

I. Generic template for national reports providing information on quality, sources and methods, together with information on the statistical processes used for the compilation of the statistics underlying the MIP indicators (including concrete specifications for **Labour Force Statistics)**

Reporting institution: CYSTAT

Selected principles					Some specific examples for indicators and related questions (Response options, unless indicated otherwise: not implemented; partially implemented; fully implemented)	Statistical domain specifications
European Code of Practice principles	Public Commitment on European Statistics by the ESCB	Selected elements				
<i>Institutional Environment</i>	<i>Institutional Environment</i>	<i>CoP/P C</i>	<i>IMF DQAF</i>	<i>SIMS</i>	<i>Question(s)</i>	<i>LFS</i>
CoP1 Professional Independence	PC1 Professional Independence	1.1/1.1	1.1.1 1.1.2		<p>The independence of [name of reporting institution], from political and other external interference in developing, producing and disseminating official statistics is guaranteed by law.</p> <p><i>Legal basis: Pls confirm the independence by referring to the relevant national and EU legal act(s) and the formulation used in the legal act.</i></p>	The Statistical Service of Cyprus (CYSTAT) is the competent authority responsible for the compilation and dissemination of most of the official statistical data in Cyprus. Its functions are governed by the Statistics Law, No. 15(I) of 2000 and the Public Service Laws. The independence of CYSTAT is not enshrined in the law.

		1.4/1.5			<p>The [name of reporting institution] has an annual statistical work programme which is made public.</p> <p><i>Statistics work programme: Pls confirm the existence of a statistics work programme and specify where to find it (or similar document), if available.</i></p>	<p>Statistics work programme:</p> <p>Subject to the provisions of the Statistics Law, CYSTAT compiles a five-year programme of statistical activities, which includes the surveys or work which will be carried out during this period. The programme is submitted to the Statistical Council for comments and to the Council of Ministers for approval. CYSTAT also prepares an annual programme of statistical activities that further elaborates on the surveys or the work referred to in the five-year programme that will be carried out during the year in question..</p> <p>http://www.cystat.gov.cy/mof/cystat/statistics.nsf/sourcesofdata_en/sourcesofdata_en?OpenDocument</p>
CoP2 Mandate for data collection	PC2 Mandate for data collection	2.1/2.1	0.1.1	S 7.1	<p>The mandate(s) of the [name of the institution(s)] to collect information for the development, production and dissemination of European Statistics is specified in law.</p> <p><i>Allocation of responsibilities: Pls explain the allocation of responsibilities in producing the relevant statistics.</i></p> <p><i>Legal basis: Pls confirm the mandate by referring to the relevant legal act(s) and any other kind of formal agreements.</i></p>	<p>Allocation of responsibilities:</p> <p>The Statistical Service of Cyprus (CYSTAT) is the main producer of European statistics in Cyprus, according to the Statistics Law. According to article 3 of the Statistics Law No. 15(I) of 2000, specifying the functions of the Statistical Service, it is provided that the programmes of statistical activities are implemented by the Statistical Service, as well as the conducting of all surveys and the exercising of any other function assigned to it by the Statistics Law.</p> <p>Legal basis:</p> <ul style="list-style-type: none"> - Council Regulation (EC) N° 577/98 of 9 March 1998 on the organisation of a labour force sample survey in the Community (Official Journal of the EU No L 77 p. 3), last amended by Regulation (EC) No 545/2014 of the European Parliament and of the Council of 15 May 2014 (Official Journal of the EU No L 163 p. 10); - the Statistics Law No. 15(I) of 2000.

CoP6 Impartiality and objectivity	PC6 Impartiality and objectivity	6.6/6.6	1.2.4	S9.1 + S9.2 S.20. 1	Advance notice is given on release calendars and on major revisions or changes in methodologies, source data and techniques. <i>Advance release calendar: Pls confirm the existence of an advance release calendar and provide a link to it.</i> <i>Revision policy: Pls explain succinctly the revision policy and provide a link to material on the revision policy, if existent.</i>	Release calendar: The production of the main indicators (quarterly results) is accompanied by an EU-LFS release calendar which provides transparency for the users on the availability of the data and favours a timeliness data release of the results. http://ec.europa.eu/eurostat/documents/1978984//6048829/LFS_release_announcement.pdf Revision policy: Revisions of previously released data based on EU-LFS are not expected, unless major errors are identified in the data delivered or in their processing. Exceptional revisions may happen e.g. after new estimates of population from a population census or after new final estimates of the yearly population.
Statistical Processes	Statistical Processes	CoP/P C	IMF DQAF	SIMS	Question(s)	LFS
CoP7 Sound methodology	PC7 Sound methodology	7.1/7.1	2.1 2.2 2.3 2.4	S4.3 S4.4 S4.5 S4.6 S 6 S12.1	Pls specify the relevant statistical standards to which the statistics abide <i>Links/references to existing comprehensive methodological documentation on specific aspects of the national sources and methods can also be provided</i>	General remarks: The European Union Labour Force Survey (EU-LFS) provides population estimates for the main labour market characteristics, such as employment, unemployment, inactivity, hours of work, occupation, economic activity, and other labour related variables, as well as important socio-demographic characteristics, such as sex, age, education, household characteristics and regions of residence. As from the second quarter of 2004, the Cypriot LFS was turned into a continuous survey in order to comply with a new regulation of the European Union and it is harmonised with the European LFS. The definitions of employment and unemployment, as well as other survey characteristics follow in general the definitions and recommendations of Eurostat and the International Labour Organisation. The definition of unemployment is further specified in Commission

