

**REACH implementation: support for SMEs,
Brussels Social Dialogue, 11/10/10**

Dr. Erwin Annys

1

REACH implementation

- **No indications it is going wrong**
 - **Number of registrations is going up**
 - **Not only lead registrants, but as well member registrants**
 - **Business rule failures goes down**
 - **But if they happen, extremely trivial**
 - **No base knowledge within SMEs?**
 - **Technical completeness check OK – nearly 0% failure rate**

2

REACH implementation

- Direct contact with ECHA not limited to LR anymore
- National helpdesks
 - Combining REACH and CLP
 - But in 5 MS reduction of the staff
- ECHA doing a lot of efforts to give guidance in all languages
 - CLP notification

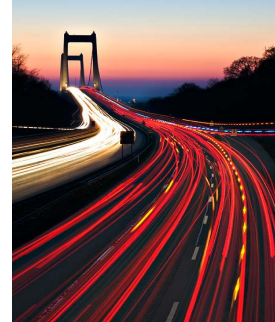

3

REACH implementation

- Some helpdesks report nowadays less questions
 - Industry found the way how to do it?
- No negative feedback from National Associations having many SMEs
- Only real downstream users are saying that many substances will not be registered. But no real indications this is true
