

**SHORT SUMMARY OF CONCLUSIONS OF THE 64TH MEETING OF THE SCIENTIFIC
REVIEW GROUP ON TRADE IN WILD FAUNA AND FLORA¹
28 MAY 2013**

The SRG took the following decisions² under Articles 4.1(a)(i) and 4.2(a) of Council Regulation (EC) No. 338/97:

1) Negative opinions³ for import of specimens from the following species / countries combinations confirmed / maintained – NOT to be formalised in the Suspensions Regulation:

<i>Iguana iguana</i>	Suriname
<i>Pericopsis elata</i>	Côte d'Ivoire

2) No opinion for import of specimens of the following species / countries combinations

Rationale for the "no opinion":

- i) No trade anticipated: The species is not currently (or is only rarely) in trade, and no significant trade in relation to the conservation status of the species is anticipated
- ii) Decision deferred: There are insufficient data on the species.
- iii) All applications to be referred to SRG: The species is not currently (or is only rarely) in trade, but significant trade in relation to the conservation status of the species could be anticipated.

<i>Loxodonta africana</i>	Mozambique ⁱⁱ⁾ (confirmed)

<i>Epicrates cenchria</i>	Suriname ⁱⁱ⁾ (confirmed)
<i>Eunectes murinus</i>	Suriname ⁱ⁾ (confirmed)
<i>Chelonoidis carbonaria</i>	Guyana ⁱⁱ⁾ (confirmed)

¹ It is understood that the above opinions are also those of each Member State's Scientific Authority and will be reflected in any opinion given in relation to the application of Art. 4.1(a) and 4.2(a) of Regulation 338/97. These opinions will remain valid unless or until circumstances related to the trade or conservation status of the species change significantly

² Unless specifically stated otherwise, all decisions relate to wild specimens.

³ Recommendation based on the following guidelines: The species is in trade or is likely to be in trade, and introduction to the Community from the country of origin at current or anticipated levels of trade is likely to have a harmful effect on the conservation status of the species or the extent of the territory occupied by the species.