					<p>Regulation (EC) No 1897/2000.</p> <p>Comprehensive EU-LFS methodological documentation: http://ec.europa.eu/eurostat/statistics-explained/index.php/EU_labour_force_survey</p>
				<p>Pls specify adherence or deviations from concepts and rules according to international standards and highlight coverage gaps that are of <u>material relevance</u> for the statistics.</p> <p>Pls indicate whether actions to address the deviations and coverage gaps are envisaged.</p>	<p>There are no major country-specific deviations between the concepts and rules to the ILO standards and definitions concerning the data on the labour status.</p>
CoP8 Appropriate Statistical procedures	PC8 Appropriate Statistical procedures	8.2/8.2	3.1 3.3 3.4	<p>S12.1 Pls provide a succinct assessment of the robustness of the statistics by elaborating briefly on the relevant sources of information, statistical methods and procedures used across the various frequencies.</p> <p>S21.1</p> <p>S21.3 <i>Pls provide links/references to existing comprehensive methodological documentation on specific aspects of the national statistical procedures.</i></p> <p>S</p> <p>21.5-6 <i>The objective should be to get an overview on how much the statistical output are anchored in actual collected data rather than on estimation methods or similar judgemental inputs.</i></p>	<p>The following publications provide users with a tool for assessing the quality of the statistics which are based on the EU-LFS. It gives a brief description of the survey and a summary of the main quality indicators, which are: relevance, accuracy, accessibility and clarity, timeliness and punctuality, comparability, and coherence. The quality report is updated annually.</p> <p>Labour force survey in the EU, candidate and EFTA countries — Main characteristics of national surveys</p> <p>Quality report of the European Union Labour Force Survey</p> <p>See: http://ec.europa.eu/eurostat/web/lfs/publications/quality-reporting</p> <p>Further individual country information: http://ec.europa.eu/eurostat/cache/metadata/EN/employ_esqrs.htm</p>

<i>Statistical Output</i>	<i>Statistical Output</i>	<i>CoP/P C</i>	<i>IMF DQAF</i>	<i>SIMS</i>	<i>Question(s)</i>	LFS
CoP11 Relevance	PC11 Relevance	11.1- 11.3	0.3	S.14	<p>Pls specify briefly why the statistics are relevant by referring to the multiple purposes for which the statistics are used at (i) international, (ii) EU and (iii) national level.</p> <p>References to the statistical legislation and other formal or informal commitments could be sufficient.</p> <p>In addition, if applicable, the outcome of user consultation processes could also be given.</p>	<p>EU-LFS results are used by the DG Employment and a number of other Directorates of the Commission mainly for measurement and monitoring of policy agenda purposes. The European Central Bank (ECB) uses short term LFS statistics related to Euro area. Key users include NSI's, international organizations, news agencies and researchers which use various aspects of EU-LSF data for international or intra EU comparisons.</p>
CoP12 Accuracy and reliability	PC12 Accuracy and reliability (including stability)	12.1/1 2.1	3.5	<p>S 15.1</p> <p>S 15.2</p> <p>S15.3</p> <p>S.18. 2</p> <p>S 20.2</p>	<p>The analysis should be based on the following indicators (to be compiled by the ECB/Eurostat on a common data vintage) on the reliability of first releases for the relevant series (selected for their material impact and to avoid compensatory effects in the case of balancing items):</p> <p>Directional reliability indicators;</p> <p>Revisions' indicators (e.g. MAPE, MACE or RMSRE depending on the indicator).</p> <p>and provide a succinct assessment of the accuracy and reliability of the</p>	<p>Information on the accuracy and reliability of the LFS data by providing information on the quality indicators.</p> <p>Confidence limits at 95 % level of significance, country-specific annual average 2014: Number of employed (x1000): 363 ± 6, Number of part time employed (x1000): 51 ± 3, Number of unemployed (x1000): 70 ± 4, Rate of unemployment (%): 16.1 ± 0.8</p>

