

Dear all,

2005 marks twenty years since the introduction of a groundbreaking regulatory technique for the European Union: the 'New Approach to technical harmonisation and standards'.

The European Commission is organising a conference on 30 November 2005 in Brussels, celebrating the anniversary.

Programme details and registration can be found here, or by using the conference link at [http://europa.eu.int/comm/enterprise/newapproach/index\\_en.htm](http://europa.eu.int/comm/enterprise/newapproach/index_en.htm)

Best regards

On behalf of Georgios ANTONIOU
