

## 4.11 Segment Group 11 - (DSI-STIS-DTM-ARR-Gr12): DTM - Date/Time/Period

### 4.11.1 Purpose

This segment is used to send the reporting period.

Note that the reporting period could also be sent in Gr11/ARR or Gr15/CDV, depending on the agreement between partners.

### 4.11.2 Segment Rules

This segment is conditional and may occur only once in the group.

### 4.11.3 Relationships

None.

### 4.11.4 Segment Format

<i>Tag</i>	<i>Name</i>	<i>M/C</i>	<i>Format</i>	<i>Usage</i>	<i>Imposed Value</i>
C507	DATE/TIME/PERIOD	M		R	
2005	Date/time/period qualifier	M	an..3	R	Z02
2380	Date/time/period	C	an..35	R	
2379	Date/time/period format qualifier	C	an..3	R	

### 4.11.5 Data Element Rules

#### C507 - Date/Time/Period

##### 2005 - Date/time/period qualifier

##### Imposed Value:

Z02 Reporting Period

##### 2380 - date/time/period

This is required and is the reporting period in the format defined by data element 2379.

##### 2379 - date/time/period format qualifier

This defines the format of the time period in 2380. The valid codes for the format qualifier can be found in the EDIFACT subdirectory. The following code values are recommended:

### Code Values

602	for CCYY	(for annual data sets such as A3, B1, E1)
608	for CCYYQ	(for quarterly data sets such as A1, A2, C1, D1, F1)
610	for CCYYMM	(for monthly data sets)
616	for CCYYWW	(for weekly data sets)
102	for CCYYMMDD	(for daily data sets)

where:

CC - century (e.g. 19)

YY - year (e.g. 96)

Q - quarter (1,2,3,4)

MM - month (01 to 12)

WW - week (01 to 52)

DD - day (01 to 07)

#### 4.11.6 Examples

(annual data set)

DTM+Z02:1995:602'

(quarterly data set)

DTM+Z02:19951:608'

(daily data set)

DTM+Z02:19960408'