					<p>statistics on the basis of the results, with an attempt to provide a relative objective measure, explaining also the main reasons for revisions.</p>	
					<p>Pls provide a succinct assessment of the level of the statistical discrepancies (“<i>internal consistency</i>”) focusing on their size and direction (systematic bias).</p>	<p>Information on country-specific frame quality (under and over coverage and misclassifications) of the LFS sample and specific measurement errors.</p> <p>Undercoverage: The sample was drawn from the Census of Population frame of 2011. In a post enumeration survey conducted after the census an undercoverage of 1.97 % was estimated. However updating to include newly constructed dwellings has not yet been carried out. This is usually carried out on an annual basis.</p>
CoP13 Timeliness and punctuality	PC13 Timeliness (including punctuality)	13.1 13.4	4.1	S.16	<p>Pls specify the timeliness requirements for international and EU purposes and the national target publication dates.</p> <p>Pls specify punctuality defined as deviations in relation to the timeliness requirements and target dates specified above.</p>	<p>Information on possible delay of delivery to Eurostat of the full dataset.</p> <p>According to Council Regulation (EC) No 577/98 data shall be delivered to Eurostat within twelve weeks from the end of a reference quarter. For 2014 deadline for transmitting the data was respected.</p>
CoP14 Coherence and comparability	PC14 Consistency and comparability	14.1/1 4.1	4.2.1 4.2.2 4.2.3	S17.2 S 18.1	<p>Pls provide a succinct assessment of the results of the consistency check of the statistics with other related domains or data sets with which the statistics must show coherence (“<i>external consistency</i>”).</p> <p>The results should provide a relative objective measure to facilitate cross-country comparability, e.g. be</p>	<p>Information on the assessment of the results of the consistency check of the statistics with other related domains (“<i>external consistency</i>”).</p> <p>Coherence of LFS data with National Accounts data, registered unemployment and Business statistics data.</p> <p>Generally coherence to other statistics can be limited due to different sources, different scopes or different coverage and units.</p> <p>The coherence of LFS data with registered unemployment, National Accounts data and Business Statistics data is low.</p>

				presented as a ratio of the inconsistency between compared statistics, as a percentage of GDP, where appropriate.	For a summary of the deviations see: http://ec.europa.eu/eurostat/web/products-statistical-working-papers/-/KS-TC-15-004 (Chapter 8)
				Pls provide a succinct assessment of the time consistency, specifying (i) whether the time series presents breaks and if so explaining the reasons for the breaks; (ii) the length of the series for which back data are consistent; and (iii) whether the statistics are consistent across the various frequencies (monthly/quarterly/annual) where relevant.	<p>The information applies only to LFS detailed survey results series. The LFS adjusted series (including LFS main indicators) include corrections for breaks.</p> <p>Since 1983, improved comparability between results of successive surveys has been achieved, mainly due to increased harmonisation, greater stability of content and higher frequency of surveys. However, the following factors may somewhat detract from perfect comparability:</p> <ul style="list-style-type: none"> - population figures used for population adjustment are revised at certain intervals on the basis of new population censuses; - reference periods may not have remained the same for a given country due to the transition to a quarterly continuous survey; - countries may modify their sample designs; - in order to improve the quality of results, countries may change the content or order of their questionnaire. <p>Information on EU-LFS breaks and individual country breaks are documented: http://ec.europa.eu/eurostat/statistics-explained/index.php/EU_labour_force_survey_%E2%80%93_data_and_publication</p> <p><u>Major country-specific changes in recent years</u></p> <p>2013: Introduction of a new sample frame (Population Census 2011) and change of the sample design.</p>

CoP15 Accessibility and Clarity	PC15 Accessibility and Clarity	15.1/1 5.1	5.1.1 5.2.1	S9.3 S 11 S12.1	Pls provide a brief description of the dissemination policy and dissemination means, including links to the data and respective metadata.	<p>The Eurostat online publication describes the European Union (EU) labour force survey (EU-LFS), a large sample survey among private households in Europe and an important source for European statistics about the situation and trends in the EU labour market. The publication provides information on the main features, the legal basis, the methodology and the data as well as on the historical development of the EU-LFS.</p> <p>http://ec.europa.eu/eurostat/statistics-explained/index.php/EU_labour_force_survey</p>
