 and £20,000, as indicated at the question Total Household Savings.

This is estimated to be a broad band in which people who may not be in receipt of benefits now may at some point in the future be eligible for e.g. Housing Benefit which allows a Benefit Unit to have total capital of up to £16,000. For some benefits there is a lower capital threshold, above which the amount of benefit may be ‘tapered’ or gradually reduced as the amount of savings increases; there is also an upper capital limit of £8,000. So the broad band has been split into narrower bands (£1,500-£3,000, £3,000-£8,000 and £8,000-£20,000). The effect of any future changes to these thresholds can be modelled.

Although it is true that people outside this Assets band might already be or in the future have need for benefits, the sample gained by the DWP using the £1,500 to £20,000 range is sufficiently large for analysis.

Reasons for collecting this level of assets detail

It is not sufficient to rely only on the respondent’s estimate of the current value of certain individual investments, like stocks and shares or the various types of National Savings and Investments, as these might be out of date or otherwise inaccurate. Back in the office, the current value of these investments is added to the data, using the Financial Times and other sources. Hence we require the name of each individual share holding etc. (We ask for the respondent’s valuation in case it is not possible to do this imputation). The calculation of the total amount held is therefore more accurate.

The questions on accounts/investments held and income or interest received from them are of limited use in assessing the total amount of assets. Those questions refer to the last 12 months, whereas the assets questions refer to the current situation, which may have changed. The income received may not be up to date, and may be estimated. For some National Savings and Investments products, it would be difficult for the respondent to calculate the interest.

Joint accounts and other holdings should be dealt with in the same way as in the Adults’ Savings and Investments block, i.e. for each account apportion the amount held by the individual and enter that figure on the person’s line.

Where the respondent has estimated that they are in the £1,500 to £3,000 band, the £3,000 to £8,000 band or the £8,000 to £20,000 band but later questioning shows that this is not the case, there is no need to adjust the response at Total Household Savings or delete any later answers. Current accounts are dealt with first, followed by all savings accounts and ISAs (coded at Type of Accounts), then all stocks & shares, unit & investment trusts (at Investments), then each National Savings and Investments issue (at Money in Any Other Investments). Each account or investment is dealt with individually. It is important to
record ALL accounts or investments currently held of EACH type that they said they had earlier.

Routing to the assets questions is automatic if the total value of assets entered at **Total Household Savings** is between £1,500 and £20,000. If the assets questions are on route, the questions detailed below will need to be asked according to whether the respondent has each type of asset:

**Savings**

THERE ARE NOW A FEW QUESTIONS ABOUT SAVINGS AND INVESTMENTS

- for STOCKS/SHARES: Please given the full name of the company, and describe the shares as fully as possible

INTERVIEWER: From April 2008, all PEPs automatically become stocks and shares ISAs. Please record any reported PEPs as ISAs.

/ Question Information for Name of Investment

Government Gilt-Edged stock is sold by auction by the Treasury each year and has a fixed interest rate over a fixed term. If a respondent has such stock, it is necessary to establish which year the investment is due to mature.

It is very important that all unit trusts, investment trusts, stocks and shares are identified as clearly as possible so that their current value may be checked against the Financial Times at the Edit stage. Give the name of the issuing or managing company plus the full name of the investment itself. For privatised utilities it is not enough simply to enter for example ‘water shares’ - name the company e.g. 'Thames Water'. If shares are only part-paid, or ordinary, or preference, mention this. If necessary, open a note to continue the description.

The following documents should be referred to if possible:
- the share certificate, if it is held by the respondent;
- a statement from a 'nominee' (stockbroker or bank or other financial institution) who looks after all the stock/share/unit trust holdings for their customer. The statement (which may be quarterly, 6-monthly or annual) should give the latest details of each holding (company name, type and number of shares, units etc).
- dividend note (interim or final): from the company which issues the stocks or shares. This comes with the cheque and will also state the holding details.
Benefit Unit's Assets

- annual statements for Unit Trusts: similar to 'dividend notes' above, from the fund manager.

? How Many Shares/Bonds/Units

How many shares/bonds/units do you hold?

For joint holdings, give this respondent's share only. For PEPs, enter ‘1’.

? Value of Holding

Approximately how much is the value of that holding?

When the investment is a Government Gilt-edged stock, the following question is asked

? Period of Plan – Gilt-edged Stock

What is the period of the plan?

1. Up to 5 years (shorts)
2. 5-15 years (mediums)
3. Over 15 years (longs)
4. Undated

War loans should be coded as undated.

? Any More Shares/Bonds/Units

Index-linked National Savings and Investments Certificates are now available to anyone and are a form of inflation-proofed savings by index linking to the Retail Price Index. Index linking is assumed as long as the money is not withdrawn for 12 months. If the money is kept in for five years there is an additional bonus.

Thank you for your help, there is another way you can help us.

The Department for Work and Pensions would like to add the records they already hold on your benefits, tax and employment to your answers to this [study/survey]. Adding everyone's records in this way will help us with further research to get a more accurate picture of people's living standards.

If you agree to help, we will need to pass your name and address to the Department for Work and Pensions. This is so they can find your records to add them to your answers. All information will be used for research and statistical purposes only. Your personal details will, of course, be kept completely confidential.

INTERVIEWER: If required, give the respondent additional information to help them understand the request. Use the flow chart and written version of the request for this.

Always leave the information leaflet (which includes further confidentiality assurances) with the household where the respondent has agreed to data linkage. Reason for needing personal details and confidentiality assurances are in the Helpscreen.

IF THERE IS NO RECALL BLOCK DISPLAYED IN THE PARALLEL BLOCKS GO TO THE NEXT BENEFIT UNIT OR THE ADMIN BLOCK.

Press <Ctrl+Enter>

The text for the question asking for permission to re-contact respondents for the purpose of follow up studies has been changed. In particular it includes reference to the fact that responses to the FRS study maybe used to identify individuals.

A new question has also been added which is asking for permission to re-contact people to take part in the longitudinal aspect of the Survey of income and living standards (EU-SILC) which will be carried out by ONS and NISRA.

In addition to collecting the telephone number of those who agree to re-contact we will also be asking you collect an email address.

Respondents will be asked either the standard permission to re-contact question (Followup) or the EU-SILC question (SlcFup). Which question the respondent will be asked will be random.
Final Questions

Premission to recontact

Sometime in the future there may be a follow-up or a new study related to this one. Such a study would be agreed with the Department for Work and Pensions, but may be carried out on behalf of another organisation. To identify individuals for inclusion in this study responses to the full Family Resources Survey may be used. You may not be contacted again, but, if you are, you will still be free to decide whether you wish to participate in any follow-up study. Would you be willing to be contacted again, so that a social research organisation approved by DWP can carry out the study?

1. Yes
2. No

Permission to recontact for Survey of Living conditions

May I just check... [the Office for National Statistics and the Department for Work and Pensions/we] will be carrying out a shorter follow-up survey next year. Would it be alright for us to contact you again to see if you would be willing to take part? Please inform the respondent that their contribution to the follow-up study is important and supported by DWP. It will help the Government understand how different sections of society are managing, so that it can plan for the future, assess the effects of policy changes and measure the state of the economy. As a token of thanks each adult respondent will receive a £10 voucher after completion of the follow-up study.

If the respondent has further queries about the follow-up study, which is called the Survey Of Living Conditions, they can contact the ONS Survey Enquiry Line on 0800 298 5313."
